Convocation Procession - University of Saskatchewan
Saskatoon Sask. May 4, 1928

GORDON BARNHART

Over the past few years you have spent a great amount of time studying, reading, writing and learning, all of which has brought you to this moment of graduation.

Soon you will receive your degree from the University of Saskatchewan and you will undoubtedly ask yourself: "So, what's next?"

Let me tell you quite honestly, I don't know what's next. I don't know if you will decide to pursue further education. And I don't know what your career path will look like. What I do know is that each of you is about to start a unique journey filled with opportunities, challenges and decisions.

I also know that we have prepared you to meet many of the challenges or prospects that lie ahead. That's our job—to provide an educational experience that puts you in a position to succeed. We have 143,000 alumni who can attest to that.

When you look at your degree, always remember that you are backed by an exceptional education. And always remember the people and experiences that were a part of your time at the U of S, because those memories are as valuable as the degree itself.

At this milestone in your life, I offer you my sincerest congratulations. I also encourage you to do two more things: thank your family, friends and members of the university community who supported you every step of the way, and celebrate with them too. You've earned it.

A handwritten signature in black ink, reading "Gordon Barnhart". The signature is fluid and cursive, with a small dot at the end.

Gordon Barnhart

Interim President and Vice-Chancellor
University of Saskatchewan

WAYNE EVANISKY

Congratulations to our graduates, and welcome to the University of Saskatchewan Alumni Association.

You have spent years in classrooms, laboratories and libraries. You have spent countless hours writing papers, agonizing over the right words. You fell asleep studying and woke in a panic because you thought you slept through a final exam. You have consumed more coffee or tea than you care to admit for fear of being judged. You sat in the Bowl—studying, reading, hanging out with friends or just watching people walk by.

You have shared all of these experiences, and so many more, as University of Saskatchewan students—not just with those classmates of yours here today, but with everyone who has walked campus since it was founded 108 years ago.

Today, you share one more experience—you become University of Saskatchewan alumni, joining our family of over 143,000

U of S graduates living in 115 countries.

No matter where life leads you, you will continue sharing the tradition of excellence with your fellow alumni. Your achievements, awards and accolades that are sure to come throughout your life and career will add to the great list of accomplishments made by U of S alumni. Your name will be added among the long list of researchers, inventors, business and community leaders, entrepreneurs, authors and artists—virtually every field imaginable—to whom future generations of U of S graduates will hold in high esteem.

Cherish all that you share as U of S alumni. Make a bright future for you and your community. Do so knowing you are a member of the U of S alumni family, and we are proud of you.

Wayne Evanisky, BComm '77
President, University of Saskatchewan
Alumni Association

BLAINE FAVEL

Blaine is the chancellor of the University of Saskatchewan as well as the executive chairman of One Earth Oil and Gas Inc. He has over 20 years of experience in First Nations business development as an advisor, entrepreneur and Chief. As an influential Plains Cree leader, he has made significant contributions to scholarship, education, public service and the Canadian public good. He was Chief of the Poundmaker Cree Nation and

served as Grand Chief of the Federation of Saskatchewan Indian Nations from 1994-98.

Blaine received his Bachelor of Education degree from the College of Education at the University of Saskatchewan, his law degree at Queen's University, and a master's degree in business administration from Harvard Business School. He resides in Calgary, Alberta, and is the proud father to five children.

Our ceremony

The convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of convocation are the election of representatives to university governing bodies and the admission of candidates to degrees. The chancellor, appointed by senate as the chair of convocation, is the highest official and spokesperson of the university.

The convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges.

The ceremony, solemnized in the presence of the university community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the president's statement to the graduands, the secretary's petition and the chancellor's consent for their admission; followed by individual presentation by a university orator and admission by the chancellor to the degrees to which they are entitled.

As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate's head.

ENTRANCE

Graduands in their academic dress march in procession into the ceremony in the following order: graduands in the order in which their degrees are to be conferred; faculty; board of governors; senate; guests of honour; the president; the chancellor; the lieutenant governor. When the members of convocation reach their places they remain standing during the Vice-Regal Salute, the singing of “O Canada” and the invocation.

ORDER OF THE CEREMONY

The first business is the conferring of honorary degrees, followed by convocation address, president’s statement to the graduands, the conferring of degrees and the presentation of awards. The meeting is closed by the chancellor rising and leading the procession in the reverse order out of the hall.

THE PETITION

The university secretary on behalf of all the candidates, addresses the chancellor and senate in the following words:

“Eminent Chancellor, Mr. President, members of the University Senate and Board, I present to you the petition of the Council of this University that the candidates to be named, having fulfilled all the requirements of the bylaws, may, with your permission, be admitted to the degrees and certificates to which they are entitled”.

THE ADMISSION

The chancellor then addresses the candidates:

“By virtue of the authority vested in me by the legislature of this province, and with the consent of the council of this university, I consent to admit you to the degrees and certificates to which you are entitled and to invest you with all the powers, rights and privileges pertaining thereto.”

THE PRESENTATION

The university orator approaches the chancellor from the left and presents the candidates:

“Eminent Chancellor, on behalf of the faculty of _____, I present to you these scholars and ask that you will confer on them the degree of _____.”

Each candidate then comes forward and the degree hood is placed on his or her shoulders. As the orator speaks the candidate’s name in full, the candidate moves forward in front of the chancellor. Then the chancellor says, *“I admit you”*. Hereupon the candidate passes to the chancellor’s right, is greeted by the dean of the faculty, or designate, and receives the degree parchment.

DEGREES IN ABSENTIA

In such cases, the university secretary says:

“Eminent Chancellor, in the name of the faculties, I ask you to grant the degrees and certificates, in absentia, to those students who have met the requirements to graduate, but were not able to be present today.”

ACADEMIC DRESS

Academic dress lends an element of colourful pageantry to the convocation proceedings. This traditional clothing—worn on a daily basis at universities in earlier times—is now reserved for ceremonial functions.

At the University of Saskatchewan, the following academic dress is adopted for all appropriate occasions: The gown resembles a long cape with full sleeve cut to elbow and terminating in a point for the bachelor's degree; with long sleeve and a semi-circular cut at the bottom for the master's degree; and with round open sleeves for the doctor's degree. The material is black broadcloth for the bachelor's, master's and doctor's degrees. The doctoral gown incorporates green and gold on the front and sleeve panels.

The hoods for the bachelor's and master's degrees are of black broadcloth. The master's and doctor's hoods have a lining and the bachelor's an edging (and in some cases, a lining) of a color distinctive of the character of the degree.

PhD hoods have a green satin lining with gold trim and the honorary degree hoods feature a white satin trim. A velvet Beefeater style hat with a green, gold and white tassel is also part of the doctoral dress.

ABORIGINAL CULTURE

At the U of S, we have one of the highest populations of Aboriginal students among Canadian post-secondary institutions. As indicated in our Third Integrated Plan, one of our most influential documents, it is important to us to include Indigenous knowledge and experience into our daily practices, curriculum and celebrations. At convocation, one of our most important celebrations, we display the Treaty No. 6 flag and sing an honour song.

