PROCESSION - University of Saskatchewan  
Saskatoon Sask. May 4, 1928

The graduation lists shown in this program were prepared prior to convocation and may not reflect final college decisions regarding each student's eligibility for graduation. As a result, some of the students listed in this program may not have been formally approved to receive the degree or diploma indicated. The registrar maintains the official list of graduates.

PETER STOICHEFF

Today we celebrate you. We celebrate the countless hours you have committed to learning and research, and all that it is to be a university student. Your efforts are rewarded today as you receive your degree and join 150,000 proud alumni of the University of Saskatchewan.

The milestone you have reached today is a marker in your life and in the lives of those who have supported and encouraged you. Whether you will begin your career, continue your education or travel the world, I am confident the time you have spent at the university is a foundation for your success.

Our alumni hold a special place in our hearts and I am pleased to welcome you to this worldwide family. I invite you to stay engaged

with us, whether your path will keep you in Saskatchewan or take you around the world. When you think of the University of Saskatchewan, I hope your thoughts are filled with memories and friendships that will last a lifetime.

Graduands, congratulations on this important achievement and my very best wishes as you embark on this next chapter in your life.

All the best,

A handwritten signature in black ink that reads "P. Stoicheff". The signature is written in a cursive style with a horizontal line underneath the name.

President, University of Saskatchewan

TANYANN BELANEY

Congratulations to our 2016 graduates, and welcome to the University of Saskatchewan Alumni Association, which is just turning 100 years young.

For the past few years you have spent hours in classrooms, laboratories and libraries. You have spent countless nights writing papers, agonizing over the right words. You fell asleep studying and woke in a panic because you thought you slept through a final exam. You have consumed more caffeine than you care to admit. You ate lunch in Place Riel, studied in the Murray Library and maybe even took time to sit in the Bowl and watch the leaves change colour in the fall.

You have shared all of these experiences, and so many more, as University of Saskatchewan students. These experiences are not just shared with those classmates of yours here today, but with everyone who has walked campus since it was founded more than 100 years ago.

Today, you share one more experience—you become University of Saskatchewan alumni and join our family of over 150,000 around the world.

No matter where life leads you, you will continue sharing the tradition of excellence with your fellow U of S alumni. Your achievements, awards and accolades will add to the ongoing list of accomplishments made by U of S alumni. Your name will be added among the long list of researchers, inventors, business and community leaders, entrepreneurs, authors and artists—virtually every field imaginable—to whom future generations of U of S graduates will hold in high esteem.

In the grand scheme of things, you are a student for a small amount of time, but an alumni forever. I encourage you to keep in touch with us as you embark on your new adventure.

Go out and do great things knowing you are a member of the U of S alumni family, and we, your family, are proud of you.

We also look forward to seeing you again soon as we all reconnect during our centennial celebrations.

## THE CHANCELLOR

---

### BLAINE FAVEL

Blaine is the chancellor of the University of Saskatchewan as well as the executive chairman of One Earth Oil and Gas Inc. He has over 20 years of experience in First Nations business development as an advisor, entrepreneur and Chief. As an influential Plains Cree leader, he has made significant contributions to scholarship, education, public service and the Canadian public good. He was Chief of the Poundmaker Cree Nation and

served as Grand Chief of the Federation of Saskatchewan Indian Nations from 1994-98.

Blaine received his Bachelor of Education degree from the College of Education at the University of Saskatchewan, his law degree at Queen's University, and a master's degree in business administration from Harvard Business School. He resides in Calgary, Alberta, and is the proud father to five children.

# Our ceremony

*The convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of convocation*

*are the election of representatives to university governing bodies and the admission of candidates to degrees. The chancellor, appointed by senate as the chair of convocation, is the highest official and spokesperson of the university.*

The convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges.

The ceremony, solemnized in the presence of the university community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the president's statement to the graduands, the secretary's petition and the chancellor's consent for their admission; followed by individual presentation by a university orator and admission by the chancellor to the degrees to which they are entitled.

As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate's head.

SHARE YOUR MOMENT!  
**#USASKCONVO**

## ENTRANCE

Graduands in their academic dress march in procession into the ceremony in the following order: graduands in the order in which their degrees are to be conferred; faculty; board of governors; senate; guests of honour; the president; the chancellor; the lieutenant governor. When the members of convocation reach their places they remain standing during the Vice-Regal Salute, the singing of "O Canada" and the invocation.

## ORDER OF THE CEREMONY

The first business is the conferring of honorary degrees, followed by convocation address, president's statement to the graduands, the conferring of degrees and the presentation of awards. The meeting is closed by the chancellor rising and leading the procession in the reverse order out of the hall.

## THE PETITION

The university secretary on behalf of all the candidates, addresses the chancellor and senate in the following words:

*"Eminent Chancellor, Mr. President, members of the University Senate and Board, I present to you the petition of the Council of this University that the candidates to be named, having fulfilled all the requirements of the bylaws, may, with your permission, be admitted to the degrees and certificates to which they are entitled".*

## THE ADMISSION

The chancellor then addresses the candidates:

*"By virtue of the authority vested in me by the legislature of this province, and with the consent of the council of this university, I consent to admit you to the degrees and certificates to which you are entitled and to invest you with all the powers, rights and privileges pertaining thereto."*

## THE PRESENTATION

The university orator approaches the chancellor from the left and presents the candidates:

*"Eminent Chancellor, on behalf of the faculty of \_\_\_\_\_, I present to you these scholars and ask that you will confer on them the degree of \_\_\_\_\_."*

Each candidate then comes forward and the degree hood is placed on his or her shoulders. As the orator speaks the candidate's name in full, the candidate moves forward in front of the chancellor. Then the chancellor says, **"I admit you"**. Hereupon the candidate passes to the chancellor's right, is greeted by the dean of the faculty, or designate, and receives the degree parchment.

