PRESIDENT'S MESSAGE

ILENE BUSCH-VISHNIAC

I want to extend my warmest congratulations and best wishes to the graduates of the spring 2013 Convocation ceremonies! I share with your families, friends, professors, and proud supporters in honouring your achievements at the University of Saskatchewan over the last several years, culminating in you being here today.

The university's mission "is to achieve excellence in the scholarly activities of teaching, discovering, preserving and applying knowledge." As much as we have contributed to your success as students, you have contributed to ours as a university. That is why today is not only a celebration of your personal achievements but also a celebration of your role in contributing to the success of the

University of Saskatchewan. I know this mutual success will continue well past today as you join more than 138,000 alumni living worldwide.

I look forward to your continued association with your alma mater through the many friendships and relationships you will have formed while studying here. Please stay in touch and know you will receive a warm welcome whenever you visit campus in the future.

Sincere congratulations,

ALUMNI MESSAGE

HEATHER MAGOTIAUX

Congratulations to our graduates, and welcome to the University of Saskatchewan Alumni Association.

Convocation is one of life's unforgettable moments. Your years as a student—years of new experiences, of studying, learning, and building lifelong relationships—all lead up to this accomplishment, to earning your degree, diploma or certificate. We are delighted to celebrate with you, your family and your friends.

You spent your most transformative years at the University of Saskatchewan not just to graduate, but to make a difference. Today, as you transition from student to alumnus, you join our community of over 138,000 alumni making a difference in the world. You will build upon their collective success

and accomplish great things; the possibilities are endless.

Your journey of discovery and life-long learning continues. Just as you had the support of your family, classmates, professors and numerous others to help you achieve success as a student, you now have the support of your U of S alumni family to help you along your journey of learning and discovery in the future. Please continue to keep in touch, and share your milestones with us.

Congratulations class of 2013, and welcome to the U of S alumni family.

Heather Magotiaux
Vice-President, University Advancement

VERA PEZER

Dr. Pezer has a long association with the University of Saskatchewan, earning her undergraduate and graduate degrees from the university and serving as associate vice-president (Student Affairs and Services) from 1991–2001. Dr. Pezer first joined the university in 1966 in Student Counselling Services and as a part-time instructor in the Department of Psychology. She would later become director of student counselling, an assistant professor of psychology and assistant dean, College of Arts and Science. Under her leadership, student retention and academic success were enhanced and the university's first offices dedicated to student emergency financial assistance, disability services for students and aboriginal student support programs established.

She has held volunteer and leadership roles with the Saskatoon Board of Police Commissioners, Saskatchewan Centennial Gala, Hope Cancer Race for Recovery, Saskatoon Housing Coalition, Persephone Theatre and the YWCA. Dr. Pezer

has also contributed widely to professional and amateur sports organizations. She is a member and current chair of the 1989 Jeux Canada Games Foundation, director of the 1991 Scott Tournament of Hearts and ceremonies chair of the 1989 Brier. As a sport psychologist, Dr. Pezer served as an adviser and trainer to Canadian curling teams in two Olympic Games.

An accomplished athlete in her own right, Dr. Pezer is a four-time Canadian ladies' curling champion, a Canadian softball champion, and two-time member of the Saskatchewan senior women's golf team. She has received a place of honour in the Saskatoon and Saskatchewan Sports Halls of Fame and in the Canadian Curling Hall of Fame. In 2003, Dr. Pezer completed her first book, *The Stone Age: A Social History of Curling in the Prairies*. She has recently published her second, titled *Smart Curling*. Dr. Pezer was honoured with a Saskatchewan Centennial Medal in 2006, and in 2002, received the University of Saskatchewan Alumni Award of Achievement.

Our ceremony

The convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of convocation are the election of representatives to university governing bodies and the admission of candidates to degrees. The chancellor, appointed by senate as the chair of convocation, is the highest official and spokesperson of the university.

The convocation ceremony marks the transition from the role of student to the

holder of a degree with its accompanying rights and privileges.

The ceremony, solemnized in the presence of the university community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the president's statement to the graduands, the secretary's petition and the chancellor's consent for their admission; followed by individual presentation by a university orator and admission by the chancellor to the degrees to which they are entitled.

As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate's head.

THE WORD "CONVOCATION"
ARISES FROM THE LATIN *CUM*
MEANING TOGETHER, AND
VOCARE MEANING TO CALL.

“I consent to admit you to the degrees
and certificates to which you are entitled.”

ENTRANCE

Graduands in their academic dress march in procession into the ceremony in the following order: graduands in the order in which their degrees are to be conferred; faculty; board of governors; senate; guests of honour; the president; the chancellor; the lieutenant governor. When the members of convocation reach their places they remain standing during the Vice-Regal Salute, the singing of “O Canada” and the invocation.

ORDER OF THE CEREMONY

The first business is the conferring of honorary degrees, followed by convocation address, president’s statement to the graduands, the conferring of degrees and the presentation of awards. The meeting is closed by the chancellor rising and leading the procession in the reverse order out of the hall.

DEGREE CEREMONY

The ceremony comprises the petition, the admission and the presentation.

The Petition

The university secretary on behalf of all the candidates, addresses the chancellor and senate in these words:

“Eminent Chancellor, Madame President, members of the University Senate and Board, I present to you the petition of the Council of this University that the candidates to be named, having fulfilled all the requirements of the bylaws, may, with your permission, be admitted to the degrees and certificates to which they are entitled.”

The Admission

The chancellor then addresses the candidates in these words:

“By virtue of the authority vested in me by the legislature of this province, and with the consent of the council of this university, I consent to admit you to the degrees and certificates to which you are entitled and to invest you with all the powers, rights and privileges pertaining thereto.”

The Presentation

The university orator approaches the chancellor from the left and presents the candidates with these words:

“Eminent Chancellor, on behalf of the faculty of _____, I present to you these scholars and ask that you will confer on them the degree of _____.”

Each candidate then comes forward and the degree hood is placed on his or her shoulders. As the orator speaks the candidate’s name in full, the candidate moves forward in front of the chancellor. Then the chancellor says, *“I admit you”*. Hereupon the candidate passes to the chancellor’s right, is greeted by the dean of the faculty, or designate, and receives the degree parchment.

DEGREES IN ABSENTIA

In such cases, the university secretary says:

“Eminent Chancellor, in the name of the faculties, I ask you to grant the degrees and certificates, in absentia, to those students who have met the requirements to graduate, but were not able to be present today.”

THE CONVOCATION CEREMONY

ACADEMIC DRESS

Academic dress lends an element of colourful pageantry to the convocation proceedings. This traditional clothing—worn on a daily basis at universities in earlier times—is now more commonly reserved for ceremonial functions.

