UNIVERSITY OF
SASKATCHEWAN

Convocation procession in the Bowl, May 1928. A-1666

PETER STOICHEFF

Today is a celebration of all you have accomplished as a student at the University of Saskatchewan. The countless hours spent in labs, libraries and classrooms culminates with you walking across the stage, in front of student colleagues, university and family supporters, to receive your U of S degree.

This is a significant milestone in, not only your life, but the lives of all of those who have supported you during your academic pursuits. On this occasion, I offer you my sincerest congratulations.

With your degree in hand, you join more than 152,000 U of S alumni around the world. As part of that esteemed group, you help share the U of S story, a story that tells people in Canada and internationally that your institution is a distinguished member of Canada's top research-intensive universities, with an enormous impact on the country and, in select areas, the world.

Neither you nor I know exactly what the future holds for you. You might pursue further education this fall. You might start down your career path in a week or two. You might even get on a plane later today leading to an entirely different kind of learning experience. But what I do know is that no matter what

direction you take, your time at the U of S has prepared you to face adversity and opportunity with equal measures of success, confidence and creativity. Because of that, awaiting you is a fulfilling and rewarding life in which you can contribute to what is important to you and to the world.

When you look at your degree, remember that you are backed by a rich and rigorous university education. Also remember the people, supporters and experiences that were a part of your time at the U of S, because those memories are as valuable as the degree itself.

I hope you stay connected to the University of Saskatchewan and share with us the meaningful events that make up your life's story. As part of our worldwide alumni family, you hold a special place in our hearts and I hope that your time on campus holds an equally special place in yours.

All the best,

A handwritten signature in black ink, which appears to read "P. Stoicheff". The signature is stylized and written in a cursive-like font.

KELLY STRUEBY

Congratulations to our 2018 graduates and welcome to the University of Saskatchewan Alumni Association!

Convocation is a momentous occasion in any student's life. It is the culmination of hard work, commitment and dedication to your field of study. I encourage you to celebrate this moment and take pride in your achievement. The knowledge you've gained on the road to earning your degree from the U of S will prove to be invaluable as you continue with your education or start your career.

It is my hope that you find joy in whatever path you choose and that a love of learning endures. No matter where your path takes you over the years, you will be alumni forever. For more than 100 years, the U of S Alumni Association has been a champion of our graduates and is here to celebrate our alumni community.

More than 152,000 graduates in over 120 countries worldwide are a testament to what you can achieve with a degree from the University of Saskatchewan. Your name will be added to the long list of accomplished alumni whom future generations of U of S graduates will hold in high esteem.

It is exciting to welcome thousands of new graduates to our family today. From this day on, all that you accomplish—all that you create, discover, enhance, build, explore—you will do as a U of S alumnus.

Once again, I extend a warm welcome to the U of S alumni community. Our collective history would be incomplete without your story and your passion. Please be sure to keep in touch. Remember, the U of S is always home.

Kelly Strueby (BComm'84)
President, Alumni Association
University of Saskatchewan

THE HONOURABLE ROY ROMANOW

Roy Romanow was elected Chancellor effective November 1, 2016 for a three-year term. His appointment was confirmed at a meeting of University Senate on October 15, 2016 based on the recommendation of a joint nomination committee.

The Honourable Roy Romanow, P.C., O.C., S.O.M., Q.C., served in public office in Canada for more than 30 years.

Chancellor Romanow's provincial political career began in 1967 when he was first elected to the Saskatchewan Legislature. From 1971

to 1982 he served as Deputy Premier and Attorney General of Saskatchewan. He played a key role in the federal-provincial negotiations that resulted in the *Constitution Act 1982*, which includes the *Canadian Charter of Rights and Freedoms*. During this time, he also led the reorganization of Saskatchewan's court system, the creation of the Saskatchewan Human Rights Commission, and the introduction of a modern Legal Aid system.

In 1987, Chancellor Romanow became the Leader of the Opposition and served in this role until 1991. He then served as Premier of Saskatchewan from 1991 to 2001. During this period, major health reforms were introduced based on programs of well-being, which balanced the delivery of health care more appropriately between acute care and preventative programs. A significant achievement of the Romanow government was turning Saskatchewan's large fiscal deficits into balanced budgets.

After his tenure as premier, Chancellor Romanow was appointed by then Prime Minister Jean Chrétien in 2001 to head the Royal Commission on the Future of Health

Care in Canada, which resulted in a final report entitled *Building on Values*.

Chancellor Romanow, an officer of the Order of Canada and recipient of the Saskatchewan Order of Merit, has also received the Pan American Health Organization's 2003 Administration Award for his work with the Health Commission and his commitment to human rights and justice initiatives. In 2004, he became a member of the federal Privy Council through a five-year appointment to Canada's Security Intelligence Review Committee. From 2008 to 2013, Chancellor Romanow was the Advisory Board Co-Chair and Spokesperson for the Canadian Index of Wellbeing. He currently serves as a Member of the Elections Canada Advisory Board, and as the co-chair of the Canadian Alliance to End Homelessness.

Currently, Chancellor Romanow is a Senior Fellow in Public Policy in the Department of Political Studies at the University of Saskatchewan. He received both his B.A., 1960, and LL.B., 1964, from the U of S. He is recognized as one of the 100 Alumni of Influence and is the recipient of numerous honorary degrees from Canadian universities.

Our ceremony

The convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of convocation

are the election of representatives to university governing bodies and the admission of candidates to degrees. The chancellor, appointed by senate as the chair of convocation, is the highest official and spokesperson of the university.

The convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges.

The ceremony, solemnized in the presence of the university community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the president's statement to the graduands, the secretary's petition and the chancellor's consent for their admission; followed by individual presentation by a university orator and admission by the chancellor to the degrees to which they are entitled.

As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate's head.

