Fall Convocation

October 23, 2004

Saskatoon Centennial Auditorium

A message from

*President
Peter MacKinnon*

I want to express a very warm welcome to the graduates, families and friends who join us today. Convocation is the University's most important ceremony, for it is here that we celebrate the accomplishments of our students and the contributions of their loved ones to their success. You should be proud of this day, and of the commitment and sacrifice that it represents.

We at the University of Saskatchewan salute you—our graduates—and we extend to you our very best wishes for the future. We hope that you will stay in touch with us through our University of Saskatchewan alumni family, and that we will have the opportunity to welcome you 'home' to our campus many times in the years ahead.

Warmest congratulations!

A handwritten signature in black ink, reading "Peter MacKinnon".

University of Saskatchewan

2004 Fall Convocation

The word “Convocation” arises from the Latin “con” meaning “together,” and “vocare” meaning “to call.” Our Convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of Convocation are the election of representatives to University governing bodies and the admission of candidates to degrees. The Chancellor, elected by Convocation as its Chair, is the highest official and spokesperson of the University.

The Convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges. Candidates for degrees, known as graduands, having completed the requirements of a course of study, are recommended by college faculties and the University Council to receive degrees from the University of Saskatchewan.

The ceremony, solemnized in the presence of the University community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the

President’s statement to the graduands; the Secretary’s petition and the Chancellor’s consent for their admission; followed by individual presentation by their Dean and admission by the Chancellor to the degrees to which they are entitled. As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate’s head. A banner displaying the University crest is hung above the stage, as a symbol of the University’s authority to confer degrees.

Following the conferring of degrees and acceptance of each graduate as a member of Convocation, a reception is

held—a celebration on the occasion of the formal transition from the role of learner to the role of producer and contributor in the field of the graduate’s choice.

We honour and welcome this year’s graduates!

The Chancellor

W. T. (Tom) Molloy

Tom Molloy was born and raised in Saskatoon. He attended St. Thomas More College and later the College of Law, both at the University of Saskatchewan. He received his B.A. and LL.B. in 1964. He has practiced law in Saskatoon since graduation and is with the MacPherson Leslie & Tyerman's Saskatoon office. He has represented the Government of Canada as the Chief Federal Negotiator in the successfully concluded treaties in Nunavut and with the Nisga'a in British Columbia and an Agreement in Principle with the Sechelt Indian Band. He presently represents Canada in treaty negotiations in British Columbia, Quebec, New Brunswick, Nova Scotia, Prince Edward Island and Nunavut. Mr. Molloy has been described as "Canada's most expert treaty negotiator."

Mr. Molloy recently authored a book *The World is our Witness: The Historic Journey of the Nisga'a into Canada*. The book has won two Saskatchewan Book Awards, the Brenda MacDonald Riches First Book Award and the Non-fiction Award which was sponsored by the University of Saskatchewan.

For his work in the community he has received a

number of awards including the City of Saskatoon Certificate of Distinguished Community Service; Rotary Golden Wheels Award for Excellence; Saskatoon B'nai Brith "Proud of You Award" and the Head of the Public Service Award for Excellence in Service Delivery.

In 1996 he was made an officer of the Order of Canada, with a citation that reads: *He is widely known for his role as Chief Negotiator for the Government of Canada in the Nunavut Land Claim Agreement. His integrity, commitment to a just settlement and personable rapport have also been valuable in his leadership of numerous cultural, educational and charitable groups, not only in Saskatchewan but also nationally, including the Meewasin Foundation and PRIDE Canada.*

The University of Saskatchewan Alumni Association awarded him the 2000 Alumni Honour Award in recognition of receiving notable acclaim for professional achievements, which in turn has enhanced the image of the University of Saskatchewan and its alumni. In January 2001, The Canadian Bar Association Saskatchewan Branch named him as the recipient of the Distinguished Service Award.

Honorary Doctor of Letters

Sharon Butala

Sharon Butala was born in Nipawin, Saskatchewan. Butala earned her B.A. in Art, and her B.Ed. from the University of Saskatchewan. She was a Special Educator at Princess Alexandra School and taught at her alma mater in the College of Education. Subsequently, she moved to Eastend, Saskatchewan where she and her husband ranched and she embarked on a career as a writer of fiction and non-fiction—her subjects being the lives of rural people and the ecology of the short grass prairie in southwestern Saskatchewan.

Sharon Butala is the author of 14 books, among them the Canadian bestsellers: *Old Man on His Back*, *The Perfection of the Morning*, *Wild Stone Heart*, and *Coyote's Morning Cry*. Her work has been consistently recognized by the literary community and has garnered many prestigious awards and nominations. *Perfection of the Morning* was short listed for the Governor General's Award for Non-fiction and won the Saskatchewan Book Award for Non-fiction and the Spirit of Saskatchewan Award. Butala has also been short listed by the Canadian Booksellers Association as Author of the Year and her collection of short stories, *Fever*, was short listed for the Commonwealth Writers Prize, Canada-Caribbean Section, and won the Canadian Authors Award for Fiction. Another collection of short fiction, *Queen of the Headaches* was short listed for the Governor General's Award for Fiction. She is the recipient of the

Marian Engel Award for women writers in mid-career.

Butala has made significant contributions to the cultural life of Saskatchewan where she has been active in the

Saskatchewan Writers' Guild, receiving the SWG Member's Achievement Award. She is an ambassador for PrairieAction Foundation and also for USC Canada. She initiated and carried out the work that led to the preservation of the Wallace Stegner House in Eastend that is now used as an artists and writers' retreat.

Her contributions in all fields have led to many other honours. She is a recipient of the Canada 125 Commemorative Medal, the Queen's Golden Jubilee Medal, the University of Saskatchewan Alumni Honour Award and has been

invested as an Officer of the Order of Canada.

