## President's Message

---

### PETER MacKINNON

I want to express a very warm welcome to the graduates, families and friends who join us today. Convocation is the University's most important ceremony, for it is here that we celebrate the accomplishments of our students and the contributions of their loved ones to their success. You should be proud of this day and of the commitment and sacrifice that it represents.

We at the University of Saskatchewan are very proud of our accomplishments, and it is thanks in large part to you, our students, who have helped us to achieve our goal of building a world-class institution of higher learning.

As we celebrate our successes with pride and anticipate our future with excitement, the University of Saskatchewan is ready to expand on the original vision of our founders. Our mission now is to engage fully in all we do, to enlighten all we serve, and to explore all aspects of our world. We hope that you—our graduates—will carry on this same mission as you engage, enlighten and explore within your own new life.

We extend to you our very best wishes for the future. We hope that you will stay in touch with us through our University of Saskatchewan alumni family, and that we will have the opportunity to welcome you 'home' to our campus many times in the years ahead.

Warmest congratulations!

# The Chancellor

---

## VERA PEZER

Dr. Pezer has a long association with the University of Saskatchewan, earning her undergraduate and graduate degrees from the University and serving as Associate Vice-President (Student Affairs and Services) from 1991-2001. Dr. Pezer first joined the University in 1966 in Student Counselling Services and as a part-

time instructor in the Department of Psychology. She would later become Director of Student Counselling, an Assistant Professor of Psychology and Assistant Dean, College of Arts and Science. Under her leadership, student retention and academic success were enhanced and the University's first offices dedicated to student emergency financial assistance, disability services for students, and Aboriginal student support programs established.

She has held volunteer and leadership roles with the Saskatoon Board of Police Commissioners, Saskatchewan Centennial Gala, Hope Cancer Race for Recovery, Saskatoon Housing Coalition, Persephone Theatre, the River Landing Destination Centre and the YWCA. Dr. Pezer has also contributed widely to professional and amateur sports organizations. She is a member and current Chair of the 1989 Jeux Canada Games Foundation,

Director of the 1991 Scott Tournament of Hearts and Ceremonies Chair of the 1989 Brier. As a Sport Psychologist, Dr. Pezer served as an advisor and trainer to Canadian Curling Teams in two Olympic Games.

An accomplished athlete in her own right, Dr. Pezer is a four-time Canadian Ladies' Curling Champion, a Canadian Softball Champion, and two-time member of the Saskatchewan Senior Women's golf team. She has received a place of honour in the Saskatoon and Saskatchewan Sports Halls of Fame and in the Canadian Curling Hall of Fame. In 2003, Dr. Pezer completed her first book, *The Stone Age: A Social History of Curling in the Prairies*. She has just published her second, titled *Smart Curling*. Dr. Pezer was honoured with a Saskatchewan Centennial Medal in 2006, and in 2002, received the University of Saskatchewan Alumni Award of Achievement.

# Alumni Message

---

## HEATHER MAGOTIAUX

Convocation is a great opportunity to reflect on our past accomplishments and look to the future. The leaders and builders of University of Saskatchewan had great vision and expectations for the U of S. I think that you would agree that our University has emerged as a great Canadian university and, in areas of academic preeminence, we are recognized as world leaders. The University of Saskatchewan is a place where great minds meet.

As the graduates receive their degrees today, they join a larger community of over 125,000 U of S alumni worldwide. For more than 100 years, our graduates have become leaders in their chosen professions and enhanced the profile and reputation of the University of Saskatchewan. This responsibility has been passed to you to become our new leaders and innovators. Create a legacy that future U of S students and alumni can celebrate over the next century. And don't forget to stay connected with your University, your College and your classmates during your lifelong journey.

Use your energy to live well, take time to celebrate your many successes and continue to develop your great mind. Congratulations to the class of 2008.

Heather Magotiaux  
Vice-President University Advancement

# Celebrating

## Our Crest

Three Sheaves symbolizing the province

Open Book representing the University

*Deo et Patriae*—our motto—*For God and Country*

**Our Colours** green, white and gold

## Our Song

(An excerpt)

*Sing for Saskatchewan,  
And let your song ring out,  
And rise for Saskatchewan,  
Saskatchewan we shout.*

*Think of the days you've known,  
Inside the Greystone walls,  
Then rise for Saskatchewan,  
Give your song, your heart,  
your all.*

— Words and music by Neil Harris, 1951

## Our Team

The U of S Huskies are at the centre of our school spirit. With over 350 athletes, 15 teams and countless championship titles, the U of S has developed a reputation as a dominant player in interuniversity sports.

# Great Minds

*THORVALDSON BUILDING*

**Since 1907,**

the University of Saskatchewan has been building a proud tradition. We have evolved from a prairie college to a centre of excellence in education and research. Our students, faculty, staff and alumni are a testament to our success. Their example has set a precedent for institutions across Canada, North America and the world.

# Looking BACK

## POPULATION

In 1907, the year the University of Saskatchewan was established, the population of Saskatoon was roughly 4,500 and the province of Saskatchewan, 210,000.

Saskatoon's population today tops 200,000; Saskatchewan's grazes the million mark.

## STUDENTS/FACULTY

In 1909, five faculty members taught the first group of 70 students. Classes were initially held in the Drinkle building in downtown Saskatoon.

Currently more than 1,000 faculty members mentor a student body of nearly 20,000.

## COLLEGES

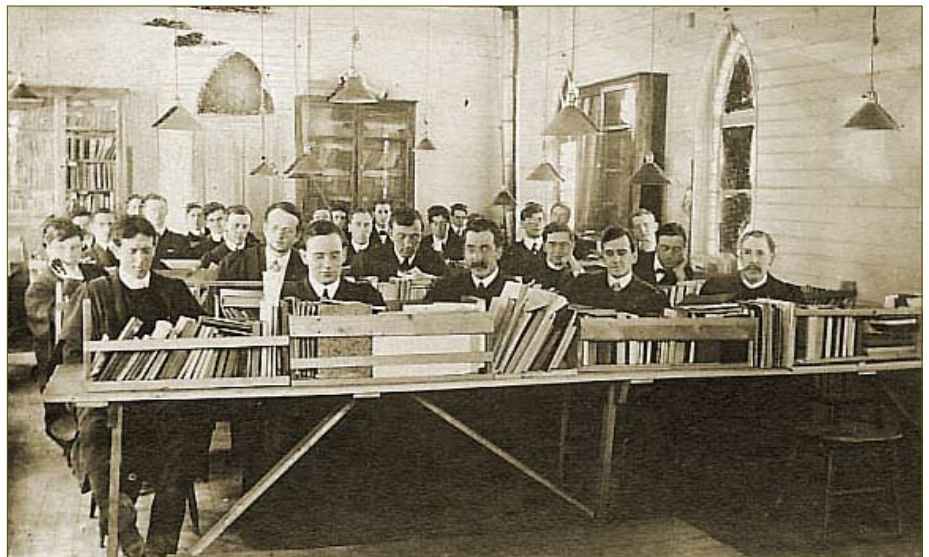

Arts & Science and Agriculture were the first two colleges to be established at the U of S—in 1908 and 1909, respectively. Today, 13 colleges and four schools offer 58 degrees, diplomas and certificates in over 100 areas of study.

## TUITION

In 1909, tuition fees were \$6 per class. Today the cost ranges from approximately \$800 to \$1,400 per class.

## GRADUATES

In 1912, the U of S honoured its first graduating class of seven students. The ceremony was held at Nutana Collegiate. At this year's Convocation spring and fall ceremonies, we will honour nearly 4,000 new graduates.

*Emmanuel College students in the classroom, 1920. A-1606*

“The atmosphere of Saskatoon  
will be changed. We shall rise to  
a higher plane of being.”

*— Comment by local lawyer R.W. Shannon upon learning that  
Saskatoon had been chosen as home to the province's University*

The University of Saskatchewan was established by the University Act on April 3, 1907, only 18 months after Saskatchewan became a province.

The people of the province, as well as their government, were instrumental in shaping the new University. The provincial government requested all residents who were graduates of a Canadian or British university to form the first Convocation and elect the University's Senate. In 1908, the Board selected Professor

Walter Charles Murray, of Dalhousie University, as the first President.

Classes in Arts and Science began in September, 1909, in downtown Saskatoon. Construction of the campus began in 1910 and the first buildings were occupied in the fall of 1912. They included the College Building (Administration Building), Saskatchewan Hall (a student residence), residences for the Dean of Agriculture and the President, a laboratory for Engineering and a number of farm buildings.

*College Building construction takes shape, November 1911. A-23*

From the beginning, the University established an emphasis on research and teaching in a context of community service, and encouraged co-operation among departments and divisions in tackling common problems. The development of rust-resistant strains of wheat, for example, initiated by the University and federal and provincial research agencies, has been of untold value to the prairie economy.

In 1909, the University had 70 students and five professors, including the President. Today there are over 19,000 students studying in 13 colleges and four schools. This is the only university in Canada with five health-science colleges and a major teaching hospital on the same campus.

The University of Saskatchewan overlooks the South Saskatchewan River. Most early buildings on campus are Collegiate Gothic in style and are constructed in a local dolomite, popularly known as greystone. Subsequently

constructed buildings also have greystone, as well as Tyndall stone (pre-cut slabs quarried in Tyndall, Manitoba), concrete, brick, glass and aggregate facings.

The University offers many points of interest for visitors: the Diefenbaker

Canada Centre, Museum of Natural Sciences, Museum of Antiquities, Biology Museum, Pharmaceutical Museum, the Observatory, the Gordon Snelgrove Gallery, the St. Thomas More Gallery, Rugby Chapel, the Little Stone Schoolhouse, the Memorial

Gates, Patterson Garden and the Kenderdine Gallery.