At the University of Saskatchewan, the following academic dress is adopted to be worn upon all appropriate occasions: The gown resembles a long cape with full sleeve cut to elbow and terminating in a point for the bachelor's degree; with long sleeve and a semi-circular cut at the bottom for the master's degree; and with round open sleeves for the doctor's degree. The material is black broadcloth for the bachelor's, master's and doctor's degrees. A new doctoral gown introduced in 2011 incorporates green and gold on the front and sleeve panels.

The hoods for the bachelor's and master's degrees are of black broadcloth. The master's and doctor's hoods have a lining and the bachelor's an edging (and in some cases, a lining) of a color distinctive of the character of the degree.

Vice-Chancellor (President) – same design as the chancellor's gown and trencher. The vice-chancellor's gown is green with silver braid on the facing instead of gold and a black silk velvet trencher with silver button and tassel.

New voices ring out at convocation ceremonies

Volunteer orators step up to the microphone for the first time at the University of Saskatchewan

Thirteen orators have been selected through an audition process to read out the names of degree recipients as they receive their parchments. The recruits hail from all parts of campus and perform a wide range of roles throughout the U of S, but all are gifted with resonant voices, fine pronunciation skills and share a great attention to detail.

Though new to the University of Saskatchewan, the post of university orator can be traced back hundreds of years to universities in the United Kingdom such as Oxford and Cambridge. Traditionally, orators served as the official voice of the university, composing letters, giving speeches in Latin at ceremonial occasions and presenting candidates for honorary degrees.

Welcome University of Saskatchewan orators!

Dr. Alec Aitken
B.Sc., M.Sc., Ph.D.

Dr. Aitken is a Professor and Head, Department of Geography and Planning in the College of Arts and Science. He has been at the University for 21 years and was a Master Teacher Award recipient in 2003.

Celebrate 75 Years with **US!**

2013-2014 is an extremely exciting time in the College of Nursing as we celebrate our 75th anniversary. To mark this special occasion, we have events planned across the province throughout 2013 and 2014, including a 75th Anniversary Gala in Saskatoon on May 24, 2014.

Not only is this a time to celebrate the college, it's also an opportunity to recognize our alumni. At the anniversary gala in May, we will be announcing our 75 Alumni of Influence Awards and in celebration of the 75th anniversary, the College of Nursing is forming an official College of Nursing Alumni Association.

We look forward to celebrating this exciting time with staff, faculty, students, alumni and friends of the college.

RON GRAHAM

Ron Graham graduated in 1962 with a Bachelor of Science degree in Civil Engineering at the University of Saskatchewan. That same year he joined the family construction business, P.W. Graham & Sons Ltd. in Moose Jaw, Saskatchewan. Over the next twenty years, the company grew to nine offices in Western Canada and the USA.

In 1978, Mr. Graham was appointed President and CEO of the company and in 1985, after nearly sixty years of family ownership, employees joined forces with the Graham family to form

Graham Construction and Engineering (1985) Ltd.

Mr. Graham was appointed Chair in 1990 and under his leadership the company has earned numerous awards and recognition.

Today, Graham Group Ltd. is an industry-leading, employee-owned family of companies offering general contracting, project management, design-build and construction services from offices across Canada and the United States.

Graham Group Ltd. earned membership in Canada's 50 Best Managed Companies Platinum Club, one of this country's most elite business designations.

Mr. Graham has held senior positions in a number of associations: the Saskatchewan Construction Association Labour Relations President, 1969-1970; the Saskatchewan Construction Association President, 1970; the Canadian Construction Association Vice-President, 1978; Past President- Moose Jaw Construction Association; Past Chairman of the Moose Jaw Kinsmen International Band Festival; Member of the Professional Engineering

Association of Saskatchewan and Alberta; World Presidents Organization, 2011; and CEO, Chief Executive Organization, 2011.

The College of Engineering was honoured to have Mr. Graham as the 2012 C.J. Mackenzie Distinguished Graduate Lecturer and recently inducted him to the College of Engineering Alumni Wall of Distinction.

Mr. Graham's successful career and long time involvement and support of the University of Saskatchewan make him very worthy of receiving an honorary degree. Over the last three decades he has supported numerous athletic programs, scholarships, and many other areas across the university. Mr. Graham's support has been instrumental in the development and growth of the Centre for Communication Studies in the College of Engineering as well as the Huskie Clubhouse Expansion. Whether he is financially supporting the university, or attending sporting events as a spectator, Ron Graham has demonstrated a life-long interest and commitment to the success of the University of Saskatchewan—an institution he is very proud to call his alma mater.

OTTO LANG

The Honourable Otto Lang has made significant contributions to the legal, social, political and business development of our country.

Dr. Lang was born in Saskatchewan, was a Rhodes Scholar, and at the age of 29, was appointed the Dean of the Law School at the University of Saskatchewan. Dr. Lang brought with him a vision of a significant law school located in western Canada. Despite being the then youngest dean in North America, he attracted an outstanding faculty and taught some of Canada's most distinguished lawyers, politicians, and business people. He has, through his former students, had a great influence on life in Canada.

Otto Lang was elected to the Canadian House of Commons in 1968. As the Member of Parliament for Saskatoon-Humboldt, he held various

portfolios including: Minister Responsible for the Canadian Wheat Board, Minister of Manpower and Immigration, Minister of Justice and Attorney General of Canada and Minister of Transport. Dr. Lang worked tirelessly and honestly to make many significant structural, policy and legislative changes during his time as a Federal Cabinet Minister.

Following his leaving politics in 1979, he served as Executive Vice-President of Pioneer Grain Co. Ltd., Chairman of the Transport Institute at the University of Manitoba and as President, CEO of Centra Gas Manitoba Inc.

Dr. Lang continues to serve as a volunteer in his community, where his vision and drive shapes the lives of Canadians. In 1999, he was made an Officer of the Order of Canada.

FREDERICK JAMES CARMICHAEL

Fred Carmichael is a businessman, commercial pilot, political leader and Gwich'in Elder who exemplifies the spirit of Aboriginal Northerners.

Born in Aklavik, Northwest Territories, Mr. Carmichael's father was a Trapper who was the first elected Member to the Northwest Territories Council. The Council held meetings in Ottawa at the time, and evolved today into the Legislative Assembly of the Government of the Northwest Territories. Mr. Carmichael's mother came from a long line of Gwich'in Chiefs.