TREATY FLAG

Represented on the Treaty No. 6 flag are the signatories of the treaty—the First Nations and the Queen’s representative. The signatories stand in front of a Treaty medal with the Union Jack in the background. First Nations Veterans adopted this flag and often bring it to powwows to show respect and to remind the younger generations that treaties were signed under this flag.

HONOUR SONG

These are special songs to demonstrate respect for an individual or group in recognition of their accomplishments such as a return from military service or other events. In some families, individuals have their own song, which is sung for them when they are being honoured.

University orators

Catherine R. Coghlin
MLT

Catherine has been on campus for 29 years and is a technician in the Veterinary Physiology Teaching Laboratory. She has also been a mentor for high school students in the Academic Placement Program with the Saskatoon Public School Board for 12 years.

Our 13 orators hail from all parts of campus and perform a wide range of roles throughout the university, but all are gifted with resonant voices, pronunciation skills and share a fine attention to detail.

The post of university orator can be traced back hundreds of years to universities in the United Kingdom such as Oxford and Cambridge. Traditionally orators served as the official voice of the university, composing letters, giving speeches in Latin at ceremonial occasions and presenting candidates for honorary degrees.

A special thank you to Carol Greyeyes for her assistance in the orator process.

Dr. Richard M. Devon
BSc, PhD

Dr. Devon is professor emeritus in the College of Medicine, having spent 33 years on campus and is also a member of the Cameco MS and Neuroscience Research Centre.

Carol Greyeyes
BFA, BEd, MFA

Carol Greyeyes has been teaching acting at the University of Saskatchewan for the last four years. In 2012, she was honoured as a recipient of the Alumni of Influence Award by the College of Arts and Science. Carol is currently an assistant professor in the department of drama.

Daryl Guenther
BA, BEd, MEd

Daryl has worked as an IT support centre analyst with the ICT service desk at the University of Saskatchewan for the past seven years.

Shirley Haines
BA, BEd, MEd. (Admin.)

Shirley is a past member of the senate and was a lecturer in the College of Education, Centre for School-based Experiences and department of curriculum studies for 11 years. She was also a teacher in the Saskatoon public school system, retiring in 1993.

THE CONVOCATION CEREMONY

Wendy Klingenberg

Wendy has been on campus for more than 10 years and is currently the assistant registrar in Student and Enrolment Services Division.

Richelle Lubin
BA

Richelle is a Coordinator, Student Life in the Residence Department and has been a part of the University of Saskatchewan community for two years.

Andrea Michael
BEd

Andrea has been at the University of Saskatchewan for one year and is the academic advisor for the Indian Teacher Education Program in the College of Education.

Blessing Mudauko

Blessing has been on campus for eight years and is currently the administrative assistant in the vice dean's office in the College of Arts and Science. She also works with the Communications, Development and Alumni Relations Office.

Dave Muench
BEd

Dave has been on campus for 18 years, and is the manager of student services in the Edwards School of Business.

Lea Pennock
BA, MA, PhD

Dr. Pennock retired in 2013 from the University of Saskatchewan, where she worked for 25 years in various academic and administrative positions, culminating in eight years as University Secretary.

Doreen Petrow

Doreen has been on campus for 11 years, and is the admissions officer in the College of Law.

Adeel Salman
MFA, MA

Adeel Salman is a graduate of Sarah Lawrence College, New York. He is a Fulbright scholar who has worked as a playwright, actor and educator for the past 12 years. His works have been produced in New York, London, Delhi and Lahore. He joins us in the department of drama as a sessional lecturer.

As the first
Métis and first
Aboriginal woman
to graduate from
the University of
Saskatchewan,
Annie Maude

THE FIRST MÉTIS AND FIRST ABORIGINAL
WOMAN TO GRADUATE FROM THE UNIVERSITY
OF SASKATCHEWAN DEMONSTRATED
A REMARKABLE COMMITMENT
BOTH AS A STUDENT AND ALUMNUS.

(Nan) McKay blazed a trail for the more than 2,000 Métis and First Nations students who study here today. Hers is a legacy of academic excellence, community service and volunteerism that has inspired subsequent generations of students and alumni.

McKay was born October 10, 1892, at Fort a la Corne, Northwest Territories, about 80 kilometres east of Prince Albert. She was the third of five children born to a prominent English Metis family. Her father, Angus McKay, worked for the Hudson's Bay Company (HBC) at the Fort a la Corne trading post. Her mother was Annie Maud Mary McKay (nee Fortescue).

Nan's early education took place at home, where she was tutored by a cousin. Later, she attended St. Alban's Ladies College in Prince Albert, where she won a \$200 entrance scholarship to the University of Saskatchewan.

While pursuing a BA degree with Honours in English and French, McKay took an active role in student life at the university. She was staff artist of *The Sheaf*, the student newspaper, during her first year (also *The Sheaf*'s first year). In later years she served as a member of the Students Representative Council's executive committee; vice-president of *Pente Kai Deka*, the University's sorority; secretary of the campus YWCA; and corresponding

secretary of the Literary Society. In the winter months she was a figure skater, and she played ice hockey in her student days and well into the 1920s for University teams, which in those days accepted alumni players. In an account of a victory of the women's hockey team over that of the University of Alberta in 1920, *The Sheaf* reported that "Miss McKay" had scored a goal on "one of the nicest and neatest shots seen this season." Some years, after exams, she did substitute teaching in country schools.

In the flu epidemic of 1918 she worked as a volunteer nurse (her name is painted on the stairwell in the Peter MacKinnon Building) and was chosen to unveil the plaque commemorating the undergraduate students who died in the epidemic.

When she graduated in 1915 McKay was hired as assistant librarian of the University Library,

where she worked until her retirement in 1959.

In 1917, the University of Saskatchewan Graduates' Association (now the U of S Alumni Association) was founded. Nan was elected its first secretary-treasurer.

In the early days of the Library, McKay carried out the first cataloguing of the collection. Of her career it was said, "... for many years she was almost the whole Library. At one time or another, every job in the Library was hers, and she did them all well."

Nan McKay died in 1986, at the age of 93.

In 2007 she was named one of the University of Saskatchewan's "100 Alumni of Influence"

a member of the University of Saskatchewan Alumni Association.

Congratulations and welcome to our alumni family—143,000 strong and growing.

Heather Morrison (BFA'08)

is an Alumni Achievement Award recipient in 2014, for her contribution to theatre and the arts and her volunteerism. She is artistic producer for Sum Theatre in Saskatoon, producing free live performances in local parks through its Theatre in the Park program. She has received Saskatoon and Area Theatre Awards as both an actress and producer, and serves on the board for the Broadway Theatre in Saskatoon and Nuit Blanche, a nighttime arts and culture festival.

