The graduation lists shown in this program were prepared prior to convocation and may not reflect final college decisions regarding each student's eligibility for graduation. As a result, some of the students listed in this program may not have been formally approved to receive the degree or diploma indicated. The registrar maintains the official list of graduates.

PRESIDENT'S MESSAGE

PETER MACKINNON

I want to express a very warm welcome to the graduates, families and friends who join us today for this very important ceremony. It is here at Convocation that we recognize and celebrate the accomplishments and achievements of our students as well as the contributions and support of their loved ones to their success. You should be proud of this day and of the commitment and sacrifice that it represents.

We at the University of Saskatchewan are very proud of our accomplishments and it is thanks in large part to you, our students, who have helped

us to achieve our goal of building a world-class institution of higher learning.

We extend to you our very best wishes for the future. We hope that you will stay in touch with us through our University of Saskatchewan alumni family, and that we will have the opportunity to welcome you back to campus many times in the years ahead.

Warmest congratulations!

A handwritten signature in black ink, which appears to read "Peter Mackinnon". The signature is fluid and cursive, written in a professional style.

HEATHER **MAGOTIAUX**

Welcome and congratulations to our graduates. Convocation marks one of life's great transitions from university student to University of Saskatchewan alumni.

The university experience represents some of the most formative and important years of our lives. The U of S is where we met lifelong friends, became a part of a welcoming campus community and learned how we might impact the world we live in. You are joining a community of over 135,000 graduates around the world, who year after year continue to build upon the success of those before you. I hope you take the time to reflect upon this important accomplishment, and know that your future is bright with endless possibilities.

Graduation is the beginning of your journey in discovery and represents your commitment to life-long learning. Just as you had the support of your family, classmates, professors and numerous others to help you achieve success as a student, you now have the support of your U of S alumni family to help you along your journey of learning and discovery in the future. Please continue to keep in touch, and share your milestones with us.

Congratulations class of 2012, and welcome to the U of S alumni family.

Heather Magotiaux
Vice-President, University Advancement

VERA PEZER

Dr. Pezer has a long association with the University of Saskatchewan, earning her undergraduate and graduate degrees from the university and serving as associate vice-president (Student Affairs and Services) from 1991–2001. Dr. Pezer first joined the university in 1966 in Student Counselling Services and as a part-time instructor in the Department of Psychology. She would later become director of student counselling, an assistant professor of psychology and assistant dean, College of Arts and Science. Under her leadership, student retention and academic success were enhanced and the university's first offices dedicated to student emergency financial assistance, disability services for students, and aboriginal student support programs established.

She has held volunteer and leadership roles with the Saskatoon Board of Police Commissioners, Saskatchewan Centennial Gala, Hope Cancer Race for Recovery, Saskatoon Housing Coalition, Persephone Theatre and the YWCA. Dr. Pezer

has also contributed widely to professional and amateur sports organizations. She is a member and current chair of the 1989 Jeux Canada Games Foundation, director of the 1991 Scott Tournament of Hearts and ceremonies chair of the 1989 Brier. As a sport psychologist, Dr. Pezer served as an adviser and trainer to Canadian curling teams in two Olympic Games.

An accomplished athlete in her own right, Dr. Pezer is a four-time Canadian ladies' curling champion, a Canadian softball champion, and two-time member of the Saskatchewan senior women's golf team. She has received a place of honour in the Saskatoon and Saskatchewan Sports Halls of Fame and in the Canadian Curling Hall of Fame. In 2003, Dr. Pezer completed her first book, *The Stone Age: A Social History of Curling in the Prairies*. She has just published her second, titled *Smart Curling*. Dr. Pezer was honoured with a Saskatchewan Centennial Medal in 2006, and in 2002, received the University of Saskatchewan Alumni Award of Achievement.

Our success story

SINCE 1907 the University of Saskatchewan has been building a proud tradition. We have evolved from a prairie college to a centre of excellence in education and research. Our students, faculty, staff and alumni are a testament to our success. Their example has set a precedent for institutions across Canada, North America and the world.

OUR CREST

Three Sheaves

symbolizing the province

Open Book

representing the university

Deo et Patriae

— our motto — For God and
Country

OUR TEAM

The U of S Huskies are at the centre of our school spirit. With over 350 athletes, 15 teams and countless championship titles, the U of S has developed a reputation as a dominant player in interuniversity sports.

OUR SONG

(an excerpt)

Sing for Saskatchewan,

And let your song ring out,

And rise for Saskatchewan,

Saskatchewan we shout.

Think of the days you've known,

Inside the greystone walls,

Then rise for Saskatchewan,

Give your song, your heart, your all.

— Words and music by Neil Harris, 1951

President MacKinnon's *Legacy* **OF LEADERSHIP**

President MacKinnon will step down from his role as president of the University of Saskatchewan as of June 30, 2012, but his legacy will endure.

The success of the U of S under President MacKinnon was trumped only by his ambitions for the university, which continue to set our course moving forward.

With President MacKinnon as our president, the U of S has grown in many ways. We are welcoming more students from more places around the world, we are physically expanding to accommodate the important research, learning and discovery taking place on our campus, and we are building deeper connections with the communities around Saskatchewan and beyond. We move forward from President MacKinnon's tenure more proud of our accomplishments, with bigger dreams for the future and confident that we can achieve anything we aspire towards.

After becoming president in 1999, President MacKinnon's leadership both built on our proud sense of history and welcomed innovation to lead the U of S into the future.

WE ARE ATTRACTING THE BEST AND BRIGHTEST.

Under President MacKinnon, our student population has grown to over 20,000 and continues to climb. More graduate students, international students and self-identified First Nations and Métis students are choosing the U of S.

Our commitment to research has strengthened under President MacKinnon. We have attracted 36 Canada Research Chairs allocated to the U of S, who work on research that has an effect on the world's quality of life, including crop development, x-ray science, Aboriginal health and water quality.

WE ARE GROWING FOR THE FUTURE.

With more students choosing the U of S, we are building capacity and enhancing their experience through capital growth and new initiatives. The Learning Commons in the Murray Library offers gathering space and study options, the Learning Communities help first-year students make the transition into post-secondary education, and the new student residences will let more students live on campus.

President MacKinnon oversaw \$1 billion in The Health Sciences project will be an interdisciplinary home for our health science students and the visionary plan for College

Quarter is guiding our plans for future development, including student residences, arts and recreation spaces, and more. This growth will support our teaching, learning and research mission for years to come.

WE BELIEVE IN POSSIBILITY.

With President MacKinnon, we turned opportunity into future potential. As the home to the only Canadian synchrotron, the Canadian Light Source, and VIDO-InterVac, one of the largest containment level 3 facilities in North America, our researchers have access to unique facilities that can turn today's possibility into tomorrow's discovery.

College of Engineering builds solid reputation

The College of Engineering has risen from humble beginnings to become the innovative and world-renowned school that it is today. Established in 1912 with a mere handful of students, the first Bachelor of Science in Engineering degrees were awarded in the spring of 1916 to three proud Civil Engineering graduates. By the 1920s, the college had its own building and dean, as well as a bright and enthusiastic group of undergraduates who quickly distinguished themselves with major building projects, many of which now form the backbone of Saskatoon's skyline—and cities further abroad.

Today as it celebrates its centennial, the College of Engineering boasts over 1,500 undergraduates and more than 300 graduate students.

There is a sense of pride as we reflect on the traditions of the first 100 years of the college. There is also a sense of excitement as we look to the future. With a solid foundation that has grown stronger through decades, we will take time to celebrate our successes and continue to strengthen the traditions that have grown along the way.

Our proud tradition

1912

1920–21

The Engineering Building, built in three stages beginning in 1910, is completed in 1920. School of Engineering becomes a College in 1921, and C. J. Mackenzie appointed as the first dean.

1925

The Engineering Building is destroyed by fire.

1940's

Because of the demonstrated importance of engineers to the war effort, the College of Engineering becomes the largest College on Campus for the first time. Electrical Engineering introduced.

1946

Miss Isobel (Izzy) Beatrice Daw of Saskatoon becomes the first woman engineering graduate at the U of S.

1959

Students organize the Engineering Show to showcase their work to faculty, family and friends. This event would eventually be renamed as Spectrum in 1976.

1976

Professors Mel Hosain and Joe Chudobiak start the College of Engineering's annual Distinguished Graduate Lecture Series to honour University of Saskatchewan engineering alumni. On the 10th anniversary of the lecture series, the event is renamed after C.J. Mackenzie.

1989

Undergraduate students in the College of Engineering launch the first SCI-FI Science Camps.

2000

Huskie Motorsport entered their first car in a competition held in Detroit, Michigan. The 2011 competition saw the team's Formula SAE car place 37th overall out of 80 teams.

2007

The U of S Space Design Team takes first place in NASA's 2007 Space Elevator Competition for the third year in a row. The team is now competing in the Canadian Satellite Design Challenge which will culminate in the Fall of 2012.

1965

The Space Engineering Division formed in 1965 but breaks away from the University in 1972 to become SED Systems.

1982

The new Engineering Building officially opens.

1997

The Peter N. Nikiforuk Innovative Teaching and Learning Centre (ITLC) is established and builds on Dr. Nikiforuk's impressive contributions to the study of engineering by finding innovative ways to improve the learning experience for U of S engineering students.

2002

The U of S Sled Dogs Quarter Scale Tractor team competes for the first time. They have since been awarded three top five finishes between 2008 and 2011 and the Best Appearance Award in 2007 to 2010. They will compete again June 20-23, 2012 in Lincoln, Nebraska.

2011

The first graduates of the Environmental Engineering Program graduate.

Tradition ■ Innovation ■ Celebration

College of Agriculture and Bioresources story rooted in innovative thinking

The College of Agriculture and Bioresources has been a consistent strength for the University of Saskatchewan through its research, teaching, outreach and technology transfer. With a century of experience, the college has a storied history of innovation in products and practices that have transformed our world.

Regular classes in the College of Agriculture begin

1912

1914

The Better Farming Trains visit rural Saskatchewan with the latest agricultural information until 1922.

1915

First Bachelor of Science in Agriculture awarded with 24 graduates.

1922

First Master of Science degree in Agriculture awarded.

1937

The School of Agriculture established to administer the diploma program.

1953

First Ph.D. degree in Agriculture awarded.

1956

The first commercially practical dairy-calf milk replacer developed by J.M. (Milt) Bell.

1972

Kernen Crop Research Station, now a first class crop and ecology research unit, is developed.

1978

The first Canadian bred lentil, Laird, registered by Dr. Al Slinkard.

1991

Agriculture Building official opening.

2006

Establishment of the Indigenous Peoples Resource Management Program.

2007

Bachelor of Science in Renewable Resource Management established.

1971

The Crop Development Centre set up to expand crop-breeding research and has since developed more than 380 crop varieties .

1990

Partners in Growth Campaign, led by 'Sodbusters', alumni and friends of the college, raise nearly \$13-million to contribute to construction of a new Agriculture Building.

1990

Meat research program established.

1998

The School of Agriculture as an administrative unit is disbanded.

2005

Bachelor of Science in Agribusiness established.

2006

Name changed to the College of Agriculture and Bioresources to better reflect the scope of research and teaching.

2012

Bachelor of Science in Animal Biosciences approved for a first offering in September 2013.

Distinguished alumni pride of law college

This year, the College of Law marks its 100th anniversary. Since its inception as the first university law school in Western Canada, the college has created a long, proud history of excellence in teaching, research and innovation. In 2012, we celebrate our alumni and the significant contributions they have made to the world we live in.

1912

The University of Saskatchewan
College of Law is founded.

1912
Arthur Moxon begins his 17 year term as Dean.

1915
College of Law's first graduating class.

1919
Canada's 13th Prime Minister, John G. Diefenbaker, graduates from the College.

1920

Elsie Hall becomes the first female to graduate from the law school.

1956

The 24th Governor General of Canada, Ramon Hnatyshyn, graduates from the law school.

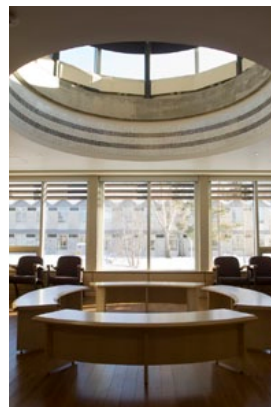

1964

Saskatchewan's 12th Premier, Roy Romanow, graduates.

1975

The Native Law Centre is established.

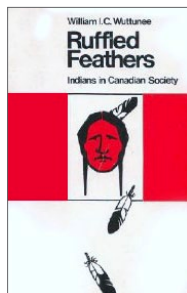

2008

The College of Law completes a \$16.5 M addition to the law building, partly funded through the generous support of alumni and friends.

1952

William Wuttunee, the first First Nations lawyer to be admitted to the bar in Western Canada, graduates from the College of Law.

1963

Otto Lang appointed Dean of Law. Lang would go on to a career in Canadian politics, elected as an M.P. in 1968, 1972 and 1974.

1967

The College of Law moves to its new and current location at 15 Campus Drive.

1988

The current University of Saskatchewan President, Peter MacKinnon, begins his 10 year term as College Dean.

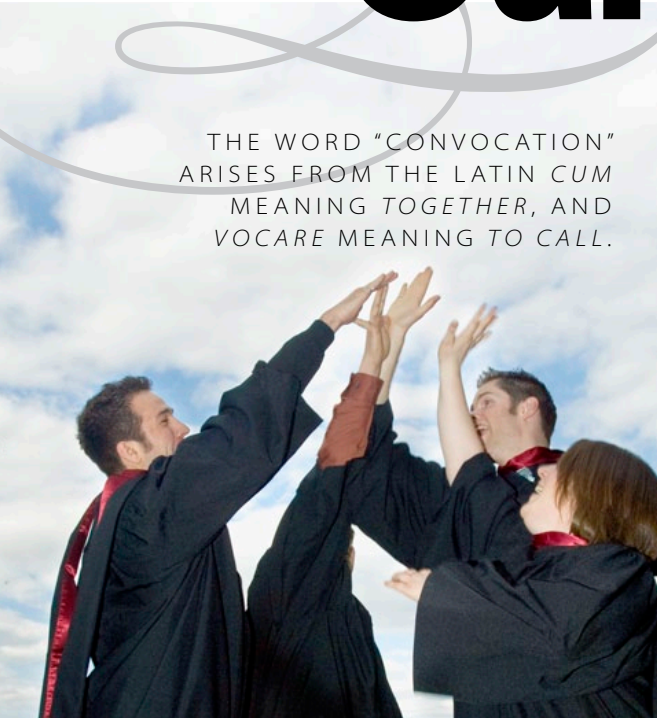

2012

The College of Law celebrates its Centennial with an all years reunion weekend, October 5 and 6 in Saskatoon.