*First U of S president  
Walter Murray, 1908. A-5533*

*University students snake dance through  
downtown traffic, 1950s. A-6267*

## LOOKING *forward*

With sights firmly fixed on the future, the University of Saskatchewan has embarked on an ambitious effort to advance its already significant contribution of knowledge, innovation and leadership to the people and economy of this province, this country and the world.

Our plan commits energy and resources where they count the most—to enhancing the student experience, to encouraging collaboration and to supporting research, scholarly and artistic endeavour.

Success will require that University of Saskatchewan students be well prepared to thrive in the ‘knowledge age,’ that they be equipped to succeed. In the coming years, the University will explore improvement and innovation both inside the classroom and out, all the while ensuring the campus remains a welcoming place for Aboriginal students, students from other parts of Canada and those from nations around the world.

The future will also see the University establish across the institution a culture of research and scholarship that attracts top faculty and students. Supporting this move are world-class facilities that are already in place, like the Vaccine and Infectious Disease Organization (VIDO), or are under construction, such as the \$251-million Academic Health Sciences project. These and other facilities will play a role in shining the light on current and emerging areas of excellence.

In keeping with our founders’ early vision, the University of Saskatchewan will continue to be a model of innovation, excellence, diversity and leadership throughout the post-secondary education sector, and beyond.

**T**he word "Convocation" arises from the Latin "cum" meaning "together," and "vocare" meaning "to call." Our Convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of Convocation are the election of representatives to University governing bodies and the admission of candidates to degrees. The Chancellor, elected by Convocation as its Chair, is the highest official and spokesperson of the University.

*The Convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges.*

*The ceremony, solemnized in the presence of the University community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the President's statement to the graduands, the Secretary's petition and the Chancellor's consent for their admission; followed by individual presentation by their Dean and admission by the Chancellor to the degrees to which they are entitled. As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate's head.*

# Invocation

## ENTRANCE

The members of Convocation in their academic robes march in procession into the ceremony in the following order: Graduands in the order in which their degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor; The Lieutenant Governor. When the members of Convocation reach their places they remain standing during the Vice-Regal Salute, the singing of *O Canada* and the Invocation.

## ORDER OF THE CEREMONY

The first business is the Conferring of Honorary Degrees, followed by Convocation Address, President's Statement to the Graduands, the Conferring of Degrees and the Presentation of Awards. The meeting is closed by the Chancellor rising and asking the audience to join in the singing of *God Save the Queen* and leading the procession in the reverse order out of the hall.

## DEGREE CEREMONY

The ceremony comprises the Petition, the Admission, and the Presentation.

## THE PETITION

The University Secretary on behalf of all the Candidates, addresses the Chancellor and Senate in these words:

*"Eminent Chancellor, President, I present to you the petition that the candidates to be named, having fulfilled all the requirements of the statutes, may be admitted to the degrees and certificates to which they are entitled".*

## THE ADMISSION

The Chancellor then addresses the candidates in these words:

*"By virtue of the authority vested in me by the Legislature of this Province, and with the consent of the Council of this University, I consent to admit you to the degrees and certificates to which you are entitled and to invest you with all the powers, rights and privileges pertaining thereto."*

## THE PRESENTATION

The Dean of the Faculty, or designate, followed by the candidates of that Faculty, approaches the Chancellor from the left and presents the candidates with these words:

*"Eminent Chancellor, on behalf of the Faculty of \_\_\_\_\_, I present to you these Scholars and ask that you will confer on them the degree of \_\_\_\_\_."*

As the Dean speaks the candidate's name in full, the candidate moves forward in front of the Chancellor. Then the Chancellor says, *"I admit you"* and the University Secretary or the Registrar places the hood over the candidate's head. Hereupon the candidate passes to the Chancellor's right, is greeted by the President, and receives the degree parchment.

## DEGREES IN ABSENTIA

In such cases, the University Secretary says:

*"Eminent Chancellor, in the name of the Faculties, I ask you to grant the degrees and certificates, in absentia, to those students whose names appear in the printed program and who were not able to be present today."*

The Chancellor replies:

*"At the request of the Faculties I authorize these degrees and certificates to be granted."*

# The Convocation Ceremony

---

## ACADEMIC COSTUMES

Academic costume lends an element of colourful pageantry to the Convocation proceedings. This traditional clothing—worn on a daily basis at universities in earlier times—is now more commonly reserved for ceremonial functions.

At the University of Saskatchewan, the following academic costume is adopted to be worn upon all appropriate occasions:

The gown resembles a long cape with full sleeve cut to elbow and terminating in a point for the Bachelor's degree; with long sleeve and a semi-circular cut at the bottom for the Master's degree; and with round open sleeves for the Doctor's degree. The material is black for the Bachelor's degree, and black material or silk for the Master's and Doctor's degrees. The Doctor's gown may have a border down the front on either side of a color distinctive of the character of the degree.

The hoods for the Bachelor's and Master's degrees are of black broadcloth. For the Doctor's (Ph.D.) degree the hood is scarlet cloth with a blue lining. The Master's and Doctor's hoods have a lining and the Bachelor's an edging (and in some cases, a lining) of a color distinctive of the character of the degree.

## UNDERGRADUATE

**Agriculture and Bioresources** (Bachelor of Science in Agribusiness) – turquoise band of trim

**Agriculture and Bioresources** (Bachelor of Science in Agriculture) – light blue band of trim

**Advanced Certificates** – Current degree colour worn on shoulders

**Arts** (Bachelor of Arts) – white satin band of trim

**Dentistry** (Doctor of Dental Medicine) – mauve lined hood and band of trim

**Education** (Bachelor of Education) – violet band of trim

**Edwards School of Business** (Bachelor of Commerce) – maroon outside band of trim and silver inside band of trim

**Engineering** (Bachelor of Science in Engineering) – dark red band of trim

**Fine Arts** (Bachelor of Fine Arts) – pink outside band of trim and white inside band of trim

**Kinesiology** (Bachelor of Science in Kinesiology) – gold lined hood with green band of trim

**Law** (Bachelor of Laws) – gold band of trim

**Medicine** (Doctor of Medicine) – deep rose lined hood and band of trim

**Music** (Bachelor of Music) – red band of trim

**Nursing** (Bachelor of Science in Nursing) – gold lined hood and red band of trim

**Nutrition** (Bachelor of Science in Nutrition) – green lined hood and band of trim

**Pharmacy** (Bachelor of Science in Pharmacy) – gold outside band of trim and purple inside band of trim

**Physical Therapy** (Bachelor of Science in Physical Therapy) – gold outside band of trim and deep rose inside band of trim

**Science** (Bachelor of Science) – teal blue band of trim

**Veterinary Medicine** (Doctor of Veterinary Medicine) – gold lined hood and deep blue band of trim

## GRADUATE

**Master of Agriculture** – light blue lined hood and band of trim

**Master of Arts** – white lined hood and band of trim

**Master of Business Administration** – burgundy lined hood and band of trim

**Master of Educational Foundations** – violet lined hood and gold band of trim

**Master of Education** – violet lined hood and band of trim

**Master of Engineering** – maroon lined hood and band of trim

**Master of Fine Arts** – pink lined hood and band of trim

**Master of Science in Kinesiology** – gold lined hood and green band of trim

**Master of Laws** – gold lined hood and band of trim

**Master of Music** – red lined hood and band of trim

**Master of Nursing** – red lined hood and band of trim

**Master of Professional Accounting** – grey lined hood and band of trim

**Master of Public Health** – brown seal lined hood and band of trim

**Master of Science** – teal blue lined hood and band of trim

**Master of Veterinary Medicine** – deep blue lined hood and band of trim

**Post Graduate Diploma** – current degree colours worn on shoulders

**Doctor of Philosophy** – red with blue silk lining

**Earned D.Sc. and D.Litt.** – red with green silk lining

## HONORARY DEGREES

**D.Sc. and D.Litt.** – red with gold lining

**LL.D.** – red with gold lining

**Chancellor** – a black silk robe with crimson velvet sleeves, trimmed round the collar and down the front edges with broad gold lace (and round the bottom of the sleeves with narrower gold lace), and a black silk velvet trencher with gold button and tassel.

**Vice-Chancellor** (President) – same design as the Chancellor's gown and trencher. The Vice-Chancellor's gown shall be of the same material as the Chancellor's but with silver braid on the facing instead of gold and a black silk velvet trencher with silver button and tassel.

## PAUL-ANDRÉ CRÉPEAU

Paul-André Crépeau was born in Gravelbourg, Saskatchewan on May 20th, 1926, and the Crépeau family was part of the early history and politics of Saskatchewan. However, following the sudden death of his father, a young Crépeau and his mother left Saskatchewan in 1943 and settled in Ottawa where Crépeau's two sisters had joined the Civil Service and where he pursued his academic studies at the University of Ottawa.

Dr. Crépeau went on to an extraordinary career, training as a

Rhodes Scholar in common law and comparative law at the University of Oxford and attaining a doctorate in classical civil law from the Université de Paris. He has six earned degrees from the University of Ottawa (1946, 1947), the Université de Montreal (1950), the University of Oxford (as a Rhodes Scholarship Recipient, 1952), the Université de Paris (1955) and the International Faculty of Comparative Law of Strasbourg (1959). Professor Crépeau has also received seven Honorary Doctorates from universities in Canada and Europe. Throughout his long and highly distinguished career, Professor Crépeau has always paid tribute to his formative years growing up in Saskatchewan.

Professor Crépeau is widely recognized in the university community in Canada as one of the founders of the academic tradition in the law and is generally hailed as the spiritual father of the Civil Code of Quebec and the Quebec Charter of Human Rights and Freedoms. His work in the law of obligations and Private International Law over nearly fifty years at McGill University has set the highest standard

for teaching and scholarship in law in Canada. He has written prolifically in French and English and his many books and articles on the Civil Law are considered to have shaped the development of the law over the last generation. Professionally, his unflagging leadership in learned societies has been a strong theme throughout his career.