Scott Banda (BA'86, LLB'90)

is the CEO of Federated Co-operatives Limited (FCL)—Saskatchewan's largest company and the largest non-financial co-operative in Canada. He is a champion of FCL's partnership with the U of S in the development of the Co-operative Innovations Project, an initiative that researches and implements new ways of supporting co-operative community development in First Nation, Métis and rural municipalities across Western Canada. He is a College of Arts and Science Alumni of Influence for 2015.

John Desjarlais Jr. (BE'11), the 2015 recipient of the USSU Young Alumni Excellence Award, is a professional engineer with Cameco Corp. He is actively involved in the Association of Professional Engineers and Geoscientists of Saskatchewan as chair of the Aboriginal sub-committee and spearheaded the creation of the Aboriginal Engineering and Science Association of Saskatchewan. As an engineering student, he was president of the Indigenous Student Council.

Bob Xiaoping Xu (MA'92) is a College of Arts and Science Alumni of Influence for 2015. He is a philanthropist, mentor, business innovator and one of China's most prominent angel investors. He is co-founder of the New Oriental Education & Technology group, the largest provider of private education in China. He established the ZhenFund that has invested in more than 150 start-ups. In 2004, Forbes magazine listed him as one of China's Top 100 Celebrities.

Piya Chattopadhyay (BA'95) is an award-winning broadcast journalist. She has travelled the world covering national and international stories in countries including Sri Lanka, India and Afghanistan. She was the Middle East correspondent for Fox News Radio. Since 2009, she has been a host for CBC Radio, hosting a variety of programs including The Current, Q and The World at Six. She is a College of Arts and Science Alumni of Influence for 2015.

Craig Reynolds (BComm'98, MPAcc'99) is the president and CEO of the Saskatchewan Roughriders. As senior vice-president and chief financial officer, he was a member of the 2013 Grey Cup executive committee and played a lead role in the Grey Cup Legacy Project resulting in the expansion of the current Mosaic Stadium. He has led the team's involvement in the new Mosaic Stadium and developed the capital campaign to support the organization's financial commitment to the new stadium.

V. MOHAN MALHOTRA

Dr. V. Mohan Malhotra is well known for his outstanding contributions in the vast field of concrete technology, especially in the area of non-destructive testing, the use of superplasticizers, supplementary cementing materials, and more recently in the field of high-performance concrete with high-volume fly ash and blast-furnace slag. His work has contributed to the use of industrial waste in the concrete industry.

These contributions are of global interest because of their economic, energy, and

sustainability implications. In addition to authoring more than 100 papers published in refereed journals of the ACI, ASTM, RILEM, and CSCE, he has published, as an author or co-author, six books on concrete technology, superplasticizers and supplementary cementing materials. He has also organized and chaired more than 60 international conferences.

Dr. Malhotra is honorary member, American Concrete Institute, USA; honorary member, Concrete Society, UK; honorary member, Brazilian Concrete Institute; honorary fellow, Institute of Concrete Technology, UK; fellow, Engineering Institute of Canada, and fellow, Canadian Society for Civil Engineering.

Dr. Malhotra's professional record is also impressive. He graduated in Sciences from Delhi University, India, in 1951; in Civil Engineering from the University of Western Australia, Perth, Australia, in 1957; received the Doctor of Law (Honorary) from the University of Dundee, Scotland, in 1984, and the Doctor of Engineering (Honorary) from the University of Nuevo Leon, México, in 1998.

In 1962 he joined CANMET Department of Natural Resources in Ottawa, where he pursued his career, and earned the title of Scientist Emeritus in 1999. In 1993, Dr. Malhotra received the Government of Canada Commemoration Medal for the 125th Anniversary of the Confederation of Canada.

In recognition of his contributions, Dr. Malhotra has received numerous awards from the most respected institutions in the concrete field. The American Concrete Institute (The world's leading association in the area of cement and concrete) issued the following proclamation in November 2012.

"We recognize V. Mohan Malhotra for his contributions not only to the institute, but to worldwide concrete community through his tireless efforts to expand ACI's international reach and influence, his efforts with chapters throughout the world, and his efforts in the many International Conferences which he has organized; And we are proud to consider V. Mohan Malhotra as an ACI's Ambassador to the World".

DEBORAH CHATSI

Ms. Deborah Chatsis is a proud graduate of the University of Saskatchewan (LLB, 1986; BSc [Mechanical Engineering], 1983). Ms. Chatsis also has an LLM (International Law) from the University of Ottawa (1998) and a Masters of Public Administration from Harvard University

(2007). Ms. Chatsis has had a long and varied career in Ottawa and abroad as a member of Canada's Foreign Service.

Ms. Chatsis is originally from Prince Albert, Saskatchewan, where she graduated from St. Mary's High School. After graduating from the University of Saskatchewan, Ms. Chatsis moved to Trois Rivières, Québec, to study French and then to Ottawa to work as a law clerk with the Appeal Division of the Federal Court of Canada.

Ms. Chatsis joined the Department of External Affairs and International Trade (now the Department of Foreign Affairs, Trade and Development Canada) in 1989. Since that time, she has served in Beijing, Bogotá, Miami, Geneva, New York City and Hanoi. She served as Canada's Ambassador to the Socialist Republic of Vietnam from September 2010

to August 2013. At Headquarters she has served with the Legal Operations and Human Rights divisions, as executive assistant to the Deputy Minister of Foreign Affairs and, most recently, the Executive Director for South Asia Relations. Ms. Chatsis also served on secondment to Indian Affairs and Northern Affairs Canada as senior adviser, Truth and Reconciliation Commission of Canada, and the Privy Council Office as senior adviser, Social Policy Development Secretariat.

Ms. Chatsis received a Fulbright scholarship to attend Harvard University in 2006-2007. She also received an award from the Treasury Board and the Professional Association for Foreign Service Officers for her work on the Ottawa Landmines Treaty in 1998.

Ms. Chatsis is a member of the Ahtahkakoop First Nation.

W. BRETT WILSON

With a penchant for investing in people rather than projects, W. Brett Wilson is proof that it's possible to succeed in business without losing your principles. His stories about success, mistakes and finding balance leave his audiences inspired to achieve even the loftiest of personal goals.

Brett obtained a Bachelor of Science in Civil Engineering from the University of Saskatchewan and a Masters of Business

Administration degree from the University of Calgary. Brett was a co-founder of FirstEnergy Capital Corp. (Canada's leading energy focused investment bank) and has developed extensive holdings in real estate, agriculture, sports and entertainment. A popular television personality, he spent three years on CBC's hit reality TV show, *Dragons' Den*, where he established himself as the all-time lead deal-making "dragon."

A noted philanthropist, Brett has sought to inspire, engage and lead the business community and those with wealth into seeing corporate social responsibility as an opportunity rather than an obligation. To this end, he has organized dozens of events and raised/donated tens of millions of dollars for a wide range of charitable organizations. Brett is also the founder of the W. Brett Wilson Centre for Entrepreneurial Excellence at the University of Saskatchewan and the Wilson Centre for Domestic Abuse Studies at the Calgary Counselling Centre.