Our ceremony

THE WORD "CONVOCATION" ARISES FROM THE LATIN *CUM* MEANING *TOGETHER*, AND *VOCARE* MEANING *TO CALL*.

Our convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of convocation are the election of representatives to university governing bodies and the admission of candidates to degrees. The chancellor, appointed by senate as the chair of convocation, is the highest official and spokesperson of the university.

The convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges.

The ceremony, solemnized in the presence of the university community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the president's statement to the graduands, the secretary's petition and the chancellor's consent for their admission; followed by individual presentation by their dean and admission by the chancellor to the degrees to which they are entitled.

As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate's head.

“I consent to admit you to the degrees and certificates to which you are entitled”

ENTRANCE

The members of convocation in their academic robes march in procession into the ceremony in the following order: graduands in the order in which their degrees are to be conferred; faculty; board of governors; senate; guests of honour; the president; the chancellor; the lieutenant governor. When the members of convocation reach their places they remain standing during the Vice-Regal Salute, the singing of O Canada and the invocation.

ORDER OF THE CEREMONY

The first business is the conferring of honorary degrees, followed by convocation address, president's statement to the graduands, the conferring of degrees and the presentation of awards. The meeting is closed by the chancellor rising and asking the audience to join in the singing of *God Save the Queen* and leading the procession in the reverse order out of the hall.

DEGREE CEREMONY

The ceremony comprises the petition, the admission and the presentation.

THE PETITION

The university secretary on behalf of all the candidates, addresses the chancellor and senate in these words:

“Eminent Chancellor, Mr. President, members of the University Senate and Board, I present to you the petition of the Council of this University that the candidates to be named, having fulfilled all the requirements of the bylaws, may, with your permission, be admitted to the degrees and certificates to which they are entitled”.

THE ADMISSION

The chancellor then addresses the candidates in these words:

“By virtue of the authority vested in me by the legislature of this province, and with the consent of the council of this university, I consent to admit you to the degrees and certificates to which you are entitled and to invest you with all the powers, rights and privileges pertaining thereto.”

THE PRESENTATION

The dean of the faculty, or designate, followed by the candidates of that faculty, approaches the chancellor from the left and presents the candidates with these words:

“Eminent Chancellor, on behalf of the faculty of _____, I present to you these scholars and ask that you will confer on them the degree of _____.”

As the dean speaks the candidate's name in full, the candidate moves forward in front of the chancellor. Then the chancellor says, “I admit you” and the university secretary or the registrar places the hood over the candidate's head. Hereupon the candidate passes to the chancellor's right, is greeted by the president, and receives the degree parchment.

DEGREES IN ABSENTIA

In such cases, the university secretary says:

“Eminent Chancellor, in the name of the faculties, I ask you to grant the degrees and certificates, in absentia, to those students who have met the requirements to graduate, but were not able to be present today.”

THE CONVOCATION CEREMONY

ACADEMIC COSTUMES

Academic costume lends an element of colourful pageantry to the convocation proceedings. This traditional clothing—worn on a daily basis at universities in earlier times—is now more commonly reserved for ceremonial functions.

At the University of Saskatchewan, the following academic costume is adopted to be worn upon all appropriate occasions: The gown resembles a long cape with full sleeve cut to elbow and terminating in a point for the bachelor's degree; with long sleeve and a semi-circular cut at the bottom for the master's degree; and with round open sleeves for the doctor's degree. The material is black for the bachelor's degree, and black material or silk for the master's and doctor's degrees. A new doctor's introduced in 2011 incorporates green and gold on the front and sleeve panels.

The hoods for the bachelor's and master's degrees are of black broadcloth. The master's and doctor's hoods have a lining and the bachelor's an edging (and in some cases, a lining) of a color distinctive of the character of the degree.

DEGREE COLOURS

BLACK	black with brite gold lining and white trim	Honorary D.Sc. , D.Litt.
	black with brite gold lining and white trim	LL.D.
	black with green silk lining and brite gold trim	Doctor of Philosophy
	black with green silk lining and white trim	Earned D.Sc. and D.Litt
BLUE	deep blue band of trim, gold lined hood	Doctor of Veterinary Medicine
	deep blue lined hood and band of trim	Master of Veterinary Medicine
	light blue band of trim	Bachelor of Science in Agriculture
	light blue lined hood and band of trim	Master of Agriculture
	royal blue outside band of trim and silver inside band of trim and lining	Master of Public Administration
	singapore blue satin outside band of trim and medium blue inside band of trim	Bachelor of Science in Renewable Resource Management
	sky blue sating outside band of trim and silver metallic satin inside band of trim	Master of Public Policy
	teal blue band of trim	Bachelor of Science
	teal blue outside band of trim and white satin inside band of trim	Bachelor of Arts and Science
	teal blue lined hood and band of trim	Master of Science
	Turquoise band of trim	Bachelor of Science in Agribusiness
BROWN	brown seal lined hood and band of trim	Master of Public Health
	gold band of trim	Juris Doctor
	gold band of trim and violet lined hood	Master of Educational Foundations
	gold lined hood and deep blue band of trim	Doctor of Veterinary Medicine
	gold lined hood and green band of trim	Bachelor of Science in Kinesiology
	gold lined hood and red band of trim	Bachelor of Science in Nursing
	gold lined hood and band of trim	Master of Laws
	gold lined hood and green band of trim	Master of Kinesiology
	gold outside band of trim and purple inside band of trim	Bachelor of Science in Pharmacy
	old gold inside band of trim and lining and crimson outside band of trim	Master of Physical Therapy
GREEN	emerald green inside band of trim and lining and ivory outside band of trim	Master of Northern Governance and Development
	forest green outside band of trim and lining	Doctor of Medicine
	forest green outside band of trim and antique ivory inside band of trim	Master of Environment and Sustainability
	green band of trim on gold lined hood	Bachelor of Science in Kinesiology
	green band of trim and gold lined hood	Master of Kinesiology

THE CONVOCATION CEREMONY

Ph.D. hoods have a green silk lining with gold trim and the honorary degree hoods feature a white satin trim. A velvet Beefeater style hat with a green, gold and white tassel is also part of the doctoral costume.

Chancellor – a black silk robe with crimson velvet sleeves, trimmed round the collar and down the front edges with broad gold lace (and round the bottom of the sleeves with narrower gold lace), and a black silk velvet trencher with gold button and tassel.

Vice-Chancellor (President) – same design as the chancellor’s gown and trencher. The vice-chancellor’s gown shall be of the same material as the chancellor’s but with silver braid on the facing instead of gold and a black silk velvet trencher with silver button and tassel.

GREEN	green lined hood and band of trim	Bachelor of Science in Nutrition
	pale green outside band of trim and forest green inside band of trim	Master of Sustainable Environmental Management
GREY	grey lined hood and band of trim	Master of Professional Accounting
PURPLE	mauve lined hood and band of trim	Doctor of Dental Medicine
	purple inside band of trim and gold outside band of trim	Bachelor of Science in Pharmacy
	violet band of trim	Bachelor of Education
	violet lined hood and band of trim	Master of Education
PINK/RED	violet lined hood and gold band of trim	Master of Continuing Education
	burgundy lined hood and band of trim	Master of Business Administration
	crimson outside band of trim and old gold inside band of trim and lining	Master of Physical Therapy
	maroon outside band of trim and silver inside band of trim	Bachelor of Commerce
	maroon lined hood and band of trim	Master of Engineering
	maroon inside band of trim and lining and silver outside band of trim	Master of International Trade
	pink outside band of trim and white inside band of trim	Bachelor of Fine Arts
	pink lined hood and band of trim	Master of Fine Arts
	red band of trim and gold lined hood	Bachelor of Science in Nursing
	red band of trim	Bachelor of Music
SILVER	red lined hood and band of trim	Master of Music
	red lined hood and band of trim	Master of Nursing
	silver inside band of trim and maroon outside band of trim	Bachelor of Commerce
	silver inside band of trim and lining and royal blue outside band of trim	Master of Public Administration
WHITE	silver metallic satin inside band of trim and sky blue sating outside band of trim	Master of Public Policy
	silver outside band of trim and maroon inside band of trim and lining	Master of International Trade
	antique ivory inside band of trim and forest green outside band of trim	Master of Environment and Sustainability
	Ivory outside band of trim and emerald green inside band of trim and lining	Master of Northern Governance and Development
	white lined hood and band of trim	Master of Arts
	white satin band of trim	Bachelor of Arts
OTHER	white inside band of trim and pink outside band of trim	Bachelor of Fine Arts
	white satin inside band of trim and teal blue outside band of trim	Bachelor of Arts and Science
OTHER	Current degree colour worn on shoulders	Advanced Certificates
	current degree colours worn on shoulders	Post Graduate Diploma

I'm one.

Now you're one, too—a member of the University of Saskatchewan Alumni Association.

Congratulations and welcome to our alumni family (138,000 strong and growing).

Kendal Netmaker BA'11, BEd'11

Kendal Netmaker is the founder of Neechie Gear. He placed first in the 2010 Aboriginal Youth Idea Challenge and was recognized as the 2011 Student Entrepreneur Saskatchewan Champion. Neechie (slang form of “my friend” in the Plains Cree language) is the only Canadian clothing company that creates, funds and manages Aboriginal youth sports teams across Saskatchewan.

Ainsley Robertson BComm'09

Ainsley Robertson is the co-founder of the Princess Shop, a not-for-profit organization that lends graduation dresses and accessories to female students in need. Since its start in 2007, the Princess Shop has expanded its reach to provide support, mentorship and scholarship funds to help high school graduates achieve their goals.

Andy McCreath

BA'99

Andy McCreath is a noted marketing, public relations and communications professional and producer of sophisticated market-centric conferences and events for young professionals. He was named to the *Globe and Mail's* Top 40 Under 40 list in 2011. McCreath is also involved in charitable work for organizations such as the Telus Community Foundation, the Royal University Hospital Foundation and KidSport.

Rui Feng

PhD'92

Rui Feng has worked in the mineral resource industry for over 17 years. He is an entrepreneur with a track record in acquiring and exploring mineral properties and turning them into profitable mining operations. He has founded several successful publicly listed companies in Canada, which have made significant mineral discoveries in China and Canada. He recently donated \$1.2 million to establish the Dr. Rui Feng Geological Sciences and Graduate Studies Award Fund.

Carol Greeyes

BFA'82, BEd'88

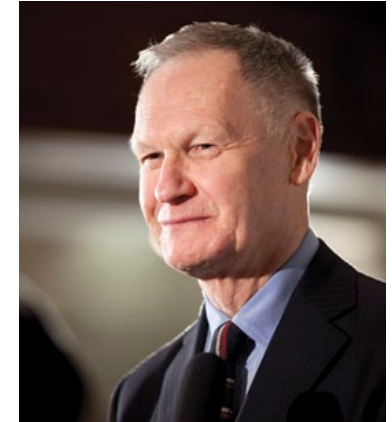

Carol Greeyes, a member of Muskeg Lake Cree Nation, is the producer and project leader for ArtsLink, an online research project for the federal government's Truth and Reconciliation Commission. She has worked to expand the roles of Indigenous arts on a national scale, and is known as a generational leader in her support of fellow artists across Canada.

Frederick Mulder

BA'64

Frederick Mulder is one of the world's leading art dealers in Picasso's printmaking. He is the director of Frederick Mulder Limited, which specializes in European printmaking from 1460-1960. He is also a supporter of "social change philanthropy," donating artwork to invest in causes that will benefit future generations, and recently donated a collection of Picasso linocuts to the university's art collection to honour Saskatchewan people who had an impact on his life.

UNIVERSITY OF SASKATCHEWAN
SPRING CONVOCATION 2012

JUNE 5–JUNE 8, 2012
TCU PLACE

CEREMONY 1 Tuesday June 5, 9 a.m.

page 39

Undergraduate degrees, graduate degrees, diplomas and certificates will be awarded for **Arts and Science**

Aboriginal Public Administration | Anthropology and Archaeology | Art History | Bioinformatics | Chemistry | Classical and Near Eastern Archaeology | Classical, Medieval and Renaissance Studies | Computer Science | Community Planning and Native Studies | Drama | Geophysics | History | International Studies | Mathematical Physics | Mathematics | Music | Native Studies | Northern Studies | Philosophy | Physics | Prairie Studies | Political Studies | Psychology | Public Administration | Religion and Culture | Statistics | Studio Art | Toxicology | Women's and Gender Studies

CEREMONY 2 Tuesday June 5, 2 p.m.

page 55

Undergraduate degrees, graduate degrees, diplomas and certificates will be awarded for **Arts and Science, School of Environment and Sustainability and Johnson-Shoyama Graduate School of Public Policy**

Anatomy and Cell Biology | Biochemistry | Biology | Biomolecular Structure Studies | Biotechnology and Biochemistry | Biotechnology and Biology | Biotechnology and Cell Biology | Biotechnology and Microbiology | Biotechnology, Microbiology and Immunology | Business Economics | Comparative Literature and Languages | Computing | Economics | English | Environmental Biology | Environmental Earth Science | Environment and Society | Food Science | French | Geography | Geology | German | Interactive Systems Design | Land Use and Environmental Studies | Modern Languages | Microbiology and Immunology | Linguistics and Languages | Palaeobiology | Physiology | Physiology and Pharmacology | Regional and Urban Planning | Russian | Slavic Studies | Spanish | Sociology | Sociology of Biotechnology | Ukrainian

Undergraduate degrees, graduate degrees, diplomas and certificates will be awarded for **Kinesiology, Medicine, Pharmacy and Nutrition, School of Physical Therapy, School of Public Health and Veterinary Medicine**

CEREMONY 6 Thursday June 7, 2 p.m.

page 119

Undergraduate degrees, graduate degrees and diplomas will be awarded for **Dentistry and Nursing**.

CEREMONY 7 Friday June 8, 9 a.m.

page 131

Undergraduate degrees, graduate degrees and diplomas will be awarded for **Agriculture and Bioresources and Engineering**.

WAYNE G. **WOUTERS**

Wayne Wouters began his career as a Lecturer in Economics at the University of Saskatchewan in 1975. His public service career began in 1977 when he joined the Government of Saskatchewan. He remained with the provincial government for five years and held several positions during this period.

In 1982, Mr. Wouters made the move from the provincial public service to the federal public service and moved to Ottawa. He joined

what was then known as the Department of Energy, Mines and Resources as the Director of Industry Analysis. In 1986, he became Deputy Director General, Project and Fiscal Analysis and was appointed Director General, Financial and Market Analysis in 1989.

In 1990, he accepted a position as Director, Economic Development Policy Branch with the Department of Finance, and became the General Director in 1993.

In 1994, Mr. Wouters joined the Privy Council Office (PCO) where he was the head of the federal Task Force on the Newfoundland Economy. Being from the prairies, this position was an excellent learning opportunity as it offered great insight and perspective on the challenges faced by Atlantic Canadians and Newfoundland in particular. He discovered that they weren't so different than the ones faced by the people of Saskatchewan.