He obtained his private pilot's licence in 1955

and in 1958, Mr. Carmichael was the first Aboriginal pilot in the Canadian north to acquire a commercial pilot's licence. He started his first business, Reindeer Air Service, in the 1960s with a single-engine, wooden prop Stinson aircraft and a "Specialty Licence" to survey the reindeer herds located in the small village of Reindeer Station, on the Mackenzie River, 80 kilometres south of the Arctic Ocean. He started Western Arctic Air Ltd. in the early 1980s. In the 1990s, he founded Western Arctic Nature Tours and worked with local tourism operators to develop and deliver tour packages. Throughout his years in aviation, Mr. Carmichael supported the training of successful local pilots, aircraft engineers, mechanics, flight attendants and dispatchers. As an adventurous bush-pilot, Mr. Carmichael operated many successful rescue missions and still holds a commercial pilot's licence after almost 60 years of accident-free flying.

From 2000 to 2008, Mr. Carmichael served as president of the Gwich'in Tribal Council and CEO of the Gwich'in Development Corporation. When he decided not to run for re-election in 2008, his business associates asked what type of gift he would like as a token of appreciation for his work with them. Mr. Carmichael asked that a scholarship fund be set up for adult students in the region who are returning to school to better their education. Each year, the "Friends of Fred

Carmichael Scholarship" continues to support these students.

Mr. Carmichael became a director of the Aboriginal Pipeline Group in 2001 and chair in 2002, a role he continues to hold today. He is dedicated to his goal of self-sufficiency for the Aboriginal people, through building an economic base for northern communities.

He is past President of the Métis Association and sat as a member of the Inuvik Town Council. He was a founding member of the Inuvik Aviation Council and Northern Air Transport Association. Mr. Carmichael has been recognized by many groups, receiving the Métis "Order of the Sash", the Queen's Jubilee Medal, a National Aboriginal Achievement Award, the Order of Canada and is a Laureate of the Canadian Council of Aboriginal Business. In 1998, his home community rallied to have the local airport renamed and it has now been officially named the "Aklavik Freddie Carmichael Airport" by Transport Canada.

Although he regrets not having had the opportunity to complete a formal education, Mr. Carmichael continues to be passionate about encouraging young people to continue theirs. He has been described as a superb mentor, and an excellent and patient teacher.

HONORARY DOCTOR OF SCIENCE

GORDON KELLER

Dr. Keller is a world-renowned stem cell scientist and leader in the burgeoning field of regenerative medicine that focuses on replacing or repairing tissues damaged by disease, accident or old age.

A Saskatchewan native and graduate of the University of Saskatchewan, Dr. Keller serves as director of the McEwen Centre for Regenerative Medicine at the University Health Network in Toronto, a position he has held since January 2007.

Dr. Keller holds the Canada Research Chair in Embryonic Stem Cell Biology, is a Senior Scientist at the Ontario Cancer Institute and a Professor in the Department of Medical Biophysics at the University of Toronto. His area of research focuses on understanding how a very unique type of stem cell known as the pluripotent stem

cell (both embryonic and induced pluripotent stem cells) gives rise to specialized cell types and tissues in a petri dish. Over the past five years, Dr. Keller's team has successfully developed strategies to produce heart cells, blood cells, pancreatic cells, liver cells and cartilage producing cells from pluripotent stem cells. These advances represent an important first step in reaching the goal of developing novel cell-based therapies for treatment of a wide range of debilitating diseases including heart disease, diabetes, liver disease, blood cell diseases and osteoarthritis.

Prior to his return to Canada in 2007, Dr. Keller spent sixteen years in the USA, the first nine at the National Jewish Medical and Research Center in Denver and the last seven at the Mount Sinai School of Medicine in New York.

LAURA KENNEDY

Laura Kennedy is the University of Saskatchewan's associate vice-president financial services and controller, but as one President's Service Award nominator pointed out, "those who think that financial managers are all sharp pencils and tinted eye shades haven't met Laura."

One of two 2013 recipients of the President's Service Award, Ms. Kennedy is well known for personal and professional commitment to the

university community. Starting as budget director in early 1993 and continuing after assuming her current position in July 1995, she has led multiple initiatives within the Financial Services Division (FSD). Many have been to accommodate changes in financial reporting, others to enhance the university's financial practices. And she has done it all while managing a staff of about 90 in the day-to-day financial activities so vital to a modern public organization.

Ms. Kennedy is held in high esteem for the expertise and professionalism she brings to her work. She has what many describe as a quiet, effective leadership style. Through consultation, she is able to understand the many perspectives that exist on campus, and she never presents a problem without providing a couple of potential solutions.

Her role as associate vice-president has also created opportunities for her to teach people what it means to be financially responsible. Whether she is working with members of the university's Board of Governors, college representatives or her own staff, Ms. Kennedy

patiently educates about what needs to be done, but also about why it needs to be done.

Ms. Kennedy's exemplary and tireless service (people often note she is the first to arrive at the office in the morning, and the last to leave at night) has even garnered her national recognition. Her work as chair of the Canadian Association of University Business Officers' finance committee earned her that organization's Outstanding Contribution Award in 2009.

Within the division, Ms. Kennedy always encourages staff to provide feedback and suggestions, and is quick to recognize and celebrate individual successes. She started a division newsletter for information sharing, implemented long-service staff awards and encourages staff to tour campus to get a feel for the challenges of the people they serve.

A consummate professional who willingly tackles every challenge, and does it with good humour and smile, Laura Kennedy has demonstrated that she is a very worthy recipient of the President's Service Award.

LOU HAMMOND KETILSON

Dr. Lou Hammond Ketilson has been a leading scholar, researcher, advocate and mentor for co-operative businesses and organizations for much of her career. Her skills in reaching out to and building strong relationships with a diverse range of individuals, groups, organizations and institutions around the world have not only made for a successful career, they have helped build many successful co-operatives and enhanced the reputation of the University of Saskatchewan.

Dr. Ketilson is director of the Centre for the Study of Co-operatives at the U of S and holds

an academic position in the Johnson-Shoyama Graduate School of Public Policy. She was previously a tenured faculty member in the Department of Management and Marketing at the Edwards School of Business's and is a former associate dean of graduate programs with the college. She also chairs the International Co-operative Alliance Committee on Co-operative Research and is a past-president of the Administrative Sciences Association of Canada.

Engaged in community-based scholarship her entire career, Dr. Ketilson is well-equipped to help the centre fulfill its mandate of community outreach and engagement. She is recognized nationally and internationally for her research and publications on financial co-operatives, Aboriginal co-operative development, gender diversity and leadership in co-operatives. Her work has a strong policy focus, specifically the role that co-operatives play in achieving sustainable economic and social development, and is a frequently invited speaker or workshop leader for provincial and federal policy events.

Perhaps her greatest asset is her ability to integrate academic theory with practical application to benefit the people with whom she works.