Brett has received wide recognition for his business and philanthropic leadership. He has been recognized as "Alberta Business Person of the Year," as "Calgary's Person of the Year," and as a "Nation Builder" by The Canadian Youth Business Foundation.

In 2010, Brett received an Honorary Doctorate of Laws from Royal Roads University. In 2011, he was awarded the Order of Canada and subsequently received the Saskatchewan Order of Merit in 2012.

Brett's best-selling semi-autobiography, *Redefining Success: Still Making Mistakes*, was published in November 2012 and still occasionally makes the Best Seller list in Canada.

Brett thoroughly enjoys speaking to a live audience, spreading his message about work/life balance, making mistakes and his three essences of empowerment—studying marketing, entrepreneurship and philanthropy.

SARA WILLIAMS

Born in Washington, D.C., Sara Williams received a Bachelor of Arts in English and History from the University of Michigan in 1963. From 1963 to 1965 she worked as a Peace Corps volunteer teacher in Tanzania, East Africa. The graciousness and welcome of the Tanzanian people found a way to her heart and she has continued her connection with Tanzania over the intervening years.

Moving to Canada in 1971, she earned a Bachelor of Science in Agriculture from the University of Saskatchewan in 1987, graduating with Great Distinction and

receiving the Western Canadian Society for Horticulture Gold Medal. Ms. Williams was appointed Horticulture Extension Specialist in 1989, earning a Master of Science degree in Agricultural Extension in 1997.

As Extension Specialist, she initiated programs supporting both home gardeners and the horticulture industry. She delivered courses in person and online, wrote hundreds of articles, did radio and television programs, and gave presentations to agricultural and horticultural societies throughout the prairies. In the 1990s she developed horticulture therapy programs for people with Alzheimer's disease and mental illness.

She was the initiator and founding editor of *The Saskatchewan Gardener* magazine, later *The Gardener for the Prairies*, reflecting its larger geographic range and broader readership.

Ms. Williams is the author and co-author of numerous books: *Groundcovers and Vines for the Prairies*, *Best Trees and Shrubs for the Prairies*, *Gardening Naturally*, and *In A Cold Land*. Her most recent book is the *Saskatoon Forestry Farm Park & Zoo, A Photographic History*. Her award-winning and recently revised

and expanded *Creating the Prairie Xeriscape* points to the need for water conservation, drought-tolerant plants, and amended soils, all practices she employs on her acreage near Saskatoon.

Following her retirement from the University of Saskatchewan in 2001, she has continued to write books and conduct workshops. As a founding and continuing member of the Saskatchewan Perennial Society, she helped establish two gardens at the Forestry Farm Park and Zoo in Saskatoon. For more than 20 years, she has led international garden-focused tours. In 2013, she was inducted into the Saskatchewan Agricultural Hall of Fame.

In the last decade, through the Canadian Harambee Education Society, Ms. Williams has been instrumental in raising funds for a hostel (and garden) for 80 girls attending secondary school on CHES sponsorships in Katesh, Tanzania. These students are mostly from impoverished families in remote villages. The hostel provides a safe and supportive environment for their years of study and has become a model for other communities in Tanzania.

BRUCE ROBERT SCHNELL

Bruce Robert Schnell was born in Maymont, Saskatchewan in 1937. A 1960 University of Saskatchewan pharmacy graduate, he later earned a MBA degree from the University of Toronto and a PhD from the University of Wisconsin. He joined the faculty of the College of Pharmacy in 1966, became dean in 1976, and vice-president (academic) of the University in 1982. He was responsible for the establishment of the Master Teacher Award program and was intimately involved in the academic reorganization resulting in the

creation of the current College of Pharmacy and Nutrition. Named professor emeritus in 1994, he subsequently served as the first executive director of The Canadian Council for Accreditation of Pharmacy Programs and developed the first accreditation standards for academic pharmacy in Canada. He is a Fellow of the Canadian Society of Hospital Pharmacists.

Dr. Schnell directed two national research projects that significantly influenced hospital pharmacy standards and practice in Canada and abroad—the Study of the Unit-Dose System of Drug Distribution in Canada and the Development of a Canadian Hospital Pharmacy Workload Measurement System. He was a member of the Medical Research Council of Canada, associate editor of the *Canadian Journal of Hospital Pharmacy* and, for 28 years, chaired the editorial advisory panel of the *Canadian Compendium of Pharmaceuticals and Specialties* (CPS), the primary source of pharmaceutical product information for health professionals in Canada. He was chair of the Formulary Committee of the Saskatchewan Prescription Drug Plan for 17 years. Last year,

he authored *Pharmacy: An Art, a Science, a Profession—Reflections on 100 Years of Pharmacy Education in Saskatchewan*.

He was president of the Pharmacy Examining Board of Canada, the Association of Deans of Pharmacy of Canada, and the Canadian Foundation for Pharmacy. He has served on the boards of the Saskatoon United Way, Wanuskewin Heritage Park, St. Paul's Hospital, St. Andrew's College, McClure United Church and McClure Place Association. He is past-president of the Rotary Club of Saskatoon and a member of the Probus Club of Saskatoon Bridges.

Dr. Schnell and his wife, June, reside in Saskatoon. They have two children, both graduates of the University of Saskatchewan, and three grandsons. Thirty-one members of Dr. Schnell's family have attended the University of Saskatchewan, over the past 100 years, receiving a total of 34 degrees, including two honorary degrees awarded to his parents, Leonard Schnell and Nellie Schnell, by St. Andrew's College.

CARL ZYLAK

Dr. Carl Zylak was born in Saskatchewan, obtaining his BA and MD degrees from the University of Saskatchewan. He interned at McLaren General Hospital in Flint, Michigan, completing his Diagnostic Radiology program at Henry Ford Hospital in Detroit, followed by a fellowship year at the University of Manitoba, Department of Pulmonary Medicine and Pathology.

Following 10 years at the University of Manitoba, the Winnipeg General Hospital and Health Sciences Centre, Dr. Zylak accepted the position of professor and chair, Department of

Radiology at McMaster University, Hamilton, Ontario. He served the requisite two five-year terms.

During a one-year sabbatical, he completed the coursework in a master's program at McMaster University in Clinical Epidemiology and Biostatistics.

He was the founding director of the Ontario Breast Screening Program, a position he held for three years. In 1993, he accepted the position of chair, Department of Radiology, Henry Ford Hospital in Detroit. Dr. Zylak was a clinical professor in the Department of Radiology at the University of Michigan and a tenured professor in radiology at Case Western Reserve University School of Medicine, Cleveland, Ohio. He became chair emeritus in 1997. He subsequently served as a clinical professor at the University of Arizona, Health Sciences Center, Tucson, Arizona.