The Task Force on the Newfoundland Economy fulfilled its objectives over an eight month period and upon the fulfillment of its mandate, Mr. Wouters was appointed Assistant Secretary to the Cabinet (Program Review),

and oversaw preparation of the expenditure reduction plan that was part of the 1995 federal Budget.

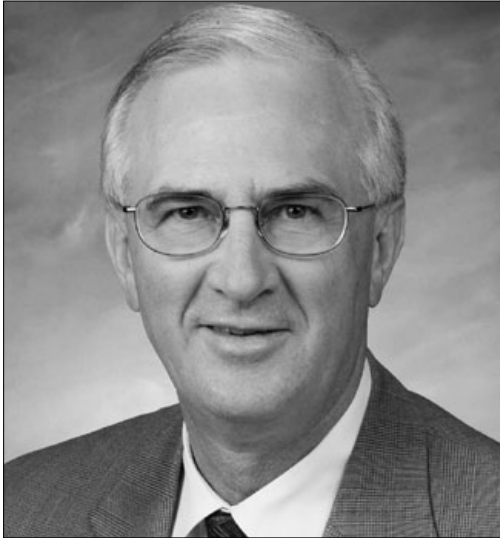

In December 1994, he was appointed Deputy Secretary to the Cabinet (Plans and Consultation). Mr. Wouters remained with the Privy Council Office until September 1997.

His first appointment as a Deputy Minister was at the Department of Fisheries and Oceans (Canada) where he served for five years until 2002. After serving at DFO, he went to Human Resources Development Canada (HRDC) as Deputy Minister and Chairperson of the Canada Employment Insurance Commission and Deputy Minister of Labour. He oversaw the reorganization of HRDC and was later appointed Deputy Minister, Human Resources and Skills Development Canada (HRSDC).

From December 2004 to June 30, 2009, he was Secretary of the Treasury Board.

Mr. Wouters was appointed Clerk of the Privy Council and Secretary to the Cabinet by the Prime Minister on July 1st, 2009.

ARTHUR DUMONT

Graduating from the University of Saskatchewan in 1967 with a degree in mechanical engineering, Art Dumont did not take long to start making his mark on the oil and gas industry. By 1985, he had been appointed president and CEO of a multitude of companies. He retired as CEO of Technicoil in 2008.

Mr. Dumont is known in Alberta as one of the

University of Saskatchewan's most influential fundraisers and ambassadors. He was chair of the Oilmen's Executive Association which brings together the senior executives of the Canadian and international oil and gas industry, both exploration/production and service/support sectors. He was co-chair for four terms of the selection committee for the Saskatchewan Oilmen's Hall of Fame which recognized individuals, born in Saskatchewan, who have made a significant contribution to the upstream oil and gas industry in Canada or internationally. His service to the University of Saskatchewan started in 1991 with the founding of the Calgary Engineers' fundraising group. Later he provided leadership on two of the University's major fundraising campaigns: First and Best in the 1990s and Thinking the World of Our Future in the 2000s.

Mr. Dumont was appointed to the University of Saskatchewan Board of Governors from 2003 to 2012, serving as board chair from 2006 to June 2010.

Mr. Dumont has been the recipient of many awards and distinctions for his professional and business achievements, culminating in his induction into the Saskatchewan Oil and Gas Hall of Fame in 2011. The University of Calgary awarded him the Canadian Engineering Leadership Award, and in 2000 he became a member of the University of Saskatchewan College of Engineering Wall of Distinction. He is an active supporter of many charitable organizations and the Arts in Alberta, Saskatchewan and internationally.

As a prominent member of the Calgary business community Mr. Dumont upholds the tradition that a University of Saskatchewan education means: generosity, integrity, honour, and business acumen. As a businessman and philanthropist, Art has made significant contributions to the Saskatchewan and Alberta communities. His business and community leadership, character, integrity, compassion and personal legacy qualify him on every level to receive the University of Saskatchewan's highest honour.

BLAINE CHRISTOPHER **FAVEL**

Mr. Favel, currently the CEO of One Earth Oil and Gas, is an influential Plains Cree leader who has made significant contributions to scholarship, education, public service and the Canadian public good.

During his tenure as Chief of the Poundmaker Cree Nation in Cutknife, SK, Chief Favel established the first community-based justice program for First Nations with the introduction of sentencing circles on reserves. A former Grand Chief of the Federation of Saskatchewan Indian Nations, Mr. Favel

pioneered two national firsts; the establishment of the First Nations Bank of Canada, Canada's only Aboriginal controlled bank, and the Saskatchewan Indian Gaming Authority, Canada's first Indian gaming organization. In addition, he implemented the 1996 Treaty Implementation Process under the supervision of the Office of the Treaty Commissioner with the governments of Canada and Saskatchewan. Chief Favel initiated the 1996 demographic study entitled "Saskatchewan and Aboriginal Peoples in the 21st Century: Social Economic and Political Changes and Challenges" – a study that has been accepted as a reference document for the business community and government in designing education, employment, and Aboriginal business strategies.

Upon leaving politics Mr. Favel was appointed to an Ambassadorial level posting by Prime Minister Chretien as Canadian Counsellor on International Indigenous Issues. This office advised Cabinet and the Foreign Affairs and International Trade Minister on human rights and trade issues affecting indigenous peoples globally. Mr. Favel has also worked as legal counsel with the law firm of Bennett Jones and as an investment banker with RBC Capital Markets energy group. He was a senior

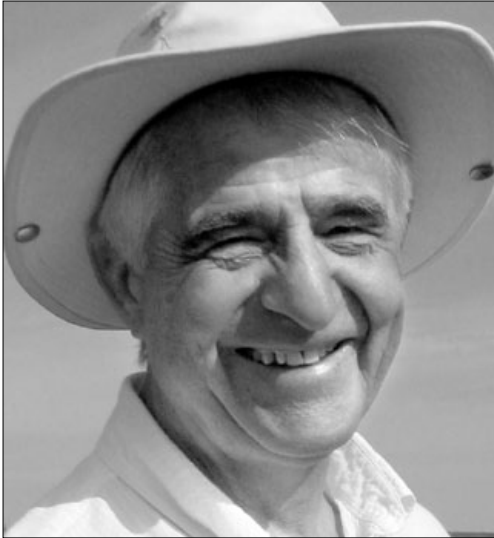

personal advisor to two Assembly of First Nations National Chiefs, National Chiefs Ovide Mercredi and Phil Fontaine.

In the not-for-profit sector, Mr. Favel served as a board member of the Calgary United Way heading the Aboriginal Education initiatives. He was a member of the Calgary Committee to End Homelessness, which introduced into Canada the pioneering development of "Housing First", which has had tremendous success in reducing the levels of homelessness in many major US cities. Mr. Favel is a board member of Canadian Alliance to End Homelessness, a national organization launched to introduce the Housing First program to Canadian cities. Mr. Favel has served on the Board of Governors for the Southern Alberta Institute of Technology and the Saskatchewan Human Rights Commission.

Mr. Favel is an alumnus of the Indian Teachers Education Program at the University of Saskatchewan where he received his B.Ed. He received his law degree at Queen's University and a Master of Business Administration degree from Harvard Business School. Mr. Favel resides in Calgary, Alberta and is a proud father to five children.

HONORARY DOCTOR OF SCIENCE

RONALD DEPAUW

Dr. DePauw, a Saskatchewan native, is an outstanding citizen of the province, of Canada and the world. His contributions to the wheat industry of Canada are unparalleled. He has developed over 50 varieties for several classes of spring wheat for Canada. Because of the demanding requirements for quality in Canadian wheats, this is one of the most difficult crops to breed. His varieties have been extremely well received by prairie farmers, typically occupying more than 50 per cent of the seeded acreage. The incremental value of these contributions is estimated to be well over one billion dollars.

Dr. DePauw has pioneered in a number of areas. He was the first to shift the negative association between protein content and yield. The variety AC Barrie, a hard red spring wheat, represented a major increase in yield, while maintaining a high protein content required for baking quality in this class of wheat. AC Barrie was the most widely grown hard red spring wheat from 1998 to 2005 inclusive. He also broke through negative associations to develop the sawfly resistant variety Lillian, which combined excellent yield, strong straw, good thresh-ability, good disease resistance and very good quality. Lillian was the leading variety across the whole of the western wheat growing area for four years. Dr. DePauw and a multidisciplinary team discovered genetic resistance to the orange wheat blossom midge, a serious pest of wheat requiring control with insecticide sprays. They discovered genetic resistance to this pest and developed a scheme to include refugia in the variety which has recently been released. The refugia concept is designed to increase the life of this resistance and thus its availability to commercial farmers to reduce the ravages of this pest and eliminate the need for insecticide application.

Dr. DePauw also played a key role in the

development of several new classes of wheat. These are Canada Prairie Spring Red, Canada Prairie Spring White and Canada General Purpose. Dr. DePauw also achieved a breakthrough in the development of sprouting resistant white wheats, saving prairie farmers millions of dollars in lost quality in wet harvest years. In addition to his outstanding contributions in variety development he has contributed extensively to the scientific and technology transfer literature.

In addition to this scientific contribution, Dr. DePauw is an active volunteer, serving on numerous advisory committees and boards. He is active in his church. He is also a black belt Judo Master and has volunteered as a teacher of this art for many years. He and his spouse, Else Marie, have been active supporters and participants of choreographed ballroom dancing. His contributions have been recognized by numerous awards including the Order of Canada, Saskatchewan Order of Merit, Gold Medal Professional Institute of the Public Service of Canada, and a number of fellowships and honorary life memberships.

HONORARY DOCTOR OF LETTERS

JOE FAFARD

Joe Fafard is an extraordinary visual artist whose national reputation was confirmed by a highly successful travelling exhibition of his work mounted in 2007 by the Mackenzie Art Gallery and the National Gallery of Canada and accompanied by a full-scale biography, *Joe Fafard*, by curator Terrence Heath. In the Foreword to *Joe Fafard*, the gallery directors write: “Remarkably, the appeal of his work crosses the lines that often divide our society: urban and rural, French and English, east and west, elite and popular”. The exhibition’s iconic sculpture, *Running Horses*, five laser cut steel

units, was purchased by the National Gallery for the gallery grounds. In 2010, two identical sets of eight running horses, life-size die-cut steel sculptures, were created as sister installations for the cities of Quebec and Calgary.

Public sculptures by Joe Fafard can be seen across the country. In Toronto, seven larger-than-life bronze cows rest on the grass outside the Toronto Dominion Centre. On the U of S campus is Bonnie Buckleyvie, an 8.5 foot bronze cut-out horse.

In the early 1970’s, much of Fafard’s sculpture used clay as a medium. In 1985, he shifted to bronze as his chief sculptural medium. His insight and humour characterize his portraits of neighbours, farm animals, wildlife, and famous artists that he came to respect as he learned his craft. His work in bronze is displayed across Canada and his “cows” have become one of his trademarks. Some say that Joe Fafard adds a sense of humor to his depiction of the everyday through his artwork; Joe says that he never really took it out...

Most recently, Joe Fafard was chosen to be honoured by Canada Post in the “Art Canada” services of postage stamps. Three of his artworks are featured on the domestic

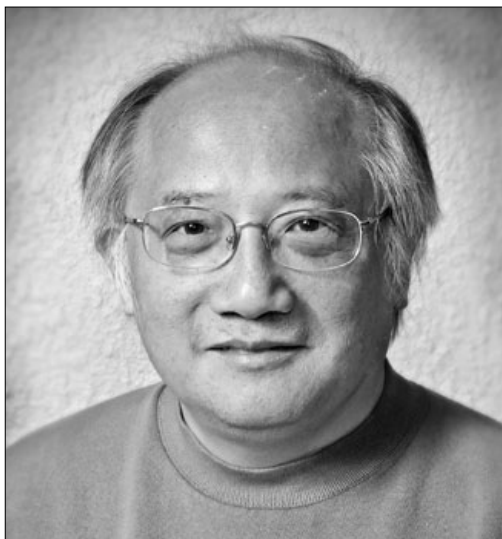

Canadian, USA, and International stamps.

Joe Fafard’s life and work are deeply rooted in Saskatchewan, family, and rural life. He was born to French-Canadian parents in the agricultural community of Ste. Marthe, SK. He attended the University of Manitoba (B.F.A.) and Pennsylvania State University (M.F.A.). He was at the U of S in Regina from 1968-1974 and visiting lecturer at the University of California at Davis in 1980-1981.

In 1981 Mr. Fafard was named an Officer of the Order of Canada. He has been awarded the Architectural Institute of Canada Allied Arts Award, Honorary Degrees from the University of Regina and the University of Manitoba, the Saskatchewan Order of Merit, the National Prix Montfort, the Lieutenant Governor’s Saskatchewan Centennial Medal for the Arts, the Saskatchewan Arts Board Lifetime Achievement Award and was named CTV Citizen of the Year.

As a creator, educator and builder, Joe Fafard has left a pronounced mark on the cultural well-being of Canada. A tireless promoter of artists and institutions that foster and promote the arts, he is a leader by example.

JOHN S. TSE

John S. Tse started his research career in synchrotron radiation in 1975 as a graduate student of Prof. G.M. Bancroft, the first Director of the Canadian Light Source (CLS). After receiving his Ph.D. from the University of Western Ontario in the summer of 1980, Dr. Tse moved to the Chemistry Division of the National Research Council of Canada in Ottawa as an NSERC Fellow. He was appointed scientific officer in 1981. In 1990, he moved to the newly created NRC Steacie Institute for Molecular Science. He progressed quickly through the ranks and achieved the highest

level of principal research officer in 2000. He was the leader of the Theory and Computation Program from 1995 to 2004. In 2004, he joined the University of Saskatchewan as a Tier One Canada Research Chair in the Department of Physics and Engineering Physics.

Dr. Tse has a very broad research interest at the converging frontiers of chemistry and physics. During his undergraduate years, he worked as a researcher in the x-ray crystallography laboratory helping to solve crystal structures. His first scientific paper in 1975 was on the elucidation of the structure of Dacron. In his early career, he made several ground-breaking contributions to natural gas hydrates, an abundant source of fossil energy. A notable example is the theory he developed to explain the anomalous glass-like thermal conduction behaviour of crystalline gas hydrates. This theory was later adopted as a new paradigm on the rational design of efficient thermoelectric materials. His interest in high-pressure science started in early 1990 when he explained the phenomenon of pressure amorphization of crystalline solids. For this work, he was awarded the 1995 Chemical Society of Canada Noranda (later the Keith Laidler) award for a physical chemist under the age of 45. He advanced

concepts on the design of superalloys, Li ion batteries, thermoelectric and hydrogen storage materials. He is an internationally recognized expert in ice physics. Since moving to the University, he has focused on the superconductivity behaviour of dense hydrogen alloys and magnetic single-molecule radical solids under compression. Dr. Tse has published over 410 articles and 17 reviews and book chapters with many appearing in the most prestigious scientific journals. He has presented more than 200 lectures at international conferences and workshops. He served on many national and international committees and was twice appointed the chair of the NSERC scholarship committee.