#USASKCONVO

ENTRANCE

Graduands in their academic dress walk in procession into the hall in the following order: graduands in the order in which their degrees are to be conferred; faculty; board of governors; senate; guests of honour; the president; the chancellor; the lieutenant governor. When the members of convocation reach their places they remain standing during the Vice-Regal Salute, the singing of "O Canada" and the invocation.

ORDER OF THE CEREMONY

The first business is the president's statement to the graduands, followed by the conferring of honorary degrees, the convocation address, the conferring of degrees and the presentation of awards. The meeting is closed by the chancellor rising and leading the procession in the reverse order out of the hall.

THE PETITION

The university secretary on behalf of all the candidates, addresses the chancellor and senate in the following words:

"Eminent Chancellor, Mr. President, members of the University Senate and Board, I present to you the petition of the Council of this University that the candidates to be named, having fulfilled all the requirements of the bylaws, may, with your permission, be admitted to the degrees and certificates to which they are entitled".

THE ADMISSION

The chancellor then addresses the candidates:

"By virtue of the authority vested in me by the legislature of this province, and with the consent of the council of this university, I consent to admit you to the degrees and certificates to which you are entitled and to invest you with all the powers, rights and privileges pertaining thereto."

THE PRESENTATION

The university orator approaches the chancellor from the left and presents the candidates:

"Eminent Chancellor, on behalf of the faculty of _____, I present to you these scholars and ask that you will confer on them the degree of _____."

Each candidate then comes forward and the degree hood is placed on his or her shoulders. As the orator speaks the candidate's name in full, the candidate moves forward in front of the chancellor. Then the chancellor says, **"I admit you"**. Hereupon the candidate passes to the chancellor's right, is greeted by the dean of the faculty, or designate, and receives the degree parchment.

DEGREES IN ABSENTIA

In such cases, the university secretary says:

"Eminent Chancellor, in the name of the faculties, I ask you to grant the degrees and certificates, in absentia, to those students who have met the requirements to graduate, but were not able to be present today."

ACADEMIC DRESS

Academic dress lends an element of colourful pageantry to the convocation proceedings. This traditional clothing—worn on a daily basis at universities in earlier times—is now reserved for ceremonial functions.

At the University of Saskatchewan, the following academic dress is adopted for all appropriate occasions: The gown resembles a long cape with full sleeve cut to elbow and terminating in a point for the bachelor's degree; with long sleeve and a semi-circular cut at the bottom for the master's degree; and with round open sleeves for the doctor's degree. The material is black broadcloth for the bachelor's, master's and doctor's degrees. The doctoral gown incorporates green and gold on the front and sleeve panels.

The hoods for the bachelor's and master's degrees are of black broadcloth. The master's and doctor's hoods have a lining and the bachelor's an edging (and in some cases, a lining) of a color distinctive of the character of the degree.

Doctor's hoods have a green satin lining with gold trim and the honorary degree hoods feature a white satin trim. A velvet Beefeater style hat with a green, gold and white tassel is also part of the doctoral dress.

University orators

Our orators hail from all parts of campus and perform a wide range of roles throughout the university, but all are gifted with resonant voices, pronunciation skills and share a fine attention to detail.

The post of university orator can be traced back hundreds of years to universities in the United Kingdom such as Oxford and Cambridge. Traditionally orators served as the official voice of the university, composing letters, giving speeches in Latin at ceremonial occasions and presenting candidates for honorary degrees.

Terry Bedard

Indigenous culture

At the U of S, we have one of the highest populations of Aboriginal students among Canadian post-secondary institutions. As indicated in our vision statement, we strive to be an outstanding institution of research, learning,

knowledge-keeping, reconciliation, and inclusion with and by Indigenous peoples and communities. At convocation, one of our most important celebrations, we display the Treaty Six flag, Métis flag and sing an honour song.

HONOUR SONG

These are special songs to demonstrate respect for an individual or group in recognition of their accomplishments such as a return from military service or other events. In some families, individuals have their own song, which is sung for them when they are being honoured.

MÉTIS FLAG

The Métis flag has been a symbol for the Métis Nation since as early as 1816. The infinity symbol represents the joining of two cultures—forever intertwined, a people forever. The flag is nationally recognized by the Métis Nation across Canada.

GRADUATION POWWOW

The University of Saskatchewan Graduation Powwow celebrates the accomplishments of First Nation, Métis and Inuit students with song and dance. We are proud to host an event that gives Indigenous people an opportunity to show case culture and academics.

AHEAD BY A CENTURY

100 Years of Business Education

Together we built...businesses that foster strong communities

100 years ago, the University of Saskatchewan gave out the first undergraduate accounting degree, making us one of Canada's oldest business schools. We've come a long way in the last century: from an accounting school to a robust business school offering six undergraduate majors, four graduate programs, several certificate programs, flexible executive education courses, study abroad opportunities, and a co-op program. This centennial will celebrate the integral connection of our alumni network, current students and business communities.

Together we thrive...one graduate at a time

The Edwards School of Business centennial marks the thousands of alumni who've left our classrooms armed with knowledge and practical experience to make a tremendous impact on our communities. In our 100 years as a school, we have built a network of over 26,000 alumni worldwide. Mentoring students, joining an advisory board, speaking in classrooms or hiring co-op students are just a few ways alumni are working with the Edwards School of Business.

Together we will...develop business professionals to build nations

In addition to celebrating what we've achieved, we're using this milestone to look to the future. We are now an internationally accredited academic institution with the Association to Advance Collegiate Schools of Business (AACSB). Congratulations to Edwards students, alumni, faculty, staff, and friends! We look forward to celebrating our milestone anniversary together. Visit www.edwards100.ca for more information on how to get involved.