## DEGREES IN ABSENTIA

In such cases, the university secretary says:

*"Eminent Chancellor, in the name of the faculties, I ask you to grant the degrees and certificates, in absentia, to those students who have met the requirements to graduate, but were not able to be present today."*

## ACADEMIC DRESS

Academic dress lends an element of colourful pageantry to the convocation proceedings. This traditional clothing—worn on a daily basis at universities in earlier times—is now reserved for ceremonial functions.

At the University of Saskatchewan, the following academic dress is adopted for all appropriate occasions: The gown resembles a long cape with full sleeve cut to elbow and terminating in a point for the bachelor's degree; with long sleeve and a semi-circular cut at the bottom for the master's degree; and with round open sleeves for the doctor's degree. The material is black broadcloth for the bachelor's, master's and doctor's degrees. The doctoral gown incorporates green and gold on the front and sleeve panels.

The hoods for the bachelor's and master's degrees are of black broadcloth. The master's and doctor's hoods have a lining and the bachelor's an edging (and in some cases, a lining) of a color distinctive of the character of the degree.

Ph.D. hoods have a green satin lining with gold trim and the honorary degree hoods feature a white satin trim. A velvet Beefeater style hat with a green, gold and white tassel is also part of the doctoral dress.

# Aboriginal culture

*At the U of S, we have one of the highest populations of Aboriginal students among Canadian post-secondary institutions. As indicated in our Third Integrated Plan, one of our most influential documents, it is important to us to*

*include Indigenous knowledge and experience into our daily practices, curriculum and celebrations. At convocation, one of our most important celebrations, we display the Treaty No. 6 flag, Métis flag and sing an honour song.*

## HONOUR SONG

These are special songs to demonstrate respect for an individual or group in recognition of their accomplishments such as a return from military service or other events. In some families, individuals have their own song, which is sung for them when they are being honoured.

## MÉTIS FLAG

The Métis flag has been a symbol for the Métis Nation since as early as 1816. The infinity is a representation of the joining of two cultures—forever intertwined, a people forever. The flag is nationally recognized by the Métis Nation across Canada.

## GRADUATION POWWOW

The University of Saskatchewan Graduation Powwow is a celebration of the accomplishments of Aboriginal Students. The Graduation powwow highlights First Nation, Métis and Inuit students with song, dance and honoring the commitment of everyone involved in the post-secondary experience. We are proud to host such an event that gives Aboriginal people an opportunity to show case culture and academics.

# University orators

*Our 11 orators hail from all parts of campus and perform a wide range of roles throughout the university, but all are gifted with resonant voices, pronunciation skills and share a fine attention to detail.*

*The post of university orator can be traced back hundreds of years to universities in the United Kingdom such as Oxford and Cambridge. Traditionally orators served as the official voice of the university, composing letters, giving speeches in Latin at ceremonial occasions and presenting candidates for honorary degrees.*

**Sarah Bector**

Sarah Bector, BSW, B.Ed.

Sarah has been on campus since January 2016 and is currently the Student Recruitment Special Events Officer. Prior to this, she worked in various academic and student support positions at the University of Manitoba.

**Dr. Kathleen James-Cavan**

B.A., B.Ed., M.A., Ph.D.

Dr. James-Cavan has been a faculty member in the Department of English since 1992.

**Catherine R. Coghlin**

MLT

Catherine has been on campus for 29 years and is a technician in the Veterinary Physiology Teaching Laboratory. She has also been a mentor for high school students in the Academic Placement Program with the Saskatoon Public School Board for 12 years.

RAYMOND E. AHENAKEW

A member of the Ahtahkakoop First Nation, Ray Ahenakew has cleared the way for Saskatchewan's First Nation's people to strengthen their participation in the provincial economy.

A tireless leader, Mr. Ahenakew believes in education for Aboriginal people as a powerful tool for advancement and opportunity. He served as president of the Saskatchewan Indian Institute of Technologies from 1982 to 1984 and as acting president from 2005

to 2007. He was chair of the Saskatchewan Indian Gaming Authority, and the National Labour Training Market Board of Human Resources Development Canada. He was also a member of the University of Regina's Board of Governors, the National Advisory Panel on Skill Development Leave, the President's Provincial Image Team of Tourism Saskatchewan, the provincial Uranium Development Panel and the National Advisory Board to the Auditor General of Canada.

As Meadow Lake Tribal Council Chief Executive Officer, Mr. Ahenakew led a team that pioneered self-government negotiations with Ottawa and purchased Norsask Forest Products. The purchase benefited the local economy and the council member communities in terms of jobs in logging, trucking, mill workers and tree planting.

Mr. Ahenakew was a member of the Board of Peace Hills Trust for eighteen years and served one term as chair. He served as chair of Makwa International, a joint venture with the Miskito Indians of Nicaragua and Contigo

International Inc., Canada's first and only Indigenous non-government organization.