Dr. Tse is an active member of the synchrotron community. He chaired the Review Oversight Committee during the construction of the CLS. Later, he led the development of the high-pressure diffraction facility. He continues to serve on many national and international committees on neutron and synchrotron facilities.

Dr. Tse was elected as a Fellow of the Royal Society of Canada in 2008 and received the Distinguished Researcher Award of the University of Saskatchewan in 2010.

PRESIDENT'S SERVICE AWARD

ALLAN STUCHENKO

Allan Stuchenko is a sheet metal worker, and a very talented one at that, but it is his gift for thinking, and working “outside the box” that makes him a very worthy recipient of the President’s Service Award in 2012.

Mr. Stuchenko joined the Facilities Management Division 26 years ago and has built a reputation across campus as someone who is always willing and very able to tackle any challenge. On any given day, he might be found building a venting system for a fume hood,

replacing a furnace chimney, fabricating a new floor for a freight elevator or bending custom seed trays. All of these tasks, and many more, reflect Mr. Stuchenko’s love of the University of Saskatchewan and his commitment to providing the best possible environment for the people who study and work here.

When a really tricky situation arises, it is Mr. Stuchenko who gets the call. One of his nominators related the story of a stubborn water leak in a drain that forced the closure of a swimming pool on campus. It was not a job for a sheet metal worker, but it was a job for Mr. Stuchenko. He not only came up with an ingenious solution to stop the leak, he fabricated the tools needed to do the job. It is generally recognized among tradespeople, the mechanical engineers and the technologists on campus that if Mr. Stuchenko can’t build it, it probably can’t be built.

His simple, elegant and innovative solutions are what have earned Mr. Stuchenko the admiration and respect of his colleagues, and made him an indispensable member of the University of Saskatchewan community. He is a true team player, a man willing to start

early and stay late, someone who is open to working with anyone to solve any problem, all in the name of maintaining and improving the University of Saskatchewan.

His reputation has spread beyond the facilities division; it would not be unusual to find students from the College of Engineering in Mr. Stuchenko’s shop seeking his help with difficult projects. The students know Mr. Stuchenko is an outstanding innovator, and in turn, he appreciates their creativity. Together they have found remarkable solutions and built lasting friendships.

Mr. Stuchenko’s generosity extends to his co-workers. Renowned for his delightful sense of humour, he is always happy to be the cook at staff barbecues and is noted within the division for sharing the produce he grows and the chickens he raises on his acreage near Saskatoon.

The President’s Service Award recognizes individuals who enhance the work environment through dedication and commitment, and few do that better than Allan Stuchenko.

RYAN WALKER

Ryan Walker's commitment to urban planning and bridging the gap between classroom work and community involvement has provided powerful learning opportunities for students, enhanced local, national and international partnerships, and benefited both the community of Saskatoon and the University of Saskatchewan.

Mr. Walker, MCIP, has been a professor in the Regional and Urban Planning Program since 2006. His areas of expertise include urban planning, geography, and design; comparative

urban Indigenous studies in Canada, New Zealand and Australia; housing studies; multi level governance and urban policy; First Nations community planning; and citizenship theory.

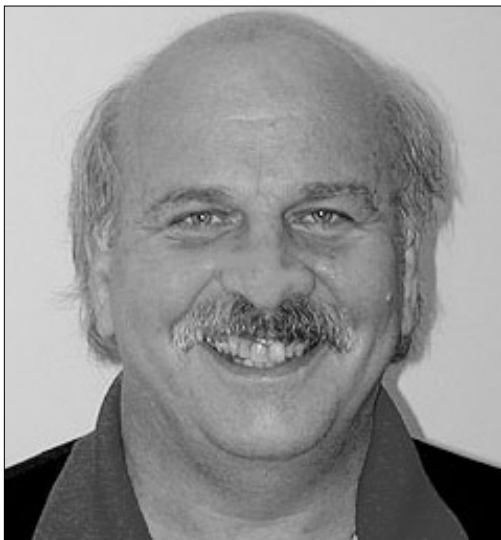

Mr. Walker has contributed to the local and provincial community in many ways. In 2008, he used his expertise in urban planning to develop a relationship with the City of Prince Albert, while assisting administration and the mayor with the drafting of the city's condominium conversion policy. This led to field trips for Walker's urban planning class, which one student nominator described as "[making] our planning classes real in a way that isn't often achieved at the university level."

In 2009, he was one of the initiators and key organizers of "Great Places", which has been a major stimulant of local discussion aimed at informing and inspiring an ongoing dialogue about what makes a great place. This group consists of design professionals, government officials and citizens, and involves workshops and discussions on downtown planning, civic parks and squares, a program in architecture for Saskatoon and other important topics.

Mr. Walker is involved in the international community as well. He was the University of Saskatchewan's Director of the Indigenous Planning Exchange from 2007 to 2011, which involved student and faculty exchanges between six universities across Canada, Mexico and the United States. This partnership helped to enrich the academic environment and provide powerful, stimulating and intellectual experiences for both students and faculty at universities throughout North America.

Frequently noted throughout the letters of support for Mr. Walker was his commitment to bringing the community into the classroom and the classroom into the community. A community association president commented that "he has entrenched [the] culture of volunteerism deep into his classroom, ensuring that both he and the Department of Geography and Planning will continue to contribute to healthy urban planning city-wide for many years to come." Mr. Walker's commitment to community-based research, urban planning and community engagement makes him a very deserving recipient of the University of Saskatchewan award for distinction in outreach and engagement.

PHIL THACKER

Phil Thacker's expertise on swine nutrition and management has raised the profile of the University of Saskatchewan provincially, nationally and internationally. He is highly regarded within the swine and feed industries and very deserving of the Award for Distinction in Outreach and Engagement.

Dr. Thacker has been a professor in the College of Agriculture and Bioresources for the past 28 years. During this time, he has provided volumes of resource material related to the swine and feed industries. He has published books, CDs,

journal and magazine articles, as well as several conference talks and presentations, many of which reach around the globe. More specifically, he is the author or co-author of four books on swine production in nutrition, two of which have been translated into Chinese. He has also written 22 book chapters related to swine production and nutrition along with 65 popular press magazine articles. He has given more than 70 international presentations, talking to audiences in China, Korea, the Netherlands, Australia, New Zealand, Germany, Poland, Mexico, Spain, Canada and the United States. During his travels, he has received two "Friendship Awards", one from the Federal Government of China and one from the City of Dalian People's Government. The first is the highest award presented by the Chinese government to foreign experts, and is awarded as a "thank you" for their contribution to China. The latter is given to extend gratitude and recognition to foreign experts who have made great contributions. Throughout his career he has also been the recipient of the Co-op Feeds Young Scientist Award (1989) and the Animal Industries Award in Extension and Public Service (2009) from the Canadian Society of Animal Science.

Although Dr. Thacker is internationally recognized, he still is heavily involved in projects close to home. In 2008, the Department of Animal and Poultry Science was approached to develop a swine nutrition and management course for the Hutterite Brethren of Saskatchewan. Dr. Thacker worked to develop the course material and presented 24 hours of lecture material to the colony's swine managers. The course reached a significant proportion of the Hutterite population while having the potential to significantly impact the economy in Saskatchewan.

Dr. Thacker's work is highly regarded by his colleagues. One nominator wrote that "...the publications of the Swine Nutrition Guide and the Non-Traditional Feed Sources for Use in Swine Production that Dr. Thacker co-authored have left a legacy for the Canadian feed and swine industry." Another nominator expressed admiration for "his unending commitment to knowledge transfer, and to his lifetime of dedication to his work in swine research." This dedication, along with his many other attributes described above, make Philip Thacker a very worthy recipient of this award.

KEITH CARLSON

The New Researcher Award recognizes a faculty member's contribution to scholarship through creation, expansion, and critique of knowledge. Keith Carlson, a professor in the Department of History, is the 2012 recipient.

Since earning his Ph.D. in 2003 from the University of British Columbia, Prof. Carlson has gained a stellar national and international reputation for his ground-breaking research in the history of Native-newcomer relations.

Prior to coming to the University of Saskatchewan, Prof. Carlson spent nine years working as a community historian for the Stó:lō Nation in British Columbia. This experience provided him with valuable insight into Indigenous communities and ways of knowing, and has allowed Dr. Carlson to develop new and innovative methodologies for conducting research in Native-newcomer history. While his early research focused on the Coast Salish peoples, his research interests have since expanded to include the Métis of Northwest Saskatchewan. Prof. Carlson's work has had significant impact on Indigenous communities and he has demonstrated an admirable commitment to connecting his research to broader audiences outside of academia. His research into the murder of a Stó:lō youth by non-Natives from the U.S. in 1886 led to his involvement with a documentary, *The Lynching of Louie Sam*. In response to Prof. Carlson's work, Washington State initiated a reconciliation process with Louie Sam's community. In 2007, the work of Prof. Carlson and his graduate students on Saskatchewan Métis was used for an exhibit at the Diefenbaker Canada Centre entitled *West Side Stories: The Métis of Northwest Saskatchewan*.

Dr. Carlson has received numerous awards and honours for his work. His recent book *The Power of Place, The Problem of Time: Aboriginal Identity and Historical Consciousness in the Cauldron of Colonialism* received the Clio Prize for Best History in B.C. Region and the Aboriginal History Prize from the Canadian Historical Association. The significance of his earlier work, *A Stó:lō-Coast Salish Historical Atlas*, was recognized with a B.C. Book Prize, the City of Vancouver Book Prize, a Chilliwack Heritage Society Award, and an Outstanding Academic Publication Award from Choice Library. Prof. Carlson was also recognized by the Lieutenant-Governor of B.C. for his "contribution to producing meaningful history about British Columbia," relating to his work on the documentary *The Lynching of Louie Sam*.

Prof. Carlson has authored five books and 33 chapters in books, in addition to editing or co-editing six books and special issues, and has also published numerous review articles, papers in refereed journals, technical reports, and book reviews. He is the Director of the Interdisciplinary Centre for Culture and Creativity and is currently involved in creating a Centre for the Study of Indigenous Historical Consciousness and Voice.

MASTER TEACHER AWARD

BARB PHILLIPS

Master Teachers are always teaching and always learning. They are intimately involved in teaching undergraduate students, graduate students, new faculty members, university and civic communities, and the broader world, just as they are active in searching for discoveries and understandings that can be shared with learners.

Barb Phillips is such a Master Teacher.

Her undergraduate students report being engaged by her enthusiasm, clarity, and

relevance; her graduate students describe their admiration for her honesty and mentorship; her junior colleagues applaud her generosity and openness; senior university leaders benefit from and appreciate the expertise that she shares with them; the Saskatoon community values the service learning that arises from her innovative courses; and the broader world learns through her award-winning research and media appearances.

Dr. Phillips' educational leadership is evident in numerous ways. In regard to curriculum development, Barb has established two new courses, introduced service learning projects, created workshops for the Master of Professional Accounting and Effective Executive and Business Advisory Services Management Development programs, and created advertising lessons for high school students.

Dr. Phillips also has provided substantial direction as a member of the Edwards Curriculum Integrating Review Committee.

At the university level, Dr. Phillips has contributed to the Gwenna Moss Teaching and

Learning Centre Advisory Board, served on the Sylvia Wallace Sessional Teaching Excellence Selection Committee, and taught at workshops in connection with the Canadian Learning Commons Conference, the Youth Granting to Youth Foundation, and the Association of Canadian Archivists Conference. Dr. Phillips has also been an integral member of the Institutional Positioning Project for the university since its inception two years ago.

By themselves, these achievements are outstanding, but knowing that they have not been reached at the expense of other responsibilities is all the more impressive. Dr. Phillips is an accomplished scholar. She has published many times in leading journals; she is an active member of four editorial boards; she has received three tri-council research grants; and she has been the recipient of three international research awards.

Dr. Phillips is more than worthy of the University of Saskatchewan's Master Teacher Award. She is a creative and engaging instructor, a constructive and active contributor, and a thoughtful and supportive colleague.

GOVERNOR GENERAL'S ACADEMIC MEDALS

These medals are awarded to the undergraduate student and graduate student with the highest academic standing.

GOLD MEDAL

LISA MARGARET JEWELL

Lisa M. Jewell was born in Athabasca, Alberta in 1981. In 2003, Lisa received a Bachelor of Science with Honours in Psychology from the University of Alberta and was awarded the Dean's Silver Medal of Science. In 2005, Lisa pursued a Master of Arts degree in Applied Social Psychology at the University of Saskatchewan where she studied under the mentorship of Dr. Melanie Morrison. Lisa received both a Dean's Scholarship and a SSHRC Canada Graduate Master's

Scholarship. Her thesis investigated heterosexuals' self-reported motivations for engaging in anti-gay behaviours and was awarded the University of Saskatchewan Graduate Thesis Award.

In 2007, Lisa began a Ph.D. in Applied Social Psychology under the continued guidance of Dr. Morrison. She was the recipient of the prestigious SSHRC Canada Graduate Doctoral Scholarship. Lisa's dissertation,

which examined gay and lesbian university students' lived experiences of blatant and subtle discrimination, revealed that subtle anti-gay/lesbian behaviours were found to be especially invalidating, demeaning, and dehumanizing. Lisa hopes her research will draw more attention to these everyday forms of discrimination that often go unnoticed and inform the development of interventions to reduce their prevalence in society. She currently works as a Program Evaluator with Health Canada.

SILVER MEDAL

ANDREW MICHAEL CHAN TAI KONG

Andrew was born and raised in Lloydminster. He graduates today with a B.Sc. Three-year Degree with a major in Physiology and Pharmacology with Great Distinction.

Mr. Kong has excelled academically and has been awarded numerous scholarships and awards during his academic career at

the University of Saskatchewan. Some of the awards he received include the Les and Irene Dube Service & Justice Scholarship, the Shevkenek Scholarship, the University of Saskatchewan Scholarship, and the John Spencer Middleton and Jack Spencer Gordon Middleton Undergraduate Scholarship, to name just a few.

Andrew has worked in the Lloydminster Hospital, and he is a Speech Language Pathologist Associate at Saskatoon City Hospital.

Mr. Kong's career plans are to complete a medical education and to engage in business ventures.