Celebrating 50 years with TCU Place

Crowds mingle outside of the newly opened
Centennial Auditorium during spring convocation 1968.
(A-9697)

JUST SIX WEEKS AFTER THE DOORS OPENED ON APRIL 1, 1968, SASKATOON'S NEW CENTENNIAL AUDITORIUM HOSTED THE 57TH ANNUAL U OF S SPRING CONVOCATION.

During the ceremonies on May 14 and 15, 1,407 degrees were conferred, more than one-third to women. In fact, female graduates captured many of the top awards that year, including the prestigious Governor General's Medal presented to Marian Lois Watt of Milden.

Presiding over the 1968 spring ceremonies were university President John W. T. Spinks and Chancellor E.M. Culliton. Honorary degrees were awarded to literary critic Northrop Frye, then-Saskatchewan Lieutenant-Governor Robert Hanbidge, and scientist Omond Solandt.

In the 50 years since, more than 60,000 students have crossed the TCU Place stage to begin the next phase of their lives as proud U of S alumni. They have been inspired by some of the finest individuals in their fields, who have been invited to receive honorary degrees, share their experiences and offer encouragement to a new generation of U of S graduates.

As we celebrate 50 years with TCU Place as the home of convocation, we also prepare to bid a fond farewell to our gracious hosts. Beginning next year, U of S convocation will be coming home to campus to Merlis Belsher Place, a new multi-sport facility currently under construction.

Scheduled to open in the fall, the facility will feature two full-size ice surfaces, two full-size basketball courts and will also be available to host concerts and community events in addition to our own convocation ceremonies.

Honouring service, sacrifice

1914 – 1918

FIRST WORLD WAR
CENTENARY

The Great War, which raged across the globe between 1914 and 1918, exacted a heavy toll on the University of Saskatchewan. Of the 345 students, faculty and staff who enlisted, 69 "passed out of the sight of man by the path of duty and self-sacrifice". This phrase, which became the standard used around the world when referring to those who died in the Great War, was used during the dedication of the university's Memorial Gates in 1928. In addition to the 69 who died, more than 100 were wounded and 33 were awarded medals of valour. The School of Engineering was forced to close its doors for the 1916-1917

session when faculty and students enlisted en masse.

As early as March 1916, the University of Saskatchewan Board of Governors decided to create a Roll of Honour by having the names of all students, and others connected with the University who had enlisted, painted on the 'ribbons' in the corridors of the Peter MacKinnon Building. These ribbons were part of the original building design. Names of 349 veterans have been inscribed on the walls, including some that were added following research over 85 years later. About three-quarters of these veterans were University of

TWO HUNDRED AND FIFTY-THREE STUDENTS— 60 PER CENT OF THE ENTIRE STUDENT BODY IN 1914— SERVED.

Saskatchewan students when they enlisted; the others were graduates, former students, faculty, and staff. Names of the volunteer nurses who treated patients during the 1918 influenza epidemic are also inscribed on the walls. Veterans who came to the University of Saskatchewan only after the war, however, are generally not included.

The Memorial Gates, while no longer marking the entrance to the University of Saskatchewan, remain the university's memorial to the students and faculty who perished in the Great War. Designed by the original university architect, David R.

Brown of Montreal, the gates are of solid bronze imported from England, the balance being of local greystone. A stone tablet, positioned between the bronze gates, bears the inscription: "These are they who went forth from this University to the Great War and gave their lives that we might live in freedom." Erected in 1927-28 at a cost of thirty thousand dollars, the gates and tablet were unveiled by President W.C. Murray and the memorial dedicated by the Bishop of Saskatchewan on May 3, 1928. From November of that year to the present time, Remembrance Day services have been held annually at the gates.

A memorial stone and plaque honouring the memory of those who served with the 46th Canadian Infantry Battalion (South Saskatchewan), Canadian Expeditionary Force, 1914-1918, rests under a tree on the northeast corner of the Bowl. Of the 5,374 men in the 46th Battalion, 4,917 were either killed or wounded.

DAVE KING

A legendary coach in Canadian hockey circles, Dave King has compiled a remarkable track record of success that spans five decades in the game nationally and internationally.

Born in North Battleford and raised in Saskatoon, Mr. King played for the University of Saskatchewan Huskies men's hockey team while earning bachelor's degrees in both physical education (1971) and education (1972) before moving on to the coaching

ranks. After guiding the Huskies to their first Canadian university hockey championship title in 1983, Mr. King went on to coach Canadian national teams in two world junior hockey championships, five Winter Olympics and five world championships. He also spent 10 years coaching in the National Hockey League, including serving as head coach of the Calgary Flames from 1992-95 and the Columbus Blue Jackets from 2000-2003.

Named Canadian university hockey's coach of the year in 1980, Mr. King mentored a new generation of NHL coaches who played for him with the Huskies, a list that includes Mike Babcock and Willie Desjardins. This year, Mr. King rejoined the Canadian national team as an assistant coach to Desjardins and helped Team Canada earn a bronze medal at the 2018 Winter Olympic Games in PyeongChang, South Korea in February.

Now 70, Mr. King also renewed his association with the U of S this past year, playing a leading role in the Home Ice Campaign to raise funds for the new Merlis

Belsher Place multisport complex that is scheduled to open this fall on campus. Named a U of S Alumni of Influence in 2007, Mr. King also earned a place in the College of Education Wall of Fame in 2009 and the Athletic Wall of Fame in 2002 and will now be awarded an honorary Doctor of Laws at U of S Spring Convocation.

Mr. King also coached in professional leagues around the world, including Russia, Sweden and Germany, and guided Team Canada in the Deutschland Cup and Spengler Cup international tournaments overseas. Made a Member of the Order of Canada in 1992, Mr. King was inducted into the Canadian Olympic Hall of Fame in 1997, the International Ice Hockey Federation Hall of Fame in 2001, the Order of Hockey in Canada in 2013 and the Saskatchewan Hockey Hall of Fame in 2015. Now living in Scottsdale, Ariz, Mr. King and sports journalist Eric Duhatschek co-authored a book entitled *King of Russia: A Year in the Russian Super League*, which was published in 2007.