Professor Crépeau, a Fellow of the Royal Society of Canada, was made a Companion of the Order of Canada in 1992. He is winner of Quebec's highest honour for academic work in the humanities and the social sciences (Prix Léon-Gérin). In recognition of his contribution to internationalism and the law, the Canadian Bar Association created the "Paul-André Crépeau Medal in International Commercial Law" in 2001.

Professor Crépeau now makes his home in Quebec where he was intimately involved in the reform of the Civil Code of Quebec and as Director Emeritus of the Centre for Private and Comparative Law at McGill, which he founded in 1975.

## Earned Doctor of Science

---

M. JIM HENDRY

Dr. M. Jim Hendry is an internationally renowned researcher in aqueous and environmental geochemistry, and he currently holds an unprecedented third five-year term at the University of Saskatchewan (U of S) as a Senior NSERC Industrial Chair.

In 1995, Dr. Hendry became the first-ever appointee to the position of Endowed Cameco Research Chair in Aqueous and Environmental Geochemistry in the Department of Geological Sciences, U of S, where he established and now leads a large, highly productive, internationally recognized research group that studies the long-term

migration of contaminants in the subsurface of the earth.

Much of the research that is undertaken by Dr. Hendry and his research group is directly relevant to the mining (uranium, potash, and the oil sands) sector, not only in Canada but also around the world. His findings have allowed industries to better evaluate the potential environmental impact of their waste rock and mine tailings, and his research into the short- and long-term migration of contaminants through clay-rich media is being used as a benchmark for nuclear-waste disposal. His clay-based research has also assisted the potash industry to assess the long-term impact of brines and led to additional research on behalf of Syncrude Canada Ltd. into the long-term containment of sulfuric acid produced in oil-sands development.

Dr. Hendry's research expertise has been recognized by the international scientific community through such prestigious awards as the Distinguished Henry Darcy Lectureship (2000), the John Hem Award for Excellence in Science and Engineering (2003), and the U of S Distinguished Researcher Award (2006). In September, 2008,

Dr. Hendry and Cameco Corporation were presented with the highly prestigious Synergy Award from NSERC, an annual prize that honours the most outstanding achievements resulting from university-industry collaboration.

Born in Scotland, Jim immigrated to Canada as a child, and spent his youth living in both northern and southern Ontario. He received his Ph.D. in hydrogeology from the University of Waterloo in 1984. Prior to joining the U of S in 1995, he worked as a consultant for firms in Ontario and British Columbia, established and led groundwater research groups for both provincial and federal government agencies, and was director of research for the world's largest international groundwater association.

Dr. Hendry has published more than 125 refereed scientific papers and his expertise is frequently sought by the private sector and governments. The dimensions of the global social benefits to communities worldwide of Dr. Hendry's research, from clean secure groundwater resources and a protected environment, are likely to be only fully gauged in the next half century.

## Alumni Award of Achievement

---

RUSS KISBY (1940-2007)

Perhaps no one knew better than Russ Kisby what it took to change the attitude of Canadians toward physical fitness and health.

Known as one of the founders of the health promotion program ParticipACTION, Kisby (BAPE'63) devoted almost a quarter century to the organization, traveling the country and the world to work with

governments, the media, volunteer organizations and the private sector promoting the long-term benefits of physical activity and a healthy lifestyle. His ability to "move a nation" earned him many accolades, including this year's Alumni Achievement Award.

Born in Yorkton, Kisby did most of his schooling, including an undergraduate degree in physical education, in Saskatoon. His early professional career was spent with the YMCA of Canada in Montreal, moving on to the national level of that organization. In 1972, he joined the federal government-initiated program ParticipACTION and served as its president from 1978-2001. With the re-launch of the program in 2006, he continued his involvement, this time as an advisor.

Among the awards presented to Kisby during the course of his career were the R. Tait McKenzie Honour Award of the national physical education

professional association, the federal government Canada 125 medal, the Dr. Harold M. Segall Award of Merit from the Canadian Cardiovascular Society, the 2000 World Sport for All Award and an honorary doctor of laws degree from the U of S in 1996 "for commitment to promoting a healthier lifestyle for people of all ages."

While his activities took him around the world, Kisby remained closely connected to his alma mater, serving as honorary spokesperson for the U of S Annual Fund in 1999, providing valuable counsel to the "in motion" consortium that includes the U of S, and supporting students by establishing, with his wife Merle, the Kinesiology Aboriginal Student Award.

Russ Kisby died July 20, 2007 at his home in Ontario. His obituary in the *Globe & Mail* requested that donations made in his name "be followed by a brisk fitness walk."

## Distinguished Graduate Supervisor Award

---

### FRANÇOIS MESSIER

François Messier is a professor of wildlife ecology in the Department of Biology, Division of Science, College of Arts and Science.

Messier received his Ph.D. from the University of British Columbia in 1984. After a three-year postdoctoral

appointment at Laval University, he joined the University of Saskatchewan in 1987 as a University Research Fellow. He was appointed Professor in 1995 and served as Department Head of Biology from 2003 to 2008.

His major research interest focuses on the population ecology of mammals, specifically species at risk in Canada such as grizzly and polar bears. The research programme of Messier is directed at ecological phenomena influencing the population dynamics of large mammals. The research findings of his lab were pivotal in addressing key conservation issues dealing with human harvest, habitat losses, and diseases in mammalian wildlife in Canada. Probably his most important scientific contribution relates to the far better ecological knowledge we now have for polar bears in the Arctic, at a time when

conservation issues for this wildlife species are growing due to global environmental changes.

All through his career, the training of graduate students has always been of utmost priority. Messier supervised to completion 14 Ph.D. and four M.Sc. students, in addition to the two Ph.D. and one M.Sc. currently pursuing their graduate programmes. Three of his students now hold academic appointments and five others are senior scientists in research institutions in Canada. His supervision style is based on skill building among his students, from project design, budget planning, personnel management, and scientific writing. Team work is the name of the game in his lab. Enthusiasm and critical questioning form the essence of his approach with graduate students.

# J.W. George Ivany Internationalization Award

---

## GREG POELZER

For almost twenty years, Greg Poelzer has been an enthusiastic advocate for Northern, and subsequently international, post-secondary education and research. His passion for Northern politics and development grew out of his experience as a doctoral student at the University of Alberta where he taught political science in Aboriginal social work programs across Northern Alberta. In 1991, he spent four months in Siberia working in remote Indigenous communities and has been to Russia more than twenty times since. Prior to coming to U of S, Poelzer was Chair of the Department of Political Science

at the UNBC and served as the founding chair of the first bachelor's degree program in Northern Studies in Canada.

In 2003, Poelzer joined the Department of Political Studies and was appointed the inaugural Dean of Undergraduate Studies of the University of the Arctic (UArctic), an international consortium of 110 universities, colleges, and Indigenous organizations from the eight Arctic states. From 2003 to 2008, Poelzer provided visionary leadership in the development and delivery of the Circumpolar Studies (BCS) curriculum, and as head of the Canadian national funding team. His efforts helped the program grow from 66 students internationally in 2003 to see more than 5000 completing UArctic courses by 2008. The extremely popular student exchange programs offered through UArctic's North2North program feature U of S consistently having the largest number of outgoing students and scholarship recipients. Since 2006, successive cohorts of Northern and Aboriginal students from Norway, Russia, Canada, and Iceland have graduated with bachelor's degrees through UArctic programming.

Through UArctic Poelzer has brought together two goals of University of Saskatchewan—internationalization and sense of place, the North. He takes particular pride in the innovative cooperation among UArctic, Northlands College, and University of Saskatchewan. This past year, Canada's first graduates through UArctic programming came from Northern Saskatchewan—Buffalo Narrows, Creighton, and La Ronge. These students were able to complete university degrees in their communities by taking courses on-line with other students internationally.

His efforts, enthusiasm and vision have unified 110 international organizations around a single project and have seen numerous foreign guests visiting U of S to seek further collaboration. He has raised our profile internationally, increased student mobility, and dramatically expanded educational access to northern residence across the globe.

This September Poelzer was appointed Interim Director of the International Centre for Governance and Development where he most assuredly will continue to do extraordinary work supporting the Internationalization of University of Saskatchewan.

# Master Teacher Award

---

## ANGELA WARD

Angela Ward completed her BA degree in English Language and Literature at the University of London (UK), her MEd at UBC and her PhD at the University of Victoria. Through more than thirty years of teaching and learning in western and northern Canada, Ward has come to understand that education permeates almost everything she does. Her teaching

does not depend only on particular instructional strategies and techniques, but on creating a learning community where students feel able to question their own assumptions, link content to practical and professional knowledge and to develop critical and creative perspectives on education.

As a classroom teacher in British Columbia, Ward learned responsiveness to cultural difference as she taught First Nations students in elementary and high schools. The aspiration to support social justice for indigenous peoples has been a thread in professional and academic activities undertaken throughout her 18 years teaching undergraduate and graduate students at the University of Saskatchewan.

Teaching in a professional college demands multiple layers of engagement. There is certainly content to be learned, but it is content that has application to the field of education.

As a teacher educator Ward helps teacher candidates focus on processes of learning, set educational goals in a range of contexts, manage learning environments and engage their own students. Ward has team-taught with several faculty members, developing innovative integrated courses in social studies and language arts methods, and is currently out in schools supervising intern teachers during their extended practicum experiences.

For Ward, teaching does not reside only in the classroom. Her writing and research also contribute to the field of education. As well as papers at academic conferences, she has also presented many workshops on a range of literacy issues to teachers in North America, Europe, Guatemala and Kazakhstan. Ward envisions her work as preparing teacher candidates for teaching in an open, inclusive Canada that recognizes the varying rights and responsibilities of all members of our society.