Sharon Butala is one of the most significant Saskatchewan writers to emerge in this province since the days of Sinclair Ross and W.O. Mitchell. All of her work is set here and depicts the trials and joys of rural life, particularly those of farm women, acutely and with consummate artistry. As well, she has been a committed advocate of the preservation of nature and the unique ecology of southwestern Saskatchewan. In 1996, she and her husband donated part of their ranch to The Nature Conservancy of Canada to establish The Old Man on His Back Prairie and Heritage Preserve.

Alumni Award of Achievement

Ernie Walker

The Alumni Award of Achievement is presented in recognition of outstanding contribution to profession, community and/or the University of Saskatchewan. Dr. Ernest Gordon Walker, C.M., S.O.M., B.Ed., B.A., M.A., Ph.D., is the 2004 recipient.

Born and raised in Saskatoon, Dr. Walker is a Professor in the Department of Archaeology at the University of Saskatchewan. He is a graduate of the University of Saskatchewan and the University of Texas at Austin. Dr. Walker has Associate Memberships in the Department of Anatomy and Cell Biology (College of Medicine), the College of Dentistry and the Department of Geological Sciences (College of Arts & Science).

Dr. Walker's research interests in archaeology focus on North American prehistory with special emphasis on the Northern Plains and the American Southwest. In this regard, he has played a leading role in the development of Wanuskewin Heritage Park since its inception and has conducted a research program at the park since 1982, which represents one of the longest continuously operating research initiatives in Canadian archaeology. Faunal studies, geoarchaeology, and paleoenvironmental reconstruction have been the focus of this research effort. In addition to the Northern Plains, he has field experience in Texas, Arizona, New Mexico, Utah and Nevada.

As a biological anthropologist, Dr. Walker has been very active in research concerning human skeletal remains from archaeological contexts. Dr. Walker has been very

active in forensic investigations for over 25 years, particularly homicides and suspicious death investigations, for a variety of law enforcement agencies. He is a Special Constable with the R.C.M.P.

(engagement at F Division, Regina, 2000), an Associate Member of the Forensic Laboratory Services Division of the R.C.M.P., and a coroner with the Province of Saskatchewan. Dr. Walker is also an Adjunct Faculty member in the Forensic Sciences Program at the British Columbia Institute of Technology, Burnaby, British Columbia.

Dr. Walker has been actively involved with Saskatchewan's First Nations for many years in the areas of cultural expression and post-secondary education for Aboriginal students. He has worked extensively with Elders and members of the senate of the

Federation of Saskatchewan Indian Nations. Dr. Walker is an Honorary Chief among Saskatchewan's First Nations with the traditional name "Miko Peyasew" or Red Thunderbird. He has received the Distinguished Researcher Award as well as the Students' Union Excellence in Teaching Award from the U of S. In 2001, he was awarded the Saskatchewan Order of Merit for service to First Nations communities and law enforcement agencies across the Province. Later this fall, he will be invested as a Member of the Order of Canada.

He is described as a gifted teacher, mentor, researcher, administrator and the archetype of the multidisciplinary academic. Dr. Walker is admired for his humble modesty, infectious enthusiasm and his incredible work ethic.

Distinguished Graduate Supervisor Award

Larry Sackney

Dr. Larry Sackney was born in Saskatchewan and received his B.A., B.Ed., and M.Ed. from the University of Saskatchewan, and his Ph.D. in Educational Administration from the University of Alberta. His career has ranged from work in the chemical industry to positions in schools as a teacher, vice-principal and principal of a regional secondary school. He joined the faculty at the University of Saskatchewan in 1976 and has been on staff since with the exception of a brief period when he served as Director of Research and Planning with Edmonton Public Schools.

During his time at the University Sackney served terms as Department Head and Director of the Saskatchewan Educational Leadership Unit. His research includes an array of empirical and interpretive studies that examine leadership, school effectiveness and improvement, and educational reform. He has held SSHRC research grants and currently holds a New Economy grant that examines the building of learning communities for the knowledge society. His publications include two co-authored books, 15 book chapters, 22 refereed articles, and 79 technical reports.

Dr. Sackney has supervised 16 doctoral dissertations, 21 masters' theses, and 55 masters' projects. Eight of his doctoral graduands are in faculty positions and the others are in senior management positions. He is actively sought out as a supervisor by graduate students. This past spring his recent Ph.D. graduate student, Dr. Paul Newton, won the Thomas B. Greenfield Dissertation Award and another of his students, Dr. Scott Tunison, received honorable mention.

Further, Dr. Sackney has served as Ph.D. external examiner at other universities on 42 occasions. He served as external reader and examiner for the University of the West Indies. In addition, he has served as external reviewer of graduate programs and was a member of SSHRC Committee #17.

Dr. Sackney serves as an advisory editor to two international journals and is also an editorial board member for two other refereed journals. He was the founding member of the International Congress for School Effectiveness and Improvement and served as its third president. He has also served as the President of the Canadian Association for the Study of Educational Administration (CASEA) and as Canadian representative on the Commonwealth Council on

Educational Administration. In 2001 Dr. Sackney received the Distinguished Service Award from CASEA.

Dr. Sackney is actively sought out as a conference speaker and as a workshop leader. He has worked internationally and recently was a team leader in a four-year CIDA funded health improvement project in Ukraine. In December, Professor Sackney will be one of the distinguished lecturers for the Washington based National Staff Development Council at its 36th annual conference.

Dr. Sackney is married to Kay and they have two children, Blair an engineer with Alcan, and Leanne, a veterinarian.

Distinguished Researcher Award

Marie Battiste

The Distinguished Researcher Award recognizes a faculty member's contribution to scholarship through the creation, expansion and critique of knowledge. Dr. Marie Battiste, professor in the College of Education, is the recipient of the Fall 2004 award.

