

University of Saskatchewan
Spring Convocation
May 23, 24 & 25, 2006

University of Saskatchewan Spring Convocation

May 23, 24 & 25, 2006
TCU Place

Ceremony 1, Tuesday May 23, 2:00 p.m. page 17

Undergraduate degrees, graduate degrees and diplomas will be awarded for **Agriculture, Commerce and Engineering.**

Ceremony 2, Wednesday May 24, 9:00 a.m. page 31

Undergraduate degrees, graduate degrees, diplomas and certificates will be awarded for **Arts & Science.**

Anatomy & Cell Biology, Art History, Biochemistry, Bioinformatics, Biology, Biomolecular Structure Studies, Biotechnology & Biochemistry, Biotechnology & Biology, Biotechnology & Cell Biology, Biotechnology & Microbiology, Business Economics, Classical, Medieval & Renaissance Studies, Classical & Near Eastern Archaeology, Comparative Literature & Languages, Computer Science, Computing, Economics, English, Environmental Earth Sciences, Food Science, French, Geography, Geology, German, History, International Studies, Land Use and Environmental Studies, Linguistics, Microbiology, Palaeobiology, Physiology, Regional and Urban Development, Russian, Spanish, Studio Art, Ukrainian

Ceremony 3, Wednesday May 24, 2:00 p.m. page 43

Undergraduate degrees, graduate degrees, diplomas and certificates will be awarded for **Arts & Science and Nursing.**

Aboriginal Public Administration, Anthropology, Archaeology, Astronomy, Chemistry, Drama, Geophysics, Mathematical Physics, Mathematics, Music, Native Studies, Philosophy, Physics, Political Studies, Psychology, Public Administration, Religious Studies, Sociology, Sociology of Biotechnology, Statistics, Toxicology, Women's & Gender Studies

Ceremony 4, Thursday May 25, 9:00 a.m. page 55

Undergraduate degrees, graduate degrees and diplomas will be awarded for **Dentistry, Kinesiology, Medicine, Pharmacy & Nutrition, Physical Therapy and Veterinary Medicine.**

Ceremony 5, Thursday May 25, 2:00 p.m. page 65

Undergraduate degrees, graduate degrees and diplomas will be awarded for **Education and Law.**

The graduation lists shown in this program were prepared prior to Convocation and may not reflect final college decisions regarding each student's eligibility for graduation. As a result, some of the students listed in this program may not have been formally approved to receive the degree or diploma indicated. The Registrar maintains the official list of graduates.

A Message from the President

PRESIDENT PETER MacKINNON

I want to express a very warm welcome to the graduates, families and friends who join us today. Convocation is the University's most important ceremony, for it is here that we celebrate the accomplishments of our students and the contributions of their loved ones to their success. You should be proud of this day, and of the commitment and sacrifice that it represents.

We at the University of Saskatchewan salute you, our graduates, and we extend to you our very best wishes for the future. We hope that you will stay in touch with us through our University of Saskatchewan alumni family, and that we will have the opportunity to welcome you 'home' to our campus many times in the years ahead.

Warmest congratulations!

A handwritten signature in black ink, appearing to read "Peter MacKinnon". The signature is fluid and cursive, with a large initial "P" and "M".

The Chancellor

W. T. (TOM) MOLLOY

Tom Molloy was born and raised in Saskatoon. He attended St. Thomas More College and later the College of Law, both at the University of Saskatchewan. He received his B.A. and LL.B. in 1964. He has practiced law in Saskatoon since graduation and is with MacPherson Leslie & Tyerman's Saskatoon office. He has represented the Government of Canada as the Chief Federal Negotiator in the successfully concluded treaties in Nunavut and with the Nisga'a in British Columbia and an Agreement in Principle with the Sechelt Indian Band. He presently represents Canada in treaty negotiations in British Columbia, Quebec, New Brunswick, Nova Scotia, Prince Edward Island and Nunavut. Mr. Molloy has been described as "Canada's most expert treaty negotiator."

Mr. Molloy recently authored a book *The World is our Witness: The Historic Journey of the Nisga'a into Canada*. The book has won two Saskatchewan Book Awards, The Brenda MacDonald Riches First Book Award and the Non-fiction Award which was sponsored by the University of Saskatchewan.

For his work in the community he has received a number of awards including the City of Saskatoon Certificate of Distinguished Community Service, Rotary Golden Wheels Award for Excellence, Saskatoon B'nai Brith "Proud of You Award" and the Head of the Public Service Award for Excellence in Service Delivery.

In 1996 he was made an Officer of the Order of Canada, with a citation that reads as follows: "He is widely known for his role as Chief Negotiator for the Government of Canada in the Nunavut Land Claim Agreement. His integrity, commitment to a just settlement and personable rapport have also been valuable in his leadership of numerous cultural, educational and charitable groups, not only in Saskatchewan but also nationally, including the Meewasin Foundation and PRIDE Canada."

The University of Saskatchewan Alumni Association awarded him the 2000 Alumni Honour Award in recognition of receiving notable acclaim for professional achievements, which in turn has enhanced the image of the University of Saskatchewan and its alumni. In January 2001, The Canadian Bar Association Saskatchewan Branch named him as the recipient of the Distinguished Service Award.

History of the University of Saskatchewan

College Building Construction - November, 1911

The University of Saskatchewan was established by the *University Act* on April 3, 1907, only 18 months after Saskatchewan became a province.

The people of the province, as well as their government, were instrumental in shaping the new University. The provincial government requested all residents who were graduates of a Canadian or British university to form the first Convocation and elect the University's Senate. In 1908, the Board selected Professor Walter Charles Murray, of Dalhousie University, as the first President.

Classes in Arts and Science began in September, 1909, in downtown Saskatoon. Construction of the campus began in 1910 and the first buildings were occupied in the fall of 1912. They included the College Building (Administration Building), Saskatchewan Hall (a student residence), residences for the Dean of Agriculture and the President, a laboratory for Engineering and a number of farm buildings.

From the beginning, the University established an emphasis on research and teaching in a context of community service, and encouraged co-operation among departments and divisions in tackling common problems. The development of rust-resistant strains of wheat, for example, initiated by the University and federal and provincial research agencies, has been of untold value to the prairie economy.

In 1909, the University had 70 students and five professors, including the President. Today there are over 19,000 students studying in 13 colleges and one school. This is the only university in Canada with five health-science colleges and a major teaching hospital on the same campus.

The University of Saskatchewan overlooks the South Saskatchewan River. Most early buildings on campus are Collegiate Gothic in style and are constructed in a local dolomite, popularly known as greystone. Subsequently constructed buildings also have greystone, as well as Tyndall stone (pre-cut slabs quarried in Tyndall, Manitoba), concrete, brick, glass and aggregate facings.

The University offers many points of interest for visitors: the Diefenbaker Canada Centre, Museum of Natural Sciences, Museum of Antiquities, Biology Museum, Pharmaceutical Museum, the Observatory, the Gordon Snelgrove Gallery, the St. Thomas More Gallery, Rugby Chapel, the Little Stone Schoolhouse, the Memorial Gates, Patterson Garden and the Kenderdine Gallery.