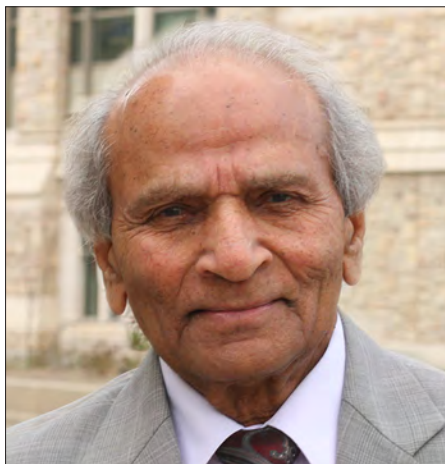

Dr. Zylak is a member of many professional organizations. He is past president of the Society of Thoracic Radiology, the Canadian Association of Radiologists and the Radiological Society of North America (RSNA), the world's

largest radiology society. He is an honorary member of the Toronto Radiological Society (1982), the Polish Medical Society of Radiology (1995), the Pacific Northwest Radiological Society (1996), and the European Congress of Radiology and European Association of Radiology (2004). Dr. Zylak has served as an examiner for the Royal College of Physicians and Surgeons of Canada and the American Board of Radiology. He was awarded Gold Medals by the RSNA in 1998, and the Canadian Association of Radiologists in October 2003, the Society's highest honour.

Dr. Zylak has been a visiting professor at more than 30 national and international institutions and a faculty member at several international courses. He has more than 200 published articles, book chapters, scientific presentations and lectures to his credit. He was a co-investigator in the NCI-funded National Lung Screening Trial and remains as a member of the executive committee.

Dr. Zylak and his wife, Edith Ann, celebrated their 50th wedding anniversary this year. They have four children, Carl, Christopher, Andrew, Karen, and 10 grandchildren.

KAILASH PRASAD

Dr. Kailash Prasad received his BSc (Distinction) from Patna University, MBBS (Honours) from Bihar University, MD from Delhi University, India, and his PhD from the University of Alberta. He is a fellow of the Royal College of Physicians of Canada, American College of Cardiology, International College of Angiology, and International Academy of Cardiovascular Sciences.

Much of Dr. Prasad's research has been related to oxidative stress. He showed that reactive oxygen species play a role in the pathophysiology of heart failure,

atherosclerosis, hemorrhagic and endotoxic shock, diabetes, and cardiac insult during cardiopulmonary bypass surgery. He elucidated the antioxidant activity of flaxseed and its components and their usefulness in the prevention and treatment of hypercholesterolemia, atherosclerosis, hypertension, and diabetes, for which he obtained US Food and Drug Administration approval for Beneflex, a dietary supplement.

His studies have ranged from recording single cell electrical activity in the human heart to being involved in the development of the PISA machine for early diagnosis of ischemic heart disease. He discovered that soluble receptor for advanced glycation endproducts is a diagnostic tool for acute coronary syndrome and predictor for restenosis in the coronary artery following stent implantation.

Dr. Prasad holds eight US and Canadian patents and one copyright for his discoveries. He has published 239 refereed papers, 35 invited reviews and book chapters, and presented 124 invited lectures. He has been a member and fellow of 18 medical and scientific societies and a member of the editorial board of 7 scientific journals. He is the

co-editor for a textbook of Angiology.

As a mentor, Dr. Prasad has supervised 29 MSc/PhD students, 13 postdoctoral fellows and three visiting scientists, has been the external examiner for 18 PhD thesis defenses, and was reviewer of numerous manuscripts and faculty promotions, both nationally and internationally. Medical students awarded him the Pre-clinical Teacher of the Year Award twice.

He was president of the International College of Angiology (ICA), and currently is a member of the board of directors and chair of the scientific committee of ICA.

Dr. Prasad has received 39 honours and awards including, the Lifetime Research Achievement Award from the University of Manitoba, the Centennial Medal from the Government Saskatchewan, the Innovation Award from the University of Saskatchewan and Innovation Place, and the Research Achievement Award and Distinguished Service Award from the International College of Angiology. The International College of Angiology has also established the Professor Kailash Prasad Oration Lecture.

JAY WILSON

Jay Ryan Wilson's recognition as a University of Saskatchewan Master Teacher is the story of a "becoming"—an educator with impressive natural teaching talents who is leveraging those talents to make himself into something even more. It isn't a narrow skill set that makes Dr. Wilson a great teacher. What makes him truly exceptional is that he has the heart of a teacher. He could not behave any differently if he tried. His teaching, research, service, and personal identities intertwine into a Möbius

strip, making him a singularly accomplished teacher and scholar.

Students jockey to get into his classes; the registration grapevine is alive every semester with students trying to figure out which sections marked TBA will eventually be taught by Dr. Wilson. We sometimes joke that many of our students have double majors—in English (or Science, or Social Studies, or Math) and in Wilson.

Dr. Wilson is a tireless leader on campus and off, and currently is the head of curriculum studies, chair of the teaching, learning, and academic resources committee of council, and a teaching fellow in the Gwenna Moss Centre for Teaching Effectiveness. Everything he touches is innovative because innovation is in his nature. He regularly invents fresh ways to do things. He is fearless in carrying them out, whether it means moving a class and a vanload of technology to the Kenderdine Campus on Emma Lake, or appearing in a tuxedo at the Neatby-Timlin Theatre for a public premiere of his students' video projects.

Dr. Wilson is also a teacher-scholar. He has developed a nationally recognized program of research in "authentic learning." His teaching and innovation were recognized at the U of S with the Provost's Award for the Outstanding New Teacher in 2010, and nationally and internationally as an Apple Distinguished Educator in 2011, and the Desire 2 Learn Innovation Award from the Society for Teaching and Learning in Higher Education in 2012—one of only five such awards given annually in Canada.

Dr. Wilson's investment in his students and university sets a lofty standard we all hope to achieve but seldom do. Students describe him as inspiring and transformational—a teacher who will influence them for a lifetime. Colleagues describe him as a powerful leader and innovator—one who has already had a remarkable influence on teaching and learning, and promises to continue to burnish the reputation of teaching and learning on our campus.

RAE BOURNER

Even after almost 40 years as an employee of the University of Saskatchewan, Rae Bournier's commitment to the institution, and the students it serves, has never wavered.

Ms. Bournier joined the university in 1976 as a secretary in the College of Dentistry where she soon assumed responsibility for admissions and dental education. In 1989, she transferred to the College of Medicine with initial responsibility for interdepartmental courses. She added

postgraduate medical education to her list of duties in 1990 and nine years later, took on the role of manager of the undergraduate medical education program.

Throughout her career, Ms. Bournier has displayed remarkable skill, tenacity and good humour that have not gone unnoticed by her supervisors, colleagues and the students in both colleges. Her effective management of programs and issues requires fearless advocacy and clear expectations, and both of these traits have earned her recognition locally and nationally where she participates in undergraduate medical education committees. Ms. Bournier holds the kind of institutional knowledge that makes her incredibly valuable to both the college and the university.