## Award for Distinction in Outreach and Engagement

---

### SARAH BUHLER

Sarah Buhler, a sessional lecturer in the College of Law, has been recognized for distinction in outreach and engagement for her outstanding contributions to legal assistance. She has made an exceptional contribution to the legal community through her involvement with the re-establishment of the Clinical Legal Education program for the College of Law and her work in Saskatoon's inner city community through Community Legal Assistance Services for Saskatoon Inner City, a not for profit agency and poverty law clinic known as CLASSIC.

CLASSIC provides free legal assistance to low-income clients, with a special emphasis on addressing needs of the inner city Aboriginal community. CLASSIC programming consists of a Walk-in Advocacy Clinic and a Legal Advice Clinic (LAC). Buhler serves as the Executive Director and Supervising Lawyer in overseeing the student lawyers, recruiting volunteer lawyers and engaging the community. Students gain practical legal experience, insights into the social reality of law and social justice as well as new cultural understandings. The exciting aspect of this has been the engagement of the community through referrals from other agencies in the City, and strong partnerships built with fellow community organizations. CLASSIC is also involved with community outreach in the form of public legal education initiatives.

CLASSIC has received the Law Society of Saskatchewan's C. Willy Hodgson Award for exemplifying integrity, leadership and character and making contributions to advancing equity and diversity in legal education. CLASSIC also was honoured with the prestigious Canadian National Pro Bono Award in September 2008.

One of her nominators described Sarah's teaching and engagement efforts as having "a powerful experience for students, most of whom have no other opportunity to become involved with Saskatoon's inner city community. It is the kind of experience that opens doors for future collaborative initiatives and good will. It is the kind of experience that brings the University into the community in a very concrete way." Another nominator said that Buhler "has demonstrated her involvement with lifelong learning and continuing education, service and clinical learning...[and] she has enhanced the community partnerships that are essential to the success of CLASSIC."

Buhler's outreach and engagement activities have had substantial impact and long-term significance for the University, for the lives of clients, the inner city and the broader legal community. She is truly deserving of the University of Saskatchewan's Award for Distinction in Outreach and Engagement.

## President's Service Award

---

### CATHERINE GUNDERSON

Cathy Gunderson has devoted the past 25 years to slowly and methodically transforming the university's unique Museum of Antiquities from a little-known and sequestered resource into a campus centerpiece where students, faculty and visitors can find common ground for study and dialogue. Her persistence, skillful management and dedication to the museum have earned her the University of Saskatchewan's President's Service Award.

Educated in classics and ancient history, Gunderson began work as the part-time museum administrator in 1983, when it was housed on the second floor of the main library.

Singlehandedly at first, then with the help of student volunteers, she transformed what was simply a collection of replicas of ancient art into a true museum by establishing proper filing and record-keeping systems, developing guides and setting up an award-winning web page. It was a time of much "on the job" learning as she dedicated extensive time and energy to learning about curatorial practices and museum management.

Gunderson was responsible for establishing the day-to-day management of the museum, including a policy and procedure manual while at the same time playing a key role in acquisitions. Working with an advisory committee, she oversaw the growth of the collection through donations and through her energetic pursuit of grants and other funding opportunities.

Her success at expanding the museum collection created a critical crowding situation in its library location, but with the restoration of the College Building, Gunderson saw an opportunity to move the museum to a much-deserved higher profile locale on campus. Her widely acknowledged skill as a negotiator played an

important role in the museum becoming a much more visible and accessible asset when it was moved into coveted space in the College Building in 2005.

As the collection expanded, Gunderson worked hard to ensure key pieces—the Charioteer of Delphi, the Rosetta stone and the Venus di Milo—anchored the museum's permanent exhibit while special exhibits highlighted new acquisitions and special parts of the collection. The museum is also a vital resource for university students, teachers and researchers, providing a 'laboratory' filled with physical evidence of the ancient world. Summer camps for young children that allow them to learn and explore that ancient world are another of this innovative museum director's initiatives.

Scholarship, administration, acquisitions, exhibits, education programming and mentoring of museum volunteers—Cathy Gunderson's days are full as this professional, versatile and resourceful woman continues to devote herself to what has become a truly vibrant Museum of Antiquities at the University of Saskatchewan.

# Distinguished Researcher Award

---

ROANNE THOMAS-MacLEAN

The Distinguished Researcher Award recognizes a faculty member's contribution to scholarship through creation, expansion, and critique of knowledge. Roanne Thomas-MacLean, associate professor of sociology, is the Fall 2008 award recipient.

Professor Thomas-MacLean has demonstrated that she is a major contributor to primary health care and women's health research. Colleagues have described her as a leading researcher of her generation and an ambassador for the University of Saskatchewan.

This high praise results from unique research endeavors that address the

struggles of breast cancer survivors, such as the Visualizing Breast Cancer project. This project asked Aboriginal women to photograph their breast cancer experiences in an effort to put new and more diverse faces on the disease. Impressively, the women from this study have met with breast health organizations to begin to create policies that recognize the needs of women diagnosed with breast cancer.

In another innovative study called Charting the Course of Arm Morbidity in Breast Cancer, Thomas-MacLean is focusing on the long-term impact of disability after breast cancer. With support from the Canadian Institutes of Health Research and Canadian Breast Cancer Research Alliance, she is working with 745 breast cancer survivors. According to her colleagues, it is generating worldwide interest as it is the largest arm morbidity study ever conducted.

These studies and new approaches to mixed-methods research have resulted in 15 peer-reviewed articles in prominent publications such as Social Science & Medicine, Oncology Nursing Forum, Canadian Family Physician and Qualitative Health Research. She has also contributed chapters to books on healthcare

ethics, cross-cultural research, and women's health.

Thomas-MacLean's growing reputation as a prominent health researcher has been recognized by peers and national research agencies. The Canadian Breast Cancer Research Alliance, Ontario Women's Health Directorate and Canadian Institutes of Health Research have recruited her to participate in a peer review committee and contribute to workshops.

Beyond research, Thomas-MacLean is known for mentoring students. She is supervising eight graduate students and participating in several graduate committees. Her graduate students are researching photovoice, ethnodrama, the meaning of work for physicians and young adults at end of life.

She began her academic career by completing a BA in sociology from Trent University. Following this, Thomas-MacLean completed a master's degree and PhD in sociology at the University of New Brunswick. She then held a postdoctoral fellowship with the University of Western Ontario until she joined the University of Saskatchewan as an assistant professor in 2004.

# President's Medal

---

This medal is awarded to the undergraduate student with the highest academic standing at Fall Convocation.

## LAUREN MARIE BULL

Lauren Bull, the youngest in a family of three children, was born and raised in Saskatoon, Saskatchewan. She graduated from the French Immersion Program at Walter Murray Collegiate.

Bull entered the College of Arts & Science in September 2005 to pursue a B.Sc. Degree and graduates today with a B.Sc. Three-year Degree with a major in Physiology with Great

Distinction. Bull has been the recipient of numerous awards during her academic career. As a member of the University of Saskatchewan Greystone Scholars Society, she received the Centennial Merit Scholarship. Bull has also received the Heart and Stroke Foundation Scholarship and numerous University of Saskatchewan Undergraduate Scholarships.

Bull's extracurricular activities include dancing, which she has done for 16

years, playing volleyball and basketball. She has volunteered with SARBI (Saskatchewan Association for the Rehabilitation of the Brain Injured) for the first Canadian "LAPS" walk in 2008.

Lauren Bull has been admitted to the Doctor of Dental Medicine (D.M.D.) four-year degree program in the College of Dentistry at the University of Saskatchewan. When she completes the program in 2012, Lauren plans to practice dentistry in Saskatchewan.

Computer Science – Thesis: Steering in Layers above the Display Surface

Xiao Bo Alice Li  
People's Republic of China  
Mathematics – Thesis: Multiple Significance Tests and Their Relation to P-Values

Yuxuan Meng  
People's Republic of China  
Computer Science – Thesis: The Runtime Behavior of Composite SOAP Web Services under Transient Loads

Tor Mobjerg Pedersen  
Squamish, British Columbia  
Physics – Thesis: Electronic Structure of Manganese Doped Pentacene

# Arts & Science

## Degrees, Diplomas and Certificates

---

Jeffery Bruce Pfeifer  
Young

Physics – Thesis: A SuperDARN Study of Steady  
Magnetospheric Convection

Erika Eliese Quiring  
Christopher Lake

Biology – Thesis: Uptake and Sedimentation of Arsenic,  
Nickel and Uranium from Uranium Mine-Impacted Water by  
*Chlamydomonas noctigama*

Kerry Ann Sproule  
Watson

Biology – Thesis: Microtubule Involvement in the Plant Low  
Temperature Response

Ling Xu  
Ottawa, Ontario

Computer Science – Thesis: Modeling Dendritic Shapes  
Using Path Planning

Karolina Zurowska  
Poland

Computer Science – Thesis: Model Aware Execution of  
Composite Web Services

### DOCTOR OF PHILOSOPHY

Mahshid Atapour  
Iran

Mathematics – Thesis: Topological Entanglement Complexity  
of Systems of Polygons and Walks in Tubes

Choon-Lee Chai  
Malaysia

Sociology – Thesis: Science and Modernity: Modern Medical  
Knowledge and Societal Rationalization in Malaysia

Therese Anne Daniels  
Peterborough, Ontario

Psychology – Thesis: Boundary Violations in Forensic  
Inpatient Facilities: Survey Tool Development and Survey  
Results

Rory Frank Degenhardt  
Hughenden, Alberta

Biology – Thesis: The Ribosomal Protein L23a Family  
*Arabidopsis thaliana*

Brendan Frederick R Edwards  
Saskatoon

History – Thesis: A War of Wor(l)ds: Aboriginal Writing  
in Canada during the “Dark Days” of the Early Twentieth  
Century