He was part of a team that was instrumental in the development and implementation of the Aircraft Maintenance engineer program at Saskatoon's John G. Diefenbaker Airport.

Mr. Ahenakew has garnered respect for removing barriers and prejudice, and expanding the potential for economic development and improved lifestyles for First Nations people.

Mr. Ahenakew was awarded an Honorary Diploma in Management Studies from the Saskatchewan Indian Institute of Technologies.

Mr. Ahenakew is the recipient of the Saskatchewan Order of Merit, the Commemorative Medal for the Centennial of Saskatchewan, the Raj Manek Above and Beyond Award, and was recognized by the *Saskatchewan Business Magazine* as one of Saskatchewan's most influential men in March 2008.

MIKE BABCOCK

Mike Babcock was named the Toronto Maple Leafs' 30th head coach in team history on May 20, 2015.

Mr. Babcock previously spent 10 seasons as head coach of the Detroit Red Wings, where he compiled a regular season record of 458-223-105 while becoming the franchise leader in games coached (786) and wins (458). Under his direction, the Red Wings won a Stanley Cup championship in 2008 and twice captured the Presidents' Trophy as the NHL's regular-season champion.

The Saskatoon native was named a finalist for the Jack Adams Award as the NHL's Coach of the Year in 2004 and 2008, and was also honoured as the NHL's Coach of the Decade (2000-09) by both the *Sporting News* and *Sports Illustrated.com*.

Before he joined the Red Wings, Mr. Babcock spent two seasons with the Mighty Ducks of Anaheim (2002-04), where he led the Ducks to their first Stanley Cup finals appearance in 2003.

Prior to beginning his NHL career, Mr. Babcock served as head coach of the American Hockey League's Cincinnati Mighty Ducks for two seasons and head coach of the Western Hockey League's Spokane Chiefs for six seasons. He was twice named WHL Coach of the Year (1996 and 2000) during his tenure with Spokane.

In 1993-94, Mr. Babcock led the Lethbridge Pronghorns to a CIS University Cup championship, earning recognition as the CIS Coach of the Year in his only season in the CIS. His coaching career also includes stints at Red Deer College and the Moose Jaw Warriors of the WHL.

Internationally, the 52-year-old has also represented Canada at several major competitions. He has led Team Canada to gold medals at the World Junior Championships (1997), the World Championships (2004) and the Olympics (2010 and 2014). Mr. Babcock is the only coach in the 'Triple Gold Club,' an exclusive group of individuals who have captured the three most prestigious championships in hockey (a World Championship, an Olympic Gold Medal and a Stanley Cup).

Last November, Mr. Babcock was selected to coach Team Canada at the 2016 World Cup of Hockey taking place in Toronto this fall.

Away from the rink, Mr. Babcock is involved in several charitable causes. He is a faithful supporter of organizations focused on raising money for pediatric cancer research and is also a strong supporter of mental health awareness.

Mr. Babcock and his wife, Maureen, have three children, Allie, Michael and Taylor.

CINDY BLACKSTOCK

Cindy Blackstock is the executive director, First Nations Child and Family Caring Society of Canada, Associate Professor, University of Alberta and Director of FNCARES.

A member of the Gitksan First Nation, Dr. Blackstock has 25 years of social work experience in child protection and Indigenous children's rights.

Her engagement of children, young people and adults, to ensure culturally based equity for First Nations children and families has been recognized by the Nobel Women's Initiative, the Aboriginal Achievement Foundation, the Indigenous

Bar Association, Frontline Defenders and many others.

An author of over 50 publications and a widely sought after public speaker, Dr. Blackstock has collaborated with other Indigenous leaders to assist the United Nations Committee on the Rights of the Child in the development and adoption of a General Comment on the Rights of Indigenous children. She also recently worked with Indigenous young people, UNICEF and the United Nations Permanent Forum on Indigenous Issues to produce a youth friendly version of the United Nations Declaration on the Rights of the Child.

KEITH MARTELL

Being the eldest of four children raised by a single mother, Keith Martell learned how to take on responsibilities early in life. He also found that taking personal responsibility was necessary to achieve success. Armed with the first university degree in his extended family and an ethic for hard work, he was determined to achieve a better life for himself, his family and his community.

Mr. Martell graduated from the University of Saskatchewan in 1985 with a Bachelor of Commerce. He worked with the chartered accounting firm KPMG for 10 years and is a

Chartered Professional Accountant (CPA, CA). From 1995 to 2000, he served the Federation of Saskatchewan Indian Nations (FSIN) as their executive director of finance and fiscal relations. While at the FSIN, he worked with a team of First Nations leaders to create the First Nations Bank of Canada. He became chair of the board of directors when this new bank was chartered in 1996, soon after becoming the executive chair and then the chief executive officer; the role he continues to fill today.

He was instrumental in the creation of AFOA Canada, a professional organization dedicated to advancing the financial management skills of Aboriginal financial professionals across Canada. He received one of the first Certified Aboriginal Financial Manager (CAFM) designations from this organization in 2000 and was the first recipient of its Excellence in Leadership Award in 2004.

In 2001 he received a "Top 40 Under 40" in Canada Award.