Dr. Ketilson has partnered with many First Nations groups to research the feasibility of using co-operative models to finance Aboriginal enterprise development. She created a toolkit specifically for Aboriginal co-op development that helps promote ongoing socio-economic growth.

Taking a leadership role in a major social economy research project, Linking Learning, Leveraging: Social Enterprises, Knowledge Economies and Sustainable Communities, Dr. Ketilson worked with 25 academics from 13 universities and 53 community partners from four countries—including four Canadian provinces—to conduct 90 community-based, participatory research projects. The resulting exhibition was featured at the Diefenbaker Centre and was subsequently taken to several other communities across Canada.

Dr. Ketilson's willingness to share her time and expertise has garnered much praise and recognition from her colleagues, has enhanced the University of Saskatchewan's reputation, and makes her a very deserving recipient of the Award for Distinction in Community-Engaged Teaching and Scholarship.

BILL WAISER

William (Bill) Waiser has successfully melded scholarship and story-telling as an historian. He has earned a reputation as an engaging and entertaining speaker who brings historical stories and characters to life, making our shared past accessible and understandable.

Dr. Waiser is a professor of history and A.S. Morton Distinguished Research Chair with the University of Saskatchewan's College of Arts and Science. He joined the U of S in 1984 and has served as head of the Department of History and as graduate

director. Prior to this appointment, he was Yukon historian for the Canadian Parks Service.

Dr. Waiser has published over a dozen books. His most recent, *Tommy's Team: The People behind the Douglas Years* was short-listed for the Canadian Authors Association best book in Canadian History for 2011. Arguably his most popular book is his centennial history of the province, *Saskatchewan: A New History*, named by the *Globe and Mail* as one of the best books of 2005. Dr. Waiser presented a pre-publication copy of the book personally to Queen Elizabeth II in a private ceremony during her visit to Saskatoon.

His captivating way of telling a story is not only great to read, it makes Dr. Waiser a welcome and regular guest on radio and television. From 1999-2001, he was researcher and on-camera host of an award winning CBC Saskatchewan Television weekly production featuring five-minute segments examining little-known pieces of the province's history.

In 2005, Saskatchewan's centennial year, Dr. Waiser had a weekly radio program, *Saskatchewan Centennial Stories*, that he converted to newspaper

columns for use by the province's weekly newspapers.

Dr. Waiser also takes the stories to the people. He has given more than 150 talks—focusing primarily on topics specific to Saskatchewan or Western Canada—to schools, libraries, conventions, conferences, clubs and organizations throughout the province, across Canada and internationally. He has visited the hamlet of Glidden, population 23, to support fundraising efforts, and recently spoke between the beef-on-a-bun dinner and talent show in another community.

Perhaps more significant than all his books and talks is the work he did to lobby the Federal Government to open the 1906 census data to the public, paving the way for historians, academics, anthropologists, genealogists and the general public to have access to documents containing yet-to-be-told stories.

Dr. Waiser's work to research, reveal and share the stories of the people of Saskatchewan make him a deserving recipient for the University of Saskatchewan's Award for Distinction in Outreach and Public Service.

JAMES B. WALDRAM

The Distinguished Researcher Award recognizes a faculty member's contributions to scholarship through the creation, expansion and critique of knowledge. James Waldram, professor in the Departments of Psychology and Archaeology and Anthropology, is the 2013 recipient.

Trained in medical and psychological anthropology, Dr. Waldram is recognized internationally for his community-based research and has established an extraordinary

research program that advances our knowledge of Aboriginal health and healing, cultural epidemiology, environmental risks and rights, and institutional ethnography. His research has included pioneering ethnographic studies of therapeutic programs for criminal offenders, leading to the publication of *The Way of the Pipe: Aboriginal Spirituality and Symbolic Healing in Canadian Prisons* (1997), and more recently, *Hound Pound Narrative: Sexual Offender Habilitation and the Anthropology of Therapeutic Intervention* (2012). His interest in understanding the concept of "healing" in a cultural context led him to Belize, where he is undertaking a project with Q'éqchi Maya healers studying the structure and forms of their healing knowledge. Dr. Waldram maintains an interest in the impacts of environmental hazards on Aboriginal communities and is currently completing the study of a northern Dene community that was evacuated due to wildfire. His fieldwork covers more than a dozen Aboriginal communities in Canada, as well as complex institutional communities like health clinics and prisons. Among his many important works, *As Long as the River Runs* (1988) investigates the politics and impact of hydroelectric development on First Nations communities in

Saskatchewan and Manitoba and earned the 1989 Margaret McWilliams Medal from the Manitoba Historical Society. His work on Aboriginal health and healing has resulted in many publications, including *Aboriginal Health in Canada* (1995/2006), the first and most comprehensive volume on the topic used in classrooms in Canada, the United States and Australia, and *Revenge of the Windigo* (2004), a highly acclaimed account of Aboriginal mental health policies and treatment protocols.

Dr. Waldram is a prolific researcher and author who is frequently invited to speak all over the world. His contributions have been recognized on several occasions. In 2005 he was named a Champion of Mental Health – Aboriginal, by the Canadian Alliance on Mental Illness and Mental Health, and most recently, in 2009, he received the Weaver-Tremblay Award from the Canadian Anthropology Society. He has been a Fellow of the Society for Applied Anthropology since 1989.

Dr. Waldram joined the U of S after earning his Ph.D. in Medical Anthropology from the University of Connecticut in 1983.

NORMAN SHEEHAN

Norman Sheehan is an associate professor of accounting and a Grandey Leadership Scholar in the Edwards School of Business. He has taught in the school's undergraduate Bachelor of Commerce, Master of Professional Accounting, Master of Business Administration, special case Ph.D., and executive education programs. Throughout these programs, students credit Dr. Sheehan for creating an environment where they want to share their ideas and learn from one

another. They regularly comment on the enduring impact of Dr. Sheehan's teaching. One student, now a partner in an international accounting firm, notes that "I still use Norman's teaching in my career on a daily basis, which is a testament to the profound impact that his teaching has had." The CEO of a local organization remarks that "in a 60-minute session, Norman was able to communicate a complex strategic planning method to a disparate group of leaders in a way that engaged all of us and made the concepts real, compelling, and within all of our reach. The session changed the way our agency approached strategic planning in a very positive way."