Professor Battiste is one of Canada's most influential researchers in the field of indigenous and First Nations education, and a technical expert to the United Nations on issues surrounding the education of indigenous peoples.

A Mi'kmaq educator originally from the Potlo'tek First Nation in Nova Scotia, Battiste is a full professor in the U of S College of Education and coordinator of the Indian and Northern Education Program within Educational Foundations. She is also the academic director of the new Aboriginal Education Research Centre and co-director of the Humanities Research Unit at the U of S.

Battiste's writings focus on cognitive imperialism, linguistic and cultural integrity, and the decolonization of Aboriginal education. Her research interests are in initiating institutional change in the decolonization of education, language and social justice policy and power, and educational approaches that recognize and affirm the political and cultural diversity of Canada and the ethical protection of indigenous knowledge.

These interests reflect a rich academic background, including graduate studies at Harvard University and later Stanford University, where she earned her doctorate in curriculum and teacher education. Battiste's academic

credentials also include a B.S. in Elementary and Junior High Education from the University of Maine; she was also presented with honorary degrees from that institution and from St. Mary's University.

Battiste has also actively worked with First Nations schools and communities as an administrator, teacher, consultant and curriculum developer. Her efforts have helped to advance Aboriginal epistemology, languages, pedagogy and research.

Battiste has published numerous articles and scholarly papers in books, journals and documents, and she remains involved in research on Aboriginal education, languages, teachers and teacher education. She is co-author of *Protecting Indigenous Knowledge: a Global Challenge* (for which she received the Saskatchewan

Book Awards' 2000 First Peoples Publishing Award), editor of *Reclaiming Indigenous Voice and Vision* and co-editor of *First Nations Education in Canada: The Circle Unfolds*.

Battiste is a board member of the International Research Institute for Maori and Indigenous Education (University of Auckland, New Zealand); a member of the founding board of the Canadian Council on Learning; and a member of the Circle of Experts for the Aboriginal Language Task Force for Heritage Canada. She has previously sat on the board of governors for the University College of Cape Breton and Dalhousie University, and the board of directors of the International Development Research Centre.

Master Teacher Award

Terry Matheson

The Master Teacher Award honours faculty who excel as teachers at the University of Saskatchewan. Professor Terry Matheson receives this prestigious award at Fall Convocation 2004.

Matheson earned his B.A. at the University of Winnipeg, his M.A. at the University of Manitoba and his Ph.D. at the University of Alberta, specializing in American literature. Terry came to the English Department in 1972, becoming Professor in 1989.

Maclean's magazine calls Terry one of our most "Popular Profs." He has participated in high school orientations and sent his graduate students to careers in the discipline. He has offered teaching workshops, generously shared pedagogical techniques, offered advice to new faculty and is familiar on radio and television discussing, always with humour and wisdom, the intricacies of language use and literature.

Dr. Matheson teaches smaller sections of introductory English, jumbo sections and televised distance education classes with the confidence and humour of a teacher at home in his subject. His students respond: "I . . . extend my appreciation to you . . ." and "you rock!"

His senior undergraduates have said, "There is simply no way to overstate your influence on my life." Dr. Matheson also generates a sense of success in those who would be considered by some to have been unsuccessful: "I want to truly thank you for your faith in me . . . I really enjoyed your class and learned a lot." The

unsolicited letters from students to this "superlative teacher and mentor" agree that his classes are communities in which the head and the heart are at work. Not surprisingly, the University of Saskatchewan Students' Union has given him their Teaching Excellence Award.

Graduate students seem unusually forthcoming with Dr. Matheson: "encouraging, conscientious, and supportive," his "sense of humour worked nicely in conjunction with his openness to new ideas," and his "attitude was. . . empowering to a graduate student." Matheson does not try to master anyone but nourishes what grows from the engagement of his abilities with the abilities of the student.

Professor Matheson's research and scholarly work are wide ranging, publishing on American, Canadian and Romantic literature, on science fiction and popular culture. His remarkable book, *Alien Abductions: Creating a Modern Phenomenon* (1998), obliges readers to understand these strange narratives in original ways.

Matheson's colleagues believe that his dedicated service to teaching, his accommodation to the challenges of different classroom formats and distance education (for which he received the Garth Ferguson Award), his availability to students at every stage of their careers, his generous collegiality and his pedagogical wisdom make him an ideal recipient of the Master Teacher Award.

Distinction in Public Service and Extension Award

Bruce Hobin

Each year, this award recognizes a U of S faculty member who has made an outstanding effort to bring the University to the wider community. Bruce Hobin, B.Sc., M.Sc., P.Ag., Extension Specialist IV, is the Fall 2004 recipient.

A true ambassador for the U of S, Hobin is well known throughout the province as an accomplished agrologist, innovative educator and active volunteer in community and professional circles.

Hobin is Program Director of the Agriculture, Food and Horticulture Program with the Extension Division at the U of S. As director, he has overseen an entire range of program activities such as the Certified Crop Science Consultant Program, the Western Canada Feedlot Management School, University Hort Week and the Saskatchewan Master Gardener Program. He has also coordinated numerous agriculture and horticulture publications including the Saskatchewan Book Awards winner *Creating the Prairie Xeriscape* (written by Sara Williams) and *Don't Turn out the Lights* (written by Al Scholz).

Hobin served as Director of Programming for the University's Bruno Ursuline Campus, which is located 90 km east of Saskatoon. Hobin's diligence and vision helped to turn the former Ursuline convent into a thriving operation that provides community education to residents of Bruno and the surrounding area. Thanks to Hobin's leadership, in the future the Bruno Ursuline Campus (now called the Prairie Ursuline Centre) may provide a home for fruit crop production

research, arts programming and possibly a sports camp.