The Convocation Ceremony

The word “Convocation” arises from the Latin “con” meaning “together,” and “vocare” meaning “to call.” Our Convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of Convocation are the election of representatives to University governing bodies and the admission of candidates to degrees. The Chancellor, elected by Convocation as its Chair, is the highest official and spokesperson of the University.

The Convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges. Candidates for degrees, known as graduands, having completed the requirements of a course of study, are recommended by college faculties and the University Council to receive degrees from the University of Saskatchewan.

The ceremony, solemnized in the presence of the University community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the President’s statement to the graduands, the Secretary’s petition and the Chancellor’s consent for their admission; followed by individual presentation by their Dean and admission by the Chancellor to the degrees to which they are entitled. As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate’s head. A banner displaying the University crest is hung above the stage, as a symbol of the University’s authority to confer degrees.

Following the conferring of degrees and acceptance of each graduate as a member of Convocation, a reception is held—a celebration on the occasion of the formal transition from the role of learner to the role of producer and contributor in the field of the graduate’s choice.

THE PROCESSION

The members of Convocation in their academic robes march in procession into the ceremony in the following order: Graduands in the order in which their degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; Chairperson of the Board; The Minister of Education; The President; The Chancellor; The Lieutenant Governor. When the members of Convocation reach their places they remain standing during the Vice-Regal Salute, the singing of “O Canada” and the Invocation.

ORDER OF THE CEREMONY

The first business is the Conferring of Honorary Degrees, followed by the Convocation Address, President’s Report, President’s Statement to the Graduands, the Conferring of Degrees and the Presentation of Awards. The meeting is closed by the Chancellor rising and asking the audience to join in the singing of God Save the Queen and leading the procession in the reverse order out of the Hall.

Honorary Doctor of Laws

SYLVIA OLGA FEDORUK

Sylvia Fedoruk was born in Canora, Saskatchewan and obtained her B.A. (Great Distinction) 1949 for which she also received the Governor General's Gold Medal; B.A. (High Honours in Physics) 1950; and M.A. 1951 from the University of Saskatchewan.

Throughout her career, Dr. Fedoruk was associated with the Saskatoon Cancer Clinic, where she served as Chief Medical Physicist, and with the Saskatchewan Cancer Foundation, where she was Director of Physics Services. Dr. Fedoruk was also Professor of Oncology and an Associate Member in the Department of Physics. Her work specialized in the use of radiation in the diagnosis and treatment of cancer, and the use of radionuclides in the diagnosis of disease. Most notably she was a key member of the Cobalt-60 research team that developed the so-called "Cobalt Bomb" in 1951, under the guidance of U of S scientist Harold Johns. A world first, the Cobalt 60 Therapy Unit used high energy radiation to treat cancer patients, and by the 1960s, had become the standard equipment of radiation therapists worldwide.

Dr. Fedoruk retired in 1986 as a Professor Emerita after 35 years of service with the University of Saskatchewan. From 1986-98 she was Chancellor and member of the University's Board of Governors, and served subsequent terms as a Board member from 1996-2005. In 2006, she was appointed Chancellor Emerita. In 1988, she was installed as the Province's 17th Lieutenant Governor and first woman Lieutenant Governor of Saskatchewan, and served eminently in this capacity from 1988-1994.

An outstanding student athlete and avid curler in her adult life, Sylvia has been inducted into the Saskatchewan Sports Hall of Fame and Saskatoon Sports Hall of Fame as a member of the Joyce McKee rink, and in 1986, into the Canadian Curling Hall of Fame. In 2005, Dr. Fedoruk was awarded the L.B. "Mike" Pearson Award as exemplifying the ideals and purposes of amateur sport through interuniversity athletics.

Sylvia Fedoruk's awards mirror her many accomplishments. She is an Officer of the Order of Canada; member of the Saskatchewan Order of Merit, and Dame of Grace, Order of St. John of Jerusalem. She has been recognized with the Commemorative Medal, 125th Anniversary of Canada's Confederation; Order of Canada; Queen's Silver Jubilee Medal, and has received numerous other awards and honours in recognition of her outstanding achievements. Exemplifying a lifetime of service, nationally and internationally, Dr. Fedoruk has served on the Atomic Energy Control Board of Canada and as a consultant in nuclear medicine to the International Atomic Energy Agency in Vienna. Until her vice-regal appointment, she was a member of the Saskatchewan Commission on Direction in Health Care and has served on numerous other advisory boards contributing to the well being of others within the province.

Honorary Doctor of Laws

ELDER JIMMY MYO

Jimmy Myo is a prominent elder in the Saskatchewan First Nations community and particularly knowledgeable concerning Treaty Governance and Justice issues.

Elder Myo is first and foremost a family man. He has been married to his wife Ena for 45 years. They have seven children. He speaks publicly to the need for us to return to the tradition of respecting women. He is the leader of his family and has ensured that all his children have access to their culture and tradition.

Speaking his language fluently is a great asset. Elder Myo has been involved in putting the ceremonies of his people in the ways that his father and mother strictly taught.

His father was a farmer and he learned many skills as a child. He lived in a non-Aboriginal community near Cochin and this experience has taught him to build relationships with non-indigenous people in the province. This lesson has served him well over the years. During this time, Elder Myo was also an accomplished saddle breaker and bareback rider on the prairie rodeo circuit. Elder Myo supported his young family, travelling wherever there was work, and for years worked on highway construction in the province.

Elder Myo served as Band Chief for three years, and a Band Councillor for 15 years. Even when he was not an elected official, he was a leader in the community. He was the first person from his community to be able to offer a local bus service for the children. He was instrumental, quite recently, in the building of a new school at Moosomin. These examples demonstrate the commitment Elder Myo carries to youth, to education and to his community.

Elder Myo has given lectures and classes on treaties throughout the province from primary to university students. His commitment to treaty is demonstrated in a book by Drs. Harold Cardinal and Walter Hildebrandt, *Treaty Elders of Saskatchewan*. Elder Myo is quoted throughout this book, but the quotation that stands out as symbol of the man he is, reads as follows:

“We got no business to give it up, we got no business to sell that land. We got no business to lease that land. We got no business to make any kind of deal on that land, but when the White man came to make a deal with us, the old people knew that we could try to treat them like our own relatives, so that they could use that land to the depth of a plow.”

This promise, “the depth of the plow”, is one of the central treaty understandings in this region. His knowledge of the treaty and the frequency with which he has been quoted demonstrate the degree to which Elder Myo is a respected treaty historian in this area.

More recently, Elder Myo has served as a Senator for the Federation of Saskatchewan Indian Nations. He has also been a member of the Wanuskewin Indian Heritage Inc. Board of Directors for the past five years. He is respected as an Elder throughout the province. His work with FSIN includes assisting the Office of the Treaty Commissioner at the Exploratory Treaty Table. He has worked extensively with OTC over the last few years.

Honorary Doctor of Letters

NIK SEMENOFF

Nik Semenoff was born and educated in Saskatchewan, and is an outstanding researcher, artist, teacher and inventor.