JONI MITCHELL

A generational talent, hailed by *Rolling Stone* as “one of the greatest songwriters ever”, Joni Mitchell’s musical influence is still widely heard today. While Ms. Mitchell’s success as a musician took her to cities around the world, Saskatoon—where she grew up and learned to play piano and guitar—is her hometown.

Melding folk, jazz, R&B, pop, and classical music, Ms. Mitchell’s compositions—spanning 17 albums of original music—have garnered national and international recognition including nine Grammy Awards, three Juno Awards, inductions in to the Canadian Music Hall of Fame and the Rock and Roll Hall of Fame, as well as being voted the “world’s top female singer” six times by readers of *Melody Maker*, England’s leading music magazine.

Describing herself as a “painter derailed by circumstance”, Ms. Mitchell is also an accomplished visual artist who pursued art following high school and created most of the cover art for her albums. Her show *Voices, The Work of Joni Mitchell*, was her first Canadian retrospective art exhibition, attracting fans from around the world to Saskatoon’s Mendel Art Gallery in 2000.

As a young songwriter during the 1960s, she honed her craft throughout Saskatchewan, from bonfires at Waskesiu Lake to cafés and nightclubs in Saskatoon. Her career eventually led her to Toronto and then New York, where she built a strong following while touring the East Coast and an even stronger reputation for crafting powerful songs.

Ms. Mitchell won the Grammy for Best Folk Performance of 1969 for her album, *Clouds*. Her third album, *Ladies of the Canyon* was released soon after featuring the environmental anthem “Big Yellow Taxi.” It was an instant hit on radio, and eventually became Mitchell’s first gold album.

Ms. Mitchell’s next album, *Blue*, was released in June 1971 and was a critical and commercial success, peaking in the top 20 in the *Billboard* album charts. In March 1974, the single “Help Me” came out and became Ms. Mitchell’s first and only Top 10 single.

Ms. Mitchell continued to regularly release records, with the most recent being 2007’s *Shine*.

Throughout her career as a musician, Ms. Mitchell highlighted issues that were of broad importance to herself and the world. Her words were as powerful as her music and brought attention to issues related to war, environment and politics. This, in particular, made her especially inspirational for her female audience.

Ms. Mitchell’s influence is far reaching, with her work covered or sampled by artists ranging from Janet Jackson and Sarah McLachlan, to Prince and Björk. She is also recognized as a leader for steps she took to maintain artistic control of her work. To this day, she still holds the publishing rights to her music.

For a career spanning more than five decades, Ms. Mitchell has received the Governor General’s Performing Arts Award for Lifetime Artistic Achievement, Canada’s highest honour in the performing arts, received a star on Canada’s Walk of Fame, was appointed a Companion of the Order of Canada, Canada’s highest civilian honour, was presented with *Billboard*’s highest honour for creative achievement, the Century Award.

LEONARD J. EDWARDS

Leonard (Len) Edwards is one of Canada's longest serving and most distinguished diplomats, serving in a long list of diplomatic posts and senior public service positions during his 41-year career.

Born in 1946, Mr. Edwards grew up on the family farm outside Melfort, Saskatchewan. He attended school in and around Melfort, graduating from Melfort Composite Collegiate Institute in 1964.

Entering the College of Arts and Science at the University of Saskatchewan, he focused on history and political science. He obtained

a Bachelor of Arts degree in 1968 and his Masters in History in 1969. Among his student activities, he participated in the College of Arts and Science Student Association and was a member of the Greystone Singers.

He joined the Federal Public Service in the fall of 1969 as a foreign service officer in the Department of External Affairs.

Over the next 32 years, half were spent serving Canada abroad through assignments to Vietnam, Turkey, Brussels (NATO) and the United Nations Organization in Geneva. Mr. Edwards was Canada's ambassador to the Republic of Korea (1991-94) and to Japan (1998-01).

Among his Ottawa-based assignments, Mr. Edwards led the teams responsible for the logistical arrangements for the 1988 Toronto and 1995 Halifax G7 Summits, and the 1987 Commonwealth Summit in Vancouver. He was assistant deputy minister both for Economic and Trade Policy and for Asia Pacific Affairs. As Canada's senior official to the Asia-Pacific Economic Cooperation (APEC) organization, he oversaw Canada's hosting of the 1997 APEC Summit in Vancouver.

Returning from Japan in 2001, Mr. Edwards left the foreign service to work over nine years in three federal deputy minister assignments: International Trade (2001-04), Agriculture and Agri-food Canada (2004-07) and Foreign Affairs (2007-10). In 2008 Mr. Edwards was appointed Prime Minister Harper's Personal Representative (or Sherpa) to the G8 and G20 Summits, and in this capacity led the preparations for the Muskoka G8 and Toronto G20 Summits hosted by Canada in the summer of 2010.

Among his many activities since retiring in 2010, Mr. Edwards is a distinguished fellow with both the Centre for International Governance Innovation (CIGI) in Waterloo and the Asia Pacific Foundation of Canada in Vancouver. He is a former chair of the board of directors of VIDO-InterVac at the University of Saskatchewan.

The College of Arts and Science has honoured Mr. Edwards as an Alumni of Influence. He is a recipient of the Meritorious Service Medal of Canada for his work on the 2010 summits, and has been awarded Japan's Order of the Rising Sun, Gold and Silver Star for his contributions to Canada-Japan relations.

DAVID CARPENTER

David Carpenter is an award-winning writer and editor. His works, which include novels, novellas, short stories, essays and poetry, often focus on nature and Western Canada.