Mr. Martell has served on the board of directors for many organizations including

crown corporations, public and private companies and non-profit organizations. He was a student of good governance before this was a focus of attention and continues to advocate for this in all the organizations he serves. In addition to being a director of the First Nations Bank of Canada, he is also currently a director of Potash Corporation of Saskatchewan Inc., Saskatoon Safe Streets Commission Inc. and River Cree Enterprises GP Ltd. and is a trustee on the Primrose Lake Settlement Trust.

The best connection Mr. Martell ever made at the University of Saskatchewan was the chance meeting of his future spouse, Cathy Martell (Grunert) B.Comm. 1984. Together they have produced his proudest achievement, their five children.

Mr. Martell is an active volunteer and contributor in Saskatoon, serving on many local boards and fundraising committees and is always willing to help in whatever way needed.

Mr. Martell is a member of the Waterhen Lake First Nation in northwest Saskatchewan.

RAJAT M. NAG

Asia is a continent of contrasts. It is home to two-thirds of the world's poor while boasting a fast growing number of billionaires. An increasingly richer continent is also becoming more inequitable. Based on his work in international development for the past three decades, Rajat Nag has forcefully brought this issue of the "Two Faces of Asia" into the development debate.

Mr. Nag is deeply committed to issues of equity, justice and rights, particularly gender related. He firmly believes that good governance is a key ingredient of sound development.

His particular interest is in working to enhance regional cooperation and integration in Asia and beyond and bridging the gap between the region's thriving economies and the millions of poor being left behind.

Just short of his 21st birthday, Mr. Nag left Delhi for the bucolic campus of the University of Saskatchewan which was quite a transition: the expanse of the Prairies, his first snow, the "cold" of a -40 winter and the warmth of the people and many friends he made were all sources of great surprise and joy.

Mr. Nag began his professional career at the Bank of Canada in 1972 and also held senior positions in a leading Canadian international consulting firm before joining the Asian Development Bank (ADB) in 1986. Through successively senior positions in the organization, he was appointed ADB's managing director general in 2006, a position he held for seven years.

He is concurrently a distinguished fellow at the National Council of Applied Economic Research, New Delhi, India and at the Emerging Markets Forum, Washington, DC, USA.

Mr. Nag was a visiting professor, Stephen Zuellig Graduate School of Development Management, Asian Institute of Management, Manila, Philippines (2014-15), and currently holds this position at the Emerging Markets Institute, Beijing Normal University, China.

He also serves as chair, Look East Council of the Indian Chamber of Commerce encouraging greater regional cooperation and integration within South Asia and beyond.

In addition, Mr. Nag serves on the board of several organizations, including Action for Autism in Delhi devoted to the cause of persons with autistic spectrum disorders; and Partnership for Transparency Fund, an international NGO dedicated to good governance.

Mr. Nag holds engineering degrees from the Indian Institute of Technology, Delhi (B. Tech 1969) and University of Saskatchewan (M.Sc. 1971). He also has a M.B.A from the University of Saskatchewan (1972) and a M.Sc. (Econ) from the London School of Economics (1977).

## HONORARY DOCTOR OF SCIENCE

---

### W. ERIC L. GRIMSON

W. Eric L. Grimson, the Bernard M. Gordon Professor of Medical Engineering and Professor of Computer Science and Engineering, has served as the chancellor for academic advancement at the Massachusetts Institute of Technology since fall 2013. As one of the institute's senior academic officers, Professor Grimson is a central advisor to President Rafael Reif on the institute's fundraising campaign's shape and strategy, and serves as his representative to alumni, parents, students and Institute partners.

A member of the MIT faculty since 1984, Professor Grimson previously served as chancellor of the Massachusetts Institute of Technology. In this role, he had oversight responsibility for graduate and undergraduate education at MIT, student life, student services, curricular developments, and other areas that impact student experience. Together with the provost, he acted as advisor to the president in areas of strategic planning, faculty appointments, resource development, and institute resources and buildings. Professor Grimson has also served as head of the Department of Electrical Engineering and Computer Science.

Professor Grimson is internationally recognized for his research in computer vision, especially in applications in medical image analysis. He and his students have applied computer vision methods to medical image analysis, built systems used to help surgeons plan and execute minimally invasive surgeries, and designed methods to measure changes in brain structures caused by diseases such as schizophrenia and Alzheimer's.

Professor Grimson has been actively engaged with students throughout his career. For 25 years he lectured Structure and Interpretation of Computer Programs, and more recently, Introduction to Computer Science and Programming, Introduction to EECS, and an MITx online MOOC version of Introduction to Computer Science and Programming. In all, Professor Grimson has taught some 11,000 MIT undergraduates and served as the thesis supervisor to almost 50 MIT Ph.Ds. Through the online course, he has reached nearly 500,000 learners worldwide.

Professor Grimson is a fellow of the Association for the Advancement of Artificial Intelligence (AAAI), the Institute of Electrical and Electronics Engineers (IEEE), and the Association for Computing Machinery (ACM), and holds a Doctor of Letters (honoris causa) from Dalhousie University. He received a B.Sc. (High Honours) in Mathematics and Physics in 1975 from the University of Regina, and a Ph.D. in Mathematics from MIT in 1980.

CANDACE WASACASE-LAFFERTY

Candace Wasacase-Lafferty epitomizes the ideal President's Service Award recipient. Since arriving at the University of Saskatchewan 15 years ago, Ms. Wasacase-Lafferty has been a dedicated team player, a role model for her colleagues, a strong leader, an advocate for students, and an individual who has earned the respect of everyone who has had the pleasure of working with her.