Dr. Sheehan's methods are shaped by his early experiences teaching in Norway, where he struggled to teach in a language he himself was still learning. His Norwegian, although adequate for talking at home about the weather, could not support delivering four-hour lectures. So rather than lecture he started using experiential learning methods. At that time, experiential learning was new to Dr. Sheehan but he saw great value in it. And to this day his students have been learning through hands-on activities that range from making and selling paper airplanes to analyzing

business cases and creating personal codes of conduct. Dr. Sheehan is known around the world for this work because he generously shares the instructional materials he develops. The volume of his education-related publications places him fifth among all active accounting faculty in the world. His research articles have been downloaded over 16,000 times. His work also is of the highest quality, having earned prizes in national and international competitions on ten separate occasions. Peers in Australia, New Zealand, Europe, the United States, and throughout Canada wrote to say that Dr. Sheehan's writings were often their own students' favorites. One professor proposed that "if Norman doesn't win the Master Teacher Award at your school, perhaps he should be nominated at ours!"

Throughout all his work, Dr. Sheehan has embodied the characteristics of a Master Teacher. He thoughtfully defines learning outcomes based on developments in theory and practice, he creates effective learning environments using resources he has developed, and he shares these innovations to benefit students, instructors, and practitioners around the world.

The Governor General's Academic Medals are awarded to the undergraduate student and graduate student with the highest academic standing.

Gold Medal

JONATHAN ALEX CLAPPERTON

Jonathan Clapperton was born in Prince George, British Columbia, in 1981. He received his BA Honours degree in History from the University of Northern British Columbia in 2003. In 2004 he began graduate studies in History at the University of Victoria under the supervision of Dr. John Lutz. Following the completion of his MA, Jonathan enrolled in the Doctoral program at the University of Saskatchewan in 2006 to work with Dr. Keith Thor Carlson in History.

Jonathan's doctoral research focused on how Aboriginal peoples in Western North America have engaged with, and have been affected by, environmentalism and the environmental movement since the late nineteenth century. Overall, his work serves to reveal how constructions of Aboriginal identity – especially the popularized “Ecological Indian” – along with environmentalist initiatives such as parks have both empowered

and disempowered Aboriginal peoples. He hopes that this research will lead to better understanding between Native and non-Native society concerning environmental protection, and to greater control for Aboriginal peoples in managing the environment within their traditional territories.

During his Ph.D. research, Jonathan was the recipient of several awards and scholarships. These include a SSHRC Canada Graduate Scholarship, a CRC in Native-Newcomer Relations bursary, a Network in Canadian History and Environment (NiCHE) “Call for Projects” knowledge mobilization/ dissemination grant, and numerous institutional travel and research grants.

Jonathan was awarded the prestigious Grant Notley Postdoctoral Fellowship at the University of Alberta in 2012, where he continues to study the ongoing history of Aboriginal peoples and the environmental movement.

Lord Dufferin, Canada's third Governor General after Confederation, created these academic medals in 1873 to encourage academic excellence across the nation. Pierre Trudeau, Tommy Douglas, Kim Campbell, Robert Bourassa, Robert Stanfield and Gabrielle Roy are just some of the more than 50 000 people who have received the Governor General's Academic Medal.

Gold Medal

DAVID RAYMOND FLATLA

David Flatla was born in 1978 in Tilley, Alberta. After attending Tilley School, David began studying ancient history at the University of Lethbridge in 1997, and graduated with a Bachelor of Arts with Distinction in 2001. In 2003, David started a Bachelor of Science in Computer Science at the University of Saskatchewan, graduating with high honours in 2006 as class valedictorian. Under the supervision of Dr. Carl Gutwin at the University of Saskatchewan, David began his graduate studies research exploring colour vision deficiency (CVD - commonly called colour blindness) and the related challenges presented by colour-coded information visualizations and user interfaces. Successfully defending his Master of Science in 2008, David received the Best Graduate Student Award from the Department of Computer Science, and began his Ph.D. in the same department in 2009, also under Dr. Gutwin.

David's doctoral research focussed on modelling the unique situation-specific colour

differentiation abilities of individual computer users. Using the resulting model, David then developed a technique for modifying the colours shown on computer displays to make them more differentiable for anyone having problems telling the colours apart. Some applications of this technique include making colour-coded charts accessible for people with inherited CVD, as well as improving the readability of text on mobile phones in bright sunlight. David later extended his doctoral research to enable personalized simulations of CVD that allow people with typical colour vision to see the world through the eyes of their friend or relative with CVD. Most recently, David has developed a technique for improving the accessibility of website colours without destroying the subjective mood or tone of the original website colour scheme.

During his Ph.D., David has been the recipient of a number of awards, including an NSERC Alexander Graham Bell Canada Graduate Scholarship, the University of Saskatchewan

Dean's Scholarship, and the Saskatchewan Innovation and Opportunity Scholarship. In addition, David's research has resulted in eight top-tier publications, three of which have received Best Paper Awards, as well as eight additional publications.

Also while a graduate student at the University of Saskatchewan, David accepted four sessional lecturer appointments, resulting in a nomination for the Department of Computer Science Instructor of the Year Award. David continues mentoring several students that he first met during these teaching appointments.

This summer, David will be moving to Dundee, Scotland to take up a post as a Dundee Fellow at the University of Dundee. In this permanent research faculty position, David will continue his work on colour perception, but will also explore new applications of the modelling approach developed during his Ph.D..

Silver Medal

MEGAN ELIZABETH BRUCKS

Megan Elizabeth Brucks was born in Meadow Lake, Saskatchewan and was raised on a nearby acreage where she lived with her parents and three younger siblings. Graduating from Carpenter High School in 2006, Megan recognized a love of learning that later prompted her to pursue a Bachelor of Education degree at the University of Saskatchewan.

Ms. Brucks' enthusiasm for learning was encouraged while attending the University of Saskatchewan. During her tenure at the U of S, Megan received several awards and recognitions including the Saskatchewan Teachers' Federation Scholarship, the University of Saskatchewan Scholarship, the Centennial Fund Scholarship, the Dean's Honour Roll, membership in Saskatchewan Teachers of English Language Arts, and an invitation to join the Golden Key Honour Society.

Megan's extra-curricular interests include painting, playing the piano, studying languages, and volunteering in community-based outreach organizations. Ms. Brucks' future goals involve pursuing a career in the field of education, working with children and youth, and raising a family of her own.

Megan graduates today with a Bachelor of Education Degree, with a major in English and a minor in Art.

Silver Medal

JAMIE LYNN WILLEMS

The Governor General's Silver Medal recipient for 2013 is Ms. Jamie Willems. Ms. Willems is graduating with a Bachelor of Science Four-Year Degree, with Great Distinction in Food Science.

Jaime has been the recipient of many scholarships and awards, including the highly prestigious Alexander Graham Bell Scholarship from NSERC, and two other NSERC-USRA awards.

Jaime has also been involved in several different research projects within the Department of Food and Bioproduct Services and the Department of Chemistry. She placed second in a Chemistry Research Awards Day Poster Competition and has authored a scientific paper in the prestigious Journal of Agriculture and Food Chemistry.