Mr. Carpenter's grandparents on both sides of the family moved from Ontario to Saskatchewan in 1905. His father was born in Regina and his mother in Saskatoon. Paul Carpenter and Marge Parkin first connected at the University of Saskatchewan in 1929. They

met regularly for coffee in the shady arbour between Qu'Appelle and Saskatchewan Hall residences.

David was conceived in Saskatoon, born in Edmonton, and raised on Saskatchewan stories. His first big job was in the Department of English at the University of Saskatchewan.- He likens this return to the home of his parents to a salmon seeking out the feeder stream of his birth. (His fishing buddies do not encourage this myth.)

Mr. Carpenter began writing as a translator, reviewer and scholar. Inspired by a reading from the writers of the Moose Jaw Movement, he began writing his own work. This change in direction was impelled by subsequent workshops with Robert Kroetsch and Jack Hodgins at Fort San. His fiction began to emerge in 1980 with a series of stories in *Saturday Night*. His fourteen books include five novels, three collections of short stories, four books of nonfiction and a book of poems.

He is the editor of the three-volume *Literary*

History of Saskatchewan. As well, he joined forces with a Cree trapper from Northern Saskatchewan to bring out *The Education of Augie Merasty*.

Mr. Carpenter is the recipient of the Saskatchewan Centennial Medal, the Kloppenburg Award for Literary Excellence, The Library Association's One Book, One Province Award, the City of Edmonton Book Award, the SBA's Book of the Year Award, and the CODE Book Award for Humanitarian Writing. His latest work is *The Gold*, a novel about prospecting around Yellowknife in the 1930s.

His writing credo is as follows: Most writers must learn to make a pact with dullness. Not boredom or lack of imagination or passion, but dullness of routine. Do your research, keep your daily appointment with the computer screen, and keep your ass on the chair until you've reached your daily quota. However rich your inner life may be, seek also the dullard within.

MERLIS BELSHER

Merlis Belsher is a successful businessman and philanthropist whose acts of generosity reflect a deep commitment to volunteerism and community.

Mr. Belsher grew up on the family farm and attended elementary school at McCord, a small village in southwestern Saskatchewan named after his pioneer grandfather. Following the accidental death of his parents at age 15 Merlis entered Luther College in Regina to complete grades 11 and 12.

He attended the University of Saskatchewan to obtain a Bachelor of Commerce degree and thereafter was admitted to the Saskatchewan Institute of Chartered Accountants.

Mr. Belsher started an accounting practice to finance further education. He returned to the U of S to graduate with a Bachelor of Law degree and following the Bar exams was admitted in 1964 to the Law Society of Saskatchewan. Belsher remains an active member in his professions of law and accounting.

Choosing to remain in the province that he loves, in 1965 with assistance from a friendly bank and the business owners, he acquired ownership in a manufacturing business in Saskatoon.

Over the next 43 years using innovation, technology, and business acquisitions, he grew this business to become one of the most diversified precast concrete products manufacturers in Western Canada.

This Saskatoon manufacturing business was sold in 2008 to a Vancouver/Chicago based private equity firm. Belsher is currently a limited partner with this firm.

Mr. Belsher has always been involved in his community in Saskatoon. This included years of coaching minor/junior hockey and minor baseball. He has served on boards and committees in many capacities in business, non-profit, church, sports, and political

organizations. Currently, he serves on one committee in each profession. He has served on the College of Commerce (now Edwards School of Business) and the College of Law's Deans Advisory Counsel.

Influenced by his parents at a young age, Mr. Belsher believes in giving back to his community. The University of Saskatchewan, including the College of Law, Edwards School of Business and College of Medicine, Luther College of Regina, Saskatoon Hospital Foundations, Leslie & Irene Dubé Centre for Mental Health, and many charities are benefactors of Mr. Belsher's ongoing philanthropic endeavours.

Over his career he has received numerous major awards including a U of S Alumni Achievement Award, the Queen Elizabeth II Diamond Jubilee Medal, Senior Life Membership from the Law Society of Saskatchewan, the Fellow Chartered Professional Accountant designation from CPA Saskatchewan and was named the 2018 recipient of the Sabex Hall of Fame Award by the Greater Saskatoon Chamber of Commerce.

Mr. Belsher remains connected "to his roots" with farming interests at McCord. He has four sons, one daughter and three grandchildren.

AGNES HERZBERG

Agnes M. Herzberg is a highly respected statistician and professor emeritus of mathematics and statistics at Queens University.

Born in Saskatoon to parents who were both scientists, Dr. Herzberg left Western Canada at an early age, but has returned often, in particular when earning her M.A. and Ph.D. in mathematics at the University of Saskatchewan.

Dr. Herzberg began her career with a National Research Council of Canada Post-Doctorate Overseas Fellowship at Birkbeck College and Imperial College of Science and Technology,

colleges of the University of London (1966-1968), and then became a lecturer at Imperial College (1968-1988). During these years, she accepted brief engagements at the University of California, Berkeley (1975); University of Washington, Seattle (1977) and the Mathematics Research Center at the University of Wisconsin, Madison (1981). In July 1988, she was appointed professor at Queen's University, becoming professor emeritus in 2004.

Dr. Herzberg's principal research interests have been concerned with the statistical design of experiments including contributions to the design of clinical trials in medicine. She has worked with many collaborators internationally. Recently, with Dr. Ram Murty, she co-authored a paper concerned with the popular Sudoku puzzle, showing noteworthy properties, including its potential for data compression.

She was founding editor of *Short Book Reviews*, a publication of the International Statistical Institute; during her twenty-six years of editorship, the journal handled over 12,500 volumes.

Dr. Herzberg's participation in the Statistical Society of Canada (SSC) included serving as president and as a member of many

committees. She has received many honours, for example, the SSC Service Award in acknowledgement of her leadership, and election in 2008 to the Royal Society of Canada "for her pioneering contributions to statistics".