As director of Aboriginal initiatives, Ms. Wasacase-Lafferty simply works to

make the U of S the best place it can be for Aboriginal people and their communities. But simple work, it is not. She is a bridge between the university and Aboriginal communities throughout Saskatchewan and beyond. With optimism, creativity and dedication, Ms. Wasacase-Lafferty balances competing interests and brings communities together to achieve common goals.

As a cultural leader on campus, Ms. Wasacase-Lafferty plays a vital role in building a respectful environment through the development of programming and cultural initiatives which move the university closer to realizing its aspirations around Indigenous education and engagement.

Recent examples of her distinguished commitment are the grand opening of the Gordon Oakes Red Bear Student Centre, for which she co-chaired the steering committee, her involvement in planning the National Forum on Building Reconciliation held at the U of S, and the development of common language to be used at campus gatherings

that acknowledges Indigenous People and lands (As we gather here today, we acknowledge we are on Treaty Six Territory and the Homeland of the Métis. We pay our respect to the First Nations and Métis ancestors of this place and reaffirm our relationship with one another.)

She has demonstrated time after time an exceptional ability to navigate complex issues, build consensus and manage key relationships with various stakeholders. Her knowledge of Aboriginal communities, people and priorities are key to her success and thus the university's as well. Her reputation precedes her and students, faculty, staff and alumni seek out her leadership, guidance and advice.

Her commitment, drive and knowledge are inspirational and have momentous effect on helping to build reconciliation with Indigenous people. Her influence is felt near and far both here on campus and in communities throughout the province.

VIVIAN RAMSDEN

The Award for Distinction in Community Engaged Teaching and Scholarship acknowledges outstanding and sustained effort in undertaking research, teaching, and artistic work that is meaningful and responsive to community interests and needs.

Vivian Ramsden's scholarship perfectly models the best practices of community engaged research and teaching, maintaining the principle of "with, not on". Dr. Ramsden has a distinguished CV, including supervision and teaching of many undergraduate students, medical residents, and graduate

students. The majority of her research projects are community based. In every abstract, publication, and grant proposal, Dr. Ramsden strives for inclusivity and community voice. Elders, community members, students, and support staff routinely participate in Dr. Ramsden's research, and are cited as authors at every opportunity.

Dr. Ramsden's colleagues, students, and community partners all note her consistency of practice, her ethics, her willingness to mentor, and the profound respect the scholarly community and public have for her work and character. Adherence to her principles of engagement has led to a number of highly productive and sustained research partnerships with communities ranging from Saskatchewan to British Columbia to India. Beyond simply collecting and analysing data, Dr. Ramsden maintains meaningful relationships with these communities through mentoring, teaching, and provision of service, often without explicit funding to do so. A community partner stated: "Dr. Ramsden is a role model and leader in fostering cultural capacity, creating cultural learning spaces for all health care professionals to become

more responsive to the cultural needs of communities they serve. . . Her dedication to community-based research and education within First Nations communities has been transformational, effective, influential, and inspiring."

Beyond her deep record of scholarly work, perhaps Dr. Ramsden's most important legacy is a resource article published in *Canadian Family Physician*, which succinctly elucidates the principles and practices of community-based research for all primary health care researchers. Dr. Ramsden is recognized within the North American health research community as one of the foremost champions and models of community-based participatory research. Last year, the College of Family Physicians Canada honoured Dr. Ramsden for her achievements as a pioneer in the use of participatory research to improve health and healthcare of underserved communities. Dr. Ramsden's status as a highly respected representative of community engaged scholarship, and more importantly, her lasting impact on the health of people, locally, nationally, and abroad, makes her very deserving of this award.

JOSEPH GARCEA

The University of Saskatchewan Award for Distinction in Outreach and Public Service honours university employees who have contributed greatly to the achievement of the university's outreach mission. The award recognizes exemplary contributions of staff and faculty members undertaking efforts that are meaningful and responsive to community interests and needs, and reflect positively on the university as a whole.

For nearly three decades, Dr. Joseph Garcea has contributed in a substantial and laudable manner to the university's outreach mission. A trusted source of professional opinion and

information on governance and political matters, Dr. Garcea's opinion is regularly sought and he has given over 500 interviews and commentaries to local and national television, radio, and print media. He is well known to the Saskatchewan public for his participation in numerous television and radio election panels. Journalists appreciate his interviews and commentaries for their insightfulness, objectivity, and even-handedness.

Some of Dr. Garcea's most significant contributions to community engagement have come through his commitment to the Department of Political Studies' Career Internship Program. Since its inception, the program has provided many Aboriginal, non-Aboriginal, and international students an opportunity to work with governmental or community based agencies across Saskatchewan. For many years, students under Dr. Garcea's supervision have gained valuable experience, while contributing to these agencies' community building work.

Throughout his time at the University of Saskatchewan, Dr. Garcea has also contributed lasting impact through his work

for provincial commissions and task forces working to improve governance and public management, including: designing financial accountability systems for the Saskatchewan Financial Review Commission, serving as chair and director of research for Saskatchewan's Task Force on Municipal Reform, serving as a member of Saskatchewan's Provincial Panel on Metis Elections, as well as serving as one of the three members of Saskatoon's Ward Boundaries Commission.