Jaime is highly regarded among the Food Science Department with the highest academic average within the Food Science program and glowing remarks from her professors.

Ms. Willems enjoys the outdoors especially hiking and biking and loves reading. She has also been involved with helping raise funds for charities and non-profit organizations such as the Mennonite Central Committee and the Congo Mercy Home.

In the coming years, Jaime plans to obtain a Ph.D. in Food Science with the goal of leading research in either academia or industry.

MASTER OF SCIENCE

Rodrigo Ivan Albornoz

Argentina

Animal Science - Thesis: Short-Term Feed Restriction in Cattle: Mitigating Negative Effects by Altering the Forage-to-Concentrate Ratio of the Diet

Supervisor: Gregory Penner

Nicole Alexandra Avramenko

Strathmore, Alberta

Food Science - Thesis: Encapsulation of Flaxseed Oil Within Modified Lentil Protein Isolate Matrices

Co-Supervisor: Nicholas Low

Co-Supervisor: Michael Nickerson

Jennifer Lynn Bentz

Saskatoon

Soil Science - Thesis: Plant Growth, Metal Uptake, and Soil Interactions of the Heavy Metal Hyperaccumulator *Pelargonium* sp. 'Frensham' and the Heavy Metal Excluders *Silene vulgaris* and *Agrostis capillaris* Grown in Smelter-Impacted Soils

Supervisor: Richard Farrell

Aaron Raymond Betts

United States of America

Soil Science - Thesis: Evaluating a Meat and Bone Meal Biochar Amendment for Immobilization of Zinc in a Smelter-Impacted Soil

Co-Supervisor: Richard Farrell

Co-Supervisor: John Peak

Christiane Chantal Marie Catellier

Indian Head

Plant Science - Thesis: Evaluating Threats and Management Practices for the Conservation of Hairy Prairie-Clover (*Dalea villosa* Nutt. (Spreng) var. *villosa*), a Rare Plant Species in Saskatchewan

Supervisor: Eric Lamb

AGRICULTURE AND BIORESOURCES AND ENGINEERING

Degrees, Diplomas and Certificates

Yan Chen

People's Republic of China

Applied Microbiology - Thesis: Molecular Analysis of Genes Involved in the Biosynthesis of Very Long Chain Polyunsaturated Fatty Acids (VLCPUFAs)

Supervisor: Xiao Qiu

Johanna Marlene Clancy

Martensville

Food Science - Thesis: Lubricant Quality and Oxidative Stability of *Brassica rapa* Oils

Supervisor: Martin Reaney

Caalen Lloyd Covey

Beechy

Agricultural Economics - Thesis: Regional Variety Trials: Reducing Information Asymmetries in the Western Canadian CWRS Wheat Industry

Supervisor: Richard Gray

Cheri Jane Dugal

Winnipeg, Manitoba

Animal Science - Thesis: Sex- and Age-Specific Resource Selection and Harvest Mortality of Elk: Balancing Disease Risks with Conservation Benefits in a Fragmented Agricultural Landscape

Supervisor: Ryan Brook

Marilyn Garcia Edrosolam

Philippines

Food Science - Thesis: Processing Strategies for Low-salt, Low-fat Bologna

Supervisor: Phyllis Shand

Michael James Fedoruk

Kamsack

Plant Science - Thesis: Linkage and Association Mapping of Seed Size and Shape in Lentil (*Lens culinaris* spp. *culinaris*)

Supervisor: Kirstin Bett

Liou Huang

Agricultural Economics - Thesis: Factors Affecting Consumers Preferences for Specialty Eggs in Canada

Co-Supervisor: Hayley Hessel

Co-Supervisor: Jing Zhang

Stuart Paul Johnston

Regina

Food Science - Thesis: Microencapsulation of *Bifidobacterium adolescentis* with Legume Protein Isolates Crosslinked with Genipin

Co-Supervisor: Nicholas Low

Co-Supervisor: Michael Nickerson

Yining Liu

People's Republic of China

Plant Science - Thesis: Study of Genetic Diversity of *Puccinellia nuttalliana* Populations Based on AFLP Molecular Markers and Phenotypic/Morphological Characters

Supervisor: Bruce Coulman

Stephanie Lynn Mayes

Newmarket, Ontario

Animal Science - Thesis: Cloacae and Surface Temperatures of Hybrid Converter Tom Turkeys Exposed to 2 Different Temperature Regimes During the First 12 Weeks of Growth

Supervisor: Trever Crowe

Jenalee Marny Mischkolz

Rockglen

Plant Science - Project: Selecting and Evaluating Complex Native Forage Mixtures for the Mixed Grass Prairie

Supervisor: Eric Lamb

Dean Lucas Lyonga Ngombe

Cameroon

Soil Science - Thesis: Biobeds: A New Approach To Pesticide Rinsate Disposal

Co-Supervisor: Joan Knight

Co-Supervisor: Thomas Wolf

Jieyu Nie

People's Republic of China

Food Science - Thesis: Synthesis and Evaluation of Polyol Based Biolubricants from Vegetable Oils

Supervisor: Martin Reaney

Clara Marisa Olivia

Indonesia

Food Science - Thesis: High Throughput Screening of Flax (*Linum usitatissimum*) L. Cyclolinopeptides

Supervisor: Martin Reaney

Morgan Lee Sather

Saskatoon

Soil Science - Thesis: Hydrogen Evolution from Field Pea Biological Nitrogen Fixation and the Effect on Nitrous Oxide Production in Soil

Co-Supervisor: Joan Knight

Co-Supervisor: Richard Farrell

Oyunchimeg Sharav

Mongolia

Food Science - Thesis: Antioxidant Activity of Cyclolinopeptides

Co-Supervisor: Martin Reaney

Co-Supervisor: Ramaswami Sammynaiken

Jason Charles Albert Wood

Saskatoon

Agricultural Economics - Thesis: An Agent-Based Simulation of Wheat Based Ethanol Plant Location Decisions for Saskatchewan

Supervisor: James Nolan

Ling Yang

Civil Engineering - Project: Influence of Forest Harvesting and Riparian Buffers upon Water Quality and Flow in Boreal Plain Headwater Streams
Supervisor: Gordon Putz

AGRICULTURE AND BIORESOURCES AND ENGINEERING

Degrees, Diplomas and Certificates

MASTER OF SCIENCE

Morteza Amini

Iran

Mechanical Engineering - Thesis: Stiffness of the Proximal Tibial Bone in Normal and Osteoarthritic Conditions: A Parametric Finite Element Simulation Study