Nik Semenoff has taught at the University of Saskatchewan and has been Artist-in-Residence since 1992. His cutting-edge, original research into safer printmaking processes has placed the University of Saskatchewan in the forefront of non-toxic printmaking research and education.

Nik Semenoff has invented a number of printmaking processes, in particular the “waterless lithographic process”, high resolution screenprinting and specialized inks, which have made major contributions to his discipline. Printmaking is both safer and less expensive using the techniques and materials developed by Professor Semenoff. Considered revolutionary, his work has generated considerable interest in the international printmaking community, and Nik has been regularly invited to present the results of his research at academic conferences and workshops. He has been invited to conduct workshops at universities, art centres, professional printmaking studios and academic conferences in Hong Kong, Japan, and the United States as well as in Canada. In 2004 he was invited for three weeks to give a series of talks and workshops throughout Japan from a special grant of the Japanese Government.

An exceptional and generous educator, Professor Semenoff is sought out by students and proponents of printmaking who wish to benefit from his new and innovating ways of working with print, and to be guided and inspired by his energetic instruction, critiques and passion for the medium. Professor Semenoff has published his research findings in such refereed academic journals as *Leonardo: Journal of the International Society of the Arts, Sciences and Technology* and the British journal *Printmaking Today*, and he maintains a popular web site where papers on his most recent discoveries and processes are posted. His papers have been translated into Japanese, Spanish, Italian and Romanian.

Amongst the numerous awards and honours that he has received, the Lifetime Award for Excellence in the Arts from the Saskatchewan Arts Board and being included in the University of Toronto’s Canadian *Who’s Who* are the most prestigious.

Nik Semenoff is known and respected as a “local” artist and has long been active in and supportive of the provincial artistic community, which in turn speaks highly of the quality of his work and his unselfish sharing of his achievements. He was a founding member of the Saskatchewan Society of Artists and served as its President in 1962. He was a founding member of Gallery 9 in Saskatoon and has been a Board Member of the Mendel Art Gallery. He served as Associate Director of the Fine Art Committee of the Saskatoon Industrial Exhibition for a number of years.

Nik Semenoff’s innovations in all areas of printmaking—Lithography, Silkscreen and Intaglio—are exceptional, and his tireless and outstanding work as a researcher and educator are truly worthy of significant recognition.

Honorary Doctor of Science

LOTFI A. ZADEH

Dr. Lotfi A. Zadeh, who is widely known as the *father of the theory of fuzzy logic*, is a Professor in the Graduate School, Computer Science Division, Department of Electrical Engineering and Computer Science, at the University of California, Berkeley. In addition, he also serves as the Director of BISC (Berkeley Initiative in Soft Computing).

The theory of fuzzy logic acknowledges that while we would like to believe that decisions can be made with complete confidence in their correctness, this is rarely the case and there is necessarily some associated uncertainty, a ‘fuzziness’, in the adopted decision. Dr. Zadeh pioneered the mathematical description of these uncertainties with the introduction of fuzzy set theory, an attempt to describe a lack of precision in the information that is used to make a decision and the resulting doubt in the adopted decision. He developed this theory in the early 1960s, and his insistence that the frequently abstract mathematical world has applications in the solution of real-world problems has led to its application in a variety of areas such as fuzzy-neural systems, control systems, visions systems, artificial intelligence, expert systems, medical diagnosis, economic systems, judicial systems, and decision analysis.

Dr. Zadeh has a distinguished international reputation, and his scholarship has had a profound effect on the work of researchers and practitioners world wide. His research and prolific publication record has led to many medals and scientific prizes, including a Medal of Honour from the Institute of Electrical and Electronics Engineers (IEEE). He has lectured around the world and is a member of the editorial boards of 55 scientific journals. In the less than 40 years since his theory was propounded, thousands of papers and scores of textbooks have been written on this seminal topic, and at least 20 international journals are established in this field. He has over 200 primary publications with thousands of citations of his research papers and has received numerous prestigious awards. His outstanding contributions as an engineer/scientist, educator and a member of the profession have earned him worldwide recognition.

Dr. Zadeh has visited the University of Saskatchewan and its Intelligent Systems Research Laboratory on five different occasions, and has inspired our university community through his thought provoking lectures and discussions on fuzzy logic and soft-computing methods. Through those presentations and numerous one-on-one discussions, he has been an inspiration and role model for many professors and students in our university. Because of his well-recognized research and countless publications, and his direct impact to scholarship and its practical applications here in our province, Dr. Zadeh is a worthy candidate to receive an Honorary Doctor of Science degree from the University of Saskatchewan.

Earned Doctor of Science

LARRY FOWKE

Larry Fowke was born in Toronto and raised in Saskatoon. He obtained an honours B.A. from the University of Saskatchewan in 1963 and a Ph.D. from Carleton University, Ottawa, in Plant Cell Biology in 1968. Following a two year postdoctoral fellowship at the Australian National University in Canberra, he joined the Department of Biology. The Fowkes have a long standing association with the University of Saskatchewan. Larry's father Vernon was a faculty member in the Department of Economics and Political Science for 36 years and Larry and Lynne's three children are graduates of the University.

Dr. Fowke's research has focused on cells, the tiny building blocks of living organisms. He is particularly interested in how cells divide to produce new cells. Recent research has revealed a new family of inhibitors that block this process in plants. Dr. Fowke has also explored the fascinating mechanisms by which plant cells move material across their cell membrane, from outside of the cell to inside. A third major area of interest is cloning of conifers. Methods have been developed that will allow the forest industry to produce virtually unlimited numbers of identical superior trees for reforestation. Dr. Fowke has co-edited a book and published over 160 research papers, chapters and reviews. Four biotechnology patents have been issued and three are pending. His research has resulted in appointments as visiting scientist at universities and research institutes in Australia, Switzerland, Sweden and England.

Dr. Fowke loves to teach. He particularly enjoys teaching introductory biology to large classes of enthusiastic first year students. His teaching also includes more specialized courses in cell biology and electron microscopy at the undergraduate and graduate levels. He has been known to employ unusual teaching aids such as the Australian didgeridoo. For over 30 years Dr. Fowke's laboratory has been an exciting place to work with numerous graduate students, postdoctoral fellows and visiting scientists from around the world.

Dr. Fowke's previous honours have included the Distinguished Researcher Award and appointments as Jarislowsky Chair in Biotechnology and Rawson Professor in Biology. He was recently recognized as an ISI Highly Cited Researcher in the plant and animal category. Dr. Fowke served four years on the grants selection committee for the Natural Sciences and Engineering Research Council. He is currently an editor for *Plant Cell Reports* and has served on the editorial boards of three other botanical and cell biology journals.

Distinguished Researcher Award

JIM HENDRY

The Distinguished Researcher Award recognizes a faculty member's contribution to scholarship through the creation, expansion, and critique of knowledge. Jim Hendry, Professor of Hydrogeology in the Department of Geological Sciences, College of Arts and Science, is the recipient of the Spring 2006 award.

Hendry is world-renowned for pioneering insights and imaginative research with aquitard—near-impermeable underground layers that sandwich the water-rich aquifers providing water supplies across Canada and around the world. Clay-rich aquitards are also the material of choice to sequester the dangerous wastes of modern technological society—everything from PCBs to mine tailings and nuclear waste.