Lee Kenna Malitza Everts  
Frankford, Ontario

Geography and Planning – Thesis: Exploring the Meanings &  
Cultural Landscaping of Elder Residents in Two Saskatchewan  
Rural Communities

Leah Jean Hatton  
Montreal, Quebec

Psychology – Thesis: Posttraumatic Stress Disorder in Infancy  
and Early Childhood

Melanie Marie Langford  
Calgary, Alberta

Psychology – Thesis: The Efficacy of a Combined Cognitive-  
Behavioural and Interpersonal Therapy Approach to the  
Treatment of Fibromyalgia Syndrome: A Randomized  
Controlled Trial

Holly Rae Luning  
Lumsden

English – Thesis: Eliza Haywood: The Print Trade and Cultural  
Production

Jennifer Leah Mazur  
Victoria, British Columbia

Psychology – Thesis: Exploring the Mechanisms of Sex and  
Grade Differences in Relational/Indirect/Social Aggression

Keivan Mohajer  
Iran

Mathematics – Thesis: Some Distributional Solutions of the  
CH, DP and CH2 Equations and the Lax Pair Formalism

Trevor Randell Olson  
Saskatoon

Psychology – Thesis: Can Defence Mechanism Aid in the  
Differentiation of Depression and Anxiety

Shelley Renee Rhyno  
Saskatoon

Psychology – Thesis: In the Mood to Forget: Paradigmatic  
and Individual Differences in Remembering and Forgetting  
Negative Self-Relevant Memories

Alissa Jennifer Schactman  
Victoria, British Columbia

Psychology – Thesis: Emotion Regulation and Behaviour  
Problems in Young Children Exposed to Domestic Violence

Lara Jennifer Spagrud  
Saskatoon

Psychology – Thesis: Investigating the Relationship between  
Children's Self-Reported Coping Strategies and Repeated  
Needle Pain

Keira Corinne Stockdale  
Peterborough, Ontario

Psychology – Thesis: The Validity and Reliability of the  
Violence Risk Scale- Youth Version (VRS-YV)

THORVALDSON BUILDING

## Graduates of

Agriculture & Bioresources, Edwards School of Business, Education,  
Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition,  
Physical Therapy and Veterinary Medicine

Ceremony 2

Saturday, October 25, 2:00 p.m.

Undergraduate degrees, graduate degrees, diplomas and certificates for the graduates of

**Agriculture & Bioresources, Edwards School of Business, Education,  
Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition,  
Physical Therapy and Veterinary Medicine**

October 25, 2008 • 2:00 p.m.  
Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE-ADDRESS	University of Saskatchewan Alumni Association
PROCESSION	Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor
WELCOME	Lea Pennock, University Secretary
O CANADA	Kayleigh Harrison
INVOCATION	Father André Lalach, University Chaplain
INTRODUCTIONS	Lea Pennock, University Secretary
CONFERRING OF HONORARY DOCTOR OF LAWS DEGREE	Paul-André Crépeau Presented by Brent Cotter, Dean of Law
PRESIDENT'S ADDRESS	Peter MacKinnon
MUSICAL INTERLUDE	<i>Ride</i> by Samuel R. Hazo The University Wind Orchestra conducted by Glen Gillis
CONFERRING OF DEGREES	
PETITION FOR ADMISSION	Lea Pennock, University Secretary
PRESENTATION OF GRADUANDS TO THE CHANCELLOR	Agriculture & Bioresources presented by Dean Graham Scoles Business presented by Dean Grant Isaac and Associate Dean Brooke Dobni Education presented by Associate Dean Len Haines Engineering presented by Dean Janusz Kozinski Kinesiology presented by Associate Dean Adam Baxter-Jones Law presented by Dean W. Brent Cotter Medicine presented by Associate Dean Nick Ovsenek Nursing presented by Dean Lorna Butler Pharmacy presented by Associate Dean A. J. Rémillard Nutrition presented by Associate Dean A. J. Rémillard Veterinary Medicine presented by Associate Dean Gillian Muir Doctor of Philosophy presented by Associate Dean Trevor Crowe
ADMISSION TO DEGREES IN ABSENTIA	Vera Pezer, Chancellor

PRESENTATION OF AWARDS TO THE  
MOST DISTINGUISHED GRADUATES

The Goodspeed Award in Business presented to Laura Zlotkin-Leslie

Saskatchewan Teachers' Federation Prize presented to Rene Valmond-Babineau

University Prize in Nursing presented to Carol Heusdens

The College of Nursing 70th Anniversary Award:\* **Undergraduate** – Carol Heusdens  
**Graduate** – Celeste Dumonceaux

\*This is a one-time award to an undergraduate and graduate student graduating this year; it is in honor of the College's 70th anniversary

PRESENTATION OF AWARDS TO ALUMNI  
AND FACULTY

Alumni Award of Achievement presented to Russ Kisby (posthumously)

Master Teacher Award presented to Angela Ward

Award for Distinction in Outreach and Engagement presented to Sarah Buhler

MESSAGE FROM THE ALUMNI ASSOCIATION

University of Saskatchewan Alumni Association

CONCLUDING REMARKS

Vera Pezer, Chancellor

GOD SAVE THE QUEEN

*God save our gracious Queen,  
Long live our noble Queen, God save the Queen.*

*Send her victorious, happy and glorious,  
long to reign over us, God save the Queen.*

# Agriculture & Bioresources, Edwards School of Business, Education, Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition, Physical Therapy and Veterinary Medicine

## Degrees, Diplomas and Certificates

---

### CERTIFICATE IN INDIGENOUS PEOPLES RESOURCE MANAGEMENT

Tina Anna Benoit  
Conne River, Newfoundland and Labrador

Cheryl Darlene Bryce  
Victoria, British Columbia

Guylaine Simard  
Mashteuiatsh, Quebec

### BACHELOR OF SCIENCE IN AGRIBUSINESS

Leigh Craig Anderson  
Wadena

Tanya Marie Gleim  
Chaplin

Jamie Jerry Gruza  
Saskatoon  
with Distinction

Tiffany Ann Gutzke  
Weyburn

Russell Jay Lawrence  
Saskatoon  
with Distinction

Kyle Gregory MacKow  
Chaplin  
with Distinction

Matthew Robert Owens  
Eston

### BACHELOR OF SCIENCE IN AGRICULTURE

Jeffrey Bryan Adamson  
Grasswood  
Honours in Agricultural Biology with Distinction

Timothy Jordan Arlt  
Hague

Kelly Raymond Baillargeon  
Edam

Jacqueline Nicole Beatty  
Swift Current  
with Distinction

Jeffrey Charles Bennett

Blake Birnie Weatherald  
Wawota

Dale Leonard Zimmer  
Spalding

### MASTER OF SCIENCE

Narasimha Rao Bandla  
India

Plant Science – Thesis: A Study of the Rheological Properties and Gluten Protein Components Associated with Enhanced Baking Quality in Durum Wheat (*Triticum turgidum* L. var. durum)

Renee Maxine Beliveau  
Carvel, Alberta

Animal and Poultry Science – Thesis: Effect of Graded Levels of Wheat-Based Distiller's Grains in a Barley Ration on Feedlot Steers

Dinka Besic  
Croatia

Food and Bioproduct Sciences – Thesis: Enhanced Production of Lysine by Bacterial and Fungal Biotransformation of Canola

Amber Dawne Cuddington  
Alameda

Interdisciplinary Graduate Studies – Thesis: Bio-Economic Considerations for a Wetland Policy on Agricultural Landscape

Alanna Louise Dickson  
Grande Prairie, Alberta

Soil Science – Thesis: Mercury Partitioning in Super-permafrost Groundwater, Truelove Lowland, Devon Island, Nunavut

# Agriculture & Bioresources, Edwards School of Business, Education, Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition, Physical Therapy and Veterinary Medicine

## Degrees, Diplomas and Certificates

---

Laura Eastwood

Burlington, Ontario

Animal and Poultry Science – Thesis: The Nutritional Value of Flaxseed Meal for Swine

Caressa Janine Hanson

Saskatoon

Food and Bioproduct Sciences – Thesis: Use of Green Fluorescent Protein to Examine Root Colonization of Green Foxtail and the Effect of Environmental Conditions on Survival in Soil of *Pseudomonas Fluorescens* BRG100

Ravindra Guptha Navaratne Heendeniya

Vidanaralalage

Sri Lanka

Animal and Poultry Science – Thesis: Utilization of Canola Seed Fractions in Ruminant Feeds

Paul Frederick Jungnitsch

Manning, Alberta

Soil Science – Thesis: The Effect of Cattle Winter Feeding Systems on Soil Nutrients, Forage Growth, Animal Performance and Economics

Chipo Kangayi

Zimbabwe

Bioresource Policy, Business and Economics – Thesis: Measuring and Mapping the Impact of Social Economy Enterprises: A Case of Co-operatives in Canada

Josephine Kusuma

Indonesia

Food and Bioproduct Sciences – Thesis: Extending the Shelf-life of Value Added Meat Product: The Influence of Myoglobin Oxidation in Fresh Pork Sausages

Heidi Marie Lazorko

Bankend

Soil Science – Thesis: Root Distribution, Activity, and Development for Boreal Species on Reclaimed Oil Sand Mine Soils in Alberta, Canada

Delia Crina Mavragani

Romania

Food and Bioproduct Sciences – Thesis: Molecular and Ecological Studies of Fungal Biodiversity on Durum Wheat Grown in Rotation with Pulses and Canola

Kunihiko Niina

Saskatoon

Soil Science – Thesis: Influence of Residual Flucarbazone-Sodium on Inoculation Success Measured by Growth Parameters, Nitrogen Fixation, and Nodule Occupancy of Field Pea

Elaine Jean Qualtiere

Saskatoon

Plant Science – Thesis: Ecotypic Variations in Three Dominant Conifer Trees in the Mixed Wood Forest of Saskatchewan During Germination