But it is her care and concern for students that generates the most admiration. By the most conservative estimate, Ms. Bournier has been involved in the lives of more than 2,500 students and residents. She is described as the glue that holds the college together but more

often as a true "mom" to all. As one nominator put it, Ms. Bournier has "encouraged, cajoled, pushed, nagged, dragged, coaxed and carried countless learners through demanding programs and out into successful careers. Some have initially found her rather intimidating—she has high expectations of them, after all—but they come to appreciate both the tough love and the big heart behind it."

Her goal is to instill in students the importance of behaving in a professional manner both inside and outside of medical school but she is also empathetic, willing to lend an ear to help students with personal problems, or simply provide a shoulder to cry on when it all gets to be too much. As a student nominator put it, "she always has a jar of candies and a spare minute to talk to any student at any time of day."

As Rae Bournier approaches retirement, the President's Service Award is fitting recognition of an exemplary career in the service of students at the University of Saskatchewan.

ADAM BAXTER-JONES

The Distinguished Researcher Award recognizes a faculty member's contributions to scholarship through the creation, expansion and critique of knowledge. Adam Baxter-Jones, professor in the College of Kinesiology and interim dean for the College of Graduate Studies and Research, is the 2015 recipient.

One of the world's foremost experts in the discipline of pediatric exercise science, Dr. Baxter-Jones is renowned for his international collaborations and seminal approaches to longitudinal research of children's growth

and development. His many studies and leadership in this area have significantly altered how the medical and other health professional communities view the role that exercise has on childhood growth and maturation.

After coming to the University of Saskatchewan in 2000, Dr. Baxter-Jones was tasked with directing two of the world's longest-running longitudinal studies investigating the role of exercise on childhood development—one of which began in the 1960s, and another that was initiated in 1991. These studies, and a longitudinal study of exposure to gymnastics initiated in 2002, continue to run today due to Dr. Baxter-Jones's leadership and consistent ability to attract tri-council research funding. These studies have accumulated some of the international research community's most valuable longitudinal datasets. He has also advanced knowledge surrounding the role physical activity has on bone development, which has proven critical in shifting medical views of osteoporosis from a disease of old age to one with pediatric antecedents.

Dr. Baxter-Jones has tirelessly contributed

to numerous professional and scholarly organizations, including a term as president of the North American Society for Pediatric Exercise Medicine (2010-2012) and as a member and chair of CIHR's "Social and Development Aspects of Children's and Youth Health Committee" (2007 to 2015). He also spearheaded efforts to establish the Saskatchewan Bone Imaging Group, funded by the Saskatchewan Health Research Foundation (SHRF). This highly-successful group, known worldwide, looks at leading edge research questions related to the development, maintenance and possible restoration of musculoskeletal health. It has attracted nearly \$2 million in operating funds and an additional \$1.5 million in team and training grants since 2011.

Dr. Baxter-Jones is also a strong advocate for use of synchrotron imaging technology to advance new areas of bone imaging at the Canadian Light Source (CLS), and has served as a member of the BioMedical Imaging and Therapy (BMIT) team since 2009. In 2012, Dr. Baxter-Jones received the SHRF Achievement Award—the highest honour for lifetime achievement bestowed by this provincial funding body.

GOLD MEDALS

SPIKE DONOVAN LINDSAY POSTNIKOFF

Dr. Spike Postnikoff, born and raised in Saskatoon, SK, received his BSc Honours (Spring 2007) and PhD (Fall 2014) from the University of Saskatchewan in Anatomy and Cell Biology. He became interested in evolution and the genetics of aging during high school, and has since volunteered, worked and studied in genetics, paleontology, molecular and cell biology laboratories. Spike's PhD thesis, "The Forkhead Box Transcription Factors, FKH1 and FKH2, along with the Anaphase-Promoting Complex Regulate *Saccharomyces cerevisiae* Lifespan,"

focuses on characterizing the role of genetic regulators involved in cellular responses to environmental changes, such as nutrients and stressors, on the lifespan of baking/brewing yeast. These genetic factors are evolutionarily conserved from yeast to mammals, with the insights he discovered potentially being relevant to human aging, diabetes, neurodegeneration, and cancer.

In addition to academics, Spike is involved in university activities and the dissemination of scientific knowledge. During his PhD, Spike

served for three years on the Graduate Student Association as a councillor for the College of Medicine Graduate Student Society. For the past eleven years, he has been involved in the instruction of cell biology, genetics, math, chemistry and geology through working at a Kumon Learning Centre, as a private tutor, and as a teaching assistant at the U of S. During this time, he also volunteered to teach children biology with the Canadian and International Biology Olympiad and genetics/molecular biology through SABIC and Sanofi Aventis Biotechnology outreach programs.

BRETT JEFFREY TROST

Brett Trost was born and raised in Saskatoon, Saskatchewan. He attended high school at Marion M. Graham Collegiate and received the Governor General's Bronze Medal for academic excellence. Brett obtained a BSc in Bioinformatics from the University of Saskatchewan and was the most outstanding graduate in his program. He then completed his MSc in Computer Science at the University of Saskatchewan under the supervision of Dr. Anthony Kusalik, for which he was awarded the Harry Toop Memorial Prize in Scientific Writing and a MSc thesis award.

Brett's PhD studies, also supervised by Dr. Kusalik, involved the development of computational methods for designing and analyzing data from kinome microarrays, a technology used to study how plant and animal cells communicate. These methods have played a critical role in the application of kinome microarrays to the study of numerous diseases, including Ebola infection, breast cancer, and cystic fibrosis, as well as to several problems of agricultural significance, including colony collapse disorder in honeybees and bacterial infections in cattle.

Brett has received more than two dozen scholarships, prizes, and awards, including the prestigious Vanier Canada Graduate Scholarship, and has co-authored more than 25 peer-reviewed publications. He has a passion for science education, and has played an integral role in the organization and success of the Saskatoon Regional Science Fair for several years. Brett is currently a research associate at the University of Saskatchewan and the Vaccine and Infectious Disease Organization.

SILVER MEDALS

JORDAN ALISSA RYCROFT

Jordan Rycroft is the recipient of the 2015 Governor General's Silver Medal. Ms. Rycroft is graduating today with a Bachelor of Science Four Year degree with Great Distinction in Anatomy and Cell Biology.

Jordan is originally from Sexsmith, Alberta and transferred to the University of Saskatchewan in 2011 after completing a year of studies at Grande Prairie Regional College the previous year.

Jordan received a number of financial awards for her scholastic achievements throughout her post-secondary studies and was named on the 2012-2013 and 2013-2014 College of Arts and Science Dean's List. She also took part in a supervised research project where she studied the effects of FGFR inhibitors on chick embryo cartilage development.

Throughout her studies, Jordan was involved in a variety of roles both in Saskatoon and

her hometown. She volunteered at the Queen Elizabeth II Hospital in Grande Prairie, worked at SWITCH: the student run health clinic, and organized various community events. Jordan is also an avid traveler, volleyball coach and player, and health and fitness enthusiast.

In the fall, Jordan will be furthering her passion for health sciences in a medical program.