AWARDS TO GRADUATING STUDENTS

AGRICULTURE AND BIORESOURCES

Saskatchewan Institute of Agrologists Gold Medal presented to Kendra Nicole Purton

William Allen Memorial Prize in Agricultural Economics presented to Shaun Curtis Vey

Frank Sosulski Graduation Prize in Crop Science and Plant Ecology presented to Lindsay Johanna Griffith

Saskatchewan Horticulture Association Prize presented to Carmen Nikki Danyluk

Molson Canada Award of Excellence presented to Jae Hee 'Jennifer' Kim

Norman H. Pearce Awards in Animal Science presented to Alex Marie Neumann, Alyssa Anne Krone and Angela Mary Japp

P. M. and Y. Y. Huang Distinguished Undergraduate Award in Soil Science presented to Janell Christine Healey

Fulton Family and Saskatchewan Institute of Agrologists Award presented to Tess Hailee Strand

ARTS AND SCIENCE

Copland Prize in Humanities presented to Daphné Dubois

Copland Prize in Social Science presented to Benjamin Andrew Milner

Earl of Bessborough Prize in Science presented to Sonya Irene Adams

Haslam Medal presented to Daphné Dubois

Spring Convocation Three-year Medal presented to Andrew Michael Chan Tai Kong

University of Saskatchewan Film Society Prize presented to Jonathan Mark Henkelman

James Newstead Convocation Award in Anatomy and Cell Biology presented to Mackenzie Joan Stefan

Most Outstanding Graduate in Anthropology presented to Jennifer Lynn Gerbrandt

Most Outstanding Graduate in Archaeology presented to Kaleigh Heather Read

Judy Poole Award in Art & Art History presented to Maia Christine Stark

Department of Biochemistry Convocation Award presented to Zakery Neil Baker

Most Outstanding Graduate in Bioinformatics presented to Stephen Eric Johnson

Department of Biology Convocation Award presented to Leanne Elizabeth Ejack

Most Outstanding Graduate in Biomolecular Structures Studies presented to Cuylar John T. Conly

Most Outstanding Graduate in Biotechnology presented to Marshall Leo Timmermans

Department of Chemistry Convocation Award presented to Holly Ann Severin

Most Outstanding Graduate in Classical, Medieval & Renaissance Studies presented to Sarah Lynn Vela

Most Outstanding Graduate in Computer Science presented to Sonya Irene Adams

Walter Mills Award in Drama presented to Blair Norman Woynarski

Lewis C. Gray Prize in Economics presented to Benjamin Andrew Milner

Mabel F. Timlin Prize in Business Economics presented to Nicholas Charles Horlick

Award for Excellence in English Studies presented to Laura Christine Alford

Most Distinguished Graduate in Environment and Society presented to Lakelyn Michele Wylie

Most Distinguished Graduate in Environmental Biology to Elizabeth Mae Dolmage

Department of Geography and Planning Convocation Award presented to Rosa Elizabeth Brannen

Ore Gangue Memorial Award in Geological Sciences presented to Garrett Daniel LePoudre

Gendzwill-Hajnal Award for Most Distinguished Graduate in Geophysics to Dawson Holloway

History Centennial Award presented to Melissa Diane Armstrong

International Studies Program Convocation Award to Heather Adelheid Jordan

Land Use & Environmental Studies Program Convocation Award presented to Kaleb Garry Wagner

Most Outstanding Graduate in Languages and Linguistics to Rachele L. Ternier

Linguistics Program Convocation Award presented to Jana May Treen

Most Outstanding Graduate in Mathematics presented to Si Le Tao

J.F. Morgan Memorial Award in Microbiology and Immunology presented to Emily Marie Ewen

Arthur Collingwood Prize presented to Jonathan Mark Henkelman

Tania Balicki Memorial Award in Native Studies presented to Emma Nikikik Maria Sim

Palaeobiology Program Convocation Award presented to Meagan Michelle Gilbert

Department of Philosophy Convocation Award presented to Thomas James Sommerville Seibel

Most Outstanding Graduate in Physics presented to Mercedes Jane Martinson

L.B. Jaques Convocation Award in Physiology and Pharmacology presented to Andrew Michael Chan Tai Kong

The Honourable Donald Alexander McNiven Prize in Political Studies presented to Melissa Diane Armstrong

Gordon A. McMurray Prize in Psychology presented to Miriam Elizabeth Reese

Public Administration Program Convocation Award presented to Kelton Edward Doraty

Regional & Urban Planning Program Convocation Award presented to Taylor Robert Clackson

The Braj Sinha Award for the Most Outstanding Graduate in Religion and Culture to Kimberley Rae Kargut

Most Outstanding Graduate in Sociology presented to Joshua James Robinson

Most Outstanding Graduate in Statistics presented to Jeremy William Eng

Most Outstanding Graduate in Toxicology presented to Louise Yvonne Harris Gilmer

Department of Women's & Gender Studies Scholarship presented to Lierin Angelina Fehr

DENTISTRY

Faculty of Dentistry Gold Medal presented to Lauren Marie Bull

3M Canada Scholarship in Restorative Dentistry presented to Russell Greg Butler

Academy of General Dentistry Senior Student Award presented to Alan Edward Peter Chernosky

Alpha Omega Scholarship Award presented to Lauren Marie Bull

American Academy of Operative Dentistry presented to Kevin Peter Saganski

American Academy of Implant Dentistry Student Award presented to Kristopher Scott Currie

American Academy of Oral and Maxillofacial Pathology Dental Student Award presented to James Matthew Tailfeathers

American Academy of Oral and Maxillofacial Radiology, Radiology Achievement Award presented to Kristopher Scott Currie

American Academy of Oral Medicine Certificate of Merit and Award in Oral Medicine presented to Michael Jordan McKee

AWARDS TO GRADUATING STUDENTS

American Academy of Orofacial Pain Outstanding Senior Award presented to Ashley Rene Neumeier

American Academy of Periodontology Student Award in Periodontology presented to Lauren Marie Bull

American Association of Endodontists Student Achievement Award in Endodontics presented to Ajit Jay Lalli

American Association of Oral and Maxillofacial Surgeons Dental Student Award presented to Gregory Ernest Little

American Association of Orthodontists Award presented to Ajit Jay Lalli

Canadian Academy of Periodontology Award presented to Ajit Jay Lalli

Canadian Dental Association Student Leadership Award presented to Kristopher Scott Currie

American Academy of Pediatric Dentistry, Certificate of Merit AAPD Predoctoral Student Award presented to Gregory Ernest Little

American Association of Public Health Dentistry AAPHD Dental Student Recognition Award presented to Ashley Rene Neumeier

American Association of Oral Biologists Oral Biology Award presented to Michael Jordan McKe

Dr. Richard Kovach Memorial Scholarship presented to Jason Gary Hoium

Pierre Fauchard Academy Student Scholarship presented to Ajit Jay Lalli, Kristopher Scott Currie and Trent C. Bevans

Pierre Fauchard Senior Student Undergraduate Award of Recognition presented to Michael Jordan McKe

Quintessence Book Awards presented to

- Periodontics – Gregory Ernest Little
- Restorative – Russell Greg Butler
- Research – Gregory Ernest Little

Saskatchewan Chapter of the Canadian Society of Dentistry for Children Book Award presented to Kristopher Scott Currie

Western Canada Dental Society – Dr. Cal Waddell Memorial Scholarship presented to Kristopher Scott Currie

EDUCATION

Saskatchewan Teachers' Federation Prize presented to Elizabeth Clare Smith-Windsor

J. Victoria Miners Book Prize presented to Kathrin Knorr

EDWARDS SCHOOL OF BUSINESS

Goodspeed Award presented to Matthew Nielson Taylor

The Institute of Chartered Accountants of Saskatchewan Prize in Memory of J. H. Thompson presented to Carson Grant Heagy

The Institute of Chartered Accountants of Saskatchewan Prize in Memory of J. C. MacKinnon presented to Alecia Dawn Nagy

Harold P. Milavsky Graduating Award presented to Matthew Nielson Taylor and Amy Vance

ENGINEERING

Oliver Symes Memorial Award presented to Brittany Jane Thoms

Clinton L. Armstrong Memorial Award presented to Matthew Gordon Petruic

Civil Engineering Alumni Medal presented to Chelsea Kirsten Paton

Society of Chemical Industry, Canadian Section Merit Award presented to Victoria Ashley Stuart

Computer Engineering Achievement Award presented to Brett William Hysuik

Electrical Engineering Achievement Award presented to Craig Keith Ross Lytle

Environmental Engineering Achievement Award presented to Thomas John Baer

E. L. Harrington Prize presented to Matthew Richard Wessel

Engineering Physics Distinguished Graduate Award presented to Matthew Richard Wessel

Zig Szczepanik Award (Geological Engineering Award) presented to Darren David Neely

Eyrle Brooks Memorial Scholarship (Mechanical Engineering Distinguished Graduate Award) presented to Justin Gerspacher

Association of Professional Engineers and Geoscientists of Saskatchewan Gold Medal presented to Justin Gerspacher

KINESIOLOGY

Dr. Gordon Garvie Prize in Kinesiology presented to Aspen Landycc Lea Cleaveley

Dean's Medal presented to Kellie Erin Boychuk

LAW

Saskatchewan Law Review Honour presented to Faith Hope Charity Baron

Saskatchewan Law Review Honour presented to Katie Elizabeth Lalani

Saskatchewan Law Review Honour presented to Kyle Alexander Ross

Saskatchewan Law Review Honour presented to Laura Michelle Zlotkin-Leslie

Saskatchewan Law Review Honour presented to Caroline Jane Smith

Saskatchewan Law Review Honour presented to Sonya Lalli

Saskatchewan Law Review Honour presented to Adam Lawrence Lamoureux

Saskatchewan Law Review Honour presented to Jared Daniel Epp

Saskatchewan Law Review Honour presented to Léa Marie Lapointe

Saskatchewan Law Review Honour presented to Tove Lena Finnestad

Saskatchewan Law Review Honour presented to Thomas Alexander Posnyiak

Saskatchewan Law Review Honour presented to Robin Meade Burlingham

Saskatchewan Law Review Honour presented to Jeffrey Grant Crawford

Law Society of Saskatchewan Gold Medal Thomas Dowrick Brown Prize (Most Distinguished Graduate) presented to Kyle Alexander Ross

Law Society of Saskatchewan Silver Medal Ron Fritz Prize in Law presented to Léa Marie Lapointe

Law Society of Saskatchewan Bronze Medal presented to Laura Michelle Zlotkin-Leslie

The Honourable Donald Alexander McNiven Prize in Law presented to Kyle Alexander Ross

The Mary Y. Carter Scholarship in Family Law presented to Faith Hope Charity Baron

C. H. J. (Claude) Burrows, Q.C. Prize presented to Kristél Kriel

The Derek Burton Memorial Award presented to Peter Michael Kurt Kazman

The Mary Richiger Prize in Municipal Law presented to Gregory Alan Kirzinger

The F.C. Cronkite Prize in Jurisprudence presented to Andrew Perry Kuzma

The Bruce Ogilvie Memorial Scholarship presented to Sonya Lalli

Cecil G. Schmitt Prize in Company Law presented to Faith Hope Charity Baron

Sam Beckie Prize in Clinical Law presented to Vicky Wing Hei Law

Douglas A. Schmeiser Prize in Constitutional Law presented to Jared Daniel Epp

AWARDS TO GRADUATING STUDENTS

Foster Prize in Human Rights presented to Faith Hope Charity Baron

The Marj Benson Leadership Scholarship presented to Léa Marie Lapointe

Gabe Burkhart Memorial Award in Criminal Law presented to Caroline Jane Smith

Douglas A. Schmeiser Prize in Criminal Procedure presented to Caroline Jane Smith

The Ron Fritz Prize in Law presented to Léa Marie Lapointe

The Lorelle and David Schoenfeld Award in Environmental Law presented to Thomas Alexander Posnyniak

Saskatchewan Trial Lawyers Association Prize in Trial Advocacy presented to Sandi Jean Shannon

Law Foundation of Saskatchewan, H. Dahlem Prize in International Law presented to Katrina Marie Wagner

Walter and Hertha Tucker Fellowship presented to Rebecca Joy Teresa Wood

The Chief Justice of Saskatchewan Prize in Justice System/Access to Justice presented to David Matthew Zeggelaar

W.G. Morrow- R.C Carter Prize in Indian and Aboriginal Law Presented to Kristel Kriel

MEDICINE

Lindsay Gold Medal in Medicine presented to Michael Sklar

NURSING

W. S. Lindsay Gold Medal in Nursing presented to Patricia Joanne Bazylak

Elsevier Canada Health Sciences Award presented to Melissa Jo Lichtenwald

Pearson Canada Book Award presented to Norine Liana Johnson

Saskatchewan Registered Nurses' Association Yvonne Brown Award for Nursing Excellence presented to Melissa Jo Lichtenwald, Patricia Joanne Bazylak and Tanisha Lee Berkach

NUTRITION

Ruth Gerrard Prize presented to Megan Mari Sander

Hannon Travel Scholarships presented to Casey Lynn Berry, Megan Lynn Boschman and Kristen Marie Bueckert

Rutter Medal in Nutrition presented to Megan Mari Sander

PHARMACY

Saskatchewan College of Pharmacists Gold Medal presented to Mandy Marie Paziuk

Campbell Prize (Second Most Distinguished Graduate) presented to Alexander James Crawley

Bristol-Myers Squibb Award in Pharmacy presented to Courtney Rose Nagel and Natalie Dawn Romanowski

Orest Buchko Hospital Pharmacy Award presented to Katelyn Chantelle Halpape

Class of '56 Memorial Scholarship presented to Alexander James Crawley

Class of 1959 Pharmacy Award presented to Amy Katherine Lamb

Mark C. Falloon Book Prize presented to Micheline Flore Bazin Webster

Natural Medicines Comprehensive Database Recognition Award presented to Katharine Marie Elizabeth Jiricka

Robert Martin Prize in Pharmacy presented to Mandy Marie Paziuk

VETERINARY MEDICINE

Western College of Veterinary Medicine Faculty Gold Medal presented to James Michael Kirkham

GRADUATE STUDIES AND RESEARCH

Governor General's Gold Medal presented to Lisa Margaret Jewell

GRADUATE THESIS AWARDS

Humanities and Fine Arts presented to:

Levi Matthew Nicholat, M.F.A., Art and Art History

Thesis: That is not it at all

Life Sciences presented to:

Asim Biswas, Ph.D., Soil Science

Thesis: Multi-scale Controls on Spatial Patterns of Soil Water Storage in the Hummocky Regions of North America

Physical and Engineering Sciences presented to:

Michael William Gaultois, M.Sc., Chemistry

Thesis: Final-state Effects in X-ray Spectra from Transition Metal Oxides and Silicates

Social Sciences A presented to:

Lisa Margaret Jewell, Ph.D. Psychology

Thesis: "I can hear it in the way they look at me...": Gay and Lesbian University Students' Lived Experiences with Blatant and Subtle Interpersonal Discrimination

Social Sciences B presented to:

Vincent Boyd Anderson, M.Ed., Educational Foundations

Thesis: Investigating Learning of the Embodied Self in Motion: Implications for Socio-ecological Justice Education

ST. THOMAS MORE COLLEGE

Right Reverend Monsignor Myroslav Kolodey Memorial Academic Prize presented to Andrew Michael Chan Tai Kong

Thomas Deis '38 Prize in Scholastic Philosophy in Honour of Dr. Basil Markle S.T.D presented to Veronica Lea Carr

Thomas Deis '38 WWII Memorial Prize presented to Vanessa Elena Leon

Fr. Henry Carr Award presented to Samantha Lea Purchase

Ambitious**us**

Students from Advanced Urban Design, a core course for Regional and Urban Planning majors, have undertaken a challenging design project. With the help of City of Saskatoon urban designer Henry Lau, the students developed a design to transform the Place Riel transit hub into a safe, sustainable, world-class transportation and community centre for Saskatoon. The winning design, called Varsity Station, is a transit centre that creates a connection between College Quarter, Varsity View, and the U of S campus.