Withana Gamage Thushan Sanjeewa

Saskatoon

Food and Bioproduct Sciences – Thesis: Physico-Chemical Properties of Chickpea Flour, Starch and Protein Fractions and Their Utilization in Low-Fat Pork Bologna

Alison Katherine Ward

Saskatoon

Animal and Poultry Science – Thesis: Genetic and Dietary Interactions of Fishy-egg Taint in Brown-shelled Laying Hens

## Degrees, Diplomas and Certificates

Karen Anne Watson  
Lloydminster

Jennifer Lynn Williamson  
St. Walburg

### POSTGRADUATE DIPLOMA

Yvette Marie Arcand  
Saskatoon  
Educational Administration

### MASTER OF CONTINUING EDUCATION

Sherry Leigh Klymyshyn  
Saskatoon  
Continuing Education – Thesis: TVcalls and Reacquainting  
Visits: Video Conferencing with Long-Term Care Residents

Sheryl Marie Prouse  
Regina  
Continuing Education – Project: Saskatchewan's Regional  
Colleague's Recognition of Prior Learning Tool Kit

### MASTER OF EDUCATION

John William Carr  
Meadow Lake  
Educational Psychology and Special Education – Thesis: The  
F&ST Experience: A Narrative Study

Noreen Audrey Chaboyer  
Cumberland House  
Educational Administration

Michelle Margurite Chuhaniuk  
Saskatoon  
Educational Administration – Project: Considerations in  
Implementing a School Student Uniform Policy

Krista Rae Cochrane  
Prince Albert  
Educational Psychology and Special Education – Thesis:  
Exploring Cyberbullying in Saskatchewan

Fabiola de Pina-Jenkins  
Brazil  
Educational Psychology and Special Education – Thesis:  
Life Stories of Frequent Geographical Relocation During  
Childhood and Adolescence

Russell Dean Dyck  
Warman  
Educational Administration

Ronald Murray Ford  
Battleford  
Educational Administration

Jodie Lynn Fraser  
Candle Lake  
Educational Foundations – Project: A Language of the Heart

Sarah Kathleen Louise Friesen  
Saskatoon  
Educational Psychology and Special Education – Thesis:  
Dancing Through High School: The Experiences of High  
School Females Engaged in Elite Dance Training

Danielle Yvette Eleanor Gaudet  
Saskatoon  
Educational Psychology and Special Education – Thesis:  
Elementary School Educators' Assumptions on the  
Identification of Students Who are Gifted and Talented

Shirley Jean Groat  
Lloydminster, Alberta  
Educational Administration

Colleen Irene Leanna Henning  
Lloydminster, Alberta  
Educational Administration

Denise Hudspeth Heppner  
Waldheim  
Educational Psychology and Special Education – Thesis:  
Using Wraparound to Meet the Needs of Students with  
Emotional and Behavioural Difficulties and Disorders

Sharon Marie Hoffman  
Ile a la Crosse  
Educational Administration

Ryan David Kraushaar  
Regina  
Curriculum Studies – Project: Social Studies Education on  
the Prairies: A Comparative Analysis of Multicultural and  
Citizenship Education in Alberta and Saskatchewan Grade  
11 Curricula

Hollis Ki Mo Lai  
Saskatoon  
Educational Psychology and Special Education – Thesis:  
Exploring Factors Affecting Math Achievement Using Large  
Scale Assessment Results in Saskatchewan

Sydney Maxwell Laskowski  
Warman  
Educational Administration

Xiaoping Li  
People's Republic of China  
Curriculum Studies – Project: Delivering Synchronous English  
Speaking Lessons for ESL/ESL Students via Teleconferencing

Xiao Liu  
People's Republic of China  
Educational Foundations – Project: An Autoethnography of  
Motherhood - A Look at the Feminist Mothering Theory and  
the Path to an Empowered Motherhood

Michelle Lorraine Loraas  
Saskatoon  
Educational Administration

David Walter Luukkonen

### MASTER OF SCIENCE

Daisy Abraham Asis  
Philippines

Agricultural and Bioresource Engineering – Thesis:  
Investigation of Potential Application of Nanoparticles in  
Reducing Gas and Odour Emission from Swine Manure Slurry

Lakshminarayanarao Bachu  
Saskatoon

Civil and Geological Engineering – Thesis: A Comparative  
Analysis of the Hydrological Performance of Reconstructed  
and Natural Watersheds

Nancy Bawa  
India

Chemical Engineering – Thesis: Improvement of Bioethanol  
Production from *Saccharomyces cerevisiae*

Daron Joseph Chabot  
Maple Creek

Electrical and Computer Engineering – Thesis: A PC-  
based Data Acquisition System for Sub-atomic Physics  
Measurements

Denise Emilie Chapman  
Luseland

Civil and Geological Engineering – Thesis: Hydrogeologic  
Characterization of a Newly Constructed Saline-Sodic  
Overburden Structure

Ying Chen  
People's Republic of China

Civil and Geological Engineering – Thesis: Plastic Shrinkage  
Properties of Baler Twine Fibre Reinforced Concrete

Evan Boyd Derald  
Outlook

Agricultural and Bioresource Engineering – Thesis: Best  
Management Practices of a Solar Powered Mini Pivot for  
Irrigation of High Value Crops

Erica Marie Emery  
Saskatoon

Chemical Engineering – Thesis: Flowability of Fine  
Pharmaceutical Powders

Jason Carl Griffith  
Naicam

Agricultural and Bioresource Engineering – Thesis: The  
Development of a Tractor Sensing and Controlling Program

Elizabeth Ursula Gusta  
Saskatoon

Chemical Engineering – Thesis: Tar Elimination Using  
Dolomites During the Gasification of Pine Sawdust

Yong He  
Saskatoon

Mechanical Engineering – Thesis: A Novel Approach to  
Emergency Management of Wireless Telecommunication  
System

Pankaj Khanna  
India

Chemical Engineering – Thesis: Particle Tracking in a Lab-  
Scale Conical Fluidized Bed Dryer

Rishabh Malhotra  
Saskatoon

Electrical and Computer Engineering – Thesis: Detection and  
Segmentation of Moving Objects in Video Using Optical  
Vector Flow Estimation

Sumit Paudyal  
Nepal

Electrical and Computer Engineering – Thesis: Out-of-Step  
Protection Using Energy Equilibrium Criterion in the Time  
Domain

Jonathan Christian Peterson  
Naicam

Civil and Geological Engineering – Thesis: Characterization  
of the Movement of Spray Drift Past a Shelterbelt

Lu Qian  
People's Republic of China

Biomedical Engineering – Thesis: 3D Follicle Segmentation in  
Ultrasound Image Volumes of Ex-Situ Bovine Ovaries

Mary Ruth Pradeepa Raghavan  
Saskatoon

Biomedical Engineering – Thesis: Computer Assisted  
Detection of Polycystic Ovary Morphology in Ultrasound  
Images

Dipendra Rai  
Nepal

Electrical and Computer Engineering – Thesis: Damping  
Subsynchronous Resonance Using Static Synchronous Series  
Compensators and Static Synchronous Compensators

Anup Rana  
India

Agricultural and Bioresource Engineering – Thesis:  
Development and Characterization of Compression Molded  
Flax Fiber-Reinforced Biocomposites

Hardi Lee Sulimma  
Saskatoon

Chemical Engineering – Thesis: Production of a Diesel Fuel  
Cetane Enhance from Canola Oil Using Supported Metallic  
Carbide and Nitride Catalysts

Kimberley Marie Gar Wei Tang  
Saskatoon

Chemical Engineering – Thesis: Biooxidation of Sulphide  
under Denitrifying Conditions in an Immobilized Cell  
Bioreactor

Chen Wang  
Toronto, Ontario

Mechanical Engineering – Thesis: Understanding and  
Modeling of Aesthetic Response to Shape and Color in Car  
Body Design

Xubo Wang  
People's Republic of China

Electrical and Computer Engineering – Thesis: A 0.18um  
CMOS UWB Wireless Transceiver for Medical Sensing  
Applications

# Agriculture & Bioresources, Edwards School of Business, Education, Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition, Physical Therapy and Veterinary Medicine

Degrees, Diplomas and Certificates

---

## BACHELOR OF SCIENCE IN KINESIOLOGY

Erin Patricia Bernhard  
Lake Lenore  
with Distinction

Ashley Rae Cheveldayoff  
Blaine Lake

Brandon Richard Gordon Doom  
Vawn

Jody Michelle Hrynuik  
Saskatoon  
with Distinction

Kevin Cameron Kitchen  
Canora

Lindsay Rae Ludba  
Canora  
with Distinction

Trevor Lewis George Ouellette  
Saskatoon

Melissa Catherine Renz  
Weyburn  
with Distinction

Alison Jean Schlichemeyer  
Saskatoon

## MASTER OF SCIENCE

Jennifer Lynne Forbes  
Saskatoon  
Kinesiology – Thesis: Validity of the Environmental Analysis of Mobility Questionnaire (EAMQ): Comparison of Complex Walking Tasks and the EAMQ Among Community Dwelling Older Adults

Daniel Lavergne Fuller  
Saskatoon  
Kinesiology – Thesis: Application of Social Cognitive Theory to the Study of Walking for Active Transportation

Stefan A Jackowski  
Toronto, Ontario  
Kinesiology – Thesis: The Timing of Peak Tissue Velocities at the Proximal Femur during Adolescence

Amber Dawn Mosewich  
Watrous  
Kinesiology – Thesis: Young Women Athletes' Self-Conscious Emotions and Self-Compassion

Lauren Denise Sulz  
Saskatoon  
Kinesiology – Thesis: A Student's Choice: Factors to Enrollment Intention in Elective Physical Education