Despite their importance, aquitards are among the most difficult geological features to study and thus the least understood area in groundwater science. Hendry was the first to address this challenge and thus define the field. With more than 100 research papers in peer reviewed journals on the topic to date, his work is the most significant and comprehensive reference on aquitards in existence. This knowledge has conferred new methods for stewardship of Earth's precious water resources.

Hendry achieved his B.Sc. in Geology and M.Sc. in Geochemistry in the 1970s from the University of Waterloo. He was awarded a Ph.D. in Hydrogeochemistry from the University of Waterloo in 1984. For 10 years he was head of the Groundwater Section for Alberta Agriculture at the Lethbridge Research Centre before becoming Director of Research for the U.S. National Groundwater Association in 1988.

He returned to Canada in 1990 to lead the Groundwater and Contaminants Project at the National Hydrology Research Institute in Saskatoon. When Cameco donated a research chair to the University in 1994, an international peer-reviewed competition selected Hendry to fill it. This was leveraged into a Cameco-NSERC Industrial Research Chair, recently renewed for a third five-year term.

Hendry has developed courses on using isotopes to study groundwater contamination, contaminant transport, aqueous geochemistry, and aquifer analysis. He currently teaches graduate and undergraduate courses in aqueous and environmental geochemistry. He has also contributed to numerous scholarly and outreach activities, including seminars on groundwater safety presented to the public. In the academic community, he has fostered strong collaborations within the University and outside partners.

Hendry's work has been selected for international awards, and resulted in a vibrant network of industrial and academic partners who seek his expertise. He was selected as the prestigious Darcy Lecturer in 2000, and over the next two years spoke at nearly 40 universities and research institutions in North America, Europe and Australia. In 2003 he was the recipient of the Hem Award for Excellence in Science and Engineering in Groundwater. His achievements and international stature contribute greatly to the reputation of this university and to the success of our students.

Master Teacher Award

FRED PHILLIPS

“Does the need of the many outweigh the need of the few? Or is it that the needs of the few outweigh the need of the many?” This debate originating between Captain James T. Kirk and Commander Spock of *Star Trek* is emblematic of the challenge teachers everywhere face in their profession. One possible measure of success as a teacher is the ability to defeat the implied tradeoff. By extension a Master Teacher can be defined as one who has been able to completely defeat the tradeoff!

Fred Phillips is a Master Teacher. Students are in awe of Fred’s ability to hold 120 of them enthralled about accounting for ninety minutes on a Monday morning at 8:30 a.m.! Testimonials consistently praise Fred’s commitment and love for fostering individual learning. For Fred there is no bigger achievement than to turn students “on” to accounting.

Fred is a teacher *par excellence*. He is a past recipient of and a winner, this year, of the USSU Teaching Excellence Award. He has twice won the College of Commerce Award for most effective teacher and has also won the Master of Professional Accounting (MPAcc) Teacher of the Year award. In fact, Fred has either been nominated for or won a teaching-related award every year since coming to the University of Saskatchewan in 1996. And prior to coming here he won the teaching excellence award at the University of Texas at Austin in 1996!

Fred Phillips is also the quintessential teacher-scholar. His teaching has informed his research and vice-versa. He is three time winner of the annual case writing competition held by the Canadian Academic Accounting Association, and the author of an introductory accounting textbook noted by students and instructors alike for its outstanding pedagogy. He is an Associate Editor of the prestigious accounting education journal, *Issues in Accounting Education*. This is an extremely challenging and demanding role to which Fred has tirelessly contributed. His contributions to the journal have been so prolific and substantive that it led the journal editor, Professor Sue Ravenscroft, to joke that the journal should perhaps be renamed Issues in FREDucation.

With Fred Phillips there is no arrogance or artifice. There is only thoughtfulness, insight, simplicity, generosity, honesty and respect. Returning to *Star Trek*, Kirk and Spock need to look no further than Fred Phillips, Master Teacher, to learn a thing or two about solving a logical conundrum!

Unlike Archimedes, who reportedly had to step into a bathtub for his “aha” experience, for those of us who know Fred, all it takes is to step into Fred’s classroom as a student, or have him as an academic referee providing comments on our work, or engage with him on a discourse about teaching and research as a colleague, for us to yell, all in one voice, “Eureka!”

Outreach and Public Service Award

FRANÇOIS MESSIER

Dr. François Messier's many contributions to teaching and research are matched only by his abiding interest in environmental conservation and community development.

His current research interests are varied, and examine a variety of important ecological questions on mammals ranging from Ord's Kangaroo rats to black-tailed prairie dogs.

A well-published authority on economically significant wildlife diseases, such as Bovine tuberculosis and chronic wasting disease, he has travelled as far north as Nunavut and the Northwest Territories to study the ecology of grizzly bears, grey wolves, and moose and is keenly interested in Aboriginal traditional knowledge with respect to caribou ecology both in the arctic and in Saskatchewan.

While much of his research speaks to his commitment to conservationism, it also illustrates his interest in the interrelationships between communities and their environments. Dr. Messier has worked with the Innu Nation and the Cree of Quebec to determine the impacts of low-level military flights on caribou health and developed a large atlas highlighting the movements of polar bears in Canada's arctic, which was translated into Inuit-Inupiaq for use by the local people. In particular, his work on polar bears required significant interaction with Inuit communities, relationships which resulted in the employment of numerous local people in order to facilitate the live capture of bears for tagging. His work has contributed to what one of his nominators has described as "bringing Canadian polar bear conservation from a somewhat rudimentary state to what more observers feel is one of the best mammal management programs in the world."

Professor Messier's belief in the importance of outreach and public service has also evidenced itself in his considerable voluntary participation in ecological organizations. In 2003, he was invited to participate in three major public policy committees that conducted independent scientific reviews of the management of grizzly bears in B.C. and the recovery of threatened mountain caribou in the Rocky Mountains. He has also served as a member of an independent environmental monitoring promoting good environmental management at the Ekati Diamond Mine in the Northwest Territories. This work created relationships with several First Nations and Métis groups and permitted interactive exchanges of traditional Aboriginal knowledge and leading edge research.

Dr. Messier's work is exceptional and he does this in addition to serving as the Department Head of the Department of Biology at the University of Saskatchewan. He exemplifies through his outreach activities the ways in which a university professor and administrator can positively engage and influence the public sphere.

President's Service Award

PAULINE MELIS

Her colleagues define her as the “quintessential professional” and “fearlessly dedicated advocate” of the institution, and credit her for achieving the “highest possible degree of consensus around documents and decisions that make a difference” at the University of Saskatchewan.

Pauline Melis, Integrated Planning Office, is the recipient of these and many other accolades, including the Spring 2006 President's Service Award. The many letters of support that accompanied her award nomination acknowledge her unwavering commitment to teamwork, her profound knowledge of the institution and her ability to articulate the University's vision through exemplary leadership of the integrated planning initiative.