CEREMONY 1

Tuesday, June 5, 2012

9:00 a.m.

ARTS AND SCIENCE

Aboriginal Public Administration | Anthropology and Archaeology | Art History | Bioinformatics | Chemistry | Classical and Near Eastern Archaeology | Classical, Medieval and Renaissance Studies | Computer Science | Community Planning and Native Studies | Drama | Geophysics | History | International Studies | Mathematical Physics | Mathematics | Music | Native Studies | Northern Studies | Philosophy | Physics | Prairie Studies | Political Studies | Psychology | Public Administration | Religion and Culture | Statistics | Studio Art | Toxicology | Women's and Gender Studies

Undergraduate degrees, graduate degrees, diplomas and certificates for the graduates of

ARTS AND SCIENCE

June 5, 2012 | 9:00 a.m.

Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE-ADDRESS

University of Saskatchewan Alumni Association

PROCESSION

Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor

WELCOME

Lea Pennock, University Secretary

O CANADA

Tricia Florence

INVOCATION

Laurie Friesen, University Chaplain

INTRODUCTIONS

Lea Pennock, University Secretary

CONFERRING OF EARNED DOCTOR
OF SCIENCE DEGREE

John Tse
Presented by Lawrence Martz

CONFERRING OF HONORARY DOCTOR
OF LETTERS DEGREE

Joe Fafard
Presented by Peter Stoicheff

CONVOCATION ADDRESS

Joe Fafard

MUSICAL INTERLUDE

Down a Country Lane by Aaron Copland
The University Wind Orchestra conducted by Darrin Oehlerking

PRESIDENT'S STATEMENT
TO THE GRADUANDS

Peter MacKinnon

CONFERRING OF DEGREES

PETITION FOR ADMISSION

Lea Pennock, University Secretary

PRESENTATION OF GRADUANDS TO THE CHANCELLOR

Arts and Science presented by Dean Peter Stoicheff, Associate Dean of Students Gordon DesBrisay, Vice-dean Humanities and Fine Arts David Parkinson and Vice-dean Science Peta Bonham-Smith
Doctor of Philosophy presented by Dean Lawrence Martz

ADMISSION TO DEGREES IN ABSENTIA

Vera Pezer, Chancellor

PRESENTATION OF AWARDS TO THE MOST
DISTINGUISHED GRADUATES

University of Saskatchewan Film Society Prize presented to Jonathan Mark Henkelman

Earl of Bessborough Prize in Science presented to Sonya Irene Adams

Thomas Deis '38 Prize in Scholastic Philosophy in Honour of Dr. Basil Markle S.T.D presented to
Veronica Lea Carr

Thomas Deis '38 WWII Memorial Prize presented to Vanessa Elena Leon

Fr. Henry Carr Award presented to Samantha Lea Purchase

Governor General's Gold Medal presented to Lisa Margaret Jewell

PRESENTATION OF AWARDS
TO FACULTY AND STAFF

New Researcher Award presented to Keith Carlson

Chemistry - Thesis: Towards the Synthesis of Hyacinthacines

Michael William Gaultois

Nanaimo, British Columbia

Chemistry - Thesis: Final-state Effects in X-ray Spectra from Transition Metal Oxides and Silicates

Shahriar Kaiser

Bangladesh

Computer Science - Thesis: Smartphone Traffic Characteristics and Context Dependencies

Donna Maureen Roxanne Kaminski

Invermay

Interdisciplinary Graduate Studies - Thesis: Genetic Invention Licensing in Healthcare: An Analysis of Policy Instruments

Alieh Kazemeini

Iran

Chemistry - Thesis: Aldol Couplings of Chiral Fragments with Kinetic Resolution: Scope and Limitations

Richard Kwadzo Lomotey

Ghana

Computer Science - Thesis: Enabling Mobile Devices to Host Consumers and Providers of RESTful Web Services

Tanya Zoe Lung

Saskatoon

Computer Science - Thesis: Voice and Touch Diagrams (VATagrams): Diagrams for the Visually Impaired

Megan Emily Marsh

Saskatoon

Mathematics - Thesis: An Assessment of Numerical Methods for Cardiac Simulation

Daniel Ramiro Merino Arroyo

Ecuador

Computer Science - Thesis: Dependable IPTV Hosting

Daniel Toshio Mori

Langley, British Columbia

Physics - Thesis: SuperDARN Cross Polar Cap Potential and Parameters of the Near-Earth Space

Sabrina Nusrat

Bangladesh

Computer Science - Thesis: Recommending Services in a Differentiated Trust-Based Decentralized User Modeling System

Albina Rahim

Bangladesh

Computer Science - Thesis: Predicting Antigen Evolution

ARTS AND SCIENCE

Degrees, Diplomas and Certificates

Ripon Kumar Saha

Bangladesh

Computer Science - Thesis: Detection and Analysis of Near-Miss Clone Genealogies

Shi Shi

People's Republic of China

Computer Science - Thesis: Keeping Up with the Information Glut by Visualizing Patterns of Posting by Friends on Facebook

Yuan Tian

People's Republic of China

Computer Science - Thesis: Agent-Based Modeling and System Dynamics Modeling on Transmission of Tuberculosis in Saskatchewan

Yudi Xue

People's Republic of China

Computer Science - Thesis: Software for Visualization and Coordination of the Distributed Simulation Modeling Process

DOCTOR OF PHILOSOPHY

Fabiola Becerril-Jiménez

Mexico

Chemistry - Thesis: On the Origin of Siphonariid Polypropionates: Total Synthesis of Caloudrin B and its Isomerization to Siphonaridin B

Carie Michelle Buchanan

Francis

Psychology - Thesis: Predicting and Understanding Sexual and Nonsexual Adolescent Peer Victimization in Schools: A Mixed Methods Approach

Robyn Anne Drayton Fiori

Ottawa, Ontario

Physics and Engineering Physics - Thesis: Application of Spherical Cap Harmonic Analysis to Plasma Convection Mapping at High Latitudes

Daryl George Janzen

Saskatoon

Physics - Thesis: A Solution to the Cosmological Problem of Relativity Theory

Michael Robert Janzen

Niagara-on-the-Lake, Ontario

Computer Science - Thesis: Virtual Camera Selection using a Semiring Constraint Satisfaction Approach

Lisa Margaret Jewell

Athabasca, Alberta

Psychology - Thesis: "I can hear it in the way they look at me...": Gay and Lesbian University Students' Lived Experiences with Blatant and Subtle Interpersonal Discrimination Paper

Vijay Kumar Sarma Mamillapalle

India

Chemistry - Thesis: Metabolism of Phytoalexins and Analogs and Inhibitors of Brassinin Detoxification in *Leptosphaeria Maculans*

Rahim Oraji

Iran

Physics and Engineering Physics - Thesis: M-Theory Solutions and Intersecting D-Brane Systems

Jose Eduardo Sánchez-Larios

Mexico

Chemistry - Thesis: Enantioselective and Domino Intermolecular Stetter Reactions

Catherine Anne Stewart

Halifax, Nova Scotia

Psychology - Thesis: Risk Assessment of Federal Female Offenders

Selina Denise Zaluski

Red Deer, Alberta

Psychology - Thesis: Emerging Adulthood: A Mixed Method Comparative Analysis Across Vocational Settings

Generous**us**

Individuals from the University of Saskatchewan Johnson-Shoyama Graduate School of Public Policy Students' Association are helping not-for-profit and charity organizations in the province by providing free research, analytic and strategic services. Aptly named, The Policy Shop was formed as a student consulting group that could provide pro bono work to groups seeking additional policy capacity for their organization.

CEREMONY 2

Tuesday, June 5, 2012

2:00 p.m.

ARTS AND SCIENCE

Anatomy and Cell Biology | Biochemistry | Biology | Bimolecular Structure Studies | Biotechnology and Biochemistry | Biotechnology and Biology | Biotechnology and Cell Biology | Biotechnology and Microbiology | Biotechnology, Microbiology and Immunology | Business Economics | Comparative Literature and Languages | Computing | Economics | English | Environmental Biology | Environmental Earth Science | Environment and Society | Food Science | French | Geography | Geology | German | Interactive Systems Design | Land Use and Environmental Studies | Modern Languages | Microbiology and Immunology | Linguistics and Languages | Palaeobiology | Physiology | Physiology and Pharmacology | Regional and Urban Planning | Russian | Slavic Studies | Spanish | Sociology | Sociology of Biotechnology | Ukrainian

JOHNSON-SHOYAMA GRADUATE SCHOOL OF PUBLIC POLICY

SCHOOL OF ENVIRONMENT AND SUSTAINABILITY

Undergraduate degrees, graduate degrees and certificates for the graduates of
ARTS AND SCIENCE, SCHOOL OF ENVIRONMENT AND SUSTAINABILITY
AND JOHNSON-SHOYAMA GRADUATE SCHOOL OF PUBLIC POLICY

June 5, 2012 | 2:00 p.m.
Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE-ADDRESS

University of Saskatchewan Alumni Association

PROCESSION

Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor; The Lieutenant Governor

WELCOME

Lea Pennock, University Secretary

O CANADA

Tricia Florence

INVOCATION

Michael MacLean, University Chaplain

INTRODUCTIONS

Lea Pennock, University Secretary

CONFERRING OF HONORARY DOCTOR
OF LAWS DEGREE

Wayne G. Wouters
Presented by Peter MacKinnon

CONVOCATION ADDRESS

Wayne G. Wouters

MUSICAL INTERLUDE

Down a Country Lane by Aaron Copland
The University Wind Orchestra conducted by Darrin Oehlerking

PRESIDENT'S STATEMENT TO THE
GRADUANDS

Peter MacKinnon

CONFERRING OF DEGREES

PETITION FOR ADMISSION

Lea Pennock, University Secretary

PRESENTATION OF GRADUANDS TO THE CHANCELLOR

Arts and Science presented by Dean Peter Stoicheff, Associate Dean of Students Gordon DesBrisay, Vice-dean Humanities and Fine Arts David Parkinson and Vice-dean Science Peta Bonham-Smith

Environment and Sustainability presented by Executive Director Maureen Reed

Public Policy presented by Executive Director Michael Atkinson

Doctor of Philosophy presented by Dean Lawrence Martz

ADMISSION TO DEGREES IN ABSENTIA

Vera Pezer, Chancellor

PRESENTATION OF AWARDS TO THE
MOST DISTINGUISHED GRADUATES

Copland Prize in Humanities presented to Daphné Dubois

Copland Prize in Social Science presented to Benjamin Andrew Milner

Spring Convocation Three-year Medal presented to Andrew Michael Chan Tai Kong

Haslam Medal presented to Daphné Dubois

Right Reverend Monsignor Myroslav Kolodey Memorial Academic Prize presented to Andrew Michael Chan Tai Kong

Governor General's Silver Medal presented to Andrew Michael Chan Tai Kong

PRESENTATION OF AWARDS TO FACULTY
AND STAFF

Award for Distinction in Outreach and Engagement presented to Ryan Walker

MESSAGE FROM THE ALUMNI ASSOCIATION

University of Saskatchewan Alumni Association

CONCLUDING REMARKS

Chancellor Pezer

GOD SAVE THE QUEEN

God save our gracious Queen,

Long live our noble Queen, God save the Queen

Send her victorious, happy and glorious

Long to reign over us, God save the Queen

BACHELOR OF ARTS AND
SCIENCE HONOURS

Lakelyn Michele Wylie

Peace River, Alberta
Environment and Society

MASTER OF ARTS

Jason George Barnhart

Regina
Economics - Project: A Hedonic House Price Index
for the City of Regina from 1992

Kirk Joseph Brecht

Asquith
Economics - Project: The Welfare Effects of
Interregional Government Collaboration in a Mixed
Oligopoly

Meshon Cantrill

Saskatoon
English - Thesis: "Who has not trembled at the
Mohocks' name?": Narratives of Control and
Resistance in the Press in Early Eighteenth-Century
London

Nataliya Dvorak

Regina
Linguistics - Thesis: Bourgeois Letters: Language
Planning as an Avenue of Social Engineering in
Ukraine (1919-1938)

Shiguang Huang

People's Republic of China
Economics - Project: Free Trade Agreements and
Foreign Direct Investments in Canada

Caitlin Marie Iles

Rothsay, New Brunswick
English - Thesis: A Process of Thought and Being:
Aboriginal Realism and Cultural Healing in Joseph
Boyden's *Three Day Road* and Tomson Highway's *Kiss
of the Fur Queen*

Rahatjan Amanovna Judge

Krygyzstan
Economics - Project: The Effect of Environmental
Regulations on Labour Productivity

Cristen Elissa Jay Polley

Saskatoon
English - Thesis: Sweet Configurations: Feminine
Figures and Culinary Creativity in Chatelaine and
Margaret Atwood's *The Edible Woman*

Sarah Yvonne Prusak

Fairview, Alberta
Geography - Thesis: An Examination of First
Nations Comprehensive Community Planning in
Saskatchewan

Frances Xoyana Rawlyk

Saskatoon
Geography - Thesis: Local Capacity to Implement
a Source Water Protection Plan in the South
Saskatchewan River Watershed

Jesse Steve Skwaruk

Edmonton, Alberta
Geography - Thesis: Capacity to Support
Cumulative Effects Assessment and Management in
the Athabasca Watershed, Alberta, Canada

Hong Yang

People's Republic of China
Economics - Project: Immigrant Wage Gap in
Saskatchewan

MASTER OF SCIENCE

Indika Gayani Benaragama

Sri Lanka
Biology - Thesis: Collision Avoidance Behaviour in a
Pair of Flying Locusts (*Locusta migratoria* L.)

Ana María González-Prieto

Colombia
Biology - Thesis: Factors Influencing Body
Condition and Arrival Phenology of Neotropical
Migrants at a Northern Spring Stopover Site

Terri Linda Graham

Saskatoon
Geology - Thesis: Ichnology, Sedimentology and
Paleoenvironmental Reconstruction of the Lower
Cambrian Addy Quartzite, Northeastern Washington
State, U.S.A.