A recipient of numerous grants, many of which supported research with direct community benefit, Dr. Garcea has contributed to the Community-University Institute for Social Research and other research networks, and has undertaken many specifically commissioned research projects for a variety of community partners. Dr. Garcea has hosted innumerable open houses, assisted countless high school students, and has always made himself available to community forums. For these and other contributions to the building of community, and for the lasting engagement he has forged between the university and wider public, Dr. Garcea is a highly deserving recipient of the Award for Distinction in Outreach and Public Service.

JOHN GIESY

Dr. John P. Giesy, FRSC has devoted his life to researching some of the most ubiquitous and dangerous chemicals found in the environment and has, over the course of his career, greatly improved the health of our planet and the people and wildlife who inhabit it. A Canada Research Chair in Environmental Toxicology at the University of Saskatchewan, Dr. Giesy has appointments in both the Western College of Veterinary Medicine and the Toxicology Centre. He is one of the world's most prominent environmental

toxicologists and has authored more than 1,000 peer-reviewed publications. With over 45,000 citations of his work and an h-index of 104, Dr. Giesy is the most cited author in the world in the combined fields of ecology and environmental science.

Dr. Giesy's ground-breaking research has influenced industrial and public policies locally, nationally and internationally. He was, for instance, the first person to identify the presence of perfluorinated chemicals (PFCs) in the environment. PFC-containing compounds are now listed in the Stockholm Convention as chemicals that should not be used, and Dr. Giesy's work has led to a global withdrawal of the most dangerous and widely-distributed PFCs. Additionally, Dr. Giesy also developed the H295R steroidogenesis assay, which the US EPA now requires for screening chemicals and is approved by the Organisation for Economic Co-operation and Development (OECD) for screening regarding the endocrine disrupting effects of chemicals used in commerce. These are but two examples of the scientific progress Dr. Giesy has pioneered in a wide range of

fields, including environmental toxicology, environmental chemistry, risk assessment, multi-species toxicity assessment, and wildlife toxicology.

Beyond his exemplary work as a researcher, Dr. Giesy is also a highly regarded teacher and mentor. He has trained hundreds of students over the past four decades, many of whom have gone on to become influential scientific leaders in their own right. Dr. Giesy is also a frequent advisor to businesses and governments all over the world, and has been recognized with numerous honours and awards, including the Founder's Award—the highest honor given globally by the Society of Environmental Toxicology and Chemistry (SETAC)—and the Miroslaw Romanowski Medal, given by the Royal Society of Canada for outstanding contributions in environmental science. A fellow of the Royal Society of Canada, he is also one of only two Canadians to be elected an Einstein Professor of the Chinese Academy of Sciences, which recognizes the contributions of internationally renowned scientific leaders.

## MASTER TEACHER AWARD

---

### HUGO COTA-SANCHEZ

Since joining the Department of Biology in 2000, Hugo Cota-Sanchez has earned a reputation as one of our university's most esteemed teacher-scholars. Although many of the concepts he teaches are highly technical, Dr. Cota-Sanchez employs interactive and engaging teaching methods to make the subject matter less intimidating. For example, one of his undergraduate classes is taken

annually on a "supermarket safari," where students travel to a grocery store and learn how various foods and cosmetic products are inextricably connected to plants. Dr. Cota-Sanchez has also designed a suit made entirely of burlap that he will often wear during class to demonstrate the versatility of plants.

As curator of the W.P. Fraser Herbarium on campus, Dr. Cota-Sanchez also leads many outreach initiatives that introduce a wide range of students to the world of botany. For example, he regularly conducts tours of the herbarium for elementary and secondary school students, and also frequently acts as a guide for Saskatchewan Polytechnic students who are visiting campus during field trips.

While Dr. Cota-Sanchez's classes can be large, he makes a point to know each student by name. He is engaging and genuine in a way that many teachers strive to be, yet few can truly achieve. This ability to connect with

students, and his belief that teachers must consistently assess and adjust their teaching methods, is annually reflected in his student evaluation scores, which are consistently excellent. As one student noted in a 2010 evaluation form, "Hugo is by far the best professor I've ever had. ... He loves his subject so much and that is a big influence on how he teaches. ... Hugo sets a high standard for any prof to live up to. His attitude and positive energy keep the class interesting and fun."

For his exceptional work in the classroom, Dr. Cota-Sanchez has won numerous teaching honours in addition to the Master Teacher Award. Namely, he twice received the College of Arts and Science's Teaching Excellence Award (2006, 2014), a Provost's Award for Outstanding Teaching (2015), and a USSU Teaching Excellence Award (2003). He also won a Teaching Excellence Award from his previous employer, Iowa State University, in 1997.

## GOLD MEDALS

### CHANTAL ELIZABETH KAWALILAK

Chantal Kawalilak was born in Prince Rupert, BC, and raised in Kamsack, SK. She received a B.Sc. in Biology (2004), B.Sc. hon. in Kinesiology (2008), a M.Sc. in Kinesiology (2010), and a Ph.D. in Kinesiology (2015) from the University of Saskatchewan. Chantal has been interested in human health from an early age; however, she hadn't imagined that she would enter into graduate studies and do research—instead she wanted to be dentist or a forensics anthropologist/pathophysiologicalist. As it turned out, Chantal's path led to research in the area of musculoskeletal health. Chantal's Ph.D. thesis, "Monitoring Bone Micro-architecture with a Special Focus on Bone Strength," focused on defining the precision (repeatability of measures) of the high resolution peripheral quantitative computed tomography scanner to measure bone density, geometry, micro-architecture (small details in the bone), and

bone strength (using finite element modeling) in postmenopausal women. Specifically, her thesis provided an example of how precision information can be used to plan prospective or longitudinal studies, defined how precision information can be used to interpret results from investigations that anticipate skeletal change, and characterized the skeletal change in postmenopausal women—a group of women who are most susceptible to osteoporotic fragility fractures and in need of precise clinical monitoring.