With more than 20 years of experience in extension education, Hobin has developed a well-deserved

reputation for his devotion, professionalism and outstanding teaching ability. He has been a student, a visionary, an advocate for part-time and distance learners, a leader and supporter of the agriculture industry, and a tireless worker on many boards and committees at the U of S and throughout Saskatchewan.

Hobin earned his B.Sc. in Genetics from the University of Alberta and his M.Sc. in Rural Extension Studies from the University of Guelph.

He began his professional career in agriculture in Saskatchewan in 1977, as Manager of the Saskatchewan Wheat Pool Research Farm in Watrous, and

joined the U of S Extension Division in 1980.

Hobin has been successful in expanding and enhancing the Extension Division's programming. He has been responsible for successful activities and programs including conferences, workshops, home study programs, software programs and field days. He has also taught at the degree, diploma and certificate levels, and devoted the remainder of his time to committee work in Extension, the University and various professional and agricultural associations.

Hobin is a past president of the Canadian Society of Extension and the Saskatchewan Institute of Agrologists. In 1999, he received the S.I.A.'s Distinguished Agrologist Award.

President's Service Award

Peter Herd

Peter Herd's tremendous personal qualities as a part of the University of Saskatchewan campus community over the past 21 years—as a student, employee and volunteer—have now earned him recognition as the top “team player” at the University. He is being presented with the Fall 2004 President's Service Award for outstanding contributions to the learning and working environment.

Herd's helpfulness, great sense of humour, positive attitude, skills and what those around him call “an incredible work ethic,” have earned him friends and fans across campus.

Born and raised in Milden, Saskatchewan, Peter began as a student at the U of S in 1983, later earning a Diploma in Agriculture and a Bachelor of Science degree in Agriculture.

Herd lived in residence, becoming Residence Advisor. When he began his career with campus Security Services in 1988, he started the Student Patrol program (now Student Crew), for which he won a U of S First and Best Award. Herd also brought a workplace violence prevention course to campus and became the University's first instructor in non-violent crisis intervention. He is currently a Community Peace Officer.

In Rutherford rink, home of the Huskie men's hockey team, Herd's passion for the U of S and for helping students has really shone. After early involvement in 1986–88 videotaping the games, from 1990–2002 he

served as the team's trainer and equipment manager.

The many campus co-workers who supported Herd's nomination for the President's Service Award all note how dedicated he has been to the team's success, putting in countless evenings, weekends and vacation days going the extra mile to help the team succeed.

Herd's motto has been “Nobody outworks the Dogs, from the training staff on...” His hard work and excellence impressed coaches and players from his own and many other teams. Current Huskies coach Dave Adolph notes that he “has become a recognized leader in his field worldwide.” He was equipment manager for Canada's national team at World Junior Hockey Championships and other

competitions around the world in countries such as Japan, Italy, the USA, the Czech Republic, Finland and Russia—leading to a number of gold medals. He has been an inspiration to team members, coaches and all who have worked with him.

Ever the team player, Herd says he has been blessed with the friendship of countless people, and particularly with having mentors along the way such as hockey associates Troy Parchman, Peter Friesen and Blaine Whyte, and training-staff colleagues Corey Young, Chris Ellis, Scott Berg and many others. He also thanks the staff and management of Security Services for making it possible for him to pursue his volunteer activities.

President's Medal

This medal is awarded to the undergraduate student with the highest academic standing at Fall Convocation.

Naminder Kaur Sandhu

Naminder Sandhu was born and raised in Calgary, Alberta. Naminder graduates today with a Bachelor of Science Three-year degree in Physiology with Great Distinction. She is also the recipient of the 2004 Fall Convocation Three-year Degree Medal in the College of Arts & Science.

Naminder has been on the Dean's List in the College of Arts & Science for her first three years of study. She has also been the recipient of such scholarships as the Canadian Millennium Scholarship Foundation National-level Award for community involvement, leadership, innovation and academic achievement, the University of Saskatchewan President's First and Best

Scholarship, the University of Saskatchewan Undergraduate Scholarship and the University of Saskatchewan's Golden Key Society Ford Scholarship, just to name a few.

Naminder has been active in many volunteer activities and enjoys long-distance running and participating in sports.

She is currently registered in the College of Medicine at the University of Calgary, and she plans to practice pediatric or family medicine in a rural setting. In the future, Naminder would also like to teach and practice in a clinical undergraduate and post-graduate setting.

Convocation Program

October 23, 2004 • 9:00 a.m.

Chancellor W. Thomas (Tom) Molloy, O.C., Q.C., B.A., LL.B., presiding

Procession

The academic procession will enter the hall in the following order: Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor; The Lieutenant Governor

Honours in Business Economics

Jian Yu, Ruiian, People's Republic of China
Honours in Business Economics

Susu Zhang, Saskatoon
Honours in Business Economics

Wei Zhou, Jin Zhou, People's Republic of China
Honours in Business Economics

Bachelor of Science Three-year

Karen Lynne Butler, Saskatoon

Harvir Singh Dhillon, Calgary, Alberta
(with Distinction)

Alexander Bruce Green, Hay River,
Northwest Territories

Lesley Ann Hallberg, Biggar
Kenneth Wayne Heasman, Saskatoon
Angela Rae Hengen, Windthorst
(with Great Distinction)
Darryl William Husk, Saskatoon

Ryan Christopher Jesse, Estevan (with Distinction)
Heather Rae Johnson, Saskatoon (with Distinction)

Nicole Anne Katherine Keith, Regina
(with Distinction)
Angela Frances Gladys Korchinski, Saskatoon
Paul Daniel Korchinski, Saskatoon
(with Great Distinction)
Michael Andrew Kristoff, Saskatoon