Stephanie Lee Molgaard Kristensen

Kelowna, British Columbia
Geography - Thesis: Capacity for Cumulative
Effects Assessment in the Lower Fraser River Basin,
British Columbia, Canada

Elizabeth Rose Schatz

Westerose, Alberta
Geology - Thesis: Ichnology of Holocene
Glaciomarine Sediments: Maktak, Coronation and
North Pangnirtung Fjords, Baffin Island, Canada

Emily Joan Tissier

United States of America
Biology - Thesis: Vegetation Associations Along
Disturbance Gradients on the Sand Dunes of Sable
Island, Nova Scotia

Justin John Tse

Ottawa, Ontario
Geology - Thesis: Selenium Speciation and
Localization in Sediment and Benthic Invertebrates
from Lakes Receiving Treated Metal Mine Effluent

SCHOOL OF
ENVIRONMENT
AND SUSTAINABILITY

MASTER OF ENVIRONMENT
AND SUSTAINABILITY

Chelsea Jean Dale
Shawnigan Lake, British Columbia

Environment and Sustainability - Thesis:
Investigating Cowichan River Collaborative Salmon
Management Institutions: The Cowichan Harvest
Roundtable and the Traditional Cowichan Fish Weir

Vijayalakshmi Suresh Kalagnanam
Saskatoon

Environment and Sustainability - Thesis: Land
Cover/Land Use Change—Exploring the Impacts on
the Shahariya Tribe of Rajasthan, India

John Lloyd Kearns
Ottawa, Ontario

Environment and Sustainability - Thesis: The
Igalirtuuq Conservation Initiative: An Exploration
of Collaborative Multi-level Environmental
Governance Formation

Skye Leticia Ketilson
Saskatoon

Environment and Sustainability - Thesis:
Regional Strategic Environmental Assessment Roles
and Stakes In Arctic Oil and Gas Development

MASTER OF SUSTAINABLE
ENVIRONMENTAL
MANAGEMENT

Graham Robert Barber
Dawson Creek, British Columbia

Environment and Sustainability - Project: Eye
Spy: Researching Technological Options to Capture
Polar Bear Activity within Wapusk National Park

Liu Cao
People's Republic of China

Environment and Sustainability - Project: Oil
Sands Development and Strategic Adjustment in
Northwestern Saskatchewan

Evelyn Cerda Acosta
Mexico

Environment and Sustainability - Project:
The Impact of Environmental Risk on a Firm's
Specific Risk and Organizational Decision Making:
Influencing Investors' Decisions

Jostein James Misfeldt
Saskatoon

Environment and Sustainability - Project:
Urban Water Security Assessment in the South
Saskatchewan River Basin

Natalie Dean Nikiforuk
Bragg Creek, Alberta

Environment and Sustainability - Project:
Agricultural Pesticide Use and Changes in the
Abundance of Grassland Birds in the Canadian
Prairies

Darcy Daryl Paslawski
Osage

Environment and Sustainability - Project: The
Strengths of Cumulative Effects Assessment in the
Alberta Oil Sands: A Foundation to Improve Practice

DOCTOR OF PHILOSOPHY

Solange Angulo Saldña
Venezuela

Geology - Thesis: An Integrated Sedimentological,
Ichnological and Sequence Stratigraphic Study in
the Devonian-Carboniferous Bakken Formation of
Subsurface Southeastern Saskatchewan

Julia Marg Baird
Morden, Manitoba

Environment and Sustainability -
Thesis: Performance-based Approaches to
Agri-environmental Water Quality Policy in Canada

Paweł Brzezowski
Poland

Biology - Thesis: The Role of Reactive Oxygen
Species in the Retrograde Chloroplast-Nucleus
Signalling Pathway

Kelly Eileen Chessic
Regina

Interdisciplinary Graduate Studies - Thesis:
Discourses and Practices of Health System
Regionalization in Saskatchewan: Dominant,
Contested and Absent Themes

Dennis Correa Duro
North Vancouver, British Columbia

Environment and Sustainability - Thesis:
Remote Sensing and GIS in Support of Sustainable
Agricultural Environments

Graham David Fairhurst
United States of America

Biology - Thesis: Does an Integrated Measure
of Corticosterone from Feathers Improve Our
Understanding of Avian Ecophysiology?

Justine Elizabeth Gieni
Regina

English - Thesis: Gender Dis-ease: Representations
of Masculine Hysteria in Narratives of Sexual Trauma

ARTS AND SCIENCE, JOHNSON-SHOYAMA GRADUATE SCHOOL OF PUBLIC POLICY
AND SCHOOL OF ENVIRONMENT AND SUSTAINABILITY

Degrees and Certificates

Kirsty Elizabeth Gurney

Prince George, British Columbia

Biology - Thesis: Reproductive Ecology of
Temperate-Nesting Waterfowl: Temporal and
Spatial Patterns of Investment and Success in Lesser
Scaup (*Aythya affinis*)

Lipu Wang

People's Republic of China

Biology - Thesis: Biological Functions of
Arabidopsis TGA1 and TGA4 Transcription
Factors

Soo In Yang

South Korea

Geology - Thesis: Biotransformation and
Interactions of Selenium with Mixed and Pure
Culture Biofilms

Prestigious**us**

For the second year in a row, the University of Saskatchewan College of Law's Western Canada Moot team has won the Sopinka Cup, a competition that aims to the art of oral advocacy. The team took first place in the criminal trial jury competition which is organized by The Advocates' Society and sponsored by the American College of Trial Lawyers. The top law schools from eight regional competitions competed March 16 and 17 in the bilingual national finals in Ottawa.

CEREMONY 3

Wednesday, June 6, 2012

9:00 a.m.

EDWARDS SCHOOL OF BUSINESS

LAW

Undergraduate degrees, graduate degrees and certificates for the graduates of
EDWARDS SCHOOL OF BUSINESS AND LAW

June 6, 2012 | 9:00 a.m.
Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE-ADDRESS

University of Saskatchewan Alumni Association

PROCESSION

Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate;
Guests of Honour; The President; The Chancellor

WELCOME

Lea Pennock, University Secretary

O CANADA

Allison Walmsley

INVOCATION

Studios

Linda Wason-Ellam, professor of curriculum studies in the College of Education, believes a hand puppet is a powerful teaching tool. She believes art and image are more powerful mediums than many realize. And she has spent her 48-year career using all of these things to bring literacy to a special group of children—those who are not achieving in school.

These days Wason-Ellam is focusing her research on children with fetal alcohol spectrum disorder (FASD). With the assistance of a Saskatchewan Health Research Foundation grant, and as part of an interdisciplinary FASD research network, Wason-Ellam is working on developing literacy screening tools for FASD, determining characteristics of the disorder and identifying patterns of functional and essential literacy skills.

CEREMONY 4

Wednesday, June 6, 2012

2:00 p.m.

EDUCATION

Undergraduate degrees, graduate degrees, diplomas and certificates for the graduates of

E D U C A T I O N

June 6, 2012 | 2:00 p.m.

Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE - ADDRESS

University of Saskatchewan Alumni Association

PROCESSION

Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor

WELCOME

Lea Pennock, University Secretary

Educational Administration - Thesis: Principals' Perceptions of the Essential Components of Sustainable Leadership and Implications for Succession Planning at the Elementary School Level: A Mixed Methods Research Study

Adventurous

An innovative program offered by the U of S College of Medicine is connecting future physicians with marginalized communities and is helping medical students learn more about the social determinants of health – both at home and internationally.

Making the Links, delivered through the college's Division of Social Accountability, is a certificate program that combines academic courses with service learning in underserved communities.

The 10 undergraduate medical students involved with the program annually have the opportunity to work in Saskatoon's inner city, in the remote communities of Ile-a-la-Crosse and Dillon in northern Saskatchewan, and in the countries of Mozambique and Zimbabwe in southern Africa.

CEREMONY 5

Thursday, June 7, 2012

9:00 a.m.

KINESIOLOGY

MEDICINE

PHARMACY AND NUTRITION

SCHOOL OF PHYSICAL THERAPY

SCHOOL OF PUBLIC HEALTH

VETERINARY MEDICINE

Undergraduate degrees and graduate degrees for the graduates of
KINESIOLOGY, MEDICINE, PHARMACY AND NUTRITION,
SCHOOL OF PHYSICAL THERAPY, SCHOOL OF PUBLIC HEALTH
AND VETERINARY MEDICINE

June 7, 2012 | 9:00 a.m.
Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE-ADDRESS

University of Saskatchewan Alumni Association

PROCESSION

Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate;
Guests of Honour; The President; The Chancellor

WELCOME

Lea Pennock, University Secretary

O CANADA

Tricia Florence

INVOCATION

Joel Schindel, University Chaplain

INTRODUCTIONS

Lea Pennock, University Secretary

PRESIDENT'S STATE OF THE
UNIVERSITY REPORT

Peter MacKinnon

MUSICAL INTERLUDE

Down a Country Lane by Aaron Copland
The University Wind Orchestra conducted by Darrin Oehlerking

CONFERRING OF DEGREES

PETITION FOR ADMISSION

Lea Pennock, University Secretary

PRESENTATION OF GRADUANDS TO THE CHANCELLOR

Kinesiology presented by Dean Carol Rodgers and Associate Dean, Undergraduate Programs Louise Humbert

Medicine presented by Dean William Albritton and Associate Dean, Biomedical Sciences and Graduate Studies Nick Ovsenek

Pharmacy and Nutrition presented by Dean David Hill and Associate Dean Research and Graduate Affairs Alfred Rémillard

Veterinary Medicine presented by Dean Douglas Freeman

Physical Therapy presented by Associate Dean Physical Therapy and Rehabilitation Sciences Liz Harrison

Public Health presented by Executive Director Robert Buckingham

Doctor of Philosophy presented by Dean Lawrence Martz

ADMISSION TO DEGREES IN ABSENTIA

Vera Pezer, Chancellor

PRESENTATION OF AWARDS TO THE MOST DISTINGUISHED GRADUATES

Dr. Gordon Garvie Prize in Kinesiology presented to Aspen Landyce Lea Cleaveley

Lindsay Gold Medal in Medicine presented to Michael Sklar

Rutter Medal in Nutrition presented to Megan Mari Sander

Robert Martin Prize in Pharmacy presented to Mandy Marie Paziuk

Western College of Veterinary Medicine Faculty Gold Medal presented to James Michael Kirkham

MESSAGE FROM THE ALUMNI ASSOCIATION

MASTER OF SCIENCE

Bilal Abdulkader Alfoteisy
Libya

Veterinary Biomedical Sciences - Thesis: Natural Honey as a Cryoprotectant to Improve Viability of Vitrified Bovine Oocytes

Julie Catharina Anderson
Peterborough, Ontario

Toxicology - Thesis: Acute and Chronic Toxicity of Untreated, Aged, and Ozonated Oil Sands Process-affected Water in *Chironomus dilutus* Larvae

Shrijana Dhakal
Nepal

Large Animal Clinical Sciences - Thesis: Impact of Uterine Crowding on Farrowing Performance, Postnatal Performance, and Adrenal Stress Response

Melissa Kay Driessnack
United States of America

Toxicology - Thesis: Reproduction in Fathead Minnow (*Pimephales promelas*) Following Water or Sediment Exposure to a Complex Uranium Milling Effluent Elevated in Selenium

Gillian Marie Gratton
Calgary, Alberta

Veterinary Biomedical Sciences - Thesis: Bison Seminal Plasma Factor Affects Sperm Plasma Membrane Integrity

Fengyan Liu
People's Republic of China

Toxicology - Thesis: Mechanisms of Biotransformation of Methoxylated and Hydroxylated Polybrominated Diphenyl Ethers

David Ward Wohlberg Vardy
Vancouver, British Columbia

Toxicology - Thesis: Toxicity of Metals to Early Life Stages of White Sturgeon (*Acipenser transmontanus*)

Ellen Ruth Tyndale Watkiss
Abbotsford, British Columbia

Veterinary Microbiology - Thesis: The Innate and Adaptive Immune Response to Pneumonia Virus of Mice in a Resistant and a Susceptible Mouse Strain

MASTER OF VETERINARY
SCIENCE

Stacy Lynn Anderson
United States of America

Large Animal Clinical Sciences - Project: Comparison of Closures of Equine Celiotomies

Nora Katharina Huaman Chavarria
Saskatoon

Large Animal Clinical Sciences - Project: An Investigation Into the use of Acupuncture for Ovulation in the Normally Cycling Mare

Imma Roquet
Saskatoon

Large Animal Clinical Sciences - Project: The Effect of Blood Contamination on Equine Synovial Fluid Analysis

DOCTOR OF PHILOSOPHY

Sanjeev Kumar Anand
India

Veterinary Microbiology - Thesis: Role of Mitochondria During Bovine Adenovirus 3 Infection

Ryan Joseph Arsenaault
Medstead

Biochemistry - Thesis: Development and Application of Genus-Specific Peptide Arrays for Kinome Analysis

Brenna Lea Bath
Saskatoon

Community Health and Epidemiology - Thesis: Biopsychosocial Evaluation of a Spinal Triage Service Delivered by Physiotherapists in Collaboration with Orthopaedic Surgeons

Atul Ravindranath Desai
India

Veterinary Microbiology - Thesis: Effects of Plant-Based Diets on the Distal Gut Microbiome of Rainbow Trout (*Oncorhynchus mykiss*).