In addition to her own research, Chantal has had the opportunity to work with numerous intra- and inter-collegiate research projects and attended numerous local, national, and international conferences. Her research area and activity has allowed her to establish an international research collaboration with a

well-known musculoskeletal research group in Germany. As a result of her research, Chantal has received Frederick Banting and Charles Best Masters and Doctoral Research Awards from the Canadian Institutes of Health Research (CIHR), as well as research awards from the U of S.

Beyond research, Chantal has taught in gross anatomy labs since 2007 and has been involved in cadaveric lab work since 2002. Chantal has also been an instructor for biomedical imaging and sports nutrition courses, and served as a private tutor and a teaching assistant for numerous courses at the U of S. During this time, Chantal has also worked as the lab manager for the research-based imaging lab in the Physical Activity Complex. All-in-all, Chantal has had a productive experience as a student at the U of S and it has set her up to be a successful researcher in her field.

### LANDON DENNIS BAILLIE

Landon Baillie was born and raised in Saskatoon, Saskatchewan and received his B.Sc. Hon. (Spring 2009) in Physiology and later his Ph.D. (Summer 2015) from the lab of Dr. Sean Mulligan at the University of Saskatchewan. Landon's Ph.D. thesis, "Imaging nociceptive signaling in peripheral CGRP terminal fibres" highlights the creation of a novel preparation for the physiological

study of the cells responsible for nociception and the initiation of pain sensation. The use of this preparation provided a greater understanding of the physiological and pathophysiological processes involved in pain signaling.

Aside from research, Landon took an interest in teaching while in graduate school and

during his final year as a Ph.D. student began a lecturer position in the Department of Physiology, teaching a wide variety of topics. Landon has recently been hired by the Department of Physiology at the University of Saskatchewan as an Assistant Professor and is excited to continue providing physiological education to future generations.

## SILVER MEDALS

### ILONA IHORIVNA VASHCHYSHYN

Ilona Vashchyshyn was born in Dresden, Germany, lived in Ternopil, Ukraine until the age of eight, and moved to Saskatoon with her family in 2000, where she has lived ever since. She attended Holy Family Ukrainian Bilingual Elementary School, then Bishop James Mahoney High School, where she received the Governor General's Academic Medal upon graduation. After graduation, Ilona enrolled in the Engineering program at the University of Saskatchewan, but after a year and a half in the program, realized that her true passion was for mathematics. She obtained a Bachelor of Science Honours in Mathematics with a minor in French.

Ilona wanted to share her knowledge of mathematics and to kindle the same passion in others, which is why she decided to pursue a second degree in education. During the last year, Ilona has also become involved in the mathematics education community in other ways, notably as the new Vice President of the Saskatchewan Mathematics Teachers' Society and editor of the Society's new periodical, *The Variable*. Through this role, she hopes to facilitate communication and the spread of innovative ideas among mathematics educators in the province (and beyond) for the betterment of students' learning.

While pursuing a Bachelor of Education,

Ilona was involved in education research through her work with Dr. Egan Chernoff. One of her articles was recently published in the Canadian Journal of Education. She has won several awards during her time in the College of Education including the University of Saskatchewan Scholarship, the College of Education Scholarship, the Saskatchewan Teachers' Federation Scholarship (2014 and 2015), the Earl Robert Hale Scholarship, the Helen Henderks Scholarship, the Saskatoon Normal School Scholarship, the Eleanor Rae Wiebe (Anonson) Book Prize, the Mary Anna Keefe Scholarship in Education, and the first-ever Ast Scholarship.

### LORRAINE SAMANTHA HART

Lorraine Hart is graduating today with a Bachelor of Science Double Honours degree with High Honours in both subjects, Anatomy and Cell Biology and Biochemistry.

Lorraine grew up on a ranch close to Medicine Hat, Alberta. She graduated from Eagle Butte High School and entered the College of Arts and Science in the fall of 2012.

Lorraine was named on the Dean's List after her first, second and third years and has received numerous scholarships for

her academic achievement. Some of these included the University of Saskatchewan Scholarship, the Arts and Science Scholarship, the Department of Biochemistry Scholarship, and the Natural Sciences and Engineering Research Council of Canada (NSERC) Undergraduate Student Research Award.

In addition to her academic achievements, Lorraine is graduating from the University of Saskatchewan with a shining resume of other achievements. She has worked as an Undergraduate Summer Student Researcher

and teaching assistant in the Department of Anatomy and Cell Biology. She is an engaged member of the Saskatoon community, having served in volunteer positions with the Saskatoon Health Region, St. Paul's Hospital, the Saskatoon Open Door Society, and Habitat for Humanity. Her extracurricular involvements include the University of Saskatchewan Biochemistry Students' Association, the Anatomy and Cell Biology Club, the Pre-Medicine Club, and Recreational League Basketball.