Believing that individuals are enriched by exchanges with those in other disciplines, Dr. Herzberg introduced the idea of inviting scientists and others to statistical conferences. Honouring the memory of her father, Dr. Gerhard Herzberg, the Conference on Statistics, Science and Public Policy is held annually at Herstmonceux Castle in the United Kingdom. In this unique gathering, a diverse mix of scientists, politicians, civil servants and journalists from many countries address significant policy issues. The conferences are summarized in edited proceedings.

Dr. Herzberg is a generous supporter of not only academic but also cultural projects, and her worldwide circle of colleagues and friends represents her far-reaching interests. She is an inspired and inspiring model of loyalty and commitment to the individuals and institutions that have been part of her life.

ROSS E. PETTY

Ross Petty is recognized as one of the world's most outstanding pediatric rheumatologists. He established Canada's first formal pediatric rheumatology program and has trained many of Canada's and the world's pediatric rheumatologists.

Ross Edward Petty was born in Bresaylor, Saskatchewan, the son of Jean and John Petty. He grew up in Paynton, Saskatchewan

where he completed high school in 1958, receiving a Governor General's Medal. He graduated from the College of Medicine of the University of Saskatchewan in 1965. After interning and completing the first year of a pediatric residency at the University Hospital in Saskatoon, he and his wife, Beryl (nee Knapp) moved to Ann Arbor Michigan to complete his training in pediatrics, and a fellowship in pediatric rheumatology. There followed a Ph.D. in immunology from the University of London, and a "real job" where he joined his colleagues in pediatric rheumatology as assistant professor in pediatrics, at the University of Michigan, Ann Arbor. The opportunity to return to Canada came in 1976, and the family, now including a son and a daughter, moved to Winnipeg, where Dr. Petty developed a program in pediatric rheumatology, the first in Canada. In 1979 the family relocated to Vancouver where Dr. Petty developed a comprehensive clinical, training and research program in pediatric rheumatology at the University of

British Columbia. He is author of more than 250 original papers and book chapters, and is senior editor of the standard textbook in the discipline of pediatric rheumatology. He has mentored nearly 50 pediatricians from 15 countries in their training as pediatric rheumatologists. He has been an invited lecturer at over 150 meetings in 25 countries. He retired from the University of British Columbia as Emeritus Professor, but remains active in teaching, clinical research and writing.

Dr. Petty is a fellow of the American Academy of Pediatrics, and the Royal College of Physicians and Surgeons of Canada. He is the recipient of many honors, including the Ross Award of the Canadian Pediatric Society for Distinguished Service to Children (1994), Distinguished Rheumatologist Award of the Canadian Rheumatology Association (1997), and the American College of Rheumatology (2005) membership in the Order of Canada (2008) and the Queen Elizabeth Diamond Jubilee Medal (2012).

JOSEPH QUEWEZANCE

Joseph (Joe) Quewezance has dedicated his life to improving the quality of life for First Nations in Saskatchewan by influencing public policy on all levels of government.

As a young man, Mr. Quewezance, a residential school survivor, honed his interest in First Nations governance while working as an aide to hereditary and elected chiefs in the east central area of Saskatchewan and in the band office in his home community of Yellow Quill First Nation. In 1973, he was elected chief of Yellow Quill and would go on to serve

two further terms as chief and one as a band councillor.

In 1982, he co-founded the Saskatoon Tribal Council and in the years following served many terms as tribal chief. During this time Mr. Quewezance laid the foundation for many vital community partnerships with business, all levels of government and various industries. What started out as a two-person operation today has more than 250 employees and offers services to more than 28,000 people in Saskatoon and 11,000 members on seven First Nations.

Between 2001 and 2005, Mr. Quewezance served as a member of the Commission of First Nations and Métis People and Justice Reform, which sought to make the system better serve First Nations and Métis people.

Mr. Quewezance has received many honours throughout his career, including the First Nations Award for Sport and Recreation, the Saskatchewan Centennial Medal and Circle of Honour Lifetime Achievement Award.

He has served as board chair for the

Saskatchewan Indian Institute of Technologies and the Saskatchewan Indian Equity Foundation, and as a board member for the Federation of Saskatchewan Indian Nations Executive Council, the National Aboriginal Capital Corporations Association, the Whitecap Dakota Sioux Nation Economic Development Board and Saskatoon Tribal Council Casino Holdings.

Mr. Quewezance was an Anishinabe Knowledge Keeper for the Following Their Voices' Initiative which encourages investment and increasing First Nations graduates in Saskatchewan. He was also appointed to the Elders Advisory Circle for the Assembly of First Nations and currently sits at the National level

He has three daughters and six sons, four of whom were adopted by traditional means including Chief Darcy Bear and Chief Delbert Wapass. Mr. Quewezance is a passionate great grandfather who enjoys spending time with family, coaching sports, language and culture, and mentoring forthcoming generations of leaders.

DALE CLAUDE

For almost 40 years, Dale Claude has improved the student experience in the College of Engineering as a lab co-ordinator in the Department of Chemical and Biological Engineering. He is an insightful and inspiring colleague who approaches his work with dedication, open-mindedness and inclusivity. He has transformed the college's undergraduate

teaching lab from a dimly lit room into one of the best in all of Canada. In addition to providing a world-class lab experience, Mr. Claude also offers mentorship to countless students by providing them with the necessary tools to apply knowledge to real-world issues. His colleagues, as well, have benefited from his respectful and knowledgeable manner.

JOSEPH GARCEA

Joseph Garcea is professor in the Department of Political Studies in the College of Arts and Science. He is a dedicated, innovative and passionate teacher-scholar with a strong commitment to public outreach. He excites and motivates students by connecting political science to their daily lives. Further, Dr. Garcea's leadership has been critical in advancing the

university's Indigenization, internationalization, and interdisciplinary goals. His teaching and outreach has been honoured with a number of awards, including the James Pooler Award, the College of Arts and Science Teaching Excellence Award, the Provost's Award for Outstanding Teaching, and the University of Saskatchewan Award for Distinction in Outreach and Public Service.