## BACHELOR OF LAWS

Robert Fredrick Loran Feist  
Saskatoon

Jeffrey William Hugh Spady  
Castor, Alberta

## MASTER OF LAWS

Jessie Clairese Buydens  
Saskatoon

Law – Thesis: Children and Youth in the Sex Trade:  
Exploitation and Exiting

Paul Terence Clarke  
Saskatoon

Law – Thesis: Rights Conflicts, Curricular Control and K-12  
Education in Canada

## DOCTOR OF MEDICINE

Curtis Charles Chicoine  
Prince Albert

## MASTER OF SCIENCE

Nicole Jamie Cox  
Saskatoon

Anatomy & Cell Biology – Thesis: The Anti-Inflammatory Potential of Quercetin and L-2-Oxothiazolidine-4-Carboxylate (OTC) in Developing Scar Tissue

Megan Mari Craggs  
Saskatoon

Biochemistry – Thesis: The Study of Viral Genetics via the Construction of Recombinant Murine Cytomegaloviruses

Ewelina Dziak  
La Ronge

Community Health and Epidemiology – Thesis: Psychosocial Work Quality, Work-Family Conflict, and Psychological Distress: A Comparison of Single and Partnered Mothers

Geraldine Grace Gabriel  
Edmonton, Alberta

Psychiatry – Thesis: Characterization of a Novel Interaction between Presenilin-1 And Monoamine Oxidase-A

Shakiba Jalal  
Saskatoon

Biochemistry – Thesis: A Peptide Array for Bovine-Specific Kinome Analysis: Comparative Analysis of Bovine Monocytes Activated by TLR4 and TLR9 Agonists

Bo Liao  
People's Republic of China

Biochemistry – Thesis: Use of Genetically Modified *Sacchromyces cerevisiae* to Convert Soluble Starch Directly in Bioethanol

Kurt Henry Nienaber  
Saskatoon

Biochemistry – Thesis: Structural Investigation of MosA

Michael Christopher Pastor  
Plunkett

Biochemistry – Thesis: Altered Regulation of PTEN by Mutagenesis and p85 Binding

Jasnehta Permala-Booth  
Mauritius

Microbiology and Immunology – Thesis: Mutations in *atpG* Affect Postranscriptional Expression of *pckA* in *Escherichia coli*

# Agriculture & Bioresources, Edwards School of Business, Education, Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition, Physical Therapy and Veterinary Medicine

## Degrees, Diplomas and Certificates

Devin Ryan Polichuk  
North Battleford

Biochemistry – Thesis: Gene Expression and Biochemistry of  
Isoprenoid Synthesis in the Glandular Secretory Trichomes of  
*Artemisia annua*

Jennifer Lindsay Puttick  
Saskatoon

Biochemistry – Thesis: Purification of A-Raf and Structural  
Studies of Mannitol Dehydrogenase

Nam-Seok Sohn  
South Korea

Pathology and Lab Medicine – Thesis: Release of  
Cardiac Biomarkers and Inflammatory Response during  
Cardiopulmonary Bypass: Comparison of Different  
Biocompatible Materials Used in Cardiopulmonary Bypass

Wenting Tao  
People's Republic of China

Community Health and Epidemiology – Thesis: Gender,  
Household Labor, and Psychological Distress

Adam Sauh Gee Wu  
Edmonton, Alberta

Surgery – Thesis: The Role of Retrograde Repression in  
Limiting Axonal Regeneration in the Central Nervous System

### BACHELOR OF SCIENCE IN NURSING

Sara Lua Agah  
Calgary, Alberta  
with Distinction

Krista Louise Anderson  
Candle Lake

Brett Joseph Bachelu  
Regina

Chelsea Lane Banadyga  
Kelvington

Janelle Marie Bansley  
Melfort  
with Distinction

Dolores Barbara Bayne  
Saskatoon

Erin Marie Boyce  
Moose Jaw  
with Distinction

Celeste Marie Briere  
Moose Jaw

Crystal Dawn Carlson  
Saskatoon

Laura Lee Caron  
Airdrie, Alberta

Jessica L Y Cheung  
Regina  
with Distinction

Amanda Jean Child  
Saskatoon

Logan Boyd Chinski  
Weyburn

Heather Diane Clark  
Saskatoon

Laurilee Gwyneth Conrad  
Regina

Patricia Robin Couture  
Debden

Chez-Lyse Rae Cridland  
Saskatoon

Celine Czernick  
Fort Qu'Appelle

Janet Marie Dahl  
Prince Albert

Coral Dawn Dallman  
Prince Albert  
with Distinction

Sheila Anne Dalshaug  
Saskatoon  
with Distinction

Janelle Marie Deshaies  
Maple Creek

Dobriela Mary Donald  
McTaggart

Jessica Nancy Sunshine Dueck  
Caronport

Michelle Florence Fontaine  
Saskatoon

Michelle Christine Foster  
North Vancouver, British Columbia

Stephanie Anne Fox  
Regina

Savanna Marie Frank  
Regina  
with Distinction

Elyse Mary Franke  
Margo  
with Distinction

Suzanne Colette Gabert  
Saskatoon

Maureen Marjorie Gabriel  
Estevan

Kristina Leanne Geis  
Regina  
with Distinction

Valerie Lynette Gerlach  
Saskatoon

Barbara Jean Germain  
Humboldt

Katherine Ann Gibbons  
Regina  
with Distinction

Brittney Noel Gibson  
Craven

Anita Gottselig  
Emerald Park

Ashokran Govender  
Regina

# Agriculture & Bioresources, Edwards School of Business, Education, Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition, Physical Therapy and Veterinary Medicine

## Degrees, Diplomas and Certificates

---

Carol Anne Gudmundson  
Saskatoon

Erin Patrice Haas  
Margo

Patricia Gay Habermehl  
Macrorie

Meagan Chasity Hansen  
Buffalo Narrows

Karen Lorraine Hartley  
Regina  
with Great Distinction

Carol Elaine Heusdens  
Saskatoon  
with Great Distinction

Noelle K Hubbard  
Langham

Donna Jane Hunt  
Regina

Julia Dawn Ingham  
Regina

Virginia Colleen Graham Isley  
Moose Jaw

Laura Lee Jackson  
Blackfalds, Alberta

Sharleen Adel Jahner  
Saskatoon

Jana Leigh Karmaznuik  
Foam Lake

Deborah Marie Karpa  
Regina

Nicole Katherine Jane Kendel  
Saskatoon

Christa Lee Ann Marie Ketzmerick  
La Ronge

Daniel Edouard Lavertu  
Saskatoon

Colleen Lisa Leaney  
Martensville

Charley Dawn Marie Lepage  
Chitek Lake

Sandra Mary Livingston  
Rocky Mountain House, Alberta  
with Distinction

Patrick Albert Livingstone  
Norquay

Laurianne Celeste Lukan  
Leoville

Lorae Rochelle Mackenzie  
North Portal  
with Great Distinction

Katherine Hilda Malbeuf  
Saskatoon  
with Distinction

Marianne Mireille Marchildon  
Zenon Park

Anne Marie Marciszyn  
Moose Jaw  
with Distinction

Lori Lynn Markham  
Saskatoon

Beverly Ann Matuszewski  
Surrey, British Columbia

Shelagh Nadine Nuyaikik McGinnis  
Calgary, Alberta

Christa Leigh Dawn McKinley  
Saskatoon

Leah-Anne Dawn McLeod  
Martensville

Christin Lyn McPhee  
Hanley

Kelly Marie Mercer  
Regina

Lara Katrina Metheral  
Regina

### MASTER OF NURSING

Edna Miriam Beatty  
Deschambault Lake

Nursing – Project: Methadone in Pregnancy: Supporting  
Access to Health Care for a Vulnerable Population

Lisa Marie Bergen  
Saskatoon

Nursing – Project: Visual Impairment in Geriatric Patients:  
Focus on Nursing Implications

Shauna Leigh Davies  
Regina

Nursing – Thesis: Instructional Strategies Chosen for the  
Classroom in a Process-oriented Curriculum: A Grounded  
Theory Study

Parveen Kaur Dhaliwal  
Aldergrove, British Columbia

Nursing – Project: Cultural Considerations When Caring for  
the South Asian Older Adult

Celeste Rennee Dumonceaux  
Swift Current

Nursing – Project: Forensic Nursing Response to Child Abuse

Nicole Clara Hagerty  
North Battleford

Nursing – Project: Brain Injured Patients: Collaborating with  
Families Using the 15-Minute Family Interview

Karyn Louise Kawula  
Prince Albert

Nursing – Project: From Bureaucracy to Democracy:  
Transitioning to a Model of Collaborative Leadership in  
Community Mental Health and Addiction Services

Yvonne Marie Labas  
Saskatoon

Nursing – Project: PDAS at the Bedside: What Nurse  
Managers Need to Know

Kelly Ann McDonald  
Calgary, Alberta

Nursing – Project: Placing Dementia Care under the  
Umbrella of Palliative Care from the Time of Diagnosis

Kim Newton  
Saskatoon

Nursing – Project: Using the Advanced Practice Nurse to  
Move Best Practice Forward in Acute Myocardial Care

Noelle Kimberly Rohatinsky  
Saskatoon

Nursing – Thesis: Mentoring Perceptions of Registered Nurses

Karen Joanne Wormsbecker  
Weyburn

Nursing – Thesis: Job Satisfaction of Rural and Remote  
Nurses: Comparison of Registered Nurses in Nurse  
Practitioner vs Non-Nurse Practitioner Roles

### MASTER OF SCIENCE

Laura Andres Rossi Gougeon  
Brazil

Nutrition – Thesis: Nutritional Analysis of School Meals in  
Some Saskatoon Elementary Schools

Brenda Elaine Thompson  
Saskatoon

Nutrition – Thesis: Nutrition Positive - An Incentive Program  
in Saskatoon Elementary Schools. A Case Study and  
Preliminary Process Evaluation