Co-Supervisor: Walerian Szyszkowski
Co-Supervisor: James Johnston

Raed Bakhsh

Saudi Arabia

Electrical Engineering - Thesis: Damping Power System Oscillations Using a STATCOM and a Phase Imbalanced Hybrid Series Capacitive Compensation Scheme

Supervisor: Sherif Faried

Pranav Balakrishnan

India

Electrical Engineering - Thesis: Design and Implementation of Lifting based Daubechies Wavelet Transforms using Algebraic Integers

Supervisor: Khan Wahid

Wadena Delsie Burnett

Swift Current

Biomedical Engineering - Thesis: Quantitative Computed Tomography Analysis of Patellar Subchondral Bone Density

Supervisor: James Johnston

Jonathan Michael Churko

Yorkton

Electrical Engineering - Thesis: An Evaluation of the Suitability of Commercially Available Sensors for Use in a Virtual Reality Prosthetic Arm Motion Tracking Device

Co-Supervisor: Angelo Linassi
Co-Supervisor: Anh Dinh

Mousumi Das

Bangladesh

Electrical Engineering - Thesis: A Cost Shared Quantization Algorithms and its Implementation for Multi-standard Video Codecs

Supervisor: Khan Wahid

Ning Ding

People's Republic of China

Chemical Engineering - Thesis: Biomass Conversion to Hydrogen Using Supercritical Water

Co-Supervisor: Ajay Dalai
Co-Supervisor: Janusz Kozinski

Leisha Johanna D'souza

India

Chemical Engineering - Thesis: Co-Biodegradation of Linear and Cyclic Naphthenic Acids in a Circulating Packed Bed Bioreactor

Supervisor: Mehdi Nemati

Radia Mohamed Fekry Eldeeb

Egypt

Mechanical Engineering - Thesis: Simulating a Heat And Moisture Transfer Panel (HAMP) for Maintaining Space Humidity

Supervisor: Carey Simonson

Li Fan

People's Republic of China

Electrical Engineering - Thesis: 3D-IC Technology Characterization and Test Chip Design

Supervisor: Li Chen

Elizabeth George

India

Biological Engineering - Thesis: Investigation on the Processing of Wheat Bran and Condensed Distillers Solubles as Animal Feed

Supervisor: Lope Tabil

Bin Han

People's Republic of China

Biomedical Engineering - Thesis: On-Line Network Scheduling in Emergency Operation for Medical Resources with Single-Processor Single-Destination

Supervisor: Wen Zhang

Siyamak Javadian

Iran

Mechanical Engineering - Thesis: Electrolytic Deposition of MgO on Stainless Steel Substrate

Supervisor: Jerzy Szpunar

Carlos Arturo Mondragon

Mexico

Mechanical Engineering - Thesis: Dynamics and Motion of a Six Degree of Freedom Robot Manipulator

Supervisor: Reza Fotouhi

Derek Michael Mortensen

Saskatoon

Electrical Engineering - Thesis: Thickness Dependence of Electron Transport in Amorphous Selenium for use in Direct Conversion Flat Panel X-Ray Detectors

Supervisor: Safa Kasap

Rahul Vishwanath Mukherjee

India

Civil Engineering - Thesis: Consolidation and Arching Potential of Slurry Backfill

Supervisor: Moir Haug

Hiren Niranjanbhai Patel

India

Mechanical Engineering - Thesis: Contaminant Transfer in a Run-Around Membrane Energy Exchanger

Co-Supervisor: Carey Simonson
Co-Supervisor: Robert Besant

K M Mostafijur Rahman

Bangladesh

Mechanical Engineering - Thesis: In-situ 3D Imaging of Structure and Failure of Materials using Synchrotron Radiation Tomography

Supervisor: Jerzy Szpunar

Thamer Ramadanani

Saudi Arabia

Civil Engineering - Thesis: Effect of Silica Fume on Moisture Flow and the Advective- Dispersive Transport of Ionic Species in Unsaturated Concrete

Supervisor: Mohamed Boulfiza

Zakieh Ranjbar

Saskatoon

Chemical Engineering - Thesis: Ethanol Dehydration with Protein Extracted Canola Meal in a Pressure Swing Adsorption Process

Co-Supervisor: Ajay Dalai
Co-Supervisor: Catherine Hui Niu

Montserrat Alejandra Sekulovic Mac-Lean

Chile

Civil Engineering - Thesis: The Effects of Casting Position and Bar Shape on the Lap Length of Plain Steel Bars in Concrete

Supervisor: Lisa Feldman

Parikshit Sharma

Nepal

Electrical Engineering - Thesis: Fast Methods for Transient Stability Prediction in Large Power Systems and Wind Integrated Power Systems.

Supervisor: Ramakrishna Gokaraju

Phani Kiran Venkata Guru Sripada

Edmonton, Alberta

Chemical Engineering - Thesis: Comparative Tribological Property Evaluation of Trimethylolpropane-based Biolubricants Derived from Methyl Oleate and Canola Biodiesel

Supervisor: Ajay Dalai

Mehdi Tajallipour

Iran

Chemical Engineering - Thesis: Ethanol Dehydration in a Pressure Swing Adsorption Process Using Canola Meal

Co-Supervisor: Ajay Dalai
Co-Supervisor: Catherine Hui Niu

Lu Tian

People's Republic of China

Environmental Engineering - Thesis: Development of Spherical Ni-Co/MgAlO Bimetallic Catalyst for CO₂ Reforming of CH₄

Supervisor: Hui Wang

Simon Patrick Woods

Saskatoon

Mechanical Engineering - Thesis: Analysis and Simulation of Active Vibration Dampening Using Constrained Modal Space Optimal Control Approach

Supervisor: Walerian Szyszkowski

AGRICULTURE AND BIORESOURCES AND ENGINEERING

Degrees, Diplomas and Certificates

Ashraf Uz Zaman

Bangladesh

Mechanical Engineering - Thesis: Numerical Analysis of Turbulent Gas-Solid Flows in a Vertical Pipe Using the Eulerian Two-Fluid Model

Supervisor: Donald Bergstrom

Jiping Zhang

People's Republic of China

Electrical Engineering - Thesis: Power System Dynamic Enhancement Using Phase Imbalance Series Capacitive Compensation and Doubly fed Induction generator-Based Wind Farms

Co-Supervisor: Sherif Faried

Co-Supervisor: Li Chen

DOCTOR OF PHILOSOPHY

Asli Can Karaca

Turkey

Food Science - Thesis: Encapsulation of Flaxseed Oil using Plant Proteins

Co-Supervisor: Nicholas Low

Co-Supervisor: Michael Nickerson

Yu Cao

People's Republic of China

Mechanical Engineering - Thesis: Discrete Modeling and Sliding Mode Control of Piezoelectric Actuators