Pauline was born and raised in Prince Albert, Saskatchewan. At the age of 16, she moved to Saskatoon with her twin sister Caroline to attend the University of Saskatchewan, where she obtained a Bachelor of Arts (Honours) with High Honours in History in 1977, and a Master's of Arts in History in 1982.

In 1980, Pauline served as research assistant for the History of the University of Saskatchewan project. Following her employment with the Saskatchewan Western Development Museums and federal government, she returned to the U of S in 1987 and joined the College of Arts and Science Dean's Office. In 1989, she moved to the Vice-President Academic's Office and served in several positions, including Executive Assistant to the Vice-President Academic and Provost, and Director of Academic Affairs. In 2003, Pauline was appointed Director of Institutional Planning.

For over fifteen years, Pauline has been instrumental in the creation of all major policy and planning documents at the U of S. Her long list of accomplishments include the Framework for Planning, Strategic Directions, Foundational Documents, Provost's White Paper on Integrated Planning, Systematic Program Review, and Priority Determination Process. She has also made notable contributions to Operations Forecasts, University Council policies, Aboriginal and education equity initiatives, and other institutional and college planning documents.

Pauline epitomizes dedication to the University of Saskatchewan, and has earned the respect and admiration of senior administrators, faculty, staff and students. She has been instrumental in connecting the University community with institutional planning associations across North America, and is committed to ongoing professional and personal development.

Outside the University, Pauline has been involved in numerous community organizations, including heritage societies, political associations and women's groups. She is married to Eric Cline, currently Minister of Industry and Resources for the Province of Saskatchewan.

Graduates of Agriculture, Commerce
and Engineering

Ceremony 1

Tuesday May 23, 2:00 p.m.

Undergraduate degrees, graduate degrees and diplomas to the graduates of
Agriculture, Commerce and Engineering

May 23, 2006 • 2:00 p.m.

Chancellor W. Thomas (Tom) Molloy, O.C., Q.C., B.A., LL.B., presiding

PRE-ADDRESS	University of Saskatchewan Alumni Association
PROCESSION	Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor
WELCOME	
O CANADA	Clinton Hagel
INVOCATION	Father Andre Lalach, University Chaplain
INTRODUCTIONS	
CONFERRING OF HONORARY DOCTOR OF SCIENCE DEGREE	Lotfi A. Zadeh Presented by Claude Laguë, Dean of the College of Engineering
CONVOCATION ADDRESS	Lotfi A. Zadeh
MUSICAL INTERLUDE	<i>Galop</i> – D. Shostakovich/ D. Hunsberger The University Wind Orchestra conducted by Glen Gillis
PRESIDENT'S STATEMENT TO THE GRADUANDS	Peter MacKinnon
CONFERRING OF DEGREES	
PETITION FOR ADMISSION	Lea Pennock, University Secretary
PRESENTATION OF GRADUANDS TO THE CHANCELLOR	Agriculture presented by Dean Barber Commerce presented by Dean Pearson and Assistant Dean Renny Engineering presented by Dean Laguë, Assistant Dean Gander and Assistant Dean Reeves Doctor of Philosophy presented by Dean Wishart
ADMISSION TO DEGREES IN ABSENTIA	
PRESENTATION OF AWARDS TO THE MOST DISTINGUISHED GRADUATES	Saskatchewan Institute of Agrologists Gold Medal The Fred Fulton Family Prize The Goodspeed Award The Association of Professional Engineers & Geoscientists of Saskatchewan Gold Medal
PRESENTATION OF AWARDS TO FACULTY	Master Teacher Award presented to Fred Phillips
MESSAGE FROM THE ALUMNI ASSOCIATION	Joy Crawford, Alumni Association President
CONCLUDING REMARKS	Chancellor Molloy
GOD SAVE THE QUEEN	

Agriculture • Commerce • Engineering

Degrees and Diplomas

DIPLOMA IN AGRICULTURE

Shay Jared Anderson
Maple Creek

Nina Marie Bourgeois
Barrhead, Alberta

Jody Lee Clemens
Lumsden

Derek Jordan Dery
Rose Valley

Tyler James Evans
Shellbrook

Sarah Chantal Eymann
Osler

Chad Cameron Lloyd Ferguson
Naicam

Chad Brian Fréçon
Redvers

Robynn Renée Gallays
St. Brieux

Kendell James Graham
Coleville

Amanda Lee Hamilton
Semans

Christopher Ralph Hanson
Archerwill

Amy Marie Heather
Biggar

Shawn Michael Hyshka
Vonda

Laura Jean James
Estepan

Lee Stuart Johnson
Margo

Jacqueline Marie-Paulette Lalonde
Vonda

Jonathan Roy Lock
Macklin

Alana Megan Marin
Radville

Tegan Renee Marshall
Yellow Grass

Chad Jerritt Nykolaishen
Kamsack

Bradley Warren Ornawka
Battleford

Matthew Robert Owens
Eston

George Daniel Petty
Indian Head

Remi Joseph Poirier
Bellegarde

Diana Carole Sambrook
Milestone

Ryan Heath Schroeder
Regina

Neil Allan Serfas
Brock

Lyndon Mons Stoll
Delisle

Brett Arron Stolson
Hodgeville

Stacey Lynn Stomp
Leroy

Riley William Taylor
Melfort

Carol Ann Thomson
Dinsmore

Deanna Lauren Trach
Canora

Brent Lester Twordik
Saskatoon

Tyler Shawn Venne
Wakaw

Melissa Rae Wick
Weyburn

Timothy Michael Zidkovich
Biggar

Clarke Daniel Ziola
Nut Mountain

BACHELOR OF SCIENCE IN AGRICULTURE

Jeffrey John Bergermann
Humboldt

Whitney Marie Block
Hudson Bay

Chelsea Rae Bulani
Biggar

Lisa Nicole Chadwick
Piapot

Rory Todd Cranston
Moose Jaw

Danielle Susanne Grace Cross
Chelan

Ashley Kailyn Dew
Windthorst

Trent Derek Dewar
Hazlet

Dayna Lee Dreger
Saskatoon

Natasha Rose Dull
Edam

Lindsay Dawn Durrant
Moose Jaw

Jennalee Anne Ecklund
Whitewood

Lane Kenneth Empey
Aneroid

Leah Kathleen Fedoruk
Kamsack

Kirsten Marie Findlay
Lloydminster

Jarrold Robert McLean Fogal
Lafleche

Melissa Margaret Fuchs
Fleming

Nima Gerami
Iran

Erin Danielle Gibson
Acadia Valley, Alberta

Sylvia Jean Gibson
Calgary, Alberta

Kirk Thomas Graham
Lone Rock

Nicole Dawn Greenbank
Kelso

Rebecca Jane Gummesson
Cabri

Heather Don Haeusler
Muenster (*posthumously*)