Carrie-Lynn Danielle Jody Lindstrom, Churchbridge

Kimberly Faye Macala, Saskatoon
(with Great Distinction)
Julie-lynne Joyce Mechor, Saskatoon
Evan Robert Moore, Saskatoon (with Distinction)

Michael Riley O'Byrne, Regina (with Great Distinction)

Raenelle Elizabeth Poole, Naicam
(with Great Distinction)

Naminder Kaur Sandhu, Calgary, Alberta
(with Great Distinction)

Prabhdeep Kaur Sandhu, Winnipeg, Manitoba
(with Distinction)
Bradley John Sanesh, Kamloops, British Columbia

Inderpartap Singh Tumber, Calgary, Alberta

Ana-Maria Mabel Warner, Saskatoon
Jordan Marie Woodsworth, Saskatoon
(with Great Distinction)
Fuqu Wu, People's Republic of China
(with Great Distinction)
Xiao Chu Wu, Shanghai, People's Republic of China
(with Great Distinction)

Fan Yang, Saskatoon
Man Pong Yick, Hong Kong

Bachelor of Science Four-year

Godswill Osiomaye Adeoye, Saskatoon

Pierre André Benoit, Prince Albert
(with Great Distinction)

Ayan Chowdhury, Netrakona, Bangladesh
Glenn Dale Chubak, Shell Lake
Colin Leigh Collier, Saskatoon
Benjamin Ryan Cunningham, Saskatoon

Yan Dai, Saskatoon

Kyle Johann Eyvindson, Saskatoon

Shaina Fay Goluboff, Saskatoon

Megan Elizabeth Robina Harrington, Saskatoon

Gueorgui Evguenievich Kadotchnikov, Saskatoon

Christine Wai Hung Law, Saskatoon
Chi-Jung Lee, Taipei, Taiwan
Zhuo Li, Saskatoon (with Distinction)

(with Distinction)

Gregory Allen Zaharko, Calgary, Alberta
Jin Zhang, Nanchang, People's Republic of China

Bachelor of Science Honours

Adrienne Elizabeth Begg, Saskatoon
Honours in Land Use & Environmental Studies

Zachery Roderick Belak, Saskatoon
High Honours in Anatomy

Rohini Mandeep Kaur Gundara, Calgary, Alberta
High Honours in Biochemistry

Jun Ma, Shanghai, People's Republic of China
High Honours in Computer Science

Shaun Justin Neudorf, Saskatoon
High Honours in Microbiology

Ame Leontina Nussbaum, Saskatoon
High Honours in Geography

Sheena Emm Sas, Kamsack
Honours in Microbiology

Jennifer Corinne Schmidt, Regina
Honours in Toxicology

Bachelor of Fine Arts

Mehrdad Baradaran Shokouhi, Saskatoon
(with Distinction)
Marie Emily Brown, Saskatoon (with Distinction)

Jeffery Thomas James Culbert, Hague

Walter Lawrence Dion, Saskatoon
(with Great Distinction and
Distinguished Exhibition)

Catherine Marie Lacey, Saskatoon
(with Great Distinction)

Catherine Jean Manning, Biggar
(with Great Distinction)

Matthew Solomon Rosenberg, Saskatoon
(with Distinction and Distinguished Exhibition)

Danielle Katherine Stasiuk, Humboldt
(with Distinction and Distinguished Exhibition)

Olivia Anne Swerhone-Wick, Saskatoon
Shauna Leigh Sandin Woolery, Saskatoon
(with Distinction and Distinguished Exhibition)

Post Degree Specialization Certificate

Wei Zhang, Saskatoon

Bachelor of Commerce

Garrett Martin Anderson, Prince Albert

Jeanne Francis Crosby Bâby, Saskatoon
(with Distinction)
Chad Lee Baron, Osler
Ryan Lee Bonnett, Palmer

Daryl Evan Campbell, Saskatoon
Danielle Yvette Carroboung, Gravelbourg
(with Distinction)
William Chan, Arcola
Ashley Erin Clarke, Smeaton
Nicole Antoinette Coquet, St. Brieux

Jana Renee Derges, Craven
Karen Lee Downing, Saskatoon (with Distinction)

Andrea Dawn Enns, Saskatoon (with Distinction)

Danielle Gail Fast, Saskatoon
Deborah Anne Fuhrman, Netherhill

Lyle Wayne Glessing, Wilkie
Sharla Rhea Guinan, Saskatoon

Courtney Laine Harder, Melfort
Jennifer Fay Hauberg, Saskatoon
Melissa Ann Haugrud, Asquith

Nathan George Hertz, Kenaston

Surveillance and Privacy in a Multi-Agent Learning
Environment

Jane Martha Cavanagh, Lloydminster, Alberta
Mechanical Engineering - Thesis: Clothing Flammability
and Singe Burn Injury in Normal and Micro-Gravity

Ryaz Chagpar, Saskatoon
Biochemistry - Thesis: Role of A-RAF and p85 in
Regulation of the PTEN/P13K Signaling Axis

Jingxin Chen, Calgary, Alberta
Electrical Engineering - Thesis: Carrier Recovery in
Burst-Mode 16-QAM

Sonia Anne Chiasson, Beresford, New Brunswick
Computer Science - Thesis: The Effects of the Media
Equation on Children

Mandy Jane De Jong, Saskatoon
Pharmacy - Thesis: Satisfaction with Clinical Pharmacy
Services Provided to Special Care Homes in
Saskatchewan

Leah Kristine Deibert, Saskatoon
Microbiology & Immunology - Thesis: Cloning and
Characterization of the Human Homologue of a Novel
Transcription Factor, MS-1, Discovered in an R3230AC
Rat