Supervisor: Xiongbiao Chen

Mengisteab Buru Chokie

Eritrea

Agricultural Economics - Thesis: Three Essays on Welfare and Development Economics: A Place Based Approach

Supervisor: Mark Partridge

Dayna Lee Dreger

Saskatoon

Animal Science - Thesis: Gene Interactions with Agouti Signaling Protein Produce Complex Pigmentation Phenotypes in the Domestic Dog

Supervisor: Sheila Schmutz

Laura Eastwood

Burlington, Ontario

Animal Science - Thesis: The Role of Omega-6 to Omega-3 Fatty Acid Ratios in Sow Diets on Reproduction, Piglet Performance, Fatty Acid Profiles, Lactational Fat Mobilization, and Piglet Health Post-Weaning

Supervisor: Angela Beaulieu

Nader Ebrahimi-Birang

Saskatoon

Civil Engineering - Thesis: The Hydraulic Behaviour of Sand and Silt Soils around the Residual-state Condition

Supervisor: Delwyn Fredlund

Joel Andrew Ens

Rosthern

Soil Science - Thesis: Short Rotation Culture of Willow Clones Across Canada: Growth Requirements and Implications for Soil Nutrients and Greenhouse Gas Balances

Co-Supervisor: Richard Farrell

Co-Supervisor: Nicolas Bélanger

Melanie Teresa Fauchoux

Saskatoon

Mechanical Engineering - Thesis: Design and Performance testing of a Novel Ceiling Panel for Simultaneous Heat and Moisture Transfer to Moderate Indoor Temperature and Relative Humidity

Co-Supervisor: Carey Simonson

Co-Supervisor: David Torvi

Houtian Ge

Canada

Agricultural Economics - Thesis: Analytic and Agent-Based Approaches: Mitigating Grain Handling Risks

Co-Supervisor: Richard Gray

Co-Supervisor: James Nolan

Darcy Troy Haluzan

Saskatoon

Electrical Engineering - Thesis: Electrostatically Actuated LIGA-MEMS Structures with High Aspect Ratio Beams for RF Applications and Mechanical Property Extraction

Supervisor: David Klymyshyn

Co-Supervisor: Sven Achenbach

Michelle Anne Hubbard

Victoria, British Columbia

Applied Microbiology - Thesis: Fungal Endophytes that Confer Heat and Drought Tolerance to Wheat

Co-Supervisor: James Germida

Co-Supervisor: Vladimir Vujanovic

Ka Po Catherine Hui

Saskatoon

Agricultural and Bioresource Engineering - Thesis: Development and Evaluation of an Actively Heated and Ventilated Poultry Transport Vehicle

Supervisor: Trever Crowe

Parul Jain

India

Plant Science - Thesis: A study of C - Repeat Binding Factors (CBF) Associated with Low Temperature Tolerance Locus in Winter Wheat

Supervisor: Ravindra Chibbar

Ravinder Pal Singh Pannu

Fort Vermilion, Alberta

Soil Science - Thesis: Quantifying Mercury Reduction Kinetics in Soils

Co-Supervisor: Steven Siciliano

Co-Supervisor: Nelson O'Driscoll

Renée Maxine Petri

Stony Plain, Alberta

Animal Science - Thesis: Impact of Dietary Composition on Rumen Bacteria Phylogenetics

Co-Supervisor: John McKinnon

Co-Supervisor: Timothy McAllister

Kyla Meagan Randall

Saskatoon

Animal Science - Thesis: Strategies to Increase Highly-Unsaturated n-3 Fatty Acids in Rainbow Trout Fed Vegetable Oils

Supervisor: Murray Drew

Jinhong Shi

People's Republic of China

Biomedical Engineering - Thesis: Protein Inference Based on Peptides Identified from Tandem Mass Spectra

Supervisor: Fangxiang Wu

Majid Soleimani Bagsorkhi

Saskatoon

Biological Engineering - Thesis: An Integrated Process for Xylitol Production in Free- and Immobilized-cell Bioconversions from Oat Hull Biomass

Supervisor: Lope Tabil

Gemunu Widyaratne

Saskatoon

Animal Science - Thesis: The Role of Protein and Amino Acid Nutrition in Controlling *Clostridium perfringens* in the Gastrointestinal Tract of Broiler Chickens

Supervisor: Murray Drew

Ying Zhu

People's Republic of China

Biomedical Engineering - Thesis: Bent Laue Crystals in Biomedical X-ray Imaging Applications

Co-Supervisor: Helen Nichol

Co-Supervisor: Leroy Chapman

MUSICAL INTERLUDE

Turn Back by Gustav Holst
The University Wind Orchestra conducted by Darrin Oehlerking

CONFERRING OF DEGREES

Petition for Admission

Elizabeth Williamson, University Secretary

Presentation of Graduands
to the Chancellor

Centre for Continuing and Distance Education presented by Mark Behrend

Arts and Science presented by Mark Behrend, Catherine Coghlin, Wendy Klingenberg
and Constance Rosowsky

Doctor of Philosophy presented by Constance Rosowsky

Presentation of Parchments
to the Graduands

Centre for Continuing and Distance Education presented by Executive Director Bob Cram

Arts and Science presented by Dean Peter Stoicheff, Associate Dean Gordon DesBrisay, Vice-Dean
Humanities and Fine Arts David Parkinson, Associate Dean of Aboriginal Affairs Kristina Bidwell and
Vice-Dean Social Sciences Linda McMullen

Doctor of Philosophy presented by Associate Dean Trever Crowe

Admission to Degrees *in absentia*

Vera Pezer, Chancellor

PRESENTATION OF AWARDS TO THE MOST DISTINGUISHED GRADUATES

CERTESL Distinguished Graduate Award presented to Anita Gail Gooding

Copland Prize in Humanities presented to Eleanor Katherine Coulter

Copland Prize in Social Science presented to Sasha Tatiana Hanson Pastran

University of Saskatchewan Film Society Prize presented to Gerard Russel Weber

Haslam Medal presented to Eleanor Katherine Coulter

Right Reverend Monsignor Myroslav Kolodey Memorial Academic Prize presented to Gerard Russel
Weber

Thomas Deis '38 Prize in Scholastic Philosophy in Honour of Dr. Basil Markle S.T.D presented to Ryan
Meneses

Fr. Henry Carr Award presented to Danielle M McArthur and Shawn Michael Parchoma

Governor General's Gold Medal presented to Jonathan Alex Clapperton and David Raymond Flatla

PRESENTATION OF AWARDS TO FACULTY AND STAFF

Award for Distinction in Outreach and Public Service presented to Bill Waiser

Distinguished Researcher Award presented to James B. Waldram