Megan Marie Halter
North Battleford

Anna Theresa Hansen
Yorkton

Caressa Janine Hanson
Saskatoon

Agriculture • Commerce • Engineering

Degrees and Diplomas

Heather Dawn Haydock
Lloydminster

Wei He
People's Republic of China

Jeffrey William Henry
Gray

Ryan Michael Hering
Bruno

Morgan Clayre Hill
Vanscoy

Keith Darwin Isberg
Melfort

Jeremy William Janzen
Watrous

Wayne Perry Kooy
Prince Albert

Jason Clayton Kuchinka
Macoun

Justin Parry Kusler
Maple Creek

Krista Michelle LaFrenière
North Battleford

Kolan William Langmaier
Regina

Ee Lynn Lee
Malaysia

Kendra Lauren Lee
Hawarden

Zhen-Yuan Lei
People's Republic of China

Stacey Lynn Lieslar
Young

Brent Donald Little
Biggar

Kabo Masisi
Botswana

Amanda LeAnn Matson
Langley, British Columbia

Justin Wesley McKnight
Fort St. John, British Columbia

Sonya Marie Meier
Ridgedale

Grant William Michelson
Lipton

Morley Dominic Miller
Wilkie

Jamieson Granger Mills
Moosomin

Ryan Joseph Moorman
St. Gregor

Eric Kjeld Nielsen
Standard, Alberta

Brent Justus Earl Norwig
Wolseley

Gregory Ben Pohler
Spalding

Yvonne Daneen Potter
Saskatoon

Kathryn Anne Ross
Regina

Kimberly Morgan Russell
Craven

Peter John Sawatzky
Herbert

Brennan Peter Schachtel
Macklin

Matthew Renton Scobie
Surrey, British Columbia

Janice Nadine Shea
Kindersley

Heather Dawn Sherstobitoff
Young

Amanda Marie Skaftfeld
Kenosee Lake

Stacie Allison Skiftun
Melfort

Xin Song
People's Republic of China

Christine Susanne Sullivan
Regina

David William Sullivan
Mossbank

Carly Ellen Summach
Calgary, Alberta

Nicole Lynn Tanner
Moose Jaw

Erin Nicole Tassell
Victoria, British Columbia

Janel Danette Taylor
Ridgedale

Kyle Brian Templeton
Rouleau

Errin Marie Tollefson
Mossbank

Julie Lynn Velichka
Invermay

Alison Katherine Ward
Saskatoon

Kristen Kerry Wasylenchuk
Vanscoy

Kale Dee Wilson
McCord

Michael William Witt
Vernon, British Columbia

Ryan Lindsay Woloshyn
Mayfair

Adrienne Jay Worley
Langbank

MASTER OF SCIENCE

Seth Andrew Briggs
Saskatoon

Animal Science – Thesis: Molecular Tracking of Intestinal Colonization of Two Bacterial Species Following Oral Inoculation in Broiler Chickens

Rachel Susanne Buhler
Osler

Plant Science – Thesis: Influence of Management Practices on Weed Communities in Organic Cereal Production Systems in Saskatchewan

Kim Lannette Ducherer
Okotoks, Alberta

Plant Science – Thesis: Effects of Burning and Thinning on Species Composition and Forage Production in British Columbia Grasslands

Mark Andrew Ferguson
Edgeley

Agricultural Economics – Thesis: Demographic Change and Sustainable Communities: The Role of Local Factors in Explaining Population Change

Tyler Ray Freeman
Simpson

Agricultural Economics – Thesis: From the Ground Up: An Agent-Based Model of Regional Structural Change

Donna Carolynn Junk
Pleasantdale

Plant Science – Thesis: Seedcoat Darkening in Pinto Bean (*Phaseolus vulgaris* L.)

Agriculture • Commerce • Engineering

Degrees and Diplomas

Sharon Anne Klinger
Nanton, Alberta

Animal Science – Thesis: Limit Feeding a High Grain Barley-Based Diet to Backgrounding and Finishing Cattle in Western Canada

Tennille Dawn Knezacek
Esterhazy

Animal Science – Thesis: Broiler Transportation in Saskatchewan

Pamela Diana Lerner
Saskatoon

Plant Science – Thesis: A Comparative Study on Seed Heteromorphism in *Achnatherum brachychaetum* (Godr.) Barkworth and *Nassella clarazii* (Ball) Barkworth

Binbing Ling
People's Republic of China

Animal Science – Thesis: Study of Hepatic Cytochrome P450 System in Richardson Ground Squirrels

Sarah Louise Lipoth
Waldron

Soil Science – Thesis: Repeated Manure Applications and Trace Element Levels in Soils and Plants

Darrell Robert Ocrane
Biggar

Applied Microbiology – Thesis: Synergistic Effects of Stress Agents in Whole Corn Mash Fermentations Using *Saccharomyces cerevisiae*

Laura Faye Smith
Clavet

Animal Science – Thesis: Impact of Tylosin Phosphate, Flaxseed, and Flaxseed Fractions on Small Intestinal Microbial Profiles in Pigs

Megan Leah Strawford
Battleford

Animal Science – Thesis: Social Factors that Affect the Behaviour and Productivity of Gestating Sows in an Electronic Sow Feeding System

Brandy Rose Street
Moose Jaw

Animal Science – Thesis: The Effects of Housing Grow-Finish Pigs in Two Different Group Sizes and Floor Space Allocations

Chantal Marie Stumborg
Naicam

Soil Science – Thesis: Phosphorus and Nitrogen Loading in Manured Saskatchewan Soils

Lindsay Keith Tallon
Saskatoon

Soil Science – Thesis: Transport and Retention of *Escherichia coli* Through Soil

Shelagh Jean Torrie
Saltcoats

Soil Science – Thesis: Assessing the Illinois Soil Nitrogen Test as a Measure of Potentially Available Nitrogen

Tyler Dustin Turner
Lockwood

Animal Science – Thesis: Evaluation of the Effect of Dietary Forge and Concentrate Levels on the Fatty Acid Profile of Bison Tissue

Gemunu Prasanna Widyaratne
Saskatoon

Animal Science – Thesis: Characterization and Improvement of the Nutritional Value of Ethanol By-Products for Swine

BACHELOR OF COMMERCE

Shawna Jade Achtymichuk
Melville

Collette Joy Allen
Shellbrook

Christopher LeRoy Anderson
Saskatoon

Jeremy James Anderson
Hudson Bay

Kent Anderson Anholt
Kenaston

Laith Hanna Anton
Saskatoon

Christopher Daniel Arndt
Saskatoon

Sarah-Anna Auckland
Moose Jaw

Terry Steven Baerg
Saskatoon

Jin Bai
People's Republic of China

Colin Omer Baillargeon
Jackfish Lake

Mathew Adam Balicki
Prince Albert

Reagan Patrick Baliski
Saskatoon

Kyle James Banbury
Indian Head

Dustin Jae Bartsch
Saskatoon

Susan Theresa Diane Bazin
Saskatoon

Alexandre Beaudry
Montreal, Quebec

Jeffery David Benjamin
Saskatoon

Susanne Kendall Berg
Cabri

Alana Carrie Bergstrom
Prince Albert

Amy Lee Beutler
Whitewood

Michelle Renee Binette
North Battleford

Kevin Angus Murray Billeloch
Esterhazy

Miranda Rae Blocka
Prince Albert

Steven John Bomok
Saskatoon

Jennifer Irene Borstmayer
Cudworth

Alyson Janette Borycki
Saskatoon

Amanda Chantel Borycki
Saskatoon

Marla Dawn Boyer
United States of America

Angela Laurel Boyes
Saskatoon

Matthew Drake Boyle
Saskatoon

Christian Leigh Braid
Saskatoon

Kevin Garth Braid
Saskatoon

Lindsay Cecile Bryson
Deer Valley

Paul David Michael Buczkowski
Saskatoon

Herman Reginald David Bugler
Red Pheasant First Nation

Shawn Michael Bunnin
Saskatoon

Serina Anne Calfas
Moose Jaw

MASTER OF ENGINEERING

Arvind Balasubramanian
India
Mechanical Engineering – Project

Muhammad Shafique
Saskatoon
Electrical Engineering – Project: Analysis of Digital Subscriber Line (DSL) Using Frequency Domain Reflectometry (FDR)