Marina Rita Facci, Lusaka, Zambia
Anatomy & Cell Biology - Thesis: The Effect of a
Dietary Phase 2 Protein Inducer on Inflammatory
Parameters in Blood and Liver of Spontaneously
Hypertensive Stroke Prone Rats

Tara-Leigh Fleming, Dartmouth, Nova Scotia
Kinesiology - Thesis: Body-Related Emotional
Experiences of Young Aboriginal Women

Véronique Fontaine, St-Jean-Chrysostome, Quebec
Agricultural & Bioresource Engineering- Thesis:
Development of a Vision-Based Local Positioning
System for Weed Detection

Bradley Ryan Andrew Geddes, Leduc, Alberta
Agricultural Economics - Thesis: Reducing Greenhouse
Gas Emission From the Saskatchewan Livestock
Industry: Analysis of Policy Options

Emir Halepovic, Saskatoon
Computer Science - Thesis: Performance Evaluation &
Benchmarking of the JXTA Peer-to-Peer Platform

Lee-Ryeok Han, Seoul, South Korea
Mechanical Engineering - Thesis: A Fuzzy-Kalman
Filtering Strategy for State Estimation

Tyler Graham Hanlan, Briercrest
Plant Science - Thesis: Canopy Architecture and Stem
Stiffness in Lentil

Bradley Jonathon Hope, Provost, Alberta
Biochemistry - Thesis: The Identification of *Arabidopsis*
thaliana Mutants Altered in Photosynthetic Responses to
Light and Temperature

Kimberly Anne Hruska, Esterhazy
Toxicology - Thesis: Development of a Life Cycle
Bioassay with *Chironomus tentans* in Artificial Streams

Michelle Dawn Irvine, Calgary, Alberta
Toxicology - Thesis: Assessment of the Impact of Oil
and Gas Industry Emissions on the European Starling
(*Sturnus vulgaris*)

Melissa Mary Kallas, Vancouver, British Columbia
Toxicology - Thesis: Genotoxic Effects of Petroleum
Industry Emissions in Richardson's Ground Squirrels
(*Spermophilus richardsonii*)

Lynette Rene Keyowski, Saskatoon
Agricultural Economics - Thesis: An Examination of
Factors Influencing Producer Adoption of HT Canola

Mildred Abena Karl Koranteng, Saskatoon
Chemistry - Thesis: ^1H Nmr and Potentiometric Studies
of Mixed-Ligand Complexes of Copper(II) With Some
Amino Acids

Robin Christine Kusch, Saskatoon
Biology - Thesis: The Effects of Predation Risk on
Phenotypic and Hatching Time Variation in Fathead
Minnow (*Pimephales promelas*) Embryos

Chad Damon Lawley, Saskatoon
Agricultural Economics - Thesis: The Political Economy
of Environmental Regulations in the U.S. Intensive
Livestock Industry Analysis of Policy Options

Xiaohong Liu, Cheng De, People's Republic of China
Physiology - Thesis: Characterization of a Voltage and
Osmosensitive Cation Current in Magnocellular
Neurosecretory Cells

Qiuju Lu, Changle, People's Republic of China
Plant Science - Thesis: Feasibility of a Tip Grafting
System for Fruit Breeding and its Effect on Cold
Hardiness and Juvenility

Jana Susan Malinowski, Saskatoon
Medicine - Thesis: The Effectiveness of the Disease
Modifying Anti-Rheumatic Drugs, Injectable Gold,
Hydroxychloroquine & Tumour Necrosis Factor Alpha
Inhibitors in Preventing Disability in Rheumatoid
Arthritis

Darlene Anne Meeds, Saskatoon
Community Health & Epidemiology - Thesis: Women
Entrepreneurs: Work-Life Balance, Health and
Well-Being

Kelli Leigh Metzler, Yorkton
Microbiology - Thesis: The Mutant-Prevention
Concentration and its Application to *Staphylococcus*
aureus

Christian Alexander Miller, Saskatoon
Geological Sciences - Thesis: Re-Os Dating of Algal
Laminites: Reduction-Enrichment of Metals in the
Sedimentary Environment and Evidence for New
Geoporphyris

Laxmikanta Mishra, Medicine Hat, Alberta
Computer Science - Thesis: Automatic Retrieval of
Discussion Forum Postings

Enas Mohamed Adel Aly Mohamed, Saskatoon
Electrical Engineering - Thesis: Finite Element Model of
a Piezo-Film Accelerometer

Karen Elaine Mosier, Saskatoon
Pharmacy - Thesis: Does Dose-Staggering Reduce
Metabolic Drug-Drug Interaction Between Clozapine
and Fluvoxamine in Dog?

Clark Allan Mundt, Ottawa, Ontario
Kinesiology - Thesis: Relationships of Physical Activity
and Sugar-Sweetened Drink Consumption on Fat Mass
Growth of Adolescents

Skipper Jeremy George Munshaw, Gull Lake
Mechanical Engineering - Thesis: Heavy-Duty Diesel
Engine Wear and Efficiency Study Using Canola-Based
Fuel Lubricity Additives

Jorgelina Rosa Muscatello, Buenos Aires, Argentina
Toxicology - Thesis: Chronic Toxicity and
Accumulation of Uranium in the Aquatic Invertebrate
Chironomus tentans

Priscilla Neeliah-Chinniah, Curepipe, Mauritius
Finance & Management Science - Thesis: In Income
We Trust? An Empirical Examination of the Canadian
Income Trust Market

Kenneth Marvin Nelson, Saskatoon
Chemistry - Thesis: Stereoselective Synthesis: Studies
Involving Dipole-Stabilized Carbanions α Nitrogen

Ayodele Oladele Ogunyemi, Ido Ekiti, Nigeria
Computer Science - Thesis: Supporting Software
Architecture Inspections During Software Evolution