Xiaoyu Yan  
People's Republic of China

Pharmacy – Thesis: Characterization of the Hoxa2 Binding  
Site in Dual Specificity Tyrosine Kinase 4 (Dyrk4) and High  
Temperature Requirement Factor A 3 (HtrA3) Genes

### BACHELOR OF SCIENCE IN PHYSICAL THERAPY

Jennifer Dawn Aberhart  
Langenburg

Geoffrey Paul Mitchell  
Regina

### MASTER OF SCIENCE

Alison Suzanne Anaka  
Saskatoon

Toxicology – Thesis: Response and Variability of Arctic Soils  
Exposed to Nitrogen

Natasa Arsic  
Yugoslavia

Veterinary Microbiology – Thesis: Pneumovirus Infection and  
Effects on Dendritic Cells of Mice

Fernanda Caminha Faustino Dias  
Brazil

Veterinary Biomedical Sciences – Thesis: Effect of  
Progesterone on GnRH-mediated LH Release, Oocyte  
Quality and Fertility in Cattle

Valeria Maria Tanco  
Argentina

Veterinary Biomedical Sciences – Thesis: Biological  
Characterization of Ovulation-Inducing Factor (OIF) in Llama  
Seminal Plasma

# Agriculture & Bioresources, Edwards School of Business, Education, Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition, Physical Therapy and Veterinary Medicine

## Degrees, Diplomas and Certificates

### MASTER OF VETERINARY SCIENCE

Caroline Louise Millins  
England

Veterinary Pathology – Project: Surveillance for West Nile Virus in Saskatchewan Using House Sparrow Nestlings as Sentinels

Belle Marie Diana Nibblett  
Veregin

Small Animal Clinical Sciences – Project: Prevalence of Feline Hemotropic Mycoplasma in Saskatchewan

Madhu Babu Ravi  
Saskatoon

Veterinary Pathology – Project: Naturally Acquired Feline Immunodeficiency Virus (FIV) Infection in Cats from Western Canada: Prevalence, Disease Associations and Survival Analysis

Herbert Rovay  
Brazil

Large Animal Clinical Sciences – Project: Treatment of Vesiculitis in Bulls

Dilini Thilakarathne  
Saskatoon

Veterinary Pathology – Project: Clonality Analysis and Phenotyping of Canine Lymphosarcomas Using PCR on Cytologic Specimens and Peripheral Blood

### DOCTOR OF PHILOSOPHY

Masoumeh Akhlaghi Najafabadi  
Iran

Nutrition – Thesis: Flavonoid Protection of Cardiac Cells against Ischemia- Reperfusion Injury

Sarah Anne Armstrong  
Newmarket, Ontario

Toxicology – Thesis: Dissipation and Phytotoxicity of Oil Sands Naphthenic Acids in Wetland Plants

Catherine Mary Arnold  
Saskatoon

Kinesiology – Thesis: Fall Risk in Older Adults with Hip Osteoarthritis: Decreasing Risk Through Education and Aquatic Exercise

Mohsen Basiri  
Iran

Anatomy & Cell Biology – Thesis: Contribution of Microglial Reactivity to Olfactory Ensheathing Cell Migration *in vivo*

Mark William Bruner  
Chatham, Ontario

Kinesiology – Thesis: Examining the Relationship between Team Building and Physical Activity Adherence in Rural Youth

Chandrashekhhar Charavaryamath  
Saskatoon

Veterinary Biomedical Sciences – Thesis: Mechanisms of Lung Inflammation Following Exposure to Swine Barn Air

Sylvia Lee Checkley  
Fultonvale, Alberta

Large Animal Clinical Sciences – Thesis: The Epidemiology of Antimicrobial Resistance in Fecal *Escherichia coli* Isolates of Feedlot Cattle in Western Canada

Christopher Robert Clark  
Saskatoon

Veterinary Biomedical Sciences – Thesis: Investigation of the Potential Use, Pharmacokinetics and Safety of Tilimicosin in Horses

Kyla Lynn Clarke  
Saskatoon

Environmental Engineering – Thesis: Bioremediation of Volatile Organic Compounds Using a Glas-Fluidized Bioreactor

Stephen Mark Cornish  
Moose Jaw

Kinesiology – Thesis: The Effects of Supplementing with Constituents of Flaxseed during Exercise Training on Inflammation in Older Adults

Frank Deer  
Saskatoon

Educational Administration – Thesis: Teachers and Principals' Perceptions of Citizenship Development of Aboriginal High School Students in the Province of Manitoba: An Exploratory Study

Michael John Dinsmore  
Estevan

Biochemistry – Thesis: Localization of Metal Ions in DNA

Susan Eva Fowler-Kerry  
Saskatoon

Interdisciplinary Grad Studies – Thesis: Voices of Parents: The Lived Experience of Caring for a Child with a Life-Threatening and Live-Limiting Diagnosis within Existing Social Policies

Viktoriia Vitaliivna Galushko  
Ukraine

Bioresource Policy, Business and Economics – Thesis: Intellectual Property Rights and the Future of Plant Breeding in Canada

Ailsa Ghillaine Hardie  
South Africa

Soil Science – Thesis: Pathways of Abiotic Humification as Catalyzed by Mineral Colloids

Srikanth Gopinath Kanagal  
India

Veterinary Biomedical Sciences – Thesis: Sensorimotor Behaviour in Rats after Lesions of Dorsal Spinal Pathways

Christopher James Kelln  
Saskatoon

Civil and Geological Engineering – Thesis: The Effects of Meso-scale Topography on the Performance of Engineered Soil Covers

Arlene E Kent-Wilkinson  
Saskatoon

Educational Administration – Thesis: Forensic Nursing Education: An Exploratory Study

Shelley Pauline Kirychuk  
Yorkton

Interdisciplinary Grad Studies – Thesis: Particulate Distribution and Relationship to Endotoxin in Poultry Production Operations

Veniamin Venedyktovych Kutsyuruba  
Ukraine

Educational Administration – Thesis: Teachers' Perceptions of the Impact on Post-Soviet Societal Changes on Teacher Collaboration in Ukrainian Schools

Lampros Lamprinakos  
Greece

Bioresource Policy, Business and Economics – Thesis: Cognitive Dissonance, Mental Frames and the Financial Value of Agricultural Co-operatives

# Agriculture & Bioresources, Edwards School of Business, Education, Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy & Nutrition, Physical Therapy and Veterinary Medicine

## Degrees, Diplomas and Certificates

---

Mark Edgar Lemstra  
Saskatoon

Psychiatry – Thesis: Risk Indicators for Depressed Mood in Urban Youth: The Role of Socioeconomic and Aboriginal Cultural Status

Carlyn Janel Matz  
Regina

Toxicology – Thesis: The Effects of Cadmium on the Olfactory System of Larval Zebrafish

Daniela Mihal  
Albania

Bioresource Policy, Business and Economics – Thesis: Noncompliance, Monitoring and the Economics Theory in Carbon Trading Market

Sukhbir Nain  
India

Animal and Poultry Science – Thesis: Study on Dietary Factors Pertinent to the Pathogenesis of Heart Failure in Fast-growing Commercial Broilers

Jamie Sue Partridge  
United States of America

Bioresource Policy, Business and Economics – Thesis: Essays on Immigration, Innovation and Trade

Janice Colleen Paslawski  
Saskatoon

Environmental Engineering – Thesis: The Kinetics of Biodegradation of Trans 4-Methyl-1-Cyclohexane Carboxylic Acid

Jason Paul Perepelkin  
Saskatoon

Pharmacy – Thesis: Relating Ownership Type to the Organizational Behaviour, Role Orientation and Autonomy of Community Pharmacy Managers in Canada

Bradley Dean Pinno  
Regina

Soil Science – Thesis: Site Productivity of Poplars in Canada: Relationships with Soil Properties and Competition Intensity

Michelle Phyllis Prytula  
Vonda

Educational Administration – Thesis: Scholarship Epistemology: An Exploratory Study of Teacher Metacognition within the Context of Successful Learning Communities

Irving Javier Ramirez Erosa  
Saskatoon

Pharmacology – Thesis: Studies on Triterpene Saponins from *Saponaria vaccaria* Seed and their Apoptosis-Inducing Effect on Human Cancer Cell Lines

Sarah Theresa Rigley MacDonald  
Miramichi, New Brunswick

Anatomy & Cell Biology – Thesis: Glutamine: A Novel and Potent Therapeutic for Acute Spinal Cord Injury

Manoj Kumar Singh  
India

Civil and Geological Engineering – Thesis: Characterization of Stress-deformation Behaviour of Municipal Solid Waste

Sarah Katherina Steinbach  
Toronto, Ontario

Microbiology and Immunology – Thesis: Pik1p, a Phosphatidylinositol 4-kinase, Interacts with Cdc-4p, a Contractile Ring Protein Essential for Cytokinesis in Fission Yeast

Mohammad Vakil  
Iran

Mechanical Engineering – Thesis: Dynamics and Control of Flexible Manipulators

Crina Ioana Viju  
Regina

Bioresource Policy, Business and Economics – Thesis: Three Essays in International Trade Policy: Market Integration, Subsidization and Antidumping

Kathleen Sara Wilson  
St. Albert, Alberta

Kinesiology – Thesis: Physical Activity Lapses and Parental Social Control

Grant Nathan Woronuk  
Calgary, Alberta

Plant Science – Thesis: Responses to Low Temperature Stress in Phaseolus Species

Wentao Zhang  
People's Republic of China

Plant Science – Thesis: A Comprehensive Study on the Role of Hormones, Seed Coat and Genes during the Germination of Canola (*Brassica napus*) Seed under Adverse Environmental Conditions

The University of Saskatchewan Alumni Association  
has over 125,000 members in 116 countries.  
When you graduate, you become a member  
for life and are eligible for all the programs  
and services available exclusively for  
U of S alumni.