**Imtiaz Ahmad**  
Saskatoon  
Electrical Engineering

### MASTER OF ENGINEERING

**Oluwaseyi Adedeji Adeniyani**  
Nigeria

**Mechanical Engineering - Project:**  
Microstructural Evolution in AA7055  
Aluminium Alloy Under Dynamic Shock  
Loading  
Supervisor: Akindele Odeshi

**Hamid Ali**  
Pakistan

**Electrical Engineering - Project:** Facts  
Controllers and Their Impact on Voltage  
Stability  
Supervisor: Aryan Saadat Mehr

**Samrat Hussain**  
Pakistan

**Civil Engineering - Project:** Comparison of  
Selected Road Traffic Signs Among Provinces/  
States in North America  
Supervisor: Young-Jin Park

**Emeka Stanley Ike**  
Nigeria

**Mechanical Engineering - Project:** The Effect  
of Oxygen Flow Rate on the Formation of  
Vanadium Pentoxide Thin Film on Silicon  
Substrate using DC Magnetron Sputtering  
Method  
Supervisor: Qiaoqin Yang

**Suresh Kalle**  
India

**Electrical Engineering - Project:** Timing and  
Frequency Recovery in DOCSIS 3.0 Upstream  
Communication (Project Title)  
Supervisor: Francis Bui

**Omolara Omowunmi Olubajo**  
Nigeria

**Electrical Engineering - Project:** Mitigation  
of Distributed Generation Influences on  
Fuse- Recloser Protection Systems in Radial  
Distribution Networks using Superconducting  
Fault Current Limiters  
Supervisor: Sherif Faried

**Fahad Shah**  
Pakistan

**Biomedical Engineering - Project:**  
Colonoscope System to Avoid Loop  
Formation  
Supervisor: Wen Zhang

**Fengrui Zhang**  
People's Republic of China

**Chemical Engineering - Project:** Very High  
Gravity Fermentation Experiment in Pilot Plant  
Supervisor: Yen-Han Lin

### MASTER OF SCIENCE

**Sen An**  
Saskatoon

**Electrical Engineering - Thesis:** A Highly  
Accurate and Robust Retinal Vessel  
Segmentation Algorithm  
Supervisor: Seok-Bum Ko

**Yun Bai**  
Saskatoon

**Chemical Engineering - Thesis:** The Influence  
of Controlling Redox Potential on Plasma  
Membrane Fatty Acid Composition During  
Very High Gravity Fermentation  
Supervisor: Yen-Han Lin

**Rocky Chowdhury**  
Bangladesh

**Civil Engineering - Thesis:** Assessment of Flow  
Conditions in a New Vortex-Type Stormwater  
Retention Pond using a Physical Model  
Co-Supervisor: Gordon Putz  
Co-Supervisor: Kerry Mazurek

**Feng Dai**  
People's Republic of China

**Biomedical Engineering - Thesis:** On  
Development of a Green Web-based System  
for Reducing Waiting Times of Outpatients  
Supervisor: Wen Zhang

**Samuel Denis Joseph Emard-Ferré**  
St. Brieux

**Biological Engineering - Thesis:** Optimization  
of the Cleaning System of Grape Harvesters  
Using the Discrete Element Method  
Co-Supervisor: Martin Roberge  
Co-Supervisor: Venkatesh Meda

**Benjamin P Fortosky**  
Saskatoon

**Electrical Engineering - Thesis:** DOCSIS  
3.1 Cable Modem and Upstream Channel  
Simulation in MA  
Co-Supervisor: Joseph Salt  
Co-Supervisor: Brian Berscheid  
Co-Supervisor: Ha Nguyen

**Jordan Mathew Gonda**  
Dalmeny

**Civil Engineering - Thesis:** Assessing the  
Tradeoffs of Water Allocation: Design and  
Application of an Integrated Water Resources  
Model  
Supervisor: Amin Elshorbagy  
Supervisor: Howard Wheeler

**Xue Han**  
People's Republic of China

**Mechanical Engineering - Thesis:** Fabrication  
and Optimal-Design of Biodegradable Stents  
for Aneurysms Treatment  
Co-Supervisor: Michael Kelly  
Co-Supervisor: Xiongbiao Chen

**Chao Huang**  
People's Republic of China

**Civil Engineering - Thesis:** Thesis  
Understanding Chemical Sequential  
Extraction Method by Using Nuclear Magnetic  
Resonance and X-Ray Absorption Near Edge  
Spectroscopies for Phosphorus Fractionation  
of Lake Sediment  
Co-Supervisor: Jian Peng  
Co-Supervisor: WenHui Xiong

**Divya Jayaprakash**  
India

**Chemical Engineering - Thesis:** Drying  
Butanol using Biosorbents in a Pressure Swing  
Adsorption Process  
Co-Supervisor: Ajay Dalai  
Co-Supervisor: Catherine Hui Niu

**Mulong Li**  
People's Republic of China

**Electrical Engineering - Thesis:** Study of  
Layout Techniques in Dynamic Logic Circuitry  
for Single Event Effect Mitigation  
Supervisor: Li Chen

**Kevin Lucien Mathison**  
Saskatoon

**Civil Engineering - Thesis:** Alternative  
Methods for Determining the Biochemical  
Methane Potential of Municipal Solid Wastes  
Supervisor: Ian Fleming