Stephen Oluwatoyin Olutimayin, Mopo, Nigeria
Mechanical Engineering - Thesis: Vapor Boundary Layer
Growth During Transient Heat and Moisture Transfer in
Cellulose Insulation

Randal Scott Osicki, Melville
Civil & Geological Engineering - Thesis: Compatibility
Pre-Screening of Bentonite-Based Barrier Systems

Filip Andrzej Palasz, Saskatoon
Toxicology - Thesis: Bioavailability and Toxicity of Lead
Shot to Small Mammals and Soil Invertebrates from
Canadian Prairie Shooting Ranges

Jeremy Phillip Pfeifer, Saskatoon
Computer Science - Thesis: Checkpointing and
Coordination in Grid Systems

Nadine Penny Poulton, Saskatoon
Veterinary Biomedical Sciences - Thesis: The Effects of
Treadmill Training in Hemi-Parkinsonian Rats

Sanjeevakumar Redlapalli, Kadiri, India
Mechanical Engineering - Thesis: Development of
Neural Units with Higher-Order Synaptic Operations
and their Applications to Logic Circuits and Control
Problems

Erin Nicole Sawyer, Coquitlam, British Columbia
Agricultural Economics - Thesis: The Economic Impacts
of Harmonizing Organic Standards Internationally

Tonglin Shang, Saskatoon
Mechanical Engineering - Thesis: Improving
Performance of an Energy Efficient Hydraulic Circuit

Harjinder Singh Sidhu, Barnala, India
Electrical Engineering - Thesis: High Speed Digital
Protection of EHV Transmission Lines Using Traveling
Waves

Niraj Sinha, Ranchi, India
Mechanical Engineering - Thesis: Modeling for Effective
Computer Support to MEMS Product Development

Susan Patricia Skinner, Penticton, British Columbia
Biology - Thesis: Linking Decision Support Systems for
Ducks with Relative Abundance of Other Grassland
Bird Species

Amy Caroline Skopik, Saskatoon
Computer Science - Thesis: Improving Memorability in
Fisheye Views

Andrea Diane Smida, Flin Flon, Manitoba
Toxicology - Thesis: Establishment of a Genetically
Modified Stable Granulosa Cell Line to Study the
Effects of Endocrine Disrupting Chemicals

Jeffrey David Solheim, Saskatoon
Computer Science - Thesis: Causal Animation as an Aid
to Understanding Node-Link Diagrams

Ki-Young Song, Mokpo, South Korea
Mechanical Engineering - Thesis: Neural Units with
Higher-Order Synaptic Operations with Applications to
Edge Detection and Control Systems

Peter Michael Sprague, Saskatoon
Environmental Engineering- Thesis: Community
Stakeholder Salience to the Forestry Firm:
A Property-Rights Game-Theoretic Analysis

Masae Takeda, Kashiwa-shi, Japan
Soil Science - Thesis: Solubilization of Rock Phosphate
by *Penicillium bilaiae*: Mechanism and the Feasibility for
Use in Organic Crop Production

Peter Allan Thorpe, Saskatoon
Mechanical Engineering - Thesis: Development of Non-
Destructive Test Methods for Assessment of In-Use Fire
Fighter's Protective Clothing

Bei Wang, Beijing, People's Republic of China
Agricultural & Bioresource Engineering- Thesis: Pre-
Treatment of Flax Fibers for Use in Rotationally Molded
Biocomposites

Bin Wang, Saskatoon
Chemistry - Thesis: Study on Face Selective Reactions
of Symmetric Enolates

Travis Kent Wiens, Kipling
Mechanical Engineering - Thesis: An Adjustable-Ratio
Flow Dividing Hydraulic Valve

Jeffrey Charles Wildeman, Esk
Plant Science - Thesis: The Effect of Oat (*Avena
sativa* L.) Genotype and Plant Population on Wild Oat
(*Avena fatua* L.) Competition

Michael Frederick Winter, Saskatoon
Computer Science - Thesis: Developing a Group Model
for Student Software Engineering Teams

Monique Elizabeth Wismer, Macklin
Soil Science - Thesis: *In Vitro* Metabolism of Benzene by
Plant Cell Suspensions

Christopher Mark Worman, Saskatoon
Computer Science - Thesis: Decomposing Polygons into
r-stars or α -Boundable Subpolygons

Peng Xu, Shenyang, People's Republic of China
Computer Science - Thesis: Event-Based
Fault-Managment in MAS

Benjamin Arthur Gary Zettl, Kronau
Mechanical Engineering - Thesis: Effective Finite
Element Modelling of Micro-Positioning Systems

Chun Zhen Zhang, Beijing, People's Republic of China
Plant Science - Thesis: Implementation of
Marker-Assisted Selection for Lodging in Pea Breeding

Master of Veterinary Science

Pamela Boutilier, Halifax, Nova Scotia
Small Animal Clinical Sciences - Project: Whole-Blood
Platelet Aggregation (and Fibrinogen Levels) in Dogs
with Hyperadrenocorticism Before and After ACE-
Inhibitor Therapy

James Michael Dundas, Detroit, Michigan
Small Animal Clinical Sciences - Project: Evaluation of
an Axial Pattern Platysma Muscle Flap Based on the
Superficial Cervical Artery and Vein in Intra-Oral
Reconstruction

Rosemary Christine Postey, Weyburn
Veterinary Pathology - Project: Evaluation of Equine
Papillomas, Aural Plaques and Sarcoids for the Presence
of Equine Papillomavirus DNA and Papillomavirus
Antigen

Doctor of Philosophy

Gail Laurette Andrew, Kapuskasing, Ontario
Psychology - Thesis: A Grounded Theory of Child
Abuse