WHITNEY-LYNN CORRI SPARROW

Whitney is the recipient of the 2015 Governor General's Silver Medal. She is graduating today with a Bachelor of Science Kinesiology degree in Exercise and Sport Studies with Great Distinction.

Whitney was born and raised in Saskatoon, Saskatchewan. She graduated from Christian Centre Academy in 2009. She is active doing things she loves: wakeboarding, participating in volleyball, and playing the piano. Whitney also makes pallet furniture and hopes to

learn how to play the guitar one day.

She has won countless awards during her studies at the University of Saskatchewan. Whitney was a top winner at every Kinesiology Awards Ceremony and received the University of Saskatchewan Scholarship and Kinesiology Undergraduate Award in each of her four years in Kinesiology. She was also the recipient of the Centennial Fund and the John Spencer Middleton and Jack Spencer Gordon Middleton Undergraduate Scholarships.

Whitney will enter the College of Dentistry in August 2015.

Upon completion of her Dentistry degree, she would like to do mission work. In Whitney's first year of university she went to Indonesia where she was struck by the great need for medical and dental care. Whitney hopes to take the skills from her university career, both in Kinesiology and Dentistry, and use them in less fortunate places to benefit those in need.

Akintunde Jolade Aboaba
Nigeria
Mechanical Engineering

MASTER OF ENGINEERING

Muhammad Rizwan Ullah Ansari
Pakistan

Mechanical Engineering - Project: Surface Modification to Enhance Bioactivity of PEEK Material for Orthopedic Implants - A Review
Supervisor: Qiaogin Yang

Omotayo Taibat Banuso
Nigeria

Mechanical Engineering - Project: Diamond and Diamond Like Carbon (DLC) films for Practical Applications - A Review
Supervisor: Qiaogin Yang

Saibin Dai
Saskatoon

Civil Engineering - Project: Numerical Modeling of Brine Migration from Disposal Wells in the Basal Aquifer System in Saskatchewan
Supervisor: Christopher Hawkes

Blaise Ikenna Ekechukwu
Nigeria

Chemical Engineering - Project: Impact and Treatment of Wastewater from Hydraulic Fracturing in Oil and Gas Industry
Supervisor: Jaafar Soltan Mohammadzadeh

Adam Robert Hammerlindl
Saskatoon

Civil Engineering - Project: Laboratory Study on the Performance of In-place Inclinator
Supervisor: Jitendrapal Sharma

Yemisi Iyilade
Nigeria

Civil Engineering - Project: Waste Activated Sludge Thickening With Polymer, Case Study - Saskatoon Wastewater Treatment Plant
Supervisor: Jian Peng

AGRICULTURE AND BIORESOURCES and ENGINEERING

Degrees, Diplomas and Certificates

Mengna Lu

People's Republic of China

Environmental Engineering - Project:

Development of Methodology for In-Situ Vapour Sampling for Stable Isotopes of Water

Supervisor: Jian Peng

Shariq Ahmed Sami

Pakistan

Electrical Engineering - Project: Oil and Gas Leakage Detection Using RFID Technology

Supervisor: Seok-Bum Ko

Fahad Shah

Pakistan

Biomedical Engineering - Project:

Colonoscopy System to Avoid Loop Formation

Supervisor: Chris Zhang

Jeffrey James Stone

Saskatoon

Civil Engineering - Project:

Temperature Effects on the Calibration of Thermal Conductivity Matrix Suction Sensors

Co-Supervisor: Sidney Barbour

Co-Supervisor: Delwyn Fredlund

Boqian Wan

People's Republic of China

Mechanical Engineering - Project:

Chemical Vapor Deposition of Diamond Coatings on Cu-W Alloys

Supervisor: Qiaoqin Yang

Wenhao Yue

People's Republic of China

Electrical Engineering - Project:

Impact of Parallel Schemes of Passive Phase-Imbalance Series Capacitive Compensation on the Damping of Power System Low-Frequency Oscillations

Supervisor: Sherif Faried

Menglin Zhang

Saskatoon

Electrical Engineering - Project:

Mitigation of Subsynchronous Resonance Using a Large Photovoltaic Power Plant

Supervisor: Sherif Faried

Minghao Zhang

People's Republic of China

Electrical Engineering - Project:

Mitigation of Subsynchronous Resonance Using an Offshore Wind Farm

Supervisor: Safa Kasap

MASTER OF SCIENCE

Ganiu Abdul Rahman

Ghana

Civil Engineering - Thesis: Shredded Tires As An Urban Local Road Drainage Layer Material

Supervisor: Curtis Berthelot

Md. Shahabul Alam

Bangladesh

Civil Engineering - Thesis: Construction of the Intensity-Duration-Frequency (IDF) Curves in the City of Saskatoon Under Climate Changes

Supervisor: Amin Elshorbagy

Michael Jason Amos

Saskatoon

Civil Engineering - Thesis: Development of a Time Domain Reflectometry Sensor for Cone Penetration Testing

Co-Supervisor: Sidney Barbour

Co-Supervisor: Bingcheng Si

Fangzhou Dong

People's Republic of China

Chemical Engineering - Thesis: Anoxic Biodegradation of Naphthenic Acid Using Nitrite as an Electron Acceptor

Supervisor: Mehdi Nemati

Ebenezer Essilfie

Ghana

Mechanical Engineering - Thesis:

Modification of Amine Collector for Low Temperature Flotation of Potash

Co-Supervisor: Ajay Dalai

Co-Supervisor: Jerzy Szpunar

Sijing Feng

People's Republic of China

Chemical Engineering - Thesis:

Dissolved Carbon Dioxide Driven Repeated Batch Fermentation

Supervisor: Yen-Han Lin

Andre Denis Fontaine

Saskatoon

Electrical Engineering - Thesis:

Digital Implementation of an Upstream DOCSIS QAM Modulator and Channel Emulator

Co-Supervisor: Joseph Salt

Co-Supervisor: Ha Nguyen

Jasyn Alexander Henry

Lumsden

Civil Engineering - Thesis: A Novel Framework for the Analysis of Low Factor of Safety Slopes in the Highly Plastic Clays of the Canadian Prairies

Supervisor: Jitendrapal Sharma

Mohammad Shabbir Hossain

Bangladesh

Mechanical Engineering - Thesis:

Development of Semi-Empirical Models to Measure Mass Flow Rate of Solids in an Air Seeder

Co-Supervisor: David Sumner

Co-Supervisor: Scott Noble

Houman Kamali

Saskatoon

Mechanical Engineering - Thesis: Extension of the Effectiveness-NTU Model to Liquid-to-Air Membrane Energy Exchangers (LAMEEs)

Co-Supervisor: Carey Simonson

Co-Supervisor: Robert Besant

Mohamadmahdi Kowsari

Iran

Chemical Engineering - Thesis: Application of Adsorption for Removal of Emerging Pollutants From Drinking Water

Supervisor: Jaafar Soltan Mohammadzadeh

Chenglin Liu

People's Republic of China

Mechanical Engineering - Thesis:

Synchrotron-Based Imaging and Tomography of Hydrogel Scaffolds for Tissue Engineering

Co-Supervisor: James Bugg

Co-Supervisor: Xiongbiao Chen

Xun Liu

Aurora, Ontario

Electrical Engineering - Thesis:

Novel Feeding Structures on Exciting the Dielectric Resonator Antenna (DRA) with Low Permittivity by Using LIGA Fabricated Line and its Application on Series Linear DRA Array Design

Supervisor: David Klymyshyn

Ethan James McKibben

Saskatoon

Mechanical Engineering - Thesis:

Identification of Tool Breakage in a Drilling Process

Supervisor: Xiongbiao Chen

Nataliia Yaroslavivna Petryshyn

Ukraine

Electrical Engineering - Thesis: Real-Time Simulations Approach for Analyzing Voltage Instability Protection in Power Systems

Supervisor: Ramakrishna Gokaraju

Alex Repski

Saskatoon

Mechanical Engineering - Thesis: Artificial Ground Freezing Refrigeration Plant Optimization

Co-Supervisor: James Bugg

Co-Supervisor: David Torvi

Mojan Rezaei

Iran

Mechanical Engineering - Thesis:

Deformation Behavior of A535 Aluminum Alloy Under Different Strain Rate and Temperature Conditions

Supervisor: Ikechukwuka Oguocha

Jian Su

People's Republic of China

Electrical Engineering - Thesis: Distributed Estimation in Wireless Sensor Networks Under a Semi-orthogonal Multiple Access Technique

Supervisor: Ha Nguyen

Abha Verma

United States of America

Biological Engineering - Thesis:

Treatment of Phenol in Water Using Microwave - Assisted Advanced Oxidation Processes System

Co-Supervisor: Ajay Dalai

Co-Supervisor: Venkatesh Meda

Keaton Andre Wheeler

Australia

Electrical Engineering - Thesis:

Mitigation of Synchronous Machine Based Distributed Generation Influences on Fuse-Recloser Protection Systems in Radial Distribution Networks Using Superconducting Fault Current Limiters

Supervisor: Sherif Faried

Fan Zhang

People's Republic of China

Biomedical Engineering - Thesis:

On Further Modeling of Stiffness and Damping of Corrugated Cardboards for Vibration Isolation Application

Supervisor: Wen Zhang

AGRICULTURE AND BIORESOURCES and ENGINEERING

Degrees, Diplomas and Certificates

DOCTOR OF PHILOSOPHY

Hamed Akhiani

Saskatoon

Mechanical Engineering - Thesis: Zircaloy-4 and Incoloy 800H/HT Alloys for the Current and Future Nuclear Fuel Claddings

Supervisor: Jerzy Szpunar

Sandeep Badoga

India

Chemical Engineering - Thesis: Synthesis and Characterization of NiMo Supported Mesoporous Materials with EDTA and Phosphorus for Hydrotreating of Heavy Gas Oil

Co-Supervisor: Ajay Dalai

Co-Supervisor: John Adjaye

Chinmoy Baroi

Saskatoon

Chemical Engineering - Thesis:

Biodiesel Production Using Supported 12-Tungstophosphoric Acid as Solid Acid Catalysts

Supervisor: Ajay Dalai

Navid Bazghaleh

Iran

Soil Science - Thesis: Association of Chickpea with Soil Fungi: a Comparison of Cultivars

Co-Supervisor: Joan Knight

Co-Supervisor: Chantal Hamel

Martin Earl Brummell

Calgary, Alberta

Soil Science - Thesis: Greenhouse Gas Production and Consumption in Soils of the Canadian High Arctic

Supervisor: Steven Siciliano

Lin Cao

People's Republic of China

Mechanical Engineering - Thesis: On Advancing the Topology Optimization Technique to Compliant Mechanisms and Robots

Co-Supervisor: Allan Dolovich

Co-Supervisor: Wen Zhang

Bolin Chen

People's Republic of China

Biomedical Engineering - Thesis: Identifying Protein Complexes and Disease Genes from Biomolecular Networks

Supervisor: Fangxiang Wu

Aron Thomas Cory

Cold Lake, Alberta

Plant Science - Thesis: Genetic Analysis of Barley (*Hordeum vulgare* L.) Grain (1,3;1,4)- β -glucan Concentration and Fine Structure

Supervisor: Ravindra Chibbar

Maryam Einian

Edmonton, Alberta

Mechanical Engineering - Thesis: Large Eddy Simulation of Flow Around a Finite Square Cylinder

Co-Supervisor: Donald Bergstrom

Co-Supervisor: David Sumner

Maziar Eslami Samani

Maple Ridge, British Columbia

Mechanical Engineering - Thesis: Study of Coherent Structures in Turbulent Flows using Proper Orthogonal Decomposition

Supervisor: Donald Bergstrom

Amir Kaivani

Saskatoon

Electrical Engineering - Thesis: High-Speed Co-Processors Based on Redundant Number Systems

Supervisor: Seok-Bum Ko

Kung Chi Cinnati Loi

Macau

Electrical Engineering - Thesis: Hardware Implementations of Scalable and Unified Elliptic Curve Cryptosystem Processors

Supervisor: Seok-Bum Ko

Armin Moniri

Iran

Chemical Engineering - Thesis: The Experimental and Theoretical Investigation of the Hydrogen Sulfide Splitting Cycle for Hydrogen Production

Supervisor: Hui Wang

Hamid Niakan

Saskatoon

Mechanical Engineering - Thesis: Synthesis and Characterization of Diamond-like Carbon and DLC-MoS₂ Composite Thin Films

Co-Supervisor: Qiaoqin Yang

Co-Supervisor: Jerzy Szpunar

Eli Fortunato Pajuelo

Saskatoon

Electrical Engineering - Thesis: Coordination of Generator Protection and Control in the Over and Under Excited Regions

Co-Supervisor: Mohindar Sachdev

Co-Supervisor: Ramakrishna Gokaraju

Seyed Salman Razavi Tousi

Saskatoon

Mechanical Engineering - Thesis: Activation of Aluminum Particles to React with Water for the Purpose of Hydrogen Generation

Supervisor: Jerzy Szpunar

Yi Ren

People's Republic of China

Electrical Engineering - Thesis: Single-Event Effect Study on a DC/DC PWM Using Multiple Testing Methodologies

Co-Supervisor: Rajesh Karki

Co-Supervisor: Li Chen

Ehsan Sari

Saskatoon

Plant Science - Thesis: Genetics of Resistance to Ascochyta Blight in Lentil

Co-Supervisor: Albert Vandenberg

Co-Supervisor: Sabine Banniza

Shahrzad Vahedi

Iran

Biomedical Engineering - Thesis: Optical and Thermal Properties of Samarium-doped Fluorophosphate and Fluoroaluminate Glasses for High-dose, High-resolution Dosimetry Applications

Co-Supervisor: Safa Kasap

Co-Supervisor: Leroy Chapman
