

Acknowledgement and Release of Information Consent Form

I understand that, pursuant to the University of Saskatchewan (USask) Animals on Campus policy and related procedures, my animal is required to undergo a canine behavioral assessment completed by a USask-approved trainer for the purpose of the accommodation of a service or emotional support animal on the USask campus.

By signing below, I give consent to USask to share my personal information including, but not limited to, name, contact information, veterinarian forms if the veterinarian notes behavioural areas of concern and level of training history such as any obedience certificates received with a USask-approved trainer for the purposes of arranging and conducting the assessment.

I understand that trainers are required to keep my personal information strictly confidential and that I may withdraw this consent at any time. If I chose to withdraw consent, I understand this may affect the use of my service animal or emotional support animal on campus as an accommodation.

I understand that the costs of the assessment are the responsibility of myself as owner/handler and will be paid in full according to procedures of the trainer.