Peter David Skarsgard Hedlin
Saskatoon

Biochemistry - Thesis: Design and Delivery of a Cryptic PrPC Epitope for the Induction of a PrPSc-Specific Antibody Response

Md. Alomgir Hossain
Bangladesh

Community Health and Epidemiology - Thesis: Standard Regression Versus Multilevel Modeling of Multistage Complex Survey Data

David Robert Kroeger
Victoria, British Columbia

Microbiology and Immunology - Thesis: Mechanisms and Functional Consequences of CD4^T Cell Cooperation

KINESIOLOGY, MEDICINE, PHARMACY AND NUTRITION, SCHOOL OF
PHYSICAL THERAPY, SCHOOL OF PUBLIC HEALTH AND VETERINARY MEDICINE

Degrees

Koroush Madani Larijani

Iran

Community Health and Epidemiology - Thesis:
Metabolic Syndrome in Canadian Adults

Jonathan Edward Naile

United States of America

Toxicology - Thesis: Analytical and Toxicological
Analysis of Perfluorinated Compounds Present in
the Environment

Sarah Natasha Oosman

Saskatoon

Interdisciplinary Graduate Studies - Thesis:
Kica Wasimisinanahk Miyo-ayawin - Our Children's
Health. Promoting Physical Activity and Nutrition
Through a Health Promoting School-based
Intervention in a Métis Community

Monika Anna Polewicz

Poland

Veterinary Microbiology - Thesis: Development
of Novel Vaccine Formulations Against Pertussis for
Early Life Vaccination in the Presence of Maternal
Antibodies

Christopher David Rudulier

Saskatoon

Microbiology and Immunology - Thesis: CD4⁺ T
cell-T cell Interactions Through CD28/B7 Molecules
Affect their Th1/Th2 Phenotype

Tolulope Timothy Sajobi

Nigeria

Biostatistics - Thesis: Descriptive Discriminant
Analysis for Repeated Measures Data

Ravi Shankar Prasad Singh

India

Pharmacy - Thesis: Pharmacokinetics and
Pharmacodynamics of Anticancer Curcumin
Analogues in an Academic Drug Discovery Unit

Allison Jane Squires

St. John's, Newfoundland and Labrador

Toxicology - Thesis: Development and
Implementation of a Watershed-scale Cumulative
Effects Framework for the Athabasca River Basin

Radu Ioan Stefureac

Saskatoon

Biochemistry - Thesis: Nanopore Analysis of
Peptides and Proteins

Navdeep Singh Toor

Kitimat, British Columbia

Toxicology - Thesis: Degradation and Aquatic
Toxicity of Oil Sands Naphthenic Acids Using
Simulated Wetlands

Susan Mary Tupper

Saskatoon

Community Health and Epidemiology - Thesis:
Within-day Variability of Pain in Youth with
Juvenile Idiopathic Arthritis and Non-arthritis Pain
Conditions

Emma Louise Turner

Peterborough, Ontario

Anatomy and Cell Biology - Thesis: The
Anaphase Promoting Complex Interacts with
Histone Modification Proteins

Timothy Andrew Lewis West

Regina

Pharmacy - Thesis: Corporate Social Responsibility
Within the Pharmaceutical Industry

Ambitious

A new partnership between the College of Nursing and the North Central Community Association (NCCA) has created a dynamic community health clinical placement in Regina, providing nursing students a unique opportunity to experience a different kind of nursing while making a positive impact on the city's core neighbourhood. Participants Andrea Collins and Jennifer Cowie (inset) were profoundly affected by the experience. By working closely with a diverse population, the pair gained direct insight into the broad determinants of health and a more expansive view of nursing and community.

CEREMONY 6

Thursday, June 7, 2012

2:00 p.m.

DENTISTRY

NURSING

Undergraduate degrees and graduate degrees for the graduates of

DENTISTRY AND NURSING

June 7, 2012 | 2:00 p.m.

Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE-ADDRESS

University of Saskatchewan Alumni Association

PROCESSION

Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour; The President; The Chancellor

WELCOME

Lea Pennock, University Secretary

O CANADA

Tricia Florence

INVOCATION

Ingenious

Since forming in 2005, the University of Saskatchewan Space Design Team has achieved international success working on various projects, including the opportunity to compete four times in NASA's space elevator competition. The team's next challenge? Designing, building and launching a nanosatellite as part of Canadian Satellite Design Challenge. The team moved one step closer to this goal with a successful presentation this spring at the critical design review held at the David Florida Laboratory in Ottawa.

POSTGRADUATE DIPLOMA

Michelle Desiree Delorme

Saskatoon
Agricultural Economics

MASTER OF SCIENCE

Sujeema Jayawardana Abeysekera

Saskatoon
Food Science - Thesis: Solubility, *In Vitro* Digestibility and Allergenicity of *Brassica juncea*, *Brassica napus* and *Sinapis alba* Proteins

Misaki Cho

Japan
Animal Science - Thesis: The Impact of Diet Energy and Amino Acid Content on the Feed Intake and Performance of Broiler Chickens

Muhammad Adil Choudhry

Saskatoon
Plant Science - Thesis: Growth, Yield and Nitrogen Content of Lentil (*Lens culinaris* Medic) as Affected by Nitrogen and Diquat Application

Louis-Pierre Comeau

Montreal, Quebec
Soil Science - Thesis: The Influence of Lentil, Canola, Pea and Wheat on Carbon and Nitrogen Dynamics in Two Chernozemic Soils

Alin Dawn Friedt

Gouldtown
Animal Science - Thesis: Nutritional Evaluation of Wheat Bran From Abrasion Milling in Backgrounding Diets for Cattle

Tatiana Mary Gabrush

Saskatoon
Animal Science - Thesis: Effects of the Degree of Beak Trimming on the Performance of White Leghorns

Undrakh Ganbaatar

Mongolia
Agricultural Economics - Thesis: An Economic Analysis of Commercialization of Innovation in Small Saskatchewan Agribusinesses

Douglas Stuart Alexander Grahame

Vancouver, British Columbia
Food Science - Thesis: Microbial Production and Characterization of 1,3-PDO by a Novel *Lactobacillus panis* Strain

Digit Dee Guedo

Glentworth
Plant Science - Thesis: Long-term Changes in Abundance-Occupancy Relationships and Trembling Aspen Cover and Density with Prescribed Burning in the Fescue Grasslands of Prince Albert National Park

Wei He

People's Republic of China
Agricultural Economics - Thesis: An Evaluation of Prairie Producer Attitudes towards Climate

Zahra Hosseini-Nasabnia

Iran
Applied Microbiology - Thesis: Characterization of Fungal Communities Associated to Willow SRIC Plantations in the Canadian Prairies Ecozone Using PCR-Based Molecular Methods

Tyler Larry Kaban

Yorkton
Plant Science - Project: A Strategy to Develop Prairie Grapes (*Vitis*) with High *Trans*-resveratrol Production Potential

Masoumeh Khakpour

Saskatoon
Agricultural Economics - Thesis: The Impact of Ocean Freight Rate Fluctuation on Wheat Flow

Bo Liu

People's Republic of China
Animal Science - Thesis: In-depth Study of the Relationship between Protein Molecular Structure and the Digestive Characteristics of the Proteins in Dried Distillers Grains with Solubles

Jocepascual Martinez Rojo

Mexico
Plant Science - Thesis: Tolerance to Sub-zero Temperatures in *Phaseolus acutifolius* and Interspecies Hybrids between *Phaseolus vilgaris* and *P. acutifolius*

Marcus Raymond Phillips

Yorkton
Soil Science - Thesis: The Depth Distribution of Organic Carbon in Mineral Cryosols at Two Sites in the Canadian Arctic

Khalil Mohamad Fayeze Sahtout

Jordan
Animal Science - Thesis: Evaluation of the NRC (2000) Beef Model for Predicting Performance and Energy Requirements of Cattle Fed under Western Canadian Environmental Conditions

Clare Staley Sullivan

Guelph, Ontario
Soil Science - Thesis: Reduced Tillage in Organic Cropping Systems on the Canadian Prairies

Nevada Young

Lloydminster
Animal Science - Thesis: Cholesterol Supplementation in Plant-Based Diets for Rainbow Trout (*Oncorhynchus mykiss*)

MASTER OF SCIENCE

Holly Jolene Annand
Melfort

Agricultural and Bioresource Engineering - Thesis: Biochemical Methane Potential for Wheat-Based Fuel Ethanol and Beef Feedlot Integration

David Antoine Beriault
Regina

Mechanical Engineering - Thesis: Run Around Membrane Energy Exchanger Prototype 4 Design and Laboratory Testing

Pana Binsirawanich
Thailand

Agricultural and Bioresource Engineering - Thesis: Mass Flow Sensor Development for an Air Seeding Cart

Uranbileg Daalkhajav
Mongolia

Chemical Engineering - Thesis: Removal of Ammonia (Nitrification) in Conventional and Microbial Fuel Cell Type Bioreactors

Dana Scott Fenske
Saskatoon

Civil Engineering - Thesis: A Study to Evaluate the Performance of Reclamation Soil Covers Placed Over an Oil Sands Fluid Coke Deposit

Shaoyu Gao
People's Republic of China

Mechanical Engineering - Thesis: Property Measurements and Moisture Diffusion Simulations During Potash Caking and Cake Strength Predictions

Zhu Gao
People's Republic of China

Agricultural and Bioresource Engineering - Thesis: Dehumidification of Greenhouses in Cold Regions

Craig Keith Hamilton
Saskatoon

Civil Engineering - Thesis: Hydrogeological Characterization of the Mabout Group in the Picadilly Region, New Brunswick

AGRICULTURE AND BIORESOURCES AND ENGINEERING

Degrees, Diplomas and Certificates

Adeola Igbalajobi

Nigeria

Mechanical Engineering - Thesis: The Effect of a Splitter Plate on the Flow around a Surface-Mounted Finite Circular Cylinder

Zahra Izadifar

Iran

Biomedical Engineering - Thesis: Efficient Extraction of Phenolic Compounds from Wheat Distiller's Dried Grain; Ultrasonic Pretreatment and Dielectric Studies

Ji Li

People's Republic of China

Chemical Engineering - Thesis: Kinetics Study on Bunsen Reaction in a Gas-Liquid-Liquid System with Iodine Provided in I₂-Toluene Solution for H₂ from H₂S

Sidhartha Mohanty

India

Chemical Engineering - Thesis: Effect of Citric Acid on the Hydrotreating Activity of NiMo Catalysts

Homa Mostaghimi Ghomi

Calgary, Alberta

Mechanical Engineering - Thesis: Adiabatic Shear Localization in Aisi 1340 and 4340 Steels: The Influence of Microstructure and Geometry

Thu Huyen Nguyen

Vietnam

Civil Engineering - Thesis: Hydraulic Behaviour of Free Flowing Granular Drains

Tyrell Jonathan Preiss

Saskatoon

Mechanical Engineering - Thesis: Development of a Simulation Model of a Backhoe Excavator

Mohsen Shakouri

Iran

Chemical Engineering - Thesis: Effects of Preparation, Ni/Co Ratio, and Sulfur Poisoning of Ni-Co Bimetallic Catalyst for Dry Reforming Reaction

Binendra Shakya

Saskatoon

Electrical Engineering - Thesis: Repair Duration Effects on Distribution System Reliability Indices and Customer Outage Costs

Binod Shrestha

Nepal

Electrical Engineering - Thesis: A Fast Method For Out-of-Step Protection Using State Plane Trajectories Analysis

Kishari Indunil Sooriya Arachchilage

Sri Lanka

Agricultural and Bioresource Engineering - Thesis: Life Cycle Analysis of Alfalfa Stem-Based Bioethanol Production System

Saradha Srinivasan

Saskatoon

Electrical Engineering - Thesis: A Functional Link Network Based Adaptive Power System Stabil

Xiaoye Xia

People's Republic of China

Electrical Engineering - Thesis: Body Motion Capture Using Multiple Inertial Sensors

Xin Yan

People's Republic of China

Mechanical Engineering - Thesis: Modeling of Mass Transfer and Fluid Flow in Perfusion Bioreactors

MASTER OF ENGINEERING

Peter Gerald Bullock

Parksville, British Columbia

Civil Engineering - Project: MSE vs. GRS Design: Comparison and Implications

Jaspreet Kaur Gill

Saskatoon

Chemical Engineering - Project: Pyrolysis of Canola Meal: Experimental and Kinetics Studies

Mehrnoosh Janbakhsh

Saskatoon

Electrical Engineering - Project: OFDM Channel Coding Implementation

Muhammad Raashid Khan

Pakistan

Biomedical Engineering - Project: Fault Tolerant Design Verification Through The Use of Laser

Jun Li

People's Republic of China

Mechanical Engineering - Project: PI Controller Design for Piezoelectric-Driven-Stick-Slip Actuators

Pei Hui Liu

People's Republic of China

Electrical Engineering - Project: Towards a Smart Transmission Grid

Gaurav Maingi

India

Electrical Engineering

Thi Binh Nguyen Nguyen

Vietnam

Mechanical Engineering - Project: Precision of Magnetic Resonance Imaging Based Estimates of Femoral Neck Geometry and Strength

Pallavi Sehgal

Calgary, Alberta

Electrical Engineering - Project: Distance Protection of EHV Underground Cable Systems Using Model Analysis

DOCTOR OF PHILOSOPHY

Colleen Bertha Annett Christianson

Bassano, Alberta

Animal Science - Thesis: Effect of Wheat and Corn on the Proliferation of *Clostridium perfringens* Type A and the Prevalence and Importance of *Clostridium perfringens* in Broiler Chickens in Saskatchewan

Joel Brandon Frey

Watrous

Electrical Engineering - Thesis: An Experimental and Theoretical Study of the Dark Current and X-ray Sensitivity of Amorphous Selenium X-ray Photoconductors

Michael Thomson Hendry

Bracebridge, Ontario

Civil Engineering - Thesis: The Geomechanical Behaviour of Peat Foundations Below Rail-track Structures

Shannon Dawn Hood-Niefer

Saskatoon

Food Science - Thesis: Effects of Genotype and Environment on the Composition and Starch Functionality of Pea and Fababean and the Presence of Other Starches or Hydrocolloids on the Functionality of Pea Starch

Titipong Issariyakul

Thailand

Environmental Engineering - Thesis: Development of Biodiesel Production Processes from Various Vegetable Oils

Abu Sayed Md Kamal

Bangladesh

Environmental Engineering - Thesis: Towards a Better Understanding of the Mechanisms Controlling the Durability of FRP Composites in Concrete

Nityananda Khanal

Saskatoon

Plant Science - Thesis: Environmental Factors Influencing Growth, Freezing Tolerance and Photosynthesis in *Thellungiella* and *Arabidopsis*

Yang Lin

People's Republic of China

Mechanical Engineering - Thesis: Controller Design for Hydraulic Position Control Systems

Simona Antoaneta Lubieniechi

Bucharest

Agricultural Economics - Thesis: GHG Policy Effectiveness in an Unharmonized World

Sushmita Nandy

India

Plant Science - Thesis: Elucidating the Genetic Basis of Bast Fibre Production in Flax (*Linum usitatissimum* L.)

Karen Violet Schwean-Lardner

Herbert

Animal Science - Thesis: The Importance of Daylength and Darkness Exposure on the Welfare and Productivity of Commercial Broilers

Ehsan Sharbati

Iran

Mechanical Engineering - Thesis: Mechanic and FEM Simulation of Active Vibration Control in Structural Systems by Using Internal Mass Reconfiguration

Hai-Dong Wang

People's Republic of China

Biomedical Engineering - Thesis: Nanodiamond Particles for Biomacromolecule Immobilization and Dye Contaminant Adsorption

Yufeng Wang

People's Republic of China

Civil Engineering - Thesis: Vibration-based Damage Detection on a Multi-Girder Bridge Superstructure

Alison Katherine Ward

Saskatoon

Animal Science - Thesis: Vitamin A and Intramuscular Fat Deposition: A Nutrigenetic Investigation in Beef Cattle

Chao Yang

People's Republic of China

Applied Microbiology - Thesis: Response of Rhizobacterial Community to Agronomic Practices in Chickpea Field, and its Potential Effects on Crop Production in Pulse-Cereal Rotation