Dr. Garcea has undertaken significant research projects in the areas of migration and immigration, multilevel governance, and Indigenous urban reserves and governance. His expertise has led to his being invited to participate on a number of distinguished panels and committees and to serving as an expert commentator in the media. Collectively, his scholarship and his public outreach enhance the substance of his teaching and consolidate the trust of his students that they are being taught by an area expert.

The long-lasting effect of Dr. Garcea's commitment is clearly observed in the number of students he has inspired to complete further studies. Former students report their experiences with Dr. Garcea as being pivotal to their success through his commitment to teaching excellence and educational leadership. Dr. Garcea has directly and indirectly been involved in training our province and country's public administrators, political officials, corporate government officers, and urban planners, as well as the next generation of academic instructors.

Dr. Garcea exemplifies excellence in positive teaching and educational leadership, and serves as a role model for colleagues and students throughout the University of Saskatchewan. Our university, province and country have benefited greatly from this Master Teacher.

DISTINGUISHED RESEARCHER AWARD

CARL GUTWIN

The Distinguished Researcher Award recognizes a faculty member's contributions to scholarship through the creation, expansion, and critique of knowledge. Carl Gutwin, a professor in the Department of Computer Science and the co-director of the University of Saskatchewan Human-Computer Interaction Lab, is the Spring 2018 recipient of this award.

The world's foremost expert on group awareness, Dr. Gutwin's research on human-computer interaction has had profound impact on the design and development of collaborative software. A former Canada Research Chair, Dr. Gutwin was the first to identify the importance of group awareness in collaborative software. This pioneering research is now used widely in platforms like Google Docs and Microsoft Office. In addition, Dr. Gutwin's publications have been widely cited; to date, he has published over 200 peer-reviewed publications and his work has been cited over 16,000 times.

Dr. Gutwin has also been instrumental in advancing computer science research at the university. He established a flagship research program that is now recognized worldwide. In collaboration with two other faculty members, Dr. Gutwin developed an entirely new computer science program,

a combined Bachelor of Arts and Bachelor of Science Degree in Interactive Systems Design. A dedicated teacher and mentor, he has supervised over 85 trainees, many of whom have gone on to become leaders in both academia and industry. In 2011, Dr. Gutwin was awarded the Excellence in Graduate Supervision Award from the Department of Computer Science and in 2014 he won the Division of Science Distinguished Researcher Award at the University of Saskatchewan.

Dr. Gutwin's achievements have been widely recognized by his field on an international scale. He won a Microsoft Research Faculty Fellowship in 2009 and an Erskine Fellowship from the University of Canterbury in 2007. In 2012, he was inducted into the Association of Computing Machinery's Computer-Human Interaction Academy, only the fourth Canadian to be distinguished by this honour.

TIMOTHY JARDINE

The New Researcher Award is presented annually to an outstanding new scholar in recognition of their significant contributions to knowledge or artistic creativity. Timothy Jardine, associate professor in the School of Environment and Sustainability is the Spring 2018 recipient of this esteemed award.

Dr. Jardine completed his B.Sc. (Honours) at Dalhousie University and his M.Sc. and Ph.D. from the University of New Brunswick. After completing a prestigious postdoctoral fellowship at Griffith University in Australia,

he joined the University of Saskatchewan in 2012. Dr. Jardine has distinguished himself as an international leader in the field of applied aquatic ecology.

Through a unique blend of disciplinary, interdisciplinary and transdisciplinary research, Dr. Jardine studies the biology of streams, rivers, and wetlands where he compares biomagnification rates of toxic chemicals through aquatic food webs. Through this research, Dr. Jardine develops environmental research and monitoring programs for the northern river and river delta communities and creates new models for the ecological implications of flood regimes in large rivers. His research has made vital and groundbreaking contributions to our scientific understanding of northern riverine food webs and their potential risk to contamination and has had tangible impacts on the communities that live along these water sources.

Dr. Jardine has published articles in leading, high-impact journals, many of which are considered foundational and have changed

the international direction of aquatic science. He is the lead author on over half of these papers and his work has been cited over 2,500 times. He has also delivered 22 invited presentations and has given more than 60 other contributed talks. Dr. Jardine has shown great success in securing funding from leading multi-disciplinary national agencies, including NSERC and SSHRC, totalling over \$5 million.

In addition to these accomplishments, Dr. Jardine has established fruitful international collaborations in Brazil, Singapore, and Australia, where his work is being used by the Australian State and Federal Governments to determine the environmental impacts of planned water resource developments. In 2016, Dr. Jardine was awarded the highly-competitive Water Security Research Excellence Award from the Global Institute for Water Security.

Dr. Jardine's strong publication record, international reputation for impactful research, and leadership make him incredibly deserving of the New Researcher Award.

GOLD MEDALS

ADAM CRANE

Adam is currently a Postdoctoral Fellow in the Department of Biology at the University of Saskatchewan and will soon start a Banting Postdoctoral Fellowship at Concordia University.

His research interests lie in animal cognition, behavioural ecology and conservation. Adam completed his Ph.D. in Biology under

the supervision of Dr. Maud Ferrari. For his dissertation, Adam studied social behaviour and fear, and the application of animal models to Post-traumatic Stress Disorder. He received the Vanier Canada Graduate Scholarship and has over 35 peer-reviewed publications.

Adam was born in Jacksonville, Florida, and was raised in Atlanta, Georgia. He received his

MSc in Biology from Missouri State University and his B.Sc. in Biology from Harding University.

His wife, Amanda, is a nurse at the Saskatoon Cancer Centre. They have three children: Bailey (age 8), Darryn (age 6), and Logan (age 2). They are in the process of becoming permanent residents of Canada.