MASTER OF SCIENCE

Olusegun John Adigun
Saskatoon
Mechanical Engineering – Thesis: The Effect of Sensitization on the Corrosion Susceptibility and Tensile Properties of AA5083 Aluminum

Vikrama Krishnan Baskaran
India

Chemical Engineering – Thesis: Kinetics of Anaerobic Sulphate Reduction in Immobilised Cell Bioreactors

Warren Thomas Brooke
Saskatoon

Mechanical Engineering – Thesis: The Transient Motion of a Solid Sphere Between Parallel Walls

I-Chun Chen
Taiwan

Environmental Engineering – Thesis: Effects of Manure Application upon Water Quality of Surface Runoff from Rainfall Simulation Tests

Daniel Bruce De Forrest
Saskatoon

Electrical Engineering – Thesis: Photoinduced Dichroism in Amorphous As₂Se₃ Thin Film

Yi Gao
People's Republic of China

Electrical Engineering – Thesis: Adequacy Assessment of Electric Power Systems Incorporating Wind and Solar Energy

Rezaul Haque
Saskatoon

Electrical Engineering – Thesis: Transmission Loss Allocation Using Artificial Neural Networks

Jaime Michele Hogan
Saskatoon

Environmental Engineering – Thesis: Hydrologic Behavior and Hydraulic Properties of a Patterned Fen in Saskatchewan

Dange Huang
People's Republic of China

Electrical Engineering – Thesis: Basic Considerations in Generating Capacity Adequacy Evaluation

Manoj Jogi
India

Civil Engineering – Thesis: A Method for Measuring Smooth Geomembrane/Soil Interface Shear Behaviour under Unsaturated Conditions

Antarpreet Singh Jutla
India

Civil Engineering – Thesis: Hydrologic Modeling of Reconstructed Watersheds Using a System Dynamics Approach

Kang Hyun Kim
Saskatoon

Electrical Engineering – Thesis: Low Frequency Noise in Hydrogenated Amorphous Silicon Thin Film Transistors

Agriculture • Commerce • Engineering

Degrees and Diplomas

Ze Liang Li
People's Republic of China

Mechanical Engineering – Thesis: Condition Monitoring of Axial Piston Pump

Lin Lu
People's Republic of China

Chemical Engineering – Thesis: Experimental Study of Reverse Crevice Corrosion of Copper

Najeeb Ur-Rehman Mohammad
Saskatoon

Mechanical Engineering – Thesis: Analysis and Development of a Tunable Fiber Bragg Grating Filter Based on Axial Tension/Compression

Son Xuan Nguyen
Saskatoon

Electrical Engineering – Thesis: Transmission of Vector Quantization over a Frequency-Selective Rayleigh Fading CDMA Channel

Norens Okungbowa
Nigeria

Mechanical Engineering – Thesis: CFD Analysis of Steady State Flow Forces in a Rim-Spool Valve

Olalekan Fatai Osanyintola
Nigeria

Mechanical Engineering – Thesis: Transient Moisture Characteristics of Spruce Plywood

Amit Pashan
Saskatoon

Civil Engineering – Thesis: Behaviour of Channel Shear Connectors: Push-Out Tests

Jaiminkumar Bhagwatiprasad Patel
India

Electrical Engineering – Thesis: Reliability/Cost Evaluation of a Wind Power Delivery System

Kapil Dev Pathak
India

Chemical Engineering – Thesis: Catalytic Conversion of Glycerol to Value-Added Liquid Chemicals

Anna Olena Paturova
Ukraine

Civil Engineering – Thesis: The Influence of Vertical Reinforcement and Lateral Confinement on the Axial Capacity of Masonry Block Walls

Thanigaimani Rajarathinam
India

Chemical Engineering – Thesis: The Global Organization and Topological Properties of *Drosophila melanogaster*

Balasundaram Ramanadhan
Saskatoon

Agricultural and Bioresource Engineering – Thesis: Microwave Extraction of Essential Oils (From Black Pepper and Coriander) at 2.46 GHz

Lakshminarayana Reddy N.
India

Agricultural and Bioresource Engineering – Thesis: Drying Characteristics of Saskatoon Berries under Microwave and Combined Microwave Convection Heating

Ryan Nathan Riess
Unity

Chemical Engineering – Thesis: Mass Transfer and Bioremediation of PAHS in a Bead Mill Bioreactor

Gang Sun
People's Republic of China

Agricultural and Bioresource Engineering – Thesis: Monitoring and Modelling Diurnal and Seasonal Odour and Gas Emission Profiles for Swine Grower/Finisher Rooms

Michael Andre Joseph Tremblay
Saskatoon

Civil Engineering – Thesis: Groundwater Response in a Fractured Sandstone Aquifer to Dewatering of an Open Pit Mine

Quan Wan
People's Republic of China

Electrical Engineering – Thesis: Adaptive RAKE Receiver Structures for Ultra Wide-Band Systems

Lisa Nicole White
Yorkton

Agricultural and Bioresource Engineering – Thesis: Water Balance of a Feedlot

Hua Yang
Saskatoon

Electrical Engineering – Thesis: Incorporating Station Related Maintenance and Aging Outages in Composite System Reliability Evaluation

DOCTOR OF PHILOSOPHY

Olajide Ganiyu Akinlade
Nigeria

Mechanical Engineering – Thesis: Effects of Surface Roughness on the Flow Characteristics in a Turbulent Boundary Layer

Pascal Laoun Ghazalian
Lebanon

Agricultural Economics – Thesis: Gravity Model, Border Effects and Home Market Effect: An Ownership-Basis Approach

Subrata Karmakar
India

Agricultural and Bioresource Engineering – Thesis: Numerical Modeling of Soil Flow and Pressure Distribution on a Simple Tillage Tool Using CFD

Hossein Nikakhtari
Saskatoon

Chemical Engineering – Thesis: Bioremediation of Industrial VOC Air Pollutants

Bijay Lal Shrestha
Nepal

Electrical Engineering – Thesis: Microwave Measurement and Modeling of the Dielectric Properties of Vegetation

Dilrukshi Thavarajah
Saskatoon

Plant Science – Thesis: Nitrogen Fixation, Amino Acid and Ureide Associations in Chickpea and Pea Cultivars in Saskatchewan

Wijarn Wangdee
Thailand

Electrical Engineering – Thesis: Bulk Electric System Reliability Simulation and Application

Darryl Clayton Wilkie
Saskatoon

Applied Microbiology – Thesis: Non-Antibiotic Approaches to Control Pathogens in the Gastrointestinal Tract of the Broiler Chicken

Thomas Trent Yates
Saskatoon

Soil Science – Thesis: Spatial and Temporal Patterns of Nitrous Oxide and Their Relationship to Soil Water and Soil Properties

Graduates of Arts & Science

Ceremony 2

Wednesday May 24, 9:00 a.m.