Stanley Kalman Bardal, Prince Albert
Pharmacology - Thesis: Angiogenic Growth Factors in
the Treatment of Vascular Dysfunction in the
Streptozotocin-Induced Diabetic Rat

Willow Inez Brown, Prince George, British Columbia
Educational Administration - Thesis: Building a
Learning Community Through Restitution: A Case
Study

Cornelia Monika B. Burian, Calgary, Alberta
English - Thesis: Modernity's Shock and Beauty:
Trauma and the Vulnerable Body in D. H. Lawrence,
Rainer Maria Rilke and Virginia Woolf

Jeffery William Dobchuk, Saskatoon
Mechanical Engineering - Thesis: Control of a
Hydraulically Actuated Mechanism Using a
Proportional Valve and a Linearizing Feedforward
Controller

Lorne Edward Doig, Prince Albert
Toxicology - Thesis: Influence of Organic Matter on the
Bioavailability and Toxicity of Nickel to the Amphipod
Hyaella azteca

Heather Elizabeth Duncan, Newdale, Manitoba
Educational Administration - Thesis: Learning
Community Development Online: A Social Capital
Perspective

Julia Beth Ewaschuk, Saskatoon
Nutrition - Thesis: Mechanism and Treatment of
Acidosis in Neonatal Diarrhea

Terrance Alden Fonstad, Clavet
Civil & Geological Engineering - Thesis: Transport and
Fate of Nitrogen From Earthen Manure Storage Effluent
Seepage

Christopher Adam Fullerton, St. Catherines, Ontario
Geography - Thesis: Evaluating Public Transit
Accessibility to Employment: The Case of
Ottawa, Canada

Faycal Haggui, Saskatoon
Agricultural Economics - Thesis: Cost of EU Opposition
to Genetically Modified Wheat in Terms of Global Food
Security

Matthew Eric Loewen, Winnipeg, Manitoba
Veterinary Biomedical Sciences - Thesis: CLCA:
Chloride Channel or Modulator?

Shichun Lun, Saskatoon
Microbiology - Thesis: Regulation and the Role of
Suilysin in Pathogenesis of *Streptococcus suis* Capsular
Serotype 2

Jingxiang Luo, Beijing, People's Republic of China
Computer Science - Thesis: Fast Simulation of Rare
Events in Markov Level/Phase Processes

Marnee Eleanor Maroes, Saskatoon
Psychology - Thesis: The Environment of Sleep in
Families With Infants and Toddlers

Katherine Rose Mehl, Billings, Montana
Biology - Thesis: Brood Ecology and Population Ecology
of King Eiders

Adebola Okunola Obayan, Nigeria
Surgery - Thesis: Oxidative Stress: Natural History and
Modulation in Surgery and Trauma Patients

Chika Benjamin Onwuekwe, Ozubulu, Nigeria
Interdisciplinary Studies - Thesis: The Legal,
Commercial and Social Impacts of Intellectual Property
Right Claims on Plant Genetic Resources and
Traditional Knowledge: The Dilemma of Developing
Countries

Stefan Hans-Gustav Pohl, Freiburg, Germany
Geography - Thesis: Modelling Spatial Variability of
Snowmelt in an Arctic Catchment

George Kow Quainoo, Gomao Ojobi, Ghana
Mechanical Engineering - Thesis: The Effect of Cold
Work on Precipitation in AA6111 Aluminum

Elizabeth Quinlan, Saskatoon
Interdisciplinary Studies - Thesis: Gendered
Determinants of Job-Related Training Participation in
Canada

Vivian Rose Ramsden, Saskatoon
Interdisciplinary Studies - Thesis: Enhancing Wellness
Model: Participatory Development of an Individualized
Wellness/Health Promotion Program Based on the
Integration of Story-Telling and the Health History

Sharon Mary Roset, Saskatoon
Educational Administration - Thesis: Images of Hope:
How Leaders Conceive, Experience and Seek to Foster
Hope

Brian Spencer Schilling, Barriere, British Columbia
Plant Science - Thesis: Physiological and Molecular
Responses of Spring and Winter Canola (*Brassica napus*)
During Cold Acclimation

Suzanne Elizabeth Stewart, Saskatoon
English - Thesis: The Shifting Dimension of Romantic
Space: Social History and Spatial Experience in
William Wordsworth's Poems and J. M. W. Turner's
Paintings

Pushparajah Thavarajah, Saskatoon
Applied Microbiology & Food Science - Thesis:
Isolation, Structural Determination and Mechanism of
Formation of Oligosaccharides in Total Invert Sugar;
Phenolic printing for Apple and Pear Juice Adulteration
Detection

Joel Andrew Tourigny, Calgary, Alberta
Psychology - Thesis: High Risk Environments and Infant
Death: Predicting Psychological and Physical Health
Outcomes with Maternal, Child and Parenting Variables

Bingchen Wang, Saskatoon
Mechanical Engineering - Thesis: New Dynamic
Subgrid-Scale Modelling Approaches for Large Eddy
Simulation and Resolved Statistical Geometry of
Wall-Bounded Turbulent Shear Flow

Jucheng Wang, Saskatoon
Civil & Geological Engineering - Thesis: Influence of
Stress, Undercutting, Blasting and Time on Open Stope
Stability and Dilution
Louise Victoria Wolf, Arran
Pharmacy - Thesis: Hoxa2, Hoxd1 and Pax6 in the
Developing Murine Brain and Neural Retina

Fangxiang Wu, Xi'an, People's Republic of China
Biomedical Engineering - Thesis: Computational
Methods for Analysis and Modeling of Time-Course
Gene Expression Data

Yanping Zhao, Saskatoon
Computer Science - Thesis: Scalable On-demand
Streaming of Stored Complex Multimedia

Congratulations graduates!