JAMIE WILLEMS

Jamie Willems was raised in Waldheim, Saskatchewan. She completed her B.Sc. in Food Science from the University of Saskatchewan (2013) and was awarded the Governor General's Silver Academic Medal and the Earl of Bessborough Prize in Science for academic achievements. Jamie then went on to complete her Ph.D. in Food

Science (2017) under the supervision of Dr. Nicholas Low at the University of Saskatchewan. Her thesis research, titled "Development of Authenticity Methods for Apple and Pear Juices", focused on detecting and preventing food fraud. To help support this work she was awarded a Natural Science and Engineering Research

Council of Canada Alexander Graham Bell Canada Graduate Scholarship (NSERC CGSD). After completing her Ph.D. Jamie taught an undergraduate course and continues to work in research in the Department of Food and Bioproduct Sciences at the University of Saskatchewan.

SILVER MEDALS

FRANCOIS ROEWER-DESPRES

Graduating with a double-honours in Computer Science and Economics, Francois Roewer-Despres is recognized as one of the top graduates in the Department of Computer Science's history. His capability is evident through his commendable academic standing, the three funded research assistant positions he has held at the University of Saskatchewan, and his four scholarly publications and three conference presentations. Francois' initiative and

talent has not gone unrecognized, with a total of twenty scholarships and awards received during his tenure at the U of S. These awards include the J.P Tremblay Award for the highest GPA in second-year Computer Science, and the Fowke Award in Economics for the best essay in an undergraduate Economics course. An active member of the community, Francois volunteers as a Youth Study Group Peer Mentor at the Saskatoon Open Door Society and as a

workshop assistant for the Digitized Conference. Moving forward, Francois will be attending the University of Toronto to pursue his Masters degree, focusing on researching the diagnostic and quality-of-life applications of artificial intelligence to Alzheimer's disease. In the words of Kevin Stanley, the department head of Computer Science, "Extraordinary talents like [Francois'] are rare and precious things and must be recognized."

MOLLY RAYNER

Molly Rayner is the recipient of the Governor General's Silver Medal, which recognizes academic excellence at the undergraduate level. She is graduating today with a Bachelor of Science in Kinesiology with a major in Exercise and Sport Studies.

As a competitive swimmer, and member of the Goldfins Swim Club for 10 years, Molly qualified for and competed at many swim

meets across Canada, including Canadian Age Group Nationals and Western Canadian Championships. Molly also enjoys running and is currently training to run her first half marathon.

An avid traveller, Molly spent a semester during her third year studying at the University of Queensland in Brisbane, Australia, through the College of Kinesiology's academic exchange

program. This summer she will be exploring England, Ireland and Portugal.

Beginning this fall Molly will continue her studies at the U of S in the College of Medicine where she will pursue her goal of becoming a physician.

She lives in Saskatoon with her parents, John and Damara, and sister, Sara.

GRADUATE AND POST-DOCTORAL STUDIES

GRADUATE THESIS AWARDS

Humanities and Fine Arts presented to:

Patrick Chasse, Ph. D., Department of History
Thesis: Produce More to Live Better: Cotton, Corn and Agrarian Modernization in Guatemala 1944-66

Life Sciences presented to:

Adam Crane, Ph. D., Department of Biology
Thesis: Social learning of predation risk and safety: fish behaviour as a model for fear recovery

Physical and Engineering Sciences presented to:

Adesola Olufade, Ph. D., Department of Mechanical Engineering
Thesis: Experimental Characterization of Crystallization Fouling in Liquid-To-Air Membrane Energy Exchangers

Social Sciences A presented to:

CJ Bishop, Ph. D., Department of Psychology
Thesis: The Effects of Same-Sex Imagery on Affect Valence, Affect Intensity, and Behavioural Change

Social Sciences B presented to:

Jennifer Budney, Ph. D., Johnson Shoyama Graduate School of Public Policy
Thesis: The "Imbecile" Institution and the Limits of Public Engagement: Art Museums and Structural Barriers to Public Value Creation

GRADUATE THESIS AWARDS – MASTER'S

Humanities and Fine Arts presented to:

John Bird, M. A., Department of History
Thesis: "Stranger in a Strange Land:" Cultural Hybridity and Mimicry in George Copway's Engagement with Christianity, Freemasonry, and Literacy

Life Sciences presented to:

Justin Andrushko, M. Sc., College of Kinesiology
Thesis: Specificity of Sparing Effects with Cross-Education after Eccentric Training

Physical and Engineering Sciences presented to:

Matthew Wessel, M. Sc., Department of Physics and Engineering Physics
Thesis: SuperDARN Electrostatic Potential Function Estimation of Field-Aligned Currents

Social Sciences A presented to:

Jennifer Sedgewick, M. A., Department of Psychology
Thesis: Sealed with a Kiss: Head-turning Asymmetries during Kissing are Modulated by Context and Influence Perceptual Judgements

Social Sciences B presented to:

Kelly Mills, M. Ed., Department of Educational Psychology & Special Education
Thesis: Writing and Sharing Life: Older Women's Experiences in a Grassroots Writing Group

Harry Toop Memorial Prize presented to:

Ashton Reimer, Ph.D., Department of Physics and Engineering Physics
Thesis: Improved SuperDARN Radar Signal Processing: A First-Principles Approach for Reliable Measurement Uncertainties and Enhanced Data Products

ST. THOMAS MORE COLLEGE

Right Reverend Monsignor Myroslav Kolodey Memorial Academic Prize presented to Francois Roewer-Despres
Thomas Deis '38 Prize in Scholastic Philosophy in Honour of Dr. Basil Markle S.T.D presented to Gabriel Sittler
Thomas Deis '38 WWII Memorial Prize presented to Makenzie Correa and Jessica Froehlich