Anatomy & Cell Biology, Art History, Biochemistry, Bioinformatics,
Biology, Biomolecular Structure Studies, Biotechnology & Biochemistry,
Biotechnology & Biology, Biotechnology & Cell Biology,
Biotechnology & Microbiology, Business Economics,
Classical, Medieval & Renaissance Studies,
Classical & Near Eastern Archaeology, Comparative Literature & Languages,
Computer Science, Computing, Economics, English,
Environmental Earth Sciences, Food Science, French, Geography,
Geology, German, History, International Studies,
Land Use and Environmental Studies, Linguistics, Microbiology,
Palaeobiology, Physiology, Regional and Urban Development,
Russian, Spanish, Studio Art, Ukrainian

Undergraduate degrees, graduate degrees, diplomas and certificates to the graduates of

Arts & Science

May 24, 2006 • 9:00 a.m.

Chancellor W. Thomas (Tom) Molloy, O.C., Q.C., B.A., LL.B., presiding

Graduates of Dentistry, Kinesiology,
Medicine, Pharmacy & Nutrition,
Physical Therapy and Veterinary Medicine

Ceremony 4

Wednesday May 25, 9:00 a.m.

Undergraduate degrees, graduate degrees and diplomas to the graduates of

Dentistry, Kinesiology, Medicine, Nutrition, Pharmacy Physical Therapy and Veterinary Medicine

May 25, 2006 • 9:00 a.m.

Chancellor W. Thomas (Tom) Molloy, O.C., Q.C., B.A., LL.B., presiding

PRE-ADDRESS	University of Saskatchewan Alumni Association
PROCESSION	Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor
WELCOME	
O CANADA	Clinton Hagel
INVOCATION	Renita Falkenstern, University Chaplain
INTRODUCTIONS	
CONFERRING OF HONORARY DOCTOR OF LAWS DEGREE	The Honorable Sylvia Fedoruk Presented by President Peter MacKinnon
CONVOCATION ADDRESS	The Honorable Sylvia Fedoruk
PRESIDENT'S STATEMENT TO THE GRADUANDS	Peter MacKinnon
MUSICAL INTERLUDE	<i>Galop</i> – D. Shostakovich/ D. Hunsberger The University Wind Orchestra conducted by Glen Gillis
CONFERRING OF DEGREES	
PETITION FOR ADMISSION	Lea Pennock, University Secretary
PRESENTATION OF GRADUANDS TO THE CHANCELLOR	Dentistry presented by Dean Stakiw Kinesiology presented by Dean Rodgers Medicine presented by Dean Albritton and Associate Dean Thornhill Nutrition presented by Dean Gorecki Pharmacy presented by Dean Gorecki Physical Therapy presented by Associate Dean Harrison Veterinary Medicine presented by Dean Rhodes Doctor of Philosophy presented by Associate Dean Gambell
ADMISSION TO DEGREES IN ABSENTIA	
PRESENTATION OF AWARDS TO THE MOST DISTINGUISHED GRADUATES	Gold Medal in Dentistry The Dr. Gordon Garvie Prize in Kinesiology Lindsay Gold Medal in Medicine Rutter Medal in Nutrition Robert Martin Prize in Pharmacy Talmage E. Hunt Award in Physical Therapy Western College of Veterinary Medicine Faculty Gold Medal
MESSAGE FROM THE ALUMNI ASSOCIATION	Joy Crawford, Alumni Association President
CONCLUDING REMARKS	Chancellor Molloy
GOD SAVE THE QUEEN

MASTER OF SCIENCE

Marie-Line Gentes
Saskatoon

Veterinary Pathology – Thesis: Health Assessment of Tree Swallows (*Tachycineta bicolor*) Nesting on the Athabasca Oil Sands, Alberta

Allison Jane Squires
Guelph, Ontario

Toxicology – Thesis: Ecotoxicological Assessment of Using Coke in Aquatic Reclamation Strategies at the Alberta Oil Sands

DOCTOR OF PHILOSOPHY

Daniel Gilbert Bechtel
Saskatoon

Toxicology – Thesis: Associations of Exposure to Oil and Gas Processing and Production Emissions on Immunomodulation in Yearling Cattle and Neonatal Calves

Leonardo Fonseca Castro Brito
Saskatoon

Large Animal Clinical Sciences – Thesis: Nutrition, Metabolic Hormones and Sexual Development in Bulls

Jonathan Peter Farthing
Saskatoon

Kinesiology – Thesis: Functional Magnetic Resonance Imaging and Electromyography of Neuro-physiological Adaptations Associated with Cross-education of a Complex Strength Task

Nicole Marie Geremia
Lethbridge, Alberta

Anatomy & Cell Biology – Thesis: The Role of Brain-Derived Neurotrophic Factor in the Injured/Regenerating Sensory Neuron

Monique Adelle Horbay
Saskatoon

Microbiology – Thesis: Inhibition Phenotype Specific for ori λ Replication-dependent Phage Growth, and a Reappraisal of the Influence of λ P Expression on *Escherichia coli* Cell Metabolism: P-Interference Phenotype

Georgios Simeon Katselis
Greece

Pharmacy – Thesis: Biologically Active Triterpene Saponins from the Root of the Medicinal Plant *Polygala senega* L.

Sasho James Mackenzie
French Creek, Prince Edward Island

Kinesiology – Thesis: Understanding the Role of Shaft Stiffness in the Golf Swing

Rose Alene Roberts
Stanley Mission

Community Health and Epidemiology – Thesis: Stories About Cancer Among the Woodland Cree of Northern Saskatchewan

Mohammad Shahriar
Saskatoon

Veterinary Pathology – Thesis: Humoral Innate Immune Substances in Porcine Milk

Aliakbar Taherian
Iran

Anatomy & Cell Biology – Thesis: Expression and Function of α and β

Tyler Austin Whale
Goldstone, Ontario

Veterinary Microbiology – Thesis: The Mechanism and Functional Consequences of Passive Acquisition of Membrane and Integral Membrane Protein by Bovine Polymorphonuclear Neutrophils

Graduates of Education and Law

Ceremony 5

Wednesday May 25, 2:00 p.m.

Undergraduate degrees, graduate degrees and diplomas to the graduates of

Education and Law

May 25, 2006 • 2:00 p.m.

Chancellor W. Thomas (Tom) Molloy, O.C., Q.C., B.A., LL.B., presiding

PRE-ADDRESS	University of Saskatchewan Alumni Association
PROCESSION	Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor
O CANADA	Dolores Sand will sing our national anthem in Cree
INVOCATION	Elder Alma Kytwayhat
WELCOME AND INTRODUCTIONS	Lea Pennock, University Secretary
